Alex,GM0DHZ/AA8YH, is going to start his five week holiday in Tunisia by mid November. He will be active in CW/SSB on 160-10m from the club-station 3V8SS focussing especially on the lowbands. He is also willing to arrange skeds with QRP stations via e-mail (aa8yh@btinternet.com). QSL cards should be sent direct.

5T - MAURITANIA

A group of Japanese HAMs works in CW/SSB on 40-10m signing 5T5JA from Nouakchott until the mid of Nov. Their QSL manager is JA1BAB.

9M2 - WESTERN MALAYSIA, AS-015

Rich,PA0RRS, is travelling to Penang (AS-015) again and plans to become active as 9M2MRS between Nov 17 and Feb 6, 2009. QSLs via his homecall.

PACIFIC OCEAN

Bernhard,DL2GAC, received an e-mail from Mike,KM9D, stating following: At the moment Mike and June,KF4TUG, are anchoring and building up their stocks in Honiara the capital of the Solomon Islands. During his stay in Temotu he had almost no sunshine and much bad wx working as H40MY. June got a skin irritation but luckily she was treated by the doctor of a group of scientists from French New Caledonia which happened to stay on Vanikoro at the same time. In the Pacific region there is typhoon season now (Oct/Nov until Mar/Apr) and most of the sailors stay in the safe harbour during this time. Last weekend Mike thought about of going to Pohnpei (OC-010) including a stopover in Ontong Java (OC-192) from where he may show up as H44MY. His position can be tracked online at: http://www.winlink.org/dotnet/maps/PositionreportsDetail.aspx?=km9d

BOSNIA-HERCEGOVINA, SPECIAL EVENT STATION

The station E760DPR is activated until Dec 31, 2008, to celebrate the 60th anniversary of the Radio Club Trebinje. QSL via E73DPR.

ENGLAND, SPECIAL EVENT STATION

The largest German battleship "Tirpitz" was sunk on Nov 12, 1944. The special callsign GB617SQN activated by the "Thorpe Camp Amateur Radio Group" (http://www.thorpecamp.org.uk) till Nov 27 remembers this event. QSL via 2E0PRD, direct or via bureau.

---

Members of the "Royal Air Force Amateur Radio Society" (RAFARS) will activate the special event station GB70RAF between Nov 14 and Dec 11. They are celebrating the 70th anniversary of the RAFARS by working in CW/SSB on 80-10m. QSL via the RSGB bureau.

FRANCE, SPECIAL EVENT STATION

TM8TEG will be active in all modes on all bands from Nov 15-29 to celebrate the 200th anniversary of the department Tarn-et-Garonne.

POLAND, SPECIAL EVENT STATION

Following special event stations are activated until Nov 23 to mark the 90th anniversary of the Polish independence:
3Z1918PR, 3Z2008PR, 3Z90PR, HF1918PR, HF2008PR, HF90PR, SN1918PR, SN2008PR, SN90PR, SO1918PR, SO2008PR, SO90PR, SP1918PR, SP2008PR, SP90PR, SQ1918PR, SQ2008PR and SQ90PR. All QSOs count also for the "Polonia Restituta Award" (see http://www.sp5kcr.piwko.pl).

DXCC: Some rumours say Curacao, Sint Maarten, Saba, Sint Eustatius and Bonaire may become independent entities added to the DXCC entity list shortly after a change of their autonomy status which shall take place on Dec 15. Yet there is no official release from the ARRL DXCC Desk.

Dick, PA2DW, and Family will be on a vacation-trip through Norway.
He plan to leave 22 juli and first we will head to Sweden / Vaermland.
After a short stay there we will travel via Oslo to southwest LA.
We will then visit Stavanger / Lysefjord and move slowly upwards along the coast towards Bergen. Dick will be qrv only on 11 and 12 august from wherever he are at that moment, probably either JP21/JP31/JP30 on 144 MHz via MS. RIG will be IC7000 and 400W PA.
Ant 7 el Flexa. For 6m I have a vertical on my car. Notice this is NOT an DX-pedition at all. Just some fundays during the holiday and participation in the MMMonVHF MS-SPRINT-Contest.

VK9/W - WILLIS ISLAND, OC-007

After a very successful DXpedition to Norfolk Island in February 2007 with over 60.000 QSOs logged under VK9DNX the upcoming activation of Willis Island (OC-007) is planned for Oct 2008. The same experienced team from VK9DNX (DJ7EO, DJ9RR, DL1MGB, DL3DXX, DL5LYM, DL6FBL, DL8OH and DL8WPX as well as DJ5IW and SP5XVY) will be QRV as VK9DWX with four high power stations in CW, SSB and RTTY on 160m-10m from Oct 9 until Oct 27. They also intend to operate on 6m. A station with a CW skimmer will monitor the 6m band and will be manned if any activity occurs.
This German DXpedition introduces another innovation to amateur radio:
You get the chance to visit VK9DWX during operation!
* 4 day trip with the Rum Runner (http://www.rumrunnercairns.com.au)

- Start: Oct 15, 2008 in Cairns/Queensland, Australia
- Finish: Oct 19, 2008 in Cairns/Queensland, Australia
- Accomodation onboard the Rum Runner
- Including meals and soft drinks (alcoholic drinks on own account)
- See the VK9DWX operators live while working the pile-ups (guest operation possible)
- Flight to Cairns is NOT included
- Every guest has to ensure that he is on the Rum Runner in time as we depend on the supplies for our operation
- Costs: EUR 1000 per person

If you are interested please contact the team via the website:
http://vk9dwx.de/contactus

QSL INFO AND NEWS....................

PJ2X (2008) QSL ROUTE. George, W8UVZ, informs OPDX that he has been receiving QSL cards for the recent PJ2X 2008 IARU Contest. He is NOT the QSL Manager for this operation. Operator for this operation was Marko, N5ZO, and the QSLs are to go to OH0XX (in Panama): Olli Rissanen, Apartado 0860-00432, Villa Lucre, Panama, Republic of Panama. ADDED NOTE. George, W8UVZ, did use the callsign PJ2X in the 2003 CQ 160 Contest. Also, Charlotte, KQ1F, used the PJ2X callsign during the CQWW CW Contests in 1987 and 1988, plus it was reissued in 2004.

Look for TC17GS QSL cards/Awards to be sent direct via mail or by the bureau starting at the end of August. More details are available at:
http://www.ta0u.com/detay.asp?id=3D4268

QSLS VIA LOTW: NONE REPORTED THIS WEEK!

QSLS RECEIVED VIA MAIL: A45WD, H7/K9NW, HP8/JA6REX , JD1BMM, OY9JD, R1FJM, TX5C and VP6DX

QSLS RECEIVED VIA THE BUREAU: 3XM6JR, 4X0V, 9A8DST, AB1A, AO3K, DL40RRDXA, EA5/ON4LO, EE5KB, EX3A, F/ON6MG, HB0/PA0ABM, J79XBI, LZ26A, ON4LO, PD1DX, RA1AGL, RD3DT, RN3OA, RP62X, T70A, UA1AAE/2, UY0ZG, VO1HE, W3LL and WY3P

R15, EUROPEAN RUSSIA (Special Event). Look for special event station R15RRC to be active during the RSGB IOTA Contest (July 26-27th). Activity is to celebrate the 15th anniversary of Russian Robinson Club foundation. QSL cards will be sent to all stations in the log automatically (please, provide your logs to contest committee!) ADDED NOTE: A special award - "15 Years to RRC" - will be available to everyone who made 13 QSOs (with stations involved in the Russian Robinson Club Awards programs [please see http://www.hamradio.ru/rrc]: RRA, RLHA, RMA, RFFA (WFF), including KL7DX and other special RRC expeditions) during 2008 year + 2 (confirmed) QSOs with the R15RRC station (different modes/bands/QTHs are possible). Totally - 15 QSOs. Application form with 3 IRCs should be sent to Eugene, RZ3EC.

SMITHSONIAN STATION GOING QRT. "The Daily DX" reports: "The Smithsonian Institution's National Museum of American History Amateur Radio station NN3SI will be going QRT on July 31st. The club has been trying for several months to come up with a solution to keep this icon on the air. Annually the museum has three million visitors, many getting a first time exposure to Amateur Radio. NN3SI has been QRV for the last 32 years. Starting today through the end of the month the station will be active before finally shutting down. Starting around 1315z, activity will begin on 40 meters. Watch the following frequencies for possible activity: 3840, 7240, 14240, 21340 and 28440 kHz (+/-). They may also be on PSK." QSL info and more details are available at: http://www.qrz.com/NN3SI

TA, TURKEY. Urcun, TA0U, informs OPDX that he will be active in the

European HF Championship on August 2nd, between 1200-2359z, as a SSB/ Low Power Category. For more information, and the rules for the Championship, visit the following link: http://www.ta0u.com/detay.asp?id=3D4273

TS28, TUNISIA (Special Event). Look for TS28ASJ to be active until August 3rd. Activity is from the 28th Arab Scout Jamboree in Tunisia. Operations are expected to be on the HF bands using CW, SSB, RRTY, PSK and SSTV. QSNs show this station was very active on 20 meters this past week. QSL via the Tunisian Bureau. PLEASE NOTE: Sending green stamps or any other legal currencies via the mail to Tunisia is strictly forbidden. IRCs are preferred and acceptable.

VP9, BERMUDA. Angelio, IK2RZP, will be active as VP9/IK2RZP from August 5-24th. Activity will be mainly SSB and the digital modes on the 17/12 meters. However, he will have a multi-band vertical and will only use 100 watts. QSL via his home callsign, direct or by the bureau.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

VHF-EXPEDITIONS (specially 144 MHz MS/EME/TROPO)
http://www.mmmonvhf.de/latest.php - use FILTER Event/Activity NO!
****

Just to inform that the CQ9U/CT95S crew as departed from Funchal City in direction to Selvagens Islands - AF047 -shere they should arrive between 21 and 24.00 Local time (-1 zulu)on the 23rd of July. They will do their best to have at least one station working as soon as they can on the 24th. They will take more time than expected on the trip, because they had to change boats due to an unexpected breakdown

on the engine of the main boat. This faillure delayed their departure, but they are very happy and ansious to get into the island and start to make some qso?s. More info in www.cq9u.com

Al, WA4EWV, will activate EL79fx at anchor starting Friday afternoon and evening. We will depart Sunday morning before lunch. There will be periods of inactivity due to other boats arriving and rafting to our boat. I will be on PJ, and announce where I am ... Most likely 50.265 First. The beam is on the boat, much to XYL's displeasure! Says I look like I have a Santa Claus Trap on the bow. Al, WA4EWV, will activate EL79fx again August 7, 8, 9, 10 and 11...

Dear VHF(MS) friends,

just received info from far northern europe.
Toralf, DJ8MS, will be on 144 MHz MS at the rare Square J Q 9 0 and start with MS tomorrow at 04 UTC as LA/DJ8MS. Watch out for further details at his MMMonVHF DXBlog: http://www.mmmonvhf.de/showblog.php?ca=LA-DJ8MS
Have a good weekend!

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the VHF-DX-Portal MMMonVHF as well by a lot of free usable HF-V-U-SHF-Info-Sources and chats like ON4KST-, N0UK-, RU-VHF-DX-Net, EA-V-U-SHF-Chat and others...

*** Many thanks to all USER who send us info and news ***

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our VHF-DX-Portal MMMonVHF or if you have additional info for an expedition, PLEASE be so kind and send us this info at
http://www.mmmonvhf.de/newsuser.php or http://www.mmmonvhf.de/kontact.php

The MMMonVHF-Team is always trying to spread any expedition info as much up-to-date and reliable as possible and as long as the info does not violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy MMMonVHF!

FG - GUADELOUPE, NA-114 / FM - MARTINIQUE, NA-107

Freddy,F5IRO, and David,F8CRS, will be QRV with two radios signing TO8S from Les Saintes Island (NA-114) from Aug 4-17. They will work mainly in CW on 80-10m (also some SSB and RTTY).
After that they will show up as FM/homecall from Martinique (NA-107) working with one station "holiday style" from Aug 18-21.
QSL cards should be sent direct or via bureau to F8CRS.

KH2 - GUAM, OC-026

Hiroshi,KH2/JJ1CCE, Shima,KH2/JH3AAZ, Hiroshi,KH2/K6IAA, and Koji,KH2/JK7TKE, will be active "holiday style" as well on Aug 2/3.
QSLs direct or via bureau to their homecalls.

OD - LEBANON

Members of the national club RAL are organizing a fieldday at a height of 2000m in the Cedar mountain range in the Lebanon on Aug 2/3.
The callsign will be OD5RAZ and QSLs via K3IRV (bureau ok).

VP9 - BERMUDA ISLANDS, NA-005

Angelio,VP9/IK2RZP, will be active mostly in SSB and digital modes on 17m and 12m from Aug 5-24. He will run 100 watts into a vertical. QSLs direct or via bureau to his homecall.

9M1 - EAST MALAYSIA / WEST MALAYSIA

18 different 9M1 stations will hit the airwaves during the upcoming Asia-Pacific JOTA event on Aug 2/3. The scouts will activate their callsigns again during the World JOTA on Oct 18/19. They were spotted first on May 17/18. More details can be found at: http://jota.scouts.my While 9M1CSQ on Sarawak and 9M1CSS on Sabah will be the only stations in East Malaysia, all others will be situated in West Malaysia:
9M1CSA (Perak), 9M1CSN (Negeri Sembilan), 9M1CSB (Sungai Besar), 9M1CSP (Penang), 9M1CSC (Pahang), 9M1CSD (Kelantan), 9M1CSR (Perlis), 9M1CSF (Muar Johor), 9M1CSI (Segamat), 9M1CST (Terengganu), 9M1CSJ (Johor Bahru), 9M1CSW (Federal Territory of Kuala Lumpur), 9M1CSK (Kedah), 9M1CSY (Cyberjaya secondary school), 9M1CSM (Malacca) and 9M1CSZ (Gombak, Kuala Lumpur).
QSL cards for all stations can be sent via the QSL bureau.

FRANCE, SPECIAL EVENT STATION

The 18th World Parachuting Championships in Formation Skydiving will take place in Maubeuge-Elesmes from Aug 9-14. The special event station TM0WPC will be activated in CW/SSB/digital on 160-2m from Aug 3-17. QSL via F5KEB.

UKRAINE, SPECIAL EVENT STATION

The "UR-QRP-Club" celebrates its 10th anniversary and activates the special callsign EM10QRP during this event until Aug 14.
The QSL manager UT2AB confirms direct or via bureau.

ARCTIC - DRIFTING BASE

R35NP is history now. The evacuation of the drifting station "SP-35" takes place since Jul 14. The nuclear icebreaker "Arktika" and the scientific vessel "Michail Somov" arrived already two days earlier but due to foggy weather the evacuation could not be started before. Like reported earlier the drift began on Sep 21,2007, on an ice floe 2 km by 4 km big, but has today only the size of 300m by 600m. The station drifted with an average speed of 8,5 km per day a distance of approximately 2500 km.

DXCC: The DXCC manager Bill Moore,NC1L, reports that in the last QST some Honor Roll members were listed with a wrong DXCC count and others were not even considered. Bill is very sorry about this mistake.

QSL cards of the 5X4X DXpedition 2007 are accepted for DXCC credit now.

Excerpt from the ARRL Letter of July 25, 2008: The Board of Directors of the ARRL acted on the Programs and Services Committee report, voting to eliminate Rule 5 from Section III of the DXCC Rules which forbade to publish log data. This rule conflicted with the "Open Log Policy" of the CQ World Wide Contests when thousands of CQWW logs were published

last year. This should end the discussion about public logs.

HELP! Need 70cm skeds for Demo! This weekend is the 50th Anniversary of Statehood Hamfest here in Anchorage. I am looking for any EME stations that are willing to run skeds around 2030z on 31-July (this Friday). Moon conditions are OK, but the sun is right in there close. So stations with large antennas are desireable. The footprint at that time will be USA, Asia, Australia, etc. The hamfest committee is sponsoring a tour to bring a bus load of folks up to my place for an EME demo. Any help would be greatly appreciated!! Thanks Mike, KL6M

Rare "IO67-Square" qrv on 144 MHz during PERSEIDS-MS-Shower by GM4DHF/p: My OYL partner (Jan) and I have booked a holiday cottage on the Isle of Skye near the village of Staffin (IO67VP) for the Perseids. I shall be QRV on 2M with around 250W into 2x7ele yagi with a good take-off towards EU. Activity will be part time (early morning, early evenings) as this is primarily a family holiday. I hope for 'phone Internet access and so should be on ON4KST. I'm likely to call on 370 and announce my rx QRG when active. QSL Info and more: http://www.mmmonvhf.de/latest.php?id=1800.
Looking forward to some FB MS activity.

Phil, N0PB, EM39wo is looking to set up skeds for the up coming Perseids shower for 2 meters. Looking for in particular anyone in Oregon or Washington. The eastern edge of Oregon is about 1310 miles, Spokane,WA is 1374 miles. Very doable distance. I will most certainly run with anyone that is willing to try, at whatever distance in those 2 states. Also interested in any other skeds.

2008 APDXC. Mac, JA3USA, sends the following (edited):
"Dear Fellow DX-ers and Contesters,
You are cordially invited to the Asia Pacific DX Convention on November 7 through 9, 2008.

Please take a look at the website to see some photos and presentation videos from the first APDXC which was held in 2005. The many DX-ers from all over the world who attended enjoyed it very much.

In addition to the usual presentations of recent DX-peditions, technical sessions, etc., this convention offers something special. Since it's being held in the country from which most of the modern amateur radio equipment comes from, you'll have the opportunity to tour the Icom factory, participate in a Q&A session with Icom engineers, tour the electronics district, and more.

We would appreciate your introducing this convention to your DX/contest club members. Please see our website for more details at:
http://www.apdxc.org/

For convention updates, please visit the website and send an e-mail to subscribe to the APDXC newsletter. We look forward to welcoming you at the APDXC in Osaka, Japan....... APDXC Committee / JA3USA"

3X, GUINEA. "The Daily DX" reports that John, VE2EQL, will be active as 3XY0D from KanKan, between now and August 9th. Activity will mostly be on 20/17/15 meters, with some activity on 40 meters. He plans to be on the air around 1000-1100z and after 2300z. QSL via his home callsign.

5R, MADAGASCAR. Some reports indicate that Jean-Marc, F1HDI, will be part of a DXpedition team planning to activate Sainte Marie Island (AF-090), from September 20-25th. Activity seems to be focused on 144 MHz EME, but HF is mentioned. More details are forthcoming.

6V, SENEGAL. Laurent, F8ATM, will be active as 6V7L between August 8-22nd. Activity will be on all HF bands using SSB and RTTY. QSL via his home callsign, direct or by the bureau.

6V, SENEGAL (Special Event). The Senegalese SNRASEC ARC (6W7PCT) will activate the special callsign 6V7SPACE during the Space Week between October 4-10th. A rendezvous is scheduled on October 4th for an air meeting between a class at the Grandcour school (Switzerland, Fribourg Canton) and the Scientific Club of the College IV of Mbour (Senegal). Radio and SSTV exchanges are planned. More information is available on the SNRASEC Web page at: http://www.senrasec.org

8J, JAPAN (Special Event Stations).............
8J1A - Will be activated between August 1-24th to celebrate the 2008 Amateur Radio Festival. QSL via the JARL Bureau.

8J5IKUJU - Will be activated between August 1st and October 26th to celebrate the 32nd National Ikuju (or Cultivating Trees)

Festival. Activity will be on all bands and modes. QSL via the JARL Bureau.

8J750MCS - Will be activated between August 1st and October 31st to commemorate the 50th anniversary of the Japan Cancer Society and Miyagi(Pref.) Cancer Society. Look for activity on all bands and modes. QSL via the JARL Bureau.

8Q, MALDIVES. Andrew, G7COD, will once again be active for the fifth time from the Island of Embudu in the Kaafu Atoll, Maldives (AS-013), using the callsign 8Q7AK between 0800z, October 12th and 0800z, October 25th. Activity will be on 40-12 meters using CW and SSB. He plans to be operational every day from approximately 0730-0830z, 0900-1030z, 1300-1500z and 1730-1745z. Suggested frequencies are (+/- QRM):

SSB - 7063, 14147, 18133, 21253 and 24953 kHz
CW - 7003, 10103, 14003, 18073, 21003 and 24893 kHz

For comprehensive details of operating times, spot frequencies, QSL information, etc, please check 8Q7AK on QRZ.com. IMPORTANT NOTE FROM Andrew/G7COD (edited): "I am completely up-to-date with the return of QSLs for those received direct and/or eQSLs from previous activations. If you have not received yours, please send your QSL again. If you have not received a return QSL for cards sent via the bureau this is because of the slow process rate. I will return cards via the bureau as soon as possible, as and when I receive them from the bureau. All QSLs should be sent via the bureau or direct to G7COD. Please note: 8Q7AK is approved for DXCC credits."

9Q, DEM. REP. OF CONGO (But Moving To A6). Philippe, 9Q1TB (F5LTB), has announced this past week that after 5 years he is leaving the Democratic Republic of Congo (DRC) and is expected to move to the United Arab Emirates (A6) in September. He has already applied for an A6 licence. However, Philippe continues to be active from DRC, mainly speaking French, on 40-6 meters. He prefers 20 meters SSB (lower portion) between 0700-0800z and 15 meters (21188 kHz) between 1500-1600z using only 100 watts. He reports that he has removed his 160/80 meters antennas. QSL via SM5DJZ.

AT25, INDIA (Special Event). Jose, VU2JOS, from the National Institute of Amateur Radio (NAIR), announced the celebration of the 25th anniversary of NIAR, the premier Amateur Radio organziation in India. The following two special callsigns will be activated:

AT25MY - From NIAR in Hyderabad. Operators will be VU2MY (S.Suri), VU2MYH (S.Ram Mohan), VU2BL (Ms.M.Bhanumathy), VU2JOS (Jose Jacob), VU2YAM (Ms.S.Yamini), VU2LFA (Sushil Kumar Dhingra), VU2JMA (Ms.B.Jayamma), VU2UWZ (S.Madhu Mohan) and VU3LMS (Ms.Lissy Jose).
AT25RG - From New Delhi. Operator VU2RBI (YL Bharathi).
QSL via VU2NRO.

CARIBBEAN TOUR TO START THIS WEEK. Operators Freddy/F5IRO and David/F8CRS will be making visits to the Islands of Martinique and Guadeloupe between August 4-21st. Their schedule and stops are as follows:

August 4-17th - Active as TO8S from Les Saintes Island (NA-114); with 2 HF stations, mainly CW on 80-10 meters (some SSB and

RTTY too). During the same period, they will try to be active as FG/homecall from Guadeloupe (NA-102) for 3-4 days with one station, and FM/homecall from the Island Martinique (NA-107) for 3-4 days. It is recommend to watch the clusters!

August 18-21st - They will end their stay and be active as FM/homecall from the Martinique (NA-107) with 1 station.

Operations will be holiday style during their spare time. QSL via F8CRS, by the Bureau or direct (w/SAE+postage).

C6, BAHAMAS (IOTA/Lighthouse Op). Look for C6APR to be activated again from Crooked Island Lodge, Pittstown Point, Crooked Island (NA-113) between October 23-26th. Activity will include the 2008 CQWW SSB Contest. Before and after the contest, C6APR will be on the HF bands including 30/17/12 meters using CW and SSB. Also before and after the contest, the callsign C6AXD will be used on HF RTTY. Both calls are good for Bird Rock Lighthouse (ARLHS BAH-005, TWLHD WLHC6-002, WLOTA LH-0118, Admiralty J4792) as well as IOTA NA-113 and Grid FL22tt. All QSLs go to K3IXD.

D4, CAPE VERDE. Luca, IK2NCJ, will once again be active from the D4C Contest station on Sao Vicente (AF-086, WLOTA LH-1976, WW Loc. HK76MV), Cape Verde Islands, August 6-18th. This time he will have Girts, YL2KL, with him for the Worked All Europe CW Contest (August 9-10th) as a Multi-Single entry. Luca is also expected to be in the SARTG World Wide RTTY Contest (August 16-17th). He will be watching 6 meters while there. The 6 meter beacon runs 40 watts and the beacon will be on 50.034 MHz with a vertical antenna. QSL via IZ4DPV.

DXCC NEWS................

* Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:
  5X4X - Uganda; Current operation effective 2007
  If you had cards rejected for this operation, send an E-mail to dxcc@arrl.org to be placed on the list for an update.

* Buzz, NI5DX, reports, "I have heard from NC1L about the acceptance of YI9WV's operation for DXCC credit. I am pleased to state that Kitch's activities have been approved for DXCC credit."

* During the ARRL Board of Directors Second Meeting of 2008, held on July 18-19th in Windsor, Connecticut, the Board acted on the "Programs and Services Committee" report voting to eliminate Rule 5 from Section III of the DXCC Rules. The Committee realized that while publishing log data can have a detrimental effect on operating awards, it was not possible to control such actions and the rule cannot be enforced. As part of an effort to maintain the integrity of operating awards programs, the Board called on staff to create resources and guidelines for QSLing and for QSL managers. These guidelines will help people who QSL to understand the "best practices" and help to support the work of the QSL manager so that access to log data won't degrade Amateur Radio's long tradition of the "honor system."

* 2007 DXCC HONOR ROLL LIST (Update). Bill Moore, NC1L, ARRL Awards Branch Manager, reports: "Upon further review it was determined that the 2007 Honor Roll list that was published in August 2008 QST was produced from a corrupted report feature in the DXCC software. Because there is so much data produced from the raw list (almost 8,000 lines) it was not possible to do a complete review.

Since the report is too large for a line-by-line review, random samplings were checked and many were found to be OK. It was not until the complete report was published that we found the report had more errors than originally thought.

Publishing a simple correction in an upcoming issue of QST is not possible. Since the 2007 DXCC yearbook was just getting ready to go to the printer we placed it on hold. We will be expanding this issue even more to accommodate a complete reprint of the 2007 Honor Roll list (something many of you have suggested in previous years.) The 2007 Honor Roll list will also be published on the DXCC web site and this list will be separate from the current "live" online Honor Roll list.

We regret any inconvenience caused by this and we appreciate your patience and understanding.

Note: DXCC numbers as shown on the website are not affected by this problem. The report generator is a separate module that takes information from the DXCC database. The errors that were shown in the list were taken from a previous submission only.

We extend our congratulations to all who have achieved the DXCC Honor Roll and thank you for your support! 73 es DX!"

H40, TEMOTU PROVINCE (Rare IOTA). "The Daily DX" reports that Mike/KM9D and his girlfriend Jan/KF4TUG will once again begin sailing soon and plan to make their first stop to Temotu Province (H40). They hope to activate Vanikolo Island, a rare IOTA in the OC-163 group.

II5, ITALY. Look for special event station II5EME will be active until August 15th. Activity is to celebrate the 13th International EME Conference that will take place in Florence on August 8-10th. QSL via IW5EIJ, direct or by the bureau. Detailed information on the conference can be found at:
http://www.ari-crt.it/eme2008/

IO7, ITALY. Operators Nicola/I0SNY, Francesco/IZ7DTC, Peppe/IW7EBE and Maurizio/IZ7GWZ will be active as I0SNY/7 and IO7Y between now and August 9th from the following locations:

IO7Y - Scoglio di Porto Nuovo (IIA FG-009, Not IOTA, WW Loc. JN81CU)
IO7Y - Scoglio di S. Eufemia (IIA FG-012, Not IOTA, WW Loc. JN81CV) and Mar Grande (Taranto) lighthouse (WAIL PU-019, ARLHS ITA-275, Admiralty E2150.1, WW Loc. JN80OK).

Activity will be on the HF bands plus 6 and 2 meters. QSL via I0SNY.

IOTA NEW.........................

EU-064. Dirk, ON4IMM, will be active as F/ON4IMM on a holiday DXpedtion to L'Epine, Ile de Noirmoutier (DIFM AT-020 for the French Islands Award, WLOTA LH-1224, WW Loc. IN86UX), August 5-16th.

His main focus will be on 144 MHz meteor scatter, using IC-746 and RF Solutions 10 element yagi. Mode will be FSK441 - CQ with QSY frequency, main frequency will be 144.370 MHz. Outside the meteor shower, look for Dirk to be active on the HF bands, plus 6 meters using 5 watts and a 4 element yagi. QSL via his home callsign, direct or by the bureau.

EU-074. Members of the Granville ARC (F5KAQ) will be active from Brehat Island (MA-012 and WLOTA 2010), September 1-8th. Activity will beon 80-10 meters using CW, RTTY, PSK and SSB. They will also be on 144 MHz to 10 GHz SSB. Operators mentioned are F9ZG, F5NKX, F5RJM, F5HVI, F6ACH, F6CMC, F8PDR and possibly some guests. During this week's activities, some QSOs may be valid also for lighthouses, castles and mills.

EU-165. Gerry, IZ1DSH, will be active as IM0/IZ1DSH from the Island of Tavolara (IIA OT-071 [ex SS-068], MIA MIS-040, also count for WLOTA LH-1839, WW Loc. JN40UV), August 9-17th. Activity will be on 40-10 meters SSB, using a TS-140 and a 7 band portable vertical antenna. QSL via his home callsign, bureau is preferred. No eQSL!

SA-037. A team from Venezuela and from the 4M5DX Group will activate YW5IOTA from La Blanquilla Island (FK70 and WLOTA L-0894), August 4-7th. Activity will be on all bands and modes. QSL via IT9DAA, direct or by the bureau (see details on QRZ.com). Visit the YW5IOTA Web page at: http://www.yw5iota.4m5dx.info All QSOs made with YW5IOTA are available to get the "DXXE Award". You can view the rules for this award at the Web site:
http://www.dxxe.org/ (under "Diplomas / Awards" section)

J49, CRETE (Update/Change). An Italian team will be active as J49I (not J49W as previously announced) from here between November 26th and December 1st. Look for activity before and during the CQ WW CW Contest on 160-10 meters, mainly CW. Operators mentioned are: I0UZF, IK0EFR, IK0YUT and IZ0FWD. QSL Manager is IK0EFR.

LIGHTHOUSE ACTIVITIES................

* ARLHS 2008 National Lighthouse-Lightship Week, August 2-9th

OFFICERS FOR 2008-2009. During a recent Southeastern DX Club (SEDXC) meeting, the members elected the following officers to serve during the club's 50th anniversary year:

SEDXC Officers for 2008-2009	Appointed functions
President : Bob Allphin, K4UEE	Membership Chair: Bill Barr, N4NX
V. President: Bob Carroll, W2WG	Bulletin Editor : Jim Streible, K4DLI
Secretary : George Nicholson, N4GRN	Webmaster : Chaz Cone, W4GKF
Treasurer : Mike Weathers, ND4V	

PLEASE NOTE: To commemorate the 50th anniversary, SEDXC is sponsoring a 12 hour world-wide contest to take place during the September 20-21st weekend. Complete details can be found at: http://www.sedxc.org/50thcontest

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ WW DX CW Contest (November 29-30th) as a Single-Op/Single-Band (15m)/High-Power entry. QSL via W0MM.

OQP DATE WRONG CQ MAGAZINE. Jim, K8MR, reports that the "Calendar of Events" listed in the August 2008 CQ Magazine (page 96) has erroneously listed the Ohio QSO Party (OQP) as being on August 30-31st. It is actually on Saturday, August 23rd, or 1600z August 23rd to 0400z, August 24th. Jim states, "There are no contests listed for the weekend of August 23-24th. I suspect there are wrong dates for several of the others listed for August 30-31. I hope to see you all in the OQP on SATURDAY, AUGUST 23RD!" Full details about the OQP are available at: http://www.oqp.us

PACIFIC TOUR. Operators Hide/JM1LJS and Junichi/JA3RAF are expected to be in the Pacific area between August 7-20th. Their schedule is as follows:

Wallis Island (OC-054) - Between August 9-15th. Hide will sign FW1W and Junichi will sign FW1Z. Activity will be on 80-6 meters using CW, SSB and Digital(?). FW1W will NOT be active on Digital. QSL via their home callsign DIRECT ONLY.

Upolu Island (OC-097) - They will be active from this Samoa Island between August 16-19th. Hide will signs 5W0HH and Junichi will sign 5W0MJ. Activity will be on 40-6 meters using CW, SSB and Digital(?). 5W0HH will NOT be active on Digital. QSL via their home callsign DIRECT ONLY.

The operators of this operation are calling this activity a "Mini Pedi". If you want to know what a "Mini Pedi" is you will have to visit their Web site at: http://radio-dream.com/mini_pedi_2008/index.html

The 8J9HGR Hegura Island (AS-117) logs are now available online at: http://hegura.hp.infoseek.co.jp/search.htm

Paul, A35RK, informs OPDX that he has uploaded his July 2008 log to the LoTW. He states, ".... I discovered something interesting. I uploaded 397 Q's, all but 4 of which were either RTTY or PSK31 contacts. Immediately, LoTW reported that I already had 100 confirmations on record for the month of July, ALL 100 of which were for digital contacts...none for CW or SSB. That's better than a 25% 'return' rate! Compare that to an average 'request for QSL via W7TSQ' of about 10-12%. It would appear that LoTW is gaining in popularity, especially amongst the 'digital crowd'."

NEW QSL ROUTE. The new address for the QSL Manager for GM7V and GZ7V as of August 1st, 2008, is: Linda Taylor (M0CMK), 18 Wyness Avenue, Little Brickhill, Bucks. MK17 9NG, UK.

J200MM/J20RR BUREAU QSLS. Silvano, I2YSB, QSL Manager of J20MM and J20RR, informs OPDX readers of the following (edited): "First of all let me clarify that I (I2YSB) am a good standing member of A.R.I.

Said that I was surprised when I have received several envelopes from foreign radio amateurs containing their QSLs sent to me via the bureau (since I am the QSL Manager) for J20MM and J20RR DXpedition and their QSLs were rejected by the Italian QSL Bureau (Managed by A.R.I.) with the wording: 'A.R.I ITALY - QSL BUREAU - NOT MEMBER' I wanted to confirm to all those that requested QSL cards of J20MM and J20RR via E-mail (in excess of 1000) that I have sent the cards to everybody through the Italian Bureau. I have also answered the 3565 QSLs received through the Italian Bureau (2806 via the office in Albino and 759 via the one in Broni). I have made a very limited sample survey (130 E-mails sent to OM of 28 nations to whom I have answered via the Italian bureau) asking if they had received their QSL, and I have received 7 positive answers and 80 negative answers. I have sent a letter to the person responsible for the Italian QSL Bureau explaining what happened, but so far I have not received any answer.

For the next DXpedition, the Manager for the Bureau service will be G6MBY, and for next year please be advised that I2YSB will no longer member of A.R.I.....

73 Silvano I2YSB manager of J20MM and J20RR"

KL7DX QSL REMINDER. The KL7DX (NA-234) operation is now completed and the team is safely off the erupting volcano. A reminder from QSL Manager Ron, AC7DX: "PLEASE DO NOT send your requests to the Alaskan address for KL7DX. SEND only to:

* AC7DX
* PO Box 25426
* Eugene
* Oregon 97402

Cards will go out in order received with Bureau cards to be sent after all direct replies have been answered. There will be no LoTW. QSL cards will be designed and printed after team returns so please allow ample time for cards to be sent. Thanks to everyone. Very 73, Ron AC7DX"

TC17GS QSL UPDATE. Urcun, TA0U, reports that TC17GS was active between June 1-15th (2008) and recently announced that all QSL cards will be sent by the end of August 2008: http://www.ta0u.com/detay.asp?id=3D4268 But... For all the countries which are listed in the next link, all the QSL cards were sent "via the Bureau" to the announced mail address... on July 26th. The rest will be sent by the end of August 2008. See:

http://www.ta0u.com/detay.asp?id=3D4274

W1AW/KL7 QSLS. All QSLs will be routed through W1AW national HQ. Members of the ARRL 2008 Alaska State Convention Special Event Station will give the League their log and will confirm contacts and send out cards. Look for W1AW/KL7 to be active until August 10th. Activity will be on 160-6 meters. For complete details, see the info at: http://www.arrl.org/?artid=8327

T8, PALAU. Hidenori, JI2TXU, will once again be active as T88TX from the West Plaza Hotel By The Sea, Koror, Palau (OC-009), from August 15-20th. Activity will be on 40/20/15/12/10/6 meters SSB. QSL via JI2TXU.

TO4, SAINT MARTIN. Paul, K1XM, is planning to be operating from French St. Martin for both CQ WW DX Contests this year. The callsign for both contests will probably be TO4X. For the CQ WW DX SSB Contest (October 25-26th) he will be a Single-Op/All-Band (possibly an assisted) entry (depending on an Internet connection). For the CQ WW DX CW Contest (November 29-30th) he will be a Multi-2 or maybe Multi-Single entry with WA1S and KQ1F. KQ1F will be the QSL Manager for both operations.

TOKYO DX BANQUET (Update). All DXers are invited to attended the "2008 DXers Banquet in Tokyo" that will be held on the evening of August 23rd, in conjunction with the 2008 Ham Fair in Tokyo. The location of the banquet is the Tokyo Fashion Town (TFT) building, East-Wing 9th floor. The place is about a 7 minute walk from the Big Site Ham Fair location. For complete details, visit the NDXA Web site at:
http://www.ndxa.net/e.html

TRIPLE PLAY AWARD (A new WAS award!). During the ARRL Board of Directors Second Meeting of 2008, held on July 18-19th in Windsor, Connecticut, the Board voted to create a "Triple Play Award". This new award, set to be implemented by January 2009, will be given to those amateurs who achieve "Worked All States" (WAS) on voice, CW and digital modes. All 150 QSLs must be exclusively via "Logbook of The World" (LoTW). Only those contacts made after the award's start date will be eligible.

VP8, FALKLAND ISLANDS (SA-002). It was announced last week that a group of YL operators will be active from here between January 17-31st. Each operator will be signing with the callsign "VP8YL*", where the third letter of the suffix will be assigned to each YL operator at beginning of the operation. YL operators mentioned at present include: Renee/2I0FLO, Mariana/CX1JJ, Ruth/IT9ESZ, Mio/JR3MVF, Jennifer/KB3QFD, Unni/LA6RHA, Liz/M0ACL, Nicky/M5YLO, Chantal/PA3GQG, Candy/SP5XAB, Victoria/SV2KBS, Janet/VP8AIB, Jeanie/WA6UVF and Kay/WA0WOF. Look for more information to become available at: http://www.radioclubs.net/aa_vp8yl_/

VR2008, HONG KONG (Special Event). Members of the Hong Kong Amateur Radio DX Association (HARDXA) continued to be active as VR2008O until August 31st, to celebrate the 2008 Beijing Olympics. Operations will be primarily HF from 40-10 meters and VHF on 6 meters. The modes used shall be primarily SSB, RTTY and PSK31. Over the past weekend activity was on 20 meters SSB/RTTY/PSK31 and 17 meters SSB. QSL direct only to VR2XMT: Charlie Ho, PO Box 900, Fanling Post Office, Hong Kong. There will be no e-QSL or LoTW. Preliminary information and QSL card design has been put onto QRZ.com at: http://www.qrz.com/vr2008o

VU, INDIA. Operators Arasu/VU2UR, Lakshman/VU2LX, Sampath/VU2YZ, Gururaj/VU2GUR, Inarappan/VU2INA, Depak/VU2CDP, Gajandran/VU3VGN, Hari/VU3VHK, Shekhar/VU2RDX, Vittal/VU2VIT, Venkataram/VU2BVM, Sharadha/VU2VTK, Ramesh/VU2LU, Ajoy/VU2JHM and SWL Yugadhi will be active from the Mahabalipuram lighthouse (ARLHS IND-016, Admiralty F0932, WW Loc. NK02CO) and the Mahabalipuram (Mamallapuram) temple (ARLHS IND-011, WW Loc. NK02CO), August 15-24th. This activity is to commemorate The Bangalore Amateur Radio Club (VU2ARC) celebrating its Golden Jubliee in 2009. Some of the HF equipment will be borrowed from the Lions Clubs International Amateur Radio Club Station (VU2LCI). QSL via VU2JHM: Ajoy Lion, Kshitija, # 9/1, 5-Cross, Mvm, BANGALORE-560003, INDIA.

ZF, CAYMAN ISLANDS. Randy, K5SL, will be active as ZS2SI from Grand Cayman, August 9-16th. Activity will be mostly CW/SSB on 17 meters on 18150 and 18077 kHz. Also, look for him around 0400z on 40 meters CW around 7033 kHz. QSL via his home callsign K5SL.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

QSL FJ5KH: The ONLY correct (direct) QSL route for all QSOs made by FG5ED from Jul 20-30 is: Ch. Godeau, 13 Ave Buckeburg, F-72300 Sable, France.

The new QSL manager for GM7V and GZ7V is now Linda, M0CMK.

QSL via I2YSB: Silvano,I2YSB, writes that a large number of his J20MM and J20RR QSLs were rejected by the ARI bureau stating that he is not a member of the QSL bureau - which is wrong. Silvano wants to confirm that he has sent the cards through the Italian bureau to all those that requested the QSLs of J20MM or J20RR via e-mail (more than 1000). He has also answered the 3565 QSLs received through the Italian bureau (2806 via the office in Albino and 759 via the office in Broni). Silvano has drawn the consequences now, will leave the ARI next year and makes G6MBY his new QSL manager.

ANNOUNCEMENT

Next weekend, August 9/10, the Worked All Europe DX Contest is finally starting into its 54th season. The official rules and more details can be found online at: http://waedc.de

In 2008 the DARC also commemorates the 60th anniversary of the award "Worked All Europe". A WAE Marathon will be held starting with the upcoming WAE DX Contest CW next week and ending with the WAE DX Contest SSB in mid September. Much more information is available at: http://wae60.de

Please be aware that in the context of this WAE60 Marathon Europeans might be interested to work other Europeans as well, which is unusual for the WAE DX Contests. These EU-EU QSOs are fully legal, of course, and can/should be presented in the WAEDC contest logs as well. While they will not count with points for the contest score, they won't hurt either and will certainly count for the special WAE60 award. Thus, if you are an European and another European is calling you during the contest, don't get angry this time - just work and log him and after a few seconds he is gone again.

Finally I hope to meet you on the bands during the contest.

Enjoy and be ready for the famous QTCs!

Best 73s de Joerg, DL8WPX
WAE DX Contest Manager

It's summer and there should be some 2m propigation from where I
am, Israel, to Europe. I had a 2m 3 element beam which was destroyed
because it was stored with the elements still on it. It has been fixed
and I was thinking of setting it up horizontaly and calling CQ on
144.200 USB.

Obviously I would like to call CQ on a frequency were people are listing.

What is the current 2m SSB calling frequency?

Thanks in advance and 73,

Geoff.

Geoff: SSB/CW calling freq is 144.300, better from your location (people will
love ya!)
is 144.370 in FSK441. Best is to get onto the ON4KST 144 MHz chatsite on occasion
to see
what "todays" options are. Read up on FSK441 for MS, even with a small setup (abt
100W
ERP) QSO's can be made up to 1000 miles or so.

See http://www.on4kst.com/chat/start.php registration required to prevent abuse.
About
6200 folks have already registered, during good openings and contests about 300
logins and
abt 100+ die-hards are usually there. It's also the best place to get any info
you want
abt VHF+. Everyone there is quite helpfull!

JM1LJS, Hide, and JA3RAF, Junichi, are going to Wallis Island, FW, and Samoa, 5W. The duration is August 7-20. They expect to be very active from Wallis and then "just a little active" from Upolu Island, Samoa. They are keeping their fingers crossed" their flight to Wallis does not cancel out, since that did happen once already. All the reservations are made and the license is granted. For Wallis the callsigns should be FW1W and FW1Z and from Samoa, 5W0HH and 5W0MJ. /Wallis should be August 9-15/ and Samoa August 17-19. From Samoa they will only be on 40-6. Look for them on 80-6M SSB, CW and possibly FW1Z on digital. More:

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

DXNL 1584 - Aug 13, 2008
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE

(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

CE - CHILE

Scott,K0MD, will stay in Chile from Aug 16-22. If he is successful to become active listen for him especially on 40-15m. QSL via K0MD.

The "Radio Club Frontera Norte" will be QRV from the Alacran lighthouse signing 3G1F in CW/SSB on 40-10m on Aug 16/17. QSL via EA5KB.

H40 - TEMOTU ISLANDS, OC-163

Like written in the previous DXNL Mike,KM9D, and his YL Jan,KF4TUG, will show up from Vanikolo Island (OC-163) soon. Bernhard,DL2GAC/H44MS, writes that it will be most likely H40MY. Bernhard extended the license for Mike in April 2008 and sent it to him - it is valid until the end of 2008.

HI - DOMINICAN REPUBLIC, NA-122

HI9/IK2GNW is hitting the airwaves in SSB and RTTY on 80-6m from Cayo Leventado (NA-122) from Aug 9-22. Adriano is using an amplifier, verticals and dipoles. QSL cards only direct via I2YSB.
An online logbook and more can be found at: http://www.i2ysb.com

HP - PANAMA

Several members of the "Panama Canal Amateur Association" (PCARA) and the "Radio Club de Panama" (HP1RCP) will be active with the callsign H81L activating the Panama Canal Miraflores Locks Lighthouse (PAN-030) in CW, SSB and digital modes on Aug 16/17. QSL via HP1RCP.

KP5 - DESECHEO ISLAND

Information spreads around that the very rare DXCC entity Desecheo shall be activated from Nov 12-26. The callsign will be K5D.
More details will be published in the DXNL shortly before the activity.

T8 - PALAU, OC-009

Hidenori,JI2TXU, will stay at the West Plaza Hotel in Koror on Palau (OC-009) from Aug 15-20. He plans to show up as T88TX in SSB on 40m, 20m, 15m, 12m, 10m and 6m. QSL via JI2TXU.

ZD8 - ASCENSION ISLAND, AF-003

Bob,VP8LP, will stay on Ascension Island (AF-003) on Aug 15/16 and on Sep 14. He will use the callsign ZD8LP using a vertical on 40-10m.
QSLs direct via his homecall.

5B - CYPRUS, AS-004

Andrey,5B/LZ2HM, is working on HF and 6m until Aug 14. He used the call C4I during the WAE Contest. QSLs for both calls direct via LZ2HM.

5Z - KENYA

Antonio,5Z4/IK8VRH, and Enrico,5Z4ES, are going to activate several

islands belonging to Kenya in August. Their travelling schedule is:
Coast Province North Group (AF-040) Aug 15-17
Coast Province South Group (AF-067) Aug 20-22
Activities are planned on in CW, SSB and RTTY on 40m, 20m and 17m. Their equipment is a FT-450AT, 300 watts amplifier, a bubble dipole and a ZX Mini Beam.

ARCTICA: The drift of SP35 has ended - the next one is SP36. On Aug 14 the "Akademik Federov" left Arkhangelsk to Wrangel Island where the new drifting station "SP36" is assembled. The journey of the expedition vessel will last from Aug 14 until Sep 22 and leads the ships via Franz-Josef-Land and Zevernaya Zemlya to Wrangel Island. Two HAM OPs will be onboard this trip (UA6LP and RZ6MF) and will activate the call UE6MAC/mm. UE6MAC is the special event call of the "RK Arctica" and will be activated also from the village Esso (RDA: KT-05) on the peninsula Kamchatka before signing UE6MAC/0 from Aug 14-24.
The QSL manager is RZ6MF. See also: http://www.qrz.ru/webnews/5403.html

DATES: The annual Russian HAM meeting "Domodedovo 2008" takes place from Sep 19-21. It will be a big event again - more than 550 HAMs from several countries confirmed their participation.

The LY Hamfest took place in Trakai this year with 444 participants and 252 HAMs.

The "Hamfest India 2008" will be in Gandhinagar/Gujarat on Oct 11/12.
You can find more information at: http://www.hfi2008.com

The "2nd Asia Pacific DX Convention" (APDXC) will take place in Osaka this year from Nov 7-9. If you are interested to join or want to see videos and photos of 2005 please visit the website http://www.apdxc.org

EU-068. Members of the French Sevran ARC (F5KKD) plan to visit the following IOTAs between August 20-24th. The Gulls team will first activate Belle-Ile-en-Mer in the Bretagne (Morbihan) Region Group (EU-048, AT-015, WLOTA 0872). They will then move to Sein Island in the Bretagne (Finistere South West) Region Group (EU-068, AT-007, WLOTA 2721). No specific dates were provided. Operators mentioned are David/F4FDA, Dimitri/F0FLH and Bastien/F4EYQ. They plan to have three stations on the air at the same time, as long as possible. Activity will be on 80-10 meters SSB and 2 meters. Look for them on the following suggested frequencies: 3755/3693 (+/-1 kHz), 7055/7093 (+/-1 kHz), 14260/14193 (+/-1 kHz), 21260/21293 (+/-10 kHz), 28460/28460, (+/-10 kHz) and 144300/144393 (+/-5 kHz). QSL direct to F5KKD: IOTA2008, PO Box 27, F 93270 SEVRAN, France or via the French REF-Union Bureau. The group will have a Web page where they will post updates, logs and pictures after their return at: http://iota2008.crxcluster.com/

EU-052. Giorgos, SV1HEM, will be active as SV1HEM/8 from Meganisi Island, August 13-17th. Activity will be on all the bands from 80-6 meters using CW, SSB and RTTY. He will use a Yaesu FT-897D and Kenwood TS-50 into a G5RV (80-10m), a dipole for 6m, a vertical antenna Eco ART-71 and Dentron AT 60-10 antenna tuner. Meganisi is a small island of the Ionian Sea and is 4 nautical miles southeast of Lefkas, KM08IP.

EU-076. Przemek "Mek", SP7VC, will be active as LA/SP7VC from Lofoten Islands (Grid JP67) between now and August 15th. Activity will be on 80/40/20 meters using dipole antennas and 700 watt amp, as well as operations on VHF 144.355 MHz (FSK441 Random on MS using 9 element yagi and 1 kW amp). QSL via his home callsign.

EU-095. Members of the EME Phoceen Radio Club (F5KDK) will be active as TM5F from Frioul Archipelago between August 15-18th. Activity will be on the HF bands, CW, SSB, PSK and RTTY. Operators mentioned are: Jean Michel/F1IKA (SSB and QSL Manager), Michel/F5IVP (CW/SSB/Digi), Eric/F5ODA (CW/SSB), Dave/F5SDD (CW/SSB) and Chris/F6DHI (SSB/Digi). Visit their Web page at:

http://tm5f.free.fr

EU-128. Tim, DE3RPC, will be active as DE3RPC/LH from the Flugge lighthouse (DLTD #19, TWLHD WLH DL-006, WLOL FED-085, Admiralty C1288.1) on Fehmarn Island (O-01 for the German Islands Award, WLOTA LH-0637) from August 10-13th. All stations which are logged by him will receive a special lighthouse QSL card automatically via bureau.

EU-136. Matt, S53AU, will be active as 9A/S53AU from Cres Island (WLOTA L 0553 (CI-012, MC-056) between now and August 16th. Activity will be "holiday-style" and only on CW on 80-30 meters using a TS-450SAT (w/100 watts) and windom antenna.

EU-189. (Update) Col, MM0NDX, states that currently one of the two available places has been filled for the 2009 Rockall operation. If you are interested in joining the Rockall 2009 operation or would like to be added to a standby list should more places become apparent, please contact Col McGowan, MM0NDX at:
hamspirit@hotmail.co.uk
Possible suggested dates are from Tuesday, May 19th to Monday, June 1st (2009). For more details, visit the following Web page at: http://islandmanrockallexpedition2009.com

JD1, OGASAWARA. Just a reminder that operators Toru/JI5USJ (JD1BLX) and Makoto/JI5RPT (JD1BLY) will be active from Chichijima Island (IOTA AS-031) in the Ogasawara Island group between August 10-16th. Activity will be on 160-6 meters, using satellites, CW, SSB and the Digital modes. QSL via their home callsigns. For more details see: http://www.ji5rpt.com/jd1/

JW, SVALBARD. Niels, OZ8KR, will be active as JW/OZ8KR from the capital of Longyearbyen (EU-026) for the third time from August 12-17th. Activity will be mostly on SSB on 20 meters (he prefers 14220 and 14260 kHz). QSL via his home callsign.

- Members of the Union of Radio Hams of Corunna (URLC) are planning to activate the "Tower of Hercules" lighthouse (ARLS SPA-276) during August 15-17th. They will use the callsign AM1TDH. QSL via EA1COW, by the bureau or direct. With this activation they are trying to help the "Tower of Hercules" become a candidate for the oldest working lighthouse in the world and to make the UNESCO's World Heritage list. More info about this activation is available on: http://www.urlc.net

- Look for operators in India from the Bangalore Amateur Radio Club to activate the Mahabalipuram Lighthouses (IND 016 [old IND 011]) in the Kancheepuram District for the first time ever during the International Lighthouse-Lightship Week. Activity will take place between August 15-24th, and they will be using the special callsign AT8LH. For more details and the QSL route, check out the info on QRZ.com. ADDED NOTE: Look for possible lighthouse operations during the weekend from Panaji and Goa State regions. Callsigns to be used are VU2SMS/LH and VU2ROE/LH.

- Members of the Strumblehead DX and Contest Group will be active from Strumblehead Lighthouse (Loc: IO72LA; WAB: SM84PEM Pembrokeshire; Lighthouse Numbers: A5274, WAL-029 and WLOTA 3811; BARLS member #458) for the ILLW weekend of August 16-17th, using the callsign GB0SH. Look for activity a few days before and after the ILLW with operators using the club callsign MC0SHL. The team will consist of Ant/MW0JZE, Rob/MW0RLJ, Tim/M0URX, Oli/MW3SDO and Chris/G1VDP. Tim (M0URX) will be active as MW0URX and Chris (G1VDP) will be active as GW1VDP before and after the weekend also. A special QSL will be available and the logs will be uploaded to LoTW after the operation. Activity will be on 80-10 meters SSB with some RTTY by Chris, G1VDP, if time permits. QSLs for GB0SH go via MW0JZE and MC0SHL via M0URX, all others via their home callsigns.

- Members of the Swiss Lighthouse Activity Group will be active as HB9LH from Romanshorn Lighthouse (ARLHS SWI-005, WASL HB-TG-001, DCS-TG057 and Grid JN47QN) during the ILLW (International Lighthouse/ Lightship Weekend), August 16-17th. Operators mentioned are: Michel/ HB9DLO, Pascal/HB9DWR and Pierre-Yves/HB9OMI. QSL via bureau (USKA) and/or via HB9DLO.

- Look for Mike/N8MR, Lynette/KC8NAH and Vincent/KA8FFM to activate Eagle Harbor Lighthouse (US0017) during the ILLW (August 16-17th), using the callsign K8E. Modes of operation include HF/VHF, CW/SSB, FM Satellite and possible HF digital. Collectors of ARLHS numbers can get credit for three upon request: Eagle Harbor Lighthouse USA-253, Front Range Light USA-254 and Rear Range Light USA-255. QSL via N8MR direct with #10 SASE or via the bureau. They will also be activating other lighthouses around Michigan's Keweenaw peninsula from August 18-23rd. Main times of operation during the week will be from approximately 2100-0000z. Visit their Web page at:
  http://www.kc8nah.com/Interests/EagleHarbor/illw08.htm

- Operators Jorge/LU4WG and Pedro/LU7WW will activate for the first time Punta Tehuelche lighthouse (ILLW AR-0035, ARLHS ARG-059) for

the IILW weekend. Pedro is expected to start the activity on August 11th. QSL (for non-LU stations) direct (w/2 IRCs) to:
Casilla de Correo 4 (P.O.Box 4), Puerto Madryn 9120, Prov.Chubut, Argentina or via EA5KB. Stations from Argentina, QSL via LU4WG.

* Members of the GPDX, Daniel/PT7BI and Moreira/PT7ZT will be active as homecall/P from the Mucuripe Lighthouse (ARLHS BRA-261 and DFB CE-05) in Ceara, Brasil, during the 2008 International Lighthouse-Lightship Weekend.

* Operators SP2BIK, SP2BRN, SP2IZC and SP2TQW will be operating from the historical lighthouse in Gdansk Nowy Port, Poland, from August 15-18th. They will be using the callsign SN2NP and operate on CW, SSB, RTTY and PSK31. QSL via SP2BIK.

* Members of the Cape Ann Amateur Radio Association will use the special event callsign W1T for one day (August 16th) to activate the North Tower Lighthouse (ARLHS USA-1027) on Thacher Island (IOTA NA-148, USI MA001S and Grid FN42rp). Activity will be on 40/20 meters using CW, SSB and PSK. QSL via W1GLO: Cape Ann Amateur Radio Association, 6 Stanwood Street, Gloucester, MA 01930 USA (w/SASE). eQSL are available for all contacts.

* The Old Barney ARC will operate special event station W2T from the Tucker's Island Lighthouse (USA-911) located in the Tuckerton Seaport (http://www.tuckertonseaport.org) on August 16th from 1300-2030z. Operation will be primarily on 40 and 20 meters SSB and local 2 meter FM. QSL via N2OO.

OH0, ALAND ISLAND. Juha, OH9MM, will be active as OH0I during the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/Single-Band (10m) entry. QSL via OH3BHL.

PJ2, NETHERLANDS ANTILLES. Joeke, PA0VDV, will be active as PJ2/PA0VDV from Curacao (SA-006), October 2-19th. Activity will be CW only. QSL via his home callsign, by the Bureau or direct.

QSL INFO AND NEWS.....................

7X5VRK INFO NEEDED. As you may know Mac, W3HC, has retired as QSL Manager and Bob, N2OO, is now distributing most of the QSL cards for callsigns that Mac managed. However, Steve, N3SL, informs OPDX that one of the very active stations his daughter, Kim, has picked up after the retirement of Mac, W3HC, is 7X5VRK. He states, "We now have blank cards in hand, but there were no logs of any kind to be found. Published E-mail addresses, to include the most recent address Mac had, has not lead to any response in over 3 weeks. If anyone has a good E-mail route to 7X5VRK, we would certainly appreciate having it. And to all who have sent requests already, QRX. We certainly hope we can obtain logs."
Steve's E-mail address is: N3SL@aol.com

TJ1GA QSL HELP NEEDED. David, K1LD, informs OPDX, "In January 2004, I worked TJ1GA. I have had no luck with the listed manager (IK2AQZ) after many attempts. Any ideas where to go from here?" His E-mail address is:

cwdxer@comcast.net

YU8S56M. Dan, S50U, informs OPDX that an on-line logsearch for the recent YU8/S56M Kosovo (DXCC=Serbia) operation can be found at:
http://s50clx.infrax.si

OLD QSL ROUTES. Patrice, F6GCP, provides QSL routes that go back to 1987 on his Web page at: http://f6gcp.free.fr/qslinfos.htm

QSLS VIA LOTW: CS9T, V63WWA, YL5T and ZD8LII

QSLS RECEIVED VIA MAIL: 4M5IR, 9M6/N1UR, DL3VFN/J3, ET3JA, FO/KH0PR, HC5WW, LU8XW, PE7T/VK9X, R1FJT, S79JE, SD2O, T32Z, TX5C, VP6DX, VP6PR and XR7W

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SI9, SWEDEN. Operators Jozef/ON4ACA and Marcel/ON6UQ will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via SI9AM. The operators will be active before and after the contest between October 23-27th. Look for them to be on all bands mainly on CW. Also, look at the special award available for working SI8AM at:
http://www.si9am.se

SILENT KEY. OPDX was informed that Rodrique "Rod" Gagnon, VE2NN, well-known operator in Zone 2 for many years, became a Silent Key due to stomach cancer on July 14th. OPDX and its readers would like to pass on our deepeest sympathy to the family and friends of VE2NN.

TA0, TURKEY. By the time you read this Karl, WA2KBZ, should be active as TA0/WA2KBZ from Buyukada Island, in the Sea of Marmara, until September 1st. Expected activity will be on 40/30/20/17 meters, mostly CW, with a possibility of some 15 meters (if open). He will be semi-QRP with 60 watts to dipole up about 200 feet above the sea hanging from balcony. Karl will start on 30 meters around EDT/CDT supper time. QSL via WA2KBZ.

TC3, TURKEY. Operators Elif/TA3YE (YL) and Can/TA3GO will be active as TC3EC during the CQWW DX SSB Contest (October 25-26th) as a Multi-Op/All-Band entry. QSL via TA3GO.

TC4, TURKEY (Asian Turkey QRV until August 12th). You still have a few more days to work the special callsign TC4X. However, if you miss it, TC4X will be activated on several occasions during 2008. The new alliance between Turkish and Finnish hams which include OH2BH, OH2PM, OH8NC, TA1HZ and others, are operating from the beautiful seafront city of Mahmutlar in the Antalya Province in Southern Turkey (Asia). More detailed info will be available on: http://www.qrz.com -or- http://tcswat.tripod.com
The first activity was between August 5-12th (2008) which included the "Work All European CW Contest (WAEDC). QSL via OH2BH.

VK9C, COCOS (KEELING) ISLANDS (Update). Giovanni, I5JHW, will be active as VK9CJW from here between August 22-29th. His operation will be holiday style but with activity on 40/20/17/15/12/10 meters using SSB and RTTY. He will be using an amplifier and a multi-band vertical antenna. QSL via home callsign, direct or by the bureau. He now has an online Web page at: http://www.ik5run.it/vk9cjw.htm

VK9, WILLIS ISLAND (VISIT VK9DWX!). Chris, DL1MGB, wants to remind everyone that a DXpedition to Willis Island (VK9DWX) will take place in October this year. He states, "For our support we had to charter a second boat which will come in the middle of the DXpedition to Willis Island to support us with fuel, fresh food / drinks, ... As there are some seats unused on this boat, we had the idea of offering a four day trip for 'tourists' to visit our DXpedition. There are still some places left....."

****

VISIT VK9DWX - Have you always had the dream not only to work a DXpedition from your home but also to visit the crazy guys on their lonely island? Now your dream comes true!

- 4 day trip with the Rum Runner
- Start: October 15th, 2008, in Cairns, Queensland, Australia
- Finish: October 19th, 2008, in Cairns, Queensland, Australia
- Accomodation onboard the Rum Runner
- Including meals and soft drinks (alcoholic drinks on own account)
- See the VK9DWX operators live at working Pile-Ups (guest operation possible)
- Flight to Cairns is NOT included
- Every guest has to ensure that he is on the Rum Runner in time as we depend on the supplies for our operation
- Costs: EUR 1000,- per person

If you are interested in this exciting trip please contact us via the contact form on our Web site at: http://willis2008.dl1mgb.com/

VP8, ANTARCTICA. Ian, VP8DLJ (G0VZM and VP8ROT), will be camping near a mountain called Trident on Adelaide Island this week. He has built an Elecraft K1 tranceiver (QRP CW rig) and states that he has "attempted to learn morse code. I will try most nights to use 40m (7010 kHz) at aproximatly 2200 UTC. If you are near a radio, you might want to listern out for the slow broken morse of VP8DLJ. Note, from my base at Rothera I have had very little luck hearing or transmitting in the last month and therefore; I am not expecting great results. However, it would be fantastic to at least receive a call to my callsign."

ZF, CAYMAN ISLANDS (Corrected). Randy, K5SL, will be active as ZF2SI (not ZS2SI) from Grand Cayman until August 16th. Activity will be mostly CW/SSB on 17 meters on 18150 and 18077 kHz. Also, look for him around 0400z on 40 meters CW around 7033 kHz. QSL via his home callsign K5SL.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

We hope you have had a great time during the past 2-3 weeks with several SPORADIC E openings and as well the big Meteor-Scatter Shower Aquarids and Perseids! Because of the high activity we are sure you was able to work a lot of new Squares and wish to ask you to update our both lists to be up to date:
MWS (MOST WANTED SQUARES) >>> http://www.mmmonvhf.de/emws.php
MWDXCC (MOST WANTED DXCC) >>> http://www.mmmonvhf.de/dxcc.php
If you need any help please do refer to the FORUM and the how to:

The maximum of the "best" Meteor Scatter Shower of the year "The Perseids" will be past! As you interesting in a real data source of these shower please do have a look at the Visual Data Quick Look of IMO (Int. Meteor Organisation). You will be able to see that the peak did not occure (as calculated by IMO) in the morning of the 12nd! http://www.imo.net/live/perseids2008/
IMO did mark now the highest rate of Meteors around 00UT on 13rd aug. with an ZHR of max. 83 meteors/hour! Even if the shower itself lasts until the 24th august the best part is over...
The peaks of the following MS-showers will be updated soon at our MS-Propagation-page: http://www.mmmonvhf.de/ms.php
As usual in past years we did spread there an OVERVIEW about active METEOR SCATTER Stations during the MMMonVHF / DUBUS MS-SPRINT-Contest and the PERSEIDS as a small Table and as Overview-MAP. We did count around 280 active Squares at Region 1 - Have a look at:

Lunar DX on 144 Mc.! [1953]
W4AO and W3GKP Bounce 2-Meter Signals Off the Moon
Listening to the wire recording from which the above graph was made, it doesn�t sound like much; a one-second beep, an interval of

receiver noise, then a wavering trailing bee-e-e-e-p barely discernible in the midst of the slightly musical rushing sound that is characteristic of high-selectivity reception. You wouldn�t be impressed if you happened to hear it casually, but to Ross Bateman, W4AO, and Bill Smith, W3GKP, it was music of the sweetest sort; evidence that more years of thinking, figuring, building, re building and testing were not in vain. An amateur signal had been sent to the moon and back, at last!

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, The ARRL Letter, K1XN & GoList, NJ1Q, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5XK, K8YSE, W0MM, DX-IS News Site, Pete's-DX-Newsdesk, 9A6AA, DK2WV, DK8JB, DL7MAE & The DX News Letter, EC7DND, F5NQL & UFT, F5OGL, I1JQJ/IK1ADH & 425 DX News, I1HYW, JI6KVR & IOTA-JA News, LA5YJ, RASE Dx, RSGB IOTA Web Site, TA3YJ, VA3RJ & ICPO and YO2DFA for the following DX information.

*** SPECIAL NOTES FROM EDITOR (by Tedd/KB8NW): Major failure to my BARF80 Linux system happend this past week and items for the bulletin were lost. If you had an announcement that did not make it to print, PLEASE resend it. Current status of BARF80 is DEAD. However, thanks to my ISP (hamnet.org) I am still able to retrieve my mail and send the bulletin out (until a new Linux system can be found or put together). Hopefully, things will get back to normal soon.

Lastly, OPDX's Chief Proof-Reader, Linda my wife, will be going under the knife Monday to have her gall bladder removed. Please say a small prayer for her and hope for no complications during her procedure. I do not know what I would do without her. Get well messages can be sent after Monday at: lmsm54@hotmail.com

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5Z, KENYA. Valery, RW1AU, is now active as 5Z4/RW1AU from the 5Z4RS club station in Nairobi for the next several months. He is there on work assignment so his activity will be limited to his spare time. Activity this past week has been on 20 meters SSB. He is expected to operate CW once he finds a keyer. QSL via K5XK: Ron Evans, 2 Pembroke Drive,
Bella Vista, AR 72715-8823.

9L, SIERRA LEONE. Dr. Karl-Heinz Ilg, DK2WV, will once again be active from here this time with a team of operators. Karl informs OPDX that in June this year, during his stay in Sierra Leone, he not only operated as 9L0W, but had the honor of speaking to the President of the University of Freetown. He was asked if he (and others) could conduct a course in Amateur Radio. In October and November this year Karl and his team will volunteer to help in the planning of the technical promotion and conduct training courses for those who are interested in Amateur Radio. Furthermore, Karl will also present the university with materials and radio equipment. All training and activity is plannned to take place in the time frame of October 21st to November 11th, 2008. They expect to operate during this time under the same callsign, 9L0W. The German participants mentioned are Roland/DJ4LK, Franz/DJ9ZB, Karl/DK2WV, Hans/DL1YFF and one 9L1 national. All participants have a solid background of several successful DXpeditions. Activity will be on 160-6 meters. They are planning to operate with up to 3 stations, with amplifiers and different antennas. The antennas are Spiderbeams and for the low-bands phased arrays, K9AY loops and/or beverages are planned as low-band receiving antennas. QSL via DK2WV, direct (SASE w/sufficient funds to cover the postage) or by the bureau. E-mail requests will be sent via bureau, including those arrived without adequate funds. The 9L0W team is looking for sponsors to help cover the high costs of nearly 14,000 USDs for this operation in addition to the air fares of the participants. They are depending on donations from DX organizations. If you have any questions, please send them via E-mail to: k.ilg@arcor.de

BT1, CHINA (Special Event Stations Still Active!). The five special event stations continue to be active during the 2008 Beijing Olympics through September 17th. Each of the five different callsigns represent one of the 5 Olympic Games ring symbols: BT1OB for Beibei (blue), BT1OJ for Jingjing (black), BT1OH for Huanhuan (red), BT1OY for Yingying (yellow) and BT1ON for Nini (green). Activity will be on 160-10 meters using SSB, CW, and RTTY. The contacts can be used to apply for a "Beijing Olympics Award". Also look for operations on SSTV, PSK, the satellites, EME, and possibly other modes. Contacts using these modes will not be valid for the award. The QSL Manager for these special event stations is BA4EG, by the Bureau or direct. QSL cards will be sent out starting October 2008. A Web site is now active with news updates, station setup, logs, award info and QSL status, at   http://www.bj2008ses.com.cn

DXCC NEWS (DXCC YEARBOOK). The ARRL Letter reports: "DXCC Yearbook Includes Corrected DXCC Honor Roll: According to DXCC Manager Bill Moore, NC1L, the 2007 Honor Roll list published in the August 2008 issue of QST was inadvertently produced from a 'corrupted report feature' in the DXCC software. 'Since the DXCC Honor Roll report is too large for a line-by-line review, random samplings [of the list] were checked and many [listings] were found to be okay,' Moore said. 'It was not until the complete report was published that we found the report had more errors than originally thought. Publishing a simple correction in an upcoming issue of QST is not possible. We have expanded the 2007 DXCC Yearbook to accommodate a complete reprint of the 2007 Honor Roll list. This is something many of you have suggested in previous years. The 2007 Honor Roll list will also be published on the DXCC Web site and this list will be separate from the current 'live' online Honor Roll list. We regret any inconvenience caused by this and we appreciate your patience and understanding.' The 2007 DXCC Yearbook is the largest ever, with an additional 16 pages, and features articles about the year's DXing activities, the Clinton B. DeSoto Cup and DXCC Challenge standings. The DXCC Yearbook is mailed free to all ARRL members who have submitted a DXCC application between January 1 and December 31 of the prior year or are current on the DXCC Honor Roll. Copies are also available for 5 USDs plus postage. To get your issue, please send an E-mail to the ARRL DXCC desk <dxcc@arrl.org>."

ED7, SPAIN (IARU VHF Contest Op). Members of the Group Amateur Radio RASE Dx will be participating in the IARU VHF Contest (REG1) as ED7URD from September 6-7th. They will be transmitting from the Sierra Filabres (2.168m, Locator IM87), Almeria, Spain. In addition to their activity in the IARU VHF Contest, they will have two stations to put into the air on 50 MHz, as well as various tests on 1200 MHz using the callsign EA7URD/P. The team will consist of Jesus/EB7BMV, Jose/EB7COL, Manolo/EA7IHV and Jose/EC7DND. QSL via EA7URD, by the bureau or direct. Photos, log and details of the operation will be on the Web at:
http://www.rasedx.com

HC5, ECUADOR (Update/Change). Operators Hiro/JA6WFM, Nobuo/JA6GCE, Morita/JA6SOV and Naomi/JM6EBU will be active as HC5WW (not HD2A as previously announced) during the CQWW DX SSB Contest (October 25-26th), as a Multi-Single entry. QSL direct only to JA6VU.

IOTA NEWS..........................

AS-083. Vasily, RA9LI/9, is now active from meteorological station in the Arctic Ocean on Belyy Island (RRA RR-06-04, RDA YN-14) for an unknown length of time. He was heard on 14166 kHz this past week between 1530-1830z. This is valid for the Arctic Challenge Award. QSL via UA9LP.

EU-016. Tom, 9A2AA, is now active as 9A73AA/p from Korcula Island for about the next two weeks. Activity has been on 20 meters SSB and 40 meters CW. He is also expected to activate other nearby islands as 9A2AA/p. QSL via his home callsign, direct or by the bureau.

EU-017. Marco, IZ3GNG, will be active as ID9/IZ3GNG from Lipari Island (IIA ME-001, MIA MI-053, WLOTA LH-1144), August 20-22nd. QSL via his home callsign, direct or by the bureau.

EU-088. Bernd, DL8AAV, will be active as OZ/DL8AAV/p from Laeso Island (NK-003 for the Danish Islands Award), September 16-27th. QSL via his home callsign, direct or by the bureau.

EU-090. Operators Simon/IZ7ATN and Alessio/IZ0CKJ are now active as 9A/homecall/p from the Vela Palagruza on Palagruza Islands between now and August 23rd. Activity will be from the lighthouse there. Operations over the past weekend were on 20 meters SSB. They are expected to activate nearby islands (such as Galijula and Mala Palagruza). QSL via their home callsigns.

EU-127. Operators Karl/DJ5KK, Thorsten/DG7TG and Wolf/DK3KD will be active as DA0HEL from Helgoland Island (N-14 for the German Islands Award, WLOTA LH-0518), September 6-8th. They will be taking part in the IARU VHF Contest on 2 meters CW/SSB. Look for them outside of the contest on the HF bands. QSL via the DARC Bureau.

EU-170. Lada, OK1LO (aka 9A5LO), will be active as 9A5LO from the following Croatian islands (all count as EU-170) between August 18-27th: Pasman (IOCA CI-085), Ugljan (CI-134), Galovac (CI-604) and Osljak (CI-081). Activity will be on 160-10 meters using CW, SSB, PSK31 and RTTY. Equipment: Rigs: IC-706MKIIG (100w), FT-817ND (5w); Tuners: AT-180, AH-4, MFJ 941E; ANTs: dipole 2x 15m (160-10m); FD-4 (80-10m); GP-3 WiMo (10-15-20m) and LW 38m.

NA-234. Gianni, I1HYW, reports that a 10 minute video on the Web on the recent Chuginadak Island DXpedition by the Russian Robinson Club is available on YouTube at: http://it.youtube.com/watch?v=026fW4rYcwg&eurl=http://www.na-234.com/

KP2, U.S. VIRGIN ISLANDS (NA-106). Jaime, WP3A, will be active as KP2B from St. Croix, after August 20th. Activity will be on 40/20/15/10 meters CW, with some SSB on 15/10 meters. Look for him on 40 meters after 0400z and after 1100z on the other bands. He also plans to be active in both the CQWW DX SSB Contest (October 25-26th) and CQWW DX SSB Contest (November 29-30th) as a Single-Op/All-Band entry. QSL direct to EA7FTR.

KP5, DESECHEO (In Case You Missed It!). Over the past few weeks there has been speculation of an upcoming operation to Descheo Island (KP5) to take place in November. This bulletin is to provide the DX community with the actual facts on what has been going on and what will possibly happen.

Several DX publications were notified about two months ago that the United States Fish and Wildlife Service (USFWS) had decided to allow certain amateur radio operators who have made an inquiry about operating from Desecheo in the recent past an opportunity to submit a proposal (approximately 20 individuals). OPDX and others were told to NOT publish anything in fear of jeopardizing the process. As of this time, "NO ONE" has been selected to operate from KP5. The following information was provided by an "informed source" to bring everyone up-to-date and explain what events took place:

"There is a tentative agreement to facilitate access to the Desecheo Island National Wildlife Refuge by Amateur Radio operators in conjunction with future USFWS management activities in the refuge. The plan would allow Amateur Radio activation of Desecheo for up to 14 days under strict guidelines and close USFWS supervision.

USFWS expects to grant a Special Use Permit (SUP) for amateur radio operations to one group selected from among large number of prior applicants. These applicants have recently been contacted by the agency and provided a number of stringent requirements that must be met. They were told that if they are still interested in operating from Desecheo they had 45 days to submit a proposal. The letter was dated June 30, 2008, with an August 14th deadline. The final selection will be made based upon which proposal best satisfies USFWS requirements. The timing of this operation is still uncertain but is likely to be in the September through December 2008 time frame. The actual dates of the operation are dependent on a number of variables, but the team and Dxers should have a minimum of 30 days notice.

We are not sure, but we believe as many as a dozen proposals have been submitted. Apparently, the final selection will be made by a three person panel. Continue to remain patient as the selection process proceeds. Apparently, Dxers worldwide can look forward to the first USFWS-authorized activation of Desecheo Island in many years."

ADDED NOTE: Last good operation took place in December 2005, which was a short DXpedition by Kam Sirageldin/N3KS and Dave Collingham/K3LP as KP5/N3KS and KP5/K3LP.

M, ENGLAND (EU-005). Nilay Mine/TA3YJ and Berkin/TA3J will be active as M/TA3YJ and M/TA3J from London between September 10-17th. QSL via TA3YJ QSL Service (http://www.aydogmus.gen.tr/ta3yj).

P2, PAPUA-NEW GUINEA (Three IOTAs to be Activated!). Operators Al/AD6E, Derek/G3KHZ. Hugh/K6HFA, Luis/CT1AGF and Skip/W5GAI plan to activate three IOTAs between October 17th and November 5th. Their tentative plans are:

- OC-181 - Garove Island; October 20-26th; callsign P29VLR; QSL via SM6CVX.
- OC-041 - Hermit Island; October 28th-November 3rd; callsign P29NI; QSL via G3KHZ.
- OC-025 - Manus Island; November 4th; callsign to be determined; QSL via K6HFA.

PLEASE NOTE: Hugh, K6HFA, will stay longer on Manus between November 4-9th. For more details, log search and pictures, please see the following Web page at: http://www.425dxn.org/dxped/p29_2008/

QSL INFO AND NEWS....................

NOT THE QSL MANAGER. Nilay, TA3YJ, reports that she is NOT the QSL Manager for 6W1SJ, TB0DX and TG9NX.

QSL STATUS FOR S21XF, 9N7YJ, MI0YJR, ST2YJ, JW5YJ, XU7ACW. Hugo, LA5YJ, informs OPDX readers of the following: "The cards for the S21XF operation is on its way, should arrive within a day or two, and will be dealt with

accordingly. The log is available on: http://www.eqsl.net
Cards for ST2YJ still go to LA4YW, all others to LA5YJ. I have just finished all bureau cards for 9N7YJ and XU7ACW, unfortunately late, because of my work in different countries, among that a year in Pakistan. Things have a tendency to pileup on you, and the fact that it's all paper logs didn't make it any better. Important! Please note that I will close the logs for 9N7YJ as per 31st of December 2008. If you need a card from this operation I kindly ask you to send this directly to me. Remember, SAE and one IRC or equivalent. If you have sent a card via the bureau please do not send any cards again; they have all been replied to. Thank you all for your cooperation.....
Kind regards, LA5YJ Hugo B. Ark, (Rute 509, N-1766 HALDEN, Norway)"

QSLS VIA LOTW: FH1LE and TF/DL3PS

QSLS RECEIVED VIA MAIL: C91OK

QSLS RECEIVED VIA THE BUREAU: None reported this week!

TN, CONGO. Nicolas, F8FQX, will be in Brazzaville for the next 3-4 years starting on August 20th. His activity will probably not start until late October or early November. Nicolas has applied for a callsign and is hoping to receive TN5SN. Activity will be on 160-6 meters using CW, SSB, RTTY and PSK31. QSL via IZ1BZV. Look for updates and a log search on:
http://www.f8fqx.fr

TO4G, GLORIOSOS. Didier, F5OGL, Gloriosos 2008 team leader, announced on August 13th, that he wanted to stop the spreading of "numerous rumors" by non authorized hams about the dates of the next Gloriosos 2008 DXpedition. He states, that on the island, the anti-cyclonics shelters building are nearly finished and the French Army sovereignty personels and the return of the building workers will take place at the end of this month. At the beginning of September, after the last checkings on the installations, especially the electrical work, all the heavy building gear will be evacuated from the island. Didier states that he is "in very close contact with the military authorities of the French Forces for the South zone" in the Indian Ocean. He has also met the new HQ Chief Warrant Officer before he started his new 3 year assignment in the zone. He assured Didier of "support and help for this expedition". The only problem they have is local logistic, especially the dates for the use of military planes flights and boat departures. He assures that all the necessary authorizations are in hand. Didier states, "Believe us about our will to do a most perfect as possible DXpedition to the Glorioso. For that, safety first is our goal." All operators are personels of the French Military Defense, and they all have professional assignments which has priority over all, including the DXpedition. No civilian operators are allowed in the crew. Currently there are NO fixed dates for this operation, but Didier is doing his best to lead a DXpedition to Gloriosos before the end of this year. He also states, "It must be said that without all combined elements gathered, I prefer postponing the operations as often as it will be necessary. I continue to work hard to put the Gloriosos on the air and know that's not very easy..... 73's de Didier, F5OGL"

V4, ST. KITTS (NA-104). Dave, AH6HY, will be active as V4/AH6HY between September 26th to October 3rd. Activity is planned for 40-10 meters SSB only. QSL via his home callsign.

VK9, WILLIS ISLAND (Update). Excerpts from the VK9DWX Web site state that the DX team has been busy last week testing all antennas and getting nearly everything ready to ship. Dale, VK4DMC, got all their tents and also tested them. So they are ready to be built on Willis Island City. All the heavy items and Peli Cases were brought together in Goch at the location of DR1A where a workshop was set up. On a 5-day-weekend, Markus/DJ7EO, Jorg/DL8WPX, Dieter/DL8OH and Chris/DL1MGB put all the material into boxes, cases and tubes, labeled them and prepared the shipping documents. The week after the material was transported to the harbor of Hamburg where it is now waiting for being shipped to Australia. In total they packed 29 cases, boxes and tubes with a total weight of over 1,300kg. This included the following main items:

5 ACOM1000 amplifiers
Over 1000m of coax cable
Nearly 300m of power cable
All antennas
Power distributions
Tools
Most parts of the station equipment...

Transceivers, notebooks and MK2s will be carried on the flight baggage as they have to be tested in advance in Germany for proper interaction. The VK9DWX team now offers a "Newsletter" via E-mail. It will inform you about the latest news available about their DXpedition. The only thing you have to do is subscribe via their Web page (in the News section) at:

http://vk9dwx.de/news/index.php

YO DX HF CONTEST. Ovidiu, YO2DFA, informs that the Romanian Amateur Radio Federation (FRR) is inviting all radio amateurs all over the world to participate in the annual YO DX HF Contest, August 30-31st (from 1200-1200z). Rules can be found on the following Web page at:

http://www.hamradio.ro/media%5Cfiles%5Creg%5CYODX_HF_2008.htm

Results of 2007 edition could be found at:

http://radioamator.ro/contest/us/yodxhf2007/

All the participants who will fulfill the necessary requirements during the contest (worked 10 members) will receive free a WORKED YO DX CLUB MEMBERS Award. The complete list of YO DX CLUB members can be found at:

http://www.radioamator.ro/yodxclub/membri.php

ZD9, TRISTAN DA CUNHA ISLAND (Update/Possible Change Of Plans!). The QSL Manager W0MM reports that Tom's, ZD7X (KC0W), last day on St. Helena was August 11th. Since September 2007, Tom made over 45,000 QSOs on the HF bands. Tom was expected to go to Tristan da Cunha after St. Helena (see OPDX.854), however, it seems "there is a 90% chance of no Tristan right now". Reasons were not given, but reportedly there is "bunch of reasons!". If ZD9 does not happen, Tom is planning to go to Qatar (A7) and will apply for a licence there. If A7 does not work out, he will then head to Asia. Stay tuned!

ZP, PARAGUAY. Operators Jan/DL7UFN and Rolf/DL7VEE will be active as ZP6/homecall from Tom's ZP5AZL/ZP0R station, September 4-14th. Activity

will be on 160-10 meters using CW, SSB, RTTY and some PSK. QSL via his
home callsign.

ZS8, MARION ISLANDS. There is still no activity reported. For updates
and the first offical announcement of ZS8T being on the air, please
visit the official ZS8T Web site at: http://zs8t.net

C6 - BAHAMAS, NA-080
Frank,K3TRM, intends to be active as C6ARM from NA-080 from Aug 18-28.
He plans to work in SSB, CW and RTTY on 80m-10m.
QSL cards should be sent direct or via bureau to his homecall.

CN - MOROCCO
The call CN33M can be found on the air until Aug 26. The OP is CN8PA
and QSL cards should be sent via EA7FTR.

GJ - JERSEY ISLAND, EU-013
Oliver,MJ/OE5OHO, Henry,MJ/OE5HDN, and Gerhard,MJ/OE3GEA, will be QRV
in holiday style working in CW/SSB on all HF bands from Aug 21-26.
Please send your QSLs preferably via bureau to the specific operator.

KP2 - US VIRGIN ISLANDS, NA-106
Jaime,WP3A, plans to show up as KP2B from St. Croix (NA-106) in CW
on 10m/15m/20m/40m and maybe also in SSB on 10m/15m after Aug 20.
QSL via EA7FTR.

KP5 - DESECHEO ISLAND, NA-095

The group which announced to activate Desecheo as K5D during November probably was a little too optimistic (see DXNL 1584). Though the OPDX published a special bulletin announcing something new it turned out that DXpeditioners are urged to submit a concept for a DXpedition to the responsible "United States Fish and Wildlife Service" (USFWS) until August 14. The final selection will be made based upon which proposal best satisfies USFWS requirements. If at all a possible operation could take place any time between September and December 2008. The last amateur radio activity from Desecheo which was approved for DXCC credit was made by KP5/N3KS and KP5/K3LP in December 2005.

TA - TURKEY, IOTA-new

Karl,TA0/WA2KBZ, is active from Buyukada Island (no IOTA reference yet) until Sep 1. Buyukada Island is situated in the Sea of Marmara. Karl is working with 60 watts and a dipole mostly in CW on 40m/30m/20m/17m. QSL via homecall.

TN - CONGO

Nicolas,F8FQX (http://www.f8fqx.fr), starts his soujourn in Congo lasting three to four years on Aug 20. He applied for the call TN5SN and hopes to become active in CW/SSB/RTTY/PSK31 on 160-6m by the end of October or beginning of November. QSL via IZ1BZV.

VK9/C - COCOS (KEELING) ISLANDS, OC-003

Giovanni,I5JHW, announced to hit the airwaves as VK9CJW from Aug 22-29. He will activate OC-003 working in a holiday style in SSB/RTTY on 10m/12m/15m/17m/20m/40m using a linear amplifier and a multi-band vertical antenna.
QSL cards will be confirmed by Giovanni himself direct or via bureau after his return home. See also: http://www.ik5run.it/vk9cjw.htm

ZD9 - TRISTAN DA CUNHA AND GOUGH ISLANDS, AF-029

After his several months lasting activity from St. Helena (more than 45.000 QSOs) Tom (ex-ZD7X) is now staying in South Africa from where he planned to travel to Tristan da Cunha. Latest rumours are not so good for an operation as ZD9X from AF-029. If he is not able to become active from Tristan da Cunha Tom thinks about moving to Qatar (A7) or another Asiatic country.

ZS - REPUBLIC OF SOUTH AFRICA

Franz,DL3PS/HB9EHQ, will be on a business trip in Johannesburg between Aug 25 and Sep 12. He plans to become QRV as ZS6/DL3PS in SSB/CW and digital modes on 10m bis 80m during his spare time. QSL direct or via bureau to HB9EHQ.

5Z - KENYA

Valery,RW1AU, is working in Nairobi at the moment and sometimes shows up as 5Z4/RW1AU from the clubstation 5Z4RS. Lacking a morse key Valery is working in SSB only at the moment. He will stay there for a few months and his QSL manager is K5XK.

9L - SIERRA LEONE

Karl-Heinz,DK2WV, who was active as 9L0W in June had a meeting with the president of the University of Freetown and discussed the possibilities of starting an amateur radio class. His application was accepted and thus Karl-Heinz,DK2WV, Roland,DJ4LK, Franz,DJ9ZB, Hans,DL1YFF, and a local OM will tackle this project from Oct 21 until Nov 11, 2008. Furthermore they will be QRV as 9L0W on 6-160m with three stations simultaneously (including amplifiers). They are looking for sponsors because they still need 14.000 US$. If you like to support this project please send an e-mail to Karl-Heinz: k.ilg@arcor.de

SPAIN - SPECIAL EVENT STATIONS

AO5FI will be activated during the Formula 1 GP (Valencia, Aug 24) from Aug 22-24. QSL via EA5URV.
Other amateurs from the region may use special prefixes like ED and AO.

S2 - BANGLADESH

The ARRL spreads the news that there will be new amateur radio exams and licences in Bangladesh soon. The last licences were issued in 2004. Yet it is not clear whether stations which were active from Bangladesh after 2004 will be accepted for DXCC credit. Exams will be given on a monthly basis beginning on Aug 13.

SILENT KEY

The American OPDX Bulletin writes that "Rod" Gagnon,VE2NN, passed away on Jul 14. He was a much sought QSO partner from zone 2 for many years.

The firefighter Bob Leek,VE3TFD, died after an explosion of propane on Aug 10 at the very young age of 25 years.

DXCC: The DXCC Yearbook 2007 will be published during these days and the DXCC manager Bill Moore,NC1L, points out that there will be a corrected DXCC Honor Roll list included. Like announced before the list which was printed in the QST was not correct. The DXCC Yearbook 2007 includes also several DXpedition reports and the current standings of the Clinton B. DeSoto Cup and the DXCC Challenge. With 16 additional pages it is the largest yearbook ever and free of charge for all those ARRL members who submitted their QSLs to the DXCC Desk last year. Non ARRL members can buy it for 5 US$ plus postage and should send an e-mail to the DXCC Desk (dxcc@arrl.org).

SOTA: LA, SM and S5 became new active chapters within the SOTA program during this year. Several attempts of Luc,ON6DSL, to activate a summit on SV9 in August were not successful because the QRM is tremendous in the Cretan mountains. The few "mountains" in The Netherlands will be added to the SOTA program on Sep 1.

The "CW Skimmer" enjoys a growing popularity within the DX and contest communities. This is a software which scans the band for DX stations working in CW and helps the operator with this tiresome work. Using this software in CQ contests will move you to the assisted category automatically: http://www.radio-sport.net/skimmer_cqww.htm

IOTA   collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:

AS-027, R0K, Vrangelya (Vrangel) Island: There is a good possibility that Vrangel Island will show up on the bands by the end of August. The team will try to activate AS-027 during the expedition of the "Akademik Fedorov" to put up the drifting polar base SP36. The calls will be UE0MAC/0, UA6LP/0 and RZ6MZ/0 but the exact date of the operation depends on the Arctic weather.

EU-017, ID9, Eolie (Lipari) Islands: Marco,ID9/IZ3GNG, is working from Lipari Island (IIA ME-001) from Aug 20-22. QSL via homecall.

EU-048, F, Bretagne (Morbihan) Region Group: The French "Sevran F5KKD ARC Gulls Team" plans an activity as F5KKD/p from Belle-Ile-en-Mer (AT-015) from Aug 20-24. QSL via F5KKD (direct/bureau).

EU-068, F, Bretagne (Finistere SW) Region: David,F4FDA/p, Dimitri,F0FLH/p, and Bastien,F4EYQ/p, are working from Sein Island (AT-007) from Aug 20-24. QSL via F5KKD (bureau/direct).

Latest NEWS/INFO for the NEWSLETTER

MMMonVHF The VHF-DX-Portal

NEW and EASY LAYOUT at the "LATEST NEWS" section of MMMonVHF

We are happy to present you our rebuilded LATEST NEWS section. The new layout is more simpler and you have several filter possibilities, too. Beside that Ansgar, DG2KBC, tried to simplify the layout, he tried as well to improve the functionality. You have now a couple of filters, which you can easily select and combine to each other. The pulldown filters work pretty easy. Just select it and use it. The callsign filter searches for your search string in the whole callsign column. So now ALL(!) LATEST NEWS at MMMonVHF are available on ONE(!) PAGE (not as it was seperated in DXP and EVENTS). Have a look if you use all different Filters (BAND, ACTIVITY and TYPE) set to "ALL". For example you wants only see 144 MHZ EME DXP - set the FILTER: BAND: "144" , ACTIVITY: "EME" and TPYE: "DXP" - if you wants to see every NEWS at Topic 144 MHz MS use BAND: "144" ACTIVITY "MS" and TYPE: "ALL". Try it and see how much will be possible now! With a Double Click on the line of the wanted call in the overview you will get the total News under the OVERVIEW (scroll down) itself (so NO new window anymore!) More info at:
http://www.mmmonvhf.de/minibb/index.php?action=vthread&forum=2&topic=42
Of course you are welcome with further suggestions how to get it more suitable for the user of MMMoNVHF...

Perseids 2008 overview & next meteor showers (August / September)

Perseids shower�s period of maximum activity is over now. It has provided some surprises both for visual and radio observers, since its maximum of activity has been detected around 02 UT of August 13 (ZHR of 138 meteors per hour!) several hours after the predicted maximum. Have a look to a brief Perseids overview in our MS-Propagationpage:
http://www.mmmonvhf.de/ms.php
where you can also find informations and a forecast about next meteor showers in August and September...

Dr. Karl-Heinz Ilg, DK2WV, will once again be active from 9L0W this time with a team of operators. Karl informs OPDX that in June this year, during his stay in Sierra Leone, he not only operated as 9L0W, but had the honor of speaking to the President of the University of Freetown. He was asked if he (and others) could conduct a course in Amateur Radio. In October and November this year Karl and his team will volunteer to help in the planning of the technical promotion and conduct training courses for those who are interested in Amateur Radio... All participants have a solid background of several successful DXpeditions. Activity will be on 160-6 meters.

And after the Perseids, what�s next?

After spectacular 2007 Outburst, a-Aurigids shower is likely to return to its normal level of annual activity (ZHR around 10 hr-1). a-Aurigids peak is expected to occur August 31, at 19 UTC. Among other minor showers, September Perseids (maximum September 9, 03 UT), daylight ?-Leonids (maximum August 25, 04 UT) and d-Aurigids (broad maximum around september 28), are characterized by rather low ZHR so they will unlikely be distinguishable by the sporadic meteors background. *** SPECIAL NOTES FROM EDITOR (by Tedd/KB8NW): My BARF80 Linux system is still in "LIMBO", so I continue to retrieve my E-mail and send the bulletin out via my ISP (hamnet.org) direct (until a new Linux system can be found or put together). Hopefully, things will get back to normal soon.

Lastly, OPDX's Chief Proof-Reader, Linda my wife, had her surgery on Monday to have her gall bladder removed and I am pleased to say she had no complications during her procedure. She is, however, sore and recovering at home. Thanks to the individuals who sent her get well messages.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 17th/August, through Sunday, 24th/August there were 208 countries active. Countries available: 3A, 3B8, 3B9, 3V, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9X, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FW, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J6, JA, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, TA, TF, TG, TI, TJ, TK, TL, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2V, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YL, YN, YO, YU, YV, Z2, Z3, ZB, ZC4, ZD7, ZD8, ZL, ZP, ZS

Activity will be holiday style (they are celebrating 40 years of marriage) using an IC-7000 with 100w into wire antennas and Quad Loop for 6m (if propagation permits). QSL via DL1BKK, direct or by the bureau. PLEASE NOTE: NO eQSL please! No upload to LoTW!

C6, BAHAMAS. Frank, K3TRM, will be active as C6ARM from Treasure Cay (NA-080 - Little Bahama Bank IOTA Group) between now and August 27th. Activity will be on 80-10 meters using CW, SSB and RTTY. The villa where he is renting has two verticals, one for 20-6m and another for the lower bands. He was heard this past weekend on RTTY on 30/20 meters as early as 1500z and between 2130-0200z. Also, watch 80 meters SSB after 0130z. QSL via K3TRM, direct (w/SASE) or by the Bureau.

CN, MOROCCO. M'hamed, CN8NK, will be active as CN4P during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-O/Single-Band (band not provided) entry. QSL via EA5XX.

CONTEST DATE CHANGED. The dates for the 2009 CQ WW 160 Meter Phone Contest has been postponed by a week to avoid conflict with the ARRL DX CW Contest. The 2009 CQWW 160 Meter Phone Contest will now take place between February 27th and March 1st, 2009.

DXCC NEWS (DXCC Rule Removal). Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 18th) the following from the July 2008 ARRL Board of Directors Meeting: "The Board also acted on the Programs and Services Committee report, voting to eliminate Rule 5 from Section III of the DXCC Rules. The Committee realized that while publishing log data can have a detrimental effect on operating awards, it was not possible to control such actions and the rule cannot be enforced. As part of an effort to maintain the integrity of operating awards programs, the Board called on staff to create resources and guidelines for QSLing and for QSL managers. These guidelines will help people who QSL to understand the 'best practices' and help to support the work of the QSL manager so that access to log data won't degrade Amateur Radio's long tradition of the 'honor system'."

The rule reads:

5. The presentation in any public forum of logs or other representations of station operation showing details of station activity or other information from which all essential QSO elements (time, date, band,

mode and callsign) for individual contacts can be derived creates a question as to the integrity of the claimed QSOs with that station during the period encompassed by the log. Presentation of such information in any public forum by the station operator, operators or associated parties is not allowed and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made. Persistent violation of this provision may result in disqualification from the DXCC program.

"This rule cannot be enforced. In its place staff will create resources and guidelines for QSLing and for QSL managers in order to maintain the integrity of operating awards programs."

EA8, CANARY ISLANDS. George, GM0IIO, will be active as EA8/GM0IIO from Playa Blanca, Island of Lanzarote (S-007 for the Spanish Islands Award, WLOTA LH-0099), August 23-31st. Activity will be holiday style, mainly on 20 meters CW and SSB. He will be using a FT-857 and fishing pole vertical antenna. QSL via his home callsign.

EY, TAJIKISTAN. Nodir, EY8MM, from Dushanbe, plans to be active during this year's CQWW DX SSB Contest (October 25-26th) and CQWW DX CW Contest (November 29-30th), as a Single-Op/Single-Band (80m) entry. QSL via K1BV. PLEASE NOTE: Nodir will pay special attention for NA (he needs LA, ND, NE and WY). Also, visit Nodir's Web page at: http://www.ey8mm.com

H7/YN, NICARAGUA. Ralph, K9ZO, will be active from the QTH of YN2N between November 24-30th. He plans to be active during the CQ World Wide CW DX Contest (November 29-30th), tentatively as H7/K9ZO or possibly as YN2ZO.

HB0, LIECHTENSTEIN. Operators Rainer/DL1ZBO, Tilman/DJ5BX, Thomas/DK9FEC Peter/DL1FX and Ekki/DF4OR will be active as HB0/DK9FEC during the CQWW DX RTTY Contest (September 27-28th) as Multi-Op entry. QSL via DK9FEC.

IOTA NEWS......................

AF-018. Martin, OL5Y, will be active as IH9N from the African Italy Island of Pantelleria during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via OK1MG.

AS-027. There is a good possibility that Vrangel Island (Wrangel) will show up on the bands by the end of August. A team of operators will try to activate this IOTA during their trip aboard the "Akademik Fedorov's" expedition heading towards the drifting polar base SP36. Their expected callsigns will be UE0MAC/0, UA6LP/0 and RZ6MZ/0. Exact dates of the operation depend on the Arctic weather.

AS-045. A team of 8 Korean operators will be active from Tok Island using a specially issued callsign D9D between September 13-18th. However, some operators may sign as homecall/5 (ex. DS2GOO/5) sometimes for individual purposes. Operators mentioned are: Kim/HL2CFY, Han/DS2GOO, Kweon/DS2GXU, Lim/DS2HRE, Jeong/6K2ABX, Song/6K2BWA, Cho/6K2FNN and Seok/6K2GDT. Activity will be on

80-10 meters (including 30/17/12m) using CW/SSB/FSK/PSK31. They plan to use 4 HF Transceivers with two 600 watts linears with various vertical and wire antenna systems. QSLs for D9D go via 6K2BWA. All others via their home callsigns.

EU-007. A four man team will activate Ireland's most difficult IOTA, The Great Blasket Islands, between September 10-14th. EU-007 is quite rare and ranks amongst some of the most needed IOTAs throughout Europe. Activity will be on 80-10 meters using both CW and SSB. The team states that the landing on EU-007 "can be (and often is) difficult, and quite often, there can be no sailings for days. Please excuse if there should be any delay but this would be beyond our control." Operators mentioned are: Jeremy/EI5GM, Mark/G4AXX, Dave/EI9FBB and Dave/EI4BZ. QSL via EI9FBB, by the bureau or direct to: David Deane, 7 Spriggs Road, Gurranabraher, Cork City, IRELAND. A special double folding card will be available to commerate this activation. QSOs will be uploaded to LoTW and eQSL in due course. For more details, please visit:
http://blasketisland2008.blogspot.com

EU-010. Rob, DK1ROB, will be active as MM/DK1ROB from the Isle of Barra (IOSA OH-11, SCOTIA HI-02, WW Loc. IO66GX) between September 28th and October 3rd. Activity will be on 40-2 meters and 70cm using SSB, RTTY and possiblye PSK63. His antennas are: Inverted Vee for 40m, 5-band Spiderbeam for 20-10m at 15m AG, 3-element beam for 6m at 5m AG, and a vertical for 2m/70cm. QSL via his home callsign, direct or by the bureau.

EU-032. Gerd, DK8NT, from Oleron Island (DIFM AT-025, also counts for WLOTA LH-1369) between now and September 5th. Callsigns and bands/modes of activity were not provided. QSL via his home callsign, direct or by the bureau. Note: no eQSL please.

EU-049. Gabi, HA1YA, will be active as J48YA from Limnos Island (MIA MG-065, WLOTA LH-1740, Grid KM29), Greece, August 25-31st. Activity will be on HF, 6 and 2 meters. HF equipment is an IC-746 using a SQ vertical for HF, a simple wire delta loop for 6m, and ME1500-V and DL6WU portable antenna for 2m. He plans to be active during the evenings and mornings. QSL via his home callsign.

EU-099. Operators Charles/M0OXO and Nigel/M0NJW have been invited back to operate from Maitresse Island, Les Minquiers Islands. Next year between July 22-30th (2009), they will use the callsign GB8LMI. QSL via M3ZYZ: Charles Wilmott, 60 Church Hill Royston, Barnsley, South Yorkshire S71 4NG England. For updates and more information, visit their web site at:
http://www.gb8lmi.co.uk

EU-111. Four members of the Cambridge University Wireless Society are planning to be active as GM6UW/p from the Monach Islands from mid-afternoon on August 27th until mid-morning on the 28th. The operation depends on wind and sea conditions. Operators mentioned are: G3ZAY, M0ERY, M0FFX and M0SCH.

EU-123. Members of the newly formed Middlesex DX Group will be active from Arran Island (IOSA CL01, SCOTIA CS14, Grid IO75KM), October 4-10th. The team of operators will use two callsigns:
MS0MDG/P - Will be used for SOTA and HF portable activity.
GB0MFG - For the base operations.
Activity will be on 160 meters through 23cms. Operators that were mentioned are John/G0KLX, Kevin/G1KAW, Simon/2E0VAG, Chris/2E0CMG, Carl/2E1IDC, Michael/G3WOE, Lee/2E0JDC and Jason/M1PRO. QSL Manager is 2E0VAG (direct or by the Bureau).

EU-174. Laci, HA0HW, will be active as J48HW and SV8/homecall from Thassos Island, Greece (MIA: MG-124, GIOTA: NAS-037, WLOTA: 4186, Grid KN20hs) between August 30th and September 10th. Activity will be on the HF bands (mainly on 40/30/20/17 meters and mainly on CW, with some SSB, RTTY and PSK31 as well), and 6 meters. QSL via his home callsign, by the HA Bureau or direct.

EU-176. Operators Jorgen/SM3CXS and Sten/SM3NXS will once again be active from Grimskar Island as SG3U and SD3N, respectively between August 29-31st. Activity will be on 80-10 meters CW/SSB. QSL via their home callsigns, by the bureau or direct.

NA-029. George, K3GV, will be active as K3GV/VY2 from Prince Edward Island (CISA PE-001), between September 1-22nd. Activity will be on 20 and 15 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

NA-067. Mike, KC2SDG, will be operating beachside as homecall/p from Hatteras [aka Pea] Island (USI NC-005S, WLOTA LH-3913, Dare County, North Carolina), between now and August 30th. He will use a Kenwood TS-480SAT w/100w into a rotatable dipole capable of communication on 80/40/20/2/1.25 meters and 70cm. QSL via LoTW only.

SA-057. Members of the Sacramento Radio Club (CX2FAA) will be active as CX1F from San Gabriel Island (SA-057), Uruguay, November 15-16th. Operators mentioned are: Ricardo/CX5FT, Viterbo/CX9FD, Italo/CX3FG, Marber/CX9ACK and Walter/CX6FF. Activity will be on or around the usual island and IOTA frequencies. QSL via CX2FAA: Fernando Carballo S/N, C.A. El General, CP 70.000, CC 39073 Colonia del Sacramento, Colonia City, URUGUAY. More information is available on their Web site at:
http://cx2faa.iespana.es

NA8, UNITED STATES (Special Event). Members of the NASA Glenn Amateur Radio Club (NA8SA) in Cleveland, OH, will be active daily (2200-0500z) between October 1-6th. Activity is to celebrate the 50th anniversary of the beginning of NASA operations. Suggested frequencies are: 14280, 7280, 3880 and 1880 kHz. QSL via: NASA Glenn Amateur Radio Club Lewis Field, 21000 Brookpark Rd, MS 8-1, Cleveland, OH 44135-3191. Their Web page is at: http://www.grc.nasa.gov/WWW/Clubs/NA8SA

PZ5, SURINAME. Members of the Czech and Slovak OM0C Contest Crew is pleased to announce a DXpedition to Suriname and is expected to be active from here between October 21-30th. Activity will be on all HF bands (160-10m) and VHF (6 and 2 meters), with a focus on the lower bands, especially 160m and EME on 2m. It will be a very first time in Suriname for EME 2m operations. Operators mentioned are Rich/OM2TW, Joe/OM5AW, Steve/OM5AA, David/OK1RK, Vlada/OK1NY and possibly others. Operators will also be active as PZ5Z in the CQ World Wide SSB DX Contest (October 25-26th) as a Multi-Op or Multi-? entry. QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P. O. Box 6, 82008 Bratislava 28, SLOVAKIA. Visit their Suriname 2008 PZ5Z Web site at: http://www.om0c.com/suriname

QSL INFO AND NEWS....................

John, 9M6XRO (ISWL 9M6-6982), reports: "My QSL Manager Tim, M3SDE, has successfully upgraded his license and his new call is M0URX. Some QSL Manager lists have already been amended and this appears to be causing some confusion among DX-ers who have started asking if my QSL route is via M3SDE or via M0URX. If they make a quick check on QRZ.com they will see that M3SDE and M0URX are one and the same person with the same mailing address. This morning I changed all my calls on QRZ.com to show "QSL via M0URX". Tim has also retained the call M3SDE and has made arrangements with the RSGB QSL Bureau to receive all cards which arrive for M3SDE. I want to re-assure everyone who has sent a card via M3SDE that these QSL cards will still reach Tim and he will reply to all incoming cards as usual. M0URX is now listed as QSL Manager for my calls, as follows: 3DA0OK, 9M6/G3OOK, 9M6XRO, 9M6XRO/P, A25OOK, C91XO, G3OOK, GM3OOK, V8FRO, XU7XRO and ZS6/GM3OOK"

RARE GRIDS (SD, ND, MT) TO BE ACTIVATED (Satellites). Joe, KK0SD, will be going on a trip that will pass through some rare grids. This is not a grid expedition and the main purpose is work related travel. The person Joe is traveling with has agreed to a few "rest stops" for him, and using a hand-held and arrow antenna, he will try to activate the following grids possibly August 29 or 30th: EN-15, EN-05, DN-95, DN-85, DN-86, DN-76, DN-66, DN-65, DN-55. Please listen for him on AO-51, SO-50, and AO-27. Joe states, "I cannot guarantee exactly when I will be in which grid.... I don't expect to make every pass, but I hope to get quite a few of them." He adds, "If you really need EN-15 or EN-05 they are not that far from my home and I would be willing to do a sked." His E-mail address is:

S2, BANGLADESH. The ARRL is spreading the news that there will be new amateur radio exams and licences in Bangladesh soon. The last licences were issued in 2004. But thanks to the efforts of the Bangladesh Amateur Radio League (BARL), the country's IARU Member-Society, the Bangladeshi government will once again issue ham licenses; exams will also be given on a monthly basis beginning August 13th, 2008. For more details, please read the info on the ARRL's Web at:

S2, BANGLADESH (IOTA DXpedition). Tutul, S21RC and possibly 3 other S2 operators are preparing a DXpedition in December to St. Martin's Island (AS-127) located in Chittagong Region Group. Dates are not confirmed yet, but they plan to stay 6 days on the island. A special callsign is pending and will be announced later. St. Martin's Island is a small island in the northeast part of the Bay of Bengal, about 9 km south of the tip of the Cox's Bazar-Teknaf peninsula, and forming the southernmost part of Bangladesh. It is the only coral island in Bangladesh. It is about 8 km west of the northwest coast of Myanmar at the mouth of the Naf River. The local name of the island is "Narical Gingira", also spelled "Narikel Janjina/Jinjera", translated from Bangla, meaning "Coconut Island". They currently can only set up one station and are looking for help and funds for this DXpedition. For more details and information on how to help, please visit: http://eb7dx.com

SV9, CRETE (EU-015). Ben, DL6FBL, will be active as SV9CVY during the CQ World Wide DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via SV9CVY.

TA0, TURKEY. Urcun, TA0U, informs OPDX that he will be active through the end of September in the following contests: YO DX HF Contest (August 30-31st), All Asia DX SSB Contest (September 6-7th) and Worked All Europe DX SSB Contest (September 13-14th). PLEASE NOTE: Urcun was active using the special callsign TC1EU on SSB during the European HF Championship (August 2nd). He informs that the log is now available at:

http://www.ta0u.com/detay.asp?id=4278

XU, CAMBODIA. Yu, 7K3BKY, will be active as XU7YYY from Sihanoukville between September 3-8th. Activity will be mainly CW. He will also try to be in the All Asia DX SSB Contest (September 6-7th). QSL via 7K3BKY.

XW, LAOS. Bruce, XW1B, has been fairly active on 40/30/20 meters this past week. Activity has been mainly CW and RTTY. Operations have been as early as 1130z for a few hours and again later between 1500-1700z or after 2330z. NO set pattern on mode or frequency. Look for him to be very active until August 27th before he heads to the U.S. for a holiday. Bruce is not expected to return to XW until the end of September. QSL via E21EIC.

YO DX HF CONTEST (Correction). Last week we mentioned that the annual YO DX HF Contest will take place August 30-31st (from 1200-1200z). Rules can be found on the following Web page at:
http://www.hamradio.ro/media%5Cfiles%5Creg%5CYODX_HF_2008.htm
However, please correct the following: "All the participants who will fulfill the necessary requirements during the contest will receive a free "YO AD AWARD" (1st Class), not the "WORKED YO DX CLUB MEMBERS Award" as mentioned.

ZD8, ASCENSION ISLAND (AF-003). Steve, G3ZVW, will be active again as ZD8N from August 27th to September 11th. Activity will be on the HF bands using only 100 watts to dipoles. He will be mainly active during his evenings and the weekends using CW, SSB and RTTY. QSL via G3ZVW, direct or by the bureau.

ZM2, NEW ZEALND. Operators Lee/ZL2AL, Stan/ZL2ST, Peter/ZL2LF, John/ZL2QM, Mike/ZL2CC, Chris/ZL2DX, Mike/ZL2FAR, Gary/ZL2IFB and Wayne/ZL2WG will be active as ZM2M from Napier, New Zealand (OC-036, also counts for WLOTA LH-0069) for the CQWW DX SSB Contest (October 25-26th), as a Multi-2R entry. QSL via ZL2AL, direct or by the bureau.

ZS, REPUBLIC OF SOUTH AFRICA. Franz, DL3PS/HB9EHQ, will be active as ZS6/DL3PS in Johannesburg between August 25th and September 12th. His activity will be limited to his spare time because he is there on a business trip. However, look for him to be on 80-10 meters using CW, SSB and the Digital modes. QSL direct or via the bureau to HB9EHQ.

ZS8, MARION ISLANDS. There is still no activity reported. However, Rhynhardt, ZS6DXB, ZS8T Press Officer, reported the following this past week (dated August 21st - edited): "In April, Petrus, ZS6GCM, arrived on Marion Island to begin a year of work. Sometime in May he erected the SteppIR vertical he took along and ran into a few difficulties. He did make one contact during the month but efforts to resolve these difficulties were unsuccessful and Petrus' work commitments impeded our efforts to communicate via other methods with Petrus.

It has been over two months since we have heard from Petrus and are as much in the dark as the DX Community as to his plans.

At this point we are at a loss why Petrus has not been able to find time to put ZS8T on the air, he certainly made the efforts to obtain permissions and training before leaving for the Island. We must assume his job as administrator to the scientific community was much more than he contemplated. Petrus is on Marion Island for 7 more months.

If and when Petrus surfaces we will inform the DX Community. We are as disappointed as you...... 73, Rhynhardt Louw, ZS6DXB"

For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

DXNL 1586 - Aug 27, 2008
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Mike, DJ5AV
(e-mail: dj5av@darc.de)

EA8 - Canary Islands: George, EA8/GM0IIO, is on vacation in Playa Blanca, Lanzarote (WLOTA LH-0099) through 31. August and will be mainly on SSB on 20 m with FT-857 and Vertical. QSL via home call.

KH0 - Northern Mariana Islands: Satoshi, N2QP, will be on Saipan (OC-086) 4. through 8. September as KH0/N2QP and plans to be in the All Asian DX Phone Contest (September 6/7th). QSL direct only to Satoshi Kouya, 2-7-5 Iwamoto-cho, Chiyoda, Tokyo 101-0032, Japan.

OH0 - Aland-Islands: 23. August through 7. September Peter, DL5FF, and Siegfried, DL9ZE, will be on the air from Eckeroe. Peter will use RTTY and CW mainly, Siegfried will be on RTTY and SSB on 20, 15, 40, and 30 m. QSL via DARC QSL-Buro or direct. Find further informations by QRZ.com.

S79 - Seychelles: Tom, DJ6TF, will stay on La Digue Island September 2nd through 14th for vacation. If he is lucky to get a licence he will prefer 30 m and RTTY.

T2 - Tuvalu: Aki, JA1KAJ, will visit Tuvalu September 2nd through 8th. You will find him in the All Asian Contest and on 160 through 10 m with SSB, CW, RTTY and perhaps PSK31 & SSTV. Aerials will be longwire for the lowbands and a Yagi for 20 through 10 m. He did not get his call sign yet. Aki confirms his QSOs after his return.

VP6 - Pitcairn: Maybe you wondered about the disappearing of Tom (VP6TC) and Betty (VP6YL) Christian who used to be very active residents before. JJ8DEN reports that the couple emigrated to New Zealand.

XW - Laos: During the last days Bruce, XW1B, was very active on 40, 30 and 20 m using CW and RTTY. He will be on a Stateside vacation August 28th through late September. QSL manager is E21EIC.

ZD8 - Ascension: Steve, G3ZVW, will be ZD8N August 27th through September 11th again on Ascension (AF-003) using 100 Watts and a dipol. Look for him in his eveing hours and on weekends with SSB, CW and RTTY. QSL via G3ZVW, direct or via buro.

ZS8 - Marion & Prince Edward: Petrus, ZS8T, now is on Marion Island since two months, but he has to spend much more time on his job than supposed. Additionally he has problems on tuning the Stepp IR-Vertical. So he did only one single QSO till now. He will be on the island for another seven months and we hope he will be able to spend some time on DXing then. Look for updates on http://zs8t.net/ .

3A - Monaco: Find Patrice, 3A/F5RBB, August 31st through September 10th on 40, 20, 15 and 10 m. QSL to his home call direct or via buro.

7Q - Malawi: August 29th through September 11th Ely, IN3VZE, will be "holiday style" on the West bank of Lake Malawi as 7Q7CE on SSB and digital modes. QSL via home call, direct or buro.

8Q - Maldives: Married since 40 and ham radio license since 30 years - an anniversary that is used by Werner, DL1BKK, and Brigitte, DL1BKI, to present 8Q7KK August 29th through September 19th from the Island of Kuramathi (Rasdu Atoll, AS-013). They will use an IC-7000 and wire antennas. QSL, for this activity in 2008 only, via DL1BKK, direct or via buro. The call was issued several times before, last time in 2001 to HA2SX.

9V - Singapore: 9V1F1 (9V1 formula one) will represent the Formula 1 Grand Prix taking place in Singapore September 28th with an activity from August 26th through September 30th. Singapore Amateur Radio Transmitting Society will start buro QSLing in October.

Pacific Tour: Find Ulli, DL2AH, and Willi, DJ7RJ, in September through November 2008 touring the Pacific. They estimate an arrival on Tokelau in the timeframe September 2nd to 5th. Willi has ben on the Tokelaus

before and estimates to reactivate his former call ZK3MW. They will continue on Nukunonu (OC-048) until September 29th, followed by Apia, Samoa, for the further planning. They will continue on different routes. Willi has time until October 20th to visit another Island, perhaps Wallis & Futuna or Marquesas. Plans or depending on flight plans and lodging possibilities.
Ulli will continue to Manua Islands (OC-077), US-Samoa, for October 7th through 27th time frame as KH8/DL2AH. Finally he intends to go to Tonga, October 29th through November 9th, call to be announced. Ulli primarily will be on vacation with his FT-897 and Windom dipole. As before he will be on SSB mainly, with some RTTY. QSOs will be confirmed after his return, direct or via Buro.

Netherlands, special call: Look for PA90CORUS September 1st through 28th on all bands and modes. The call reminds to 90 years history of CORUS Stahl Ijmuiden. QSL manager is PB7CW and you find more informations on www.pb7cw.net/corus .

Scotland/Norway, special calls: GS8R is activated on 10 through 80 m using CW and SSB vom Orkney Amateur Radio Club (www.eu009.com/) through August 31st to commemorate the 850th anniversary of the death of the Scandinavian Earl St. Rognvald, founder of St Magnus Cathedral in Kirkwall.
QSL direct only via GM0WED.
From his Norwegian birthplace Bringsvaerd special call LA8EARL will be on the air. These QSLs will be confirmed via LA4A.

DX MAGAZINE'S MOST WANTED SURVEY. It is that time again to participate in DX Magazine's annual "Most Wanted Survey". The survey is now being taken through October 15th. Carl, N4AA, editor of "QRZ DX" and "The DX Magazine" reports that the survey forms are available at:
http://www.dxpub.com/dx_survey2008.html
Carl states, "In response to a number of comments in recent years, you will find around 300 entities to choose from this year. The ones NOT included are the ones we felt were not justified to be included, such as W/K, VE, G, DL, F, I, etc. If anyone should want those included in their response, there is space for you to do a 'write-in' at the end of the survey form. In addition to the increase in the number of entities, you will also find a new column this year, '160-30', for those who want to express a need for contacts on the bands 160, 80, 40 and 30. Again, this is in response to suggestions from YOU in recent years." Carl also stresses, "IF AT ALL POSSIBLE USE THE WEB FORM - PLEASE !! As in past years you will be asked to provide your CONTINENT. If you are in North America, you are asked to provide the TIME ZONE in North America . PLEASE... PLEASE...PLEASE be careful when selecting your CONTINENT. Many responses arrive with obviously the wrong one selected. Those responses must be removed so they do not 'skew' the results. Make your response count by marking the CORRECT continent. Printed forms may be mailed in and I will

enter those myself, but I must receive those no later than October 15th. As usual the continental results will be published in the January/February, and the Mode Results will be published in the March/April, issues of The DX Magazine. The overall top 100 will be posted on the web site around January 15th."

DXCC NEWS............

Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 29th): "The 2007 DXCC yearbooks have arrived from the printer. The ARRL mail room will prepare them for shipping and they should start going out the middle of next week. You will receive the free copy if:

* A submission was received during the 2007 calendar year.
* If you did not make a submission during the calendar year, but you were 'current' on the DXCC Honor Roll for this period. ARRL Membership is also required for the free edition

Copies are available for purchase as follows:
USA - 7.00 USDs --or-- Non-USA - 8.00 USDs
Price includes postage."

Bill Moore, NC1L, ARRL Awards Branch Manager, reports (on August 27th): "DXCC is pleased to announce the issuance of award number 1 on 70cm EME (432 MHz) to Jan Bruinier, DL9KR! First licensed in 1951 and a career in civil aviation, Jan retired from the cockpit 1991, then worked as a consulting engineer until 2003.

His 70cm station consists of 16 long yagis (24el, 8,5 wl booms) of his own design with open wire feeder, a preamp ATF58143 cavity into 23dBm mixer into TS870, TX 1500w.

With the guidance of his elmer, Charlie O'Brien W2EQS, Jan achieved 160 Meter DXCC in 1985 endorsing it to 152 entities. Jan was also helpful to Stewart Perrry, W1BB, who as you may remember achieved 160 meter DXCC number one in 1976! Congratulations to Jan, and, who will be next?"

NEW QSL MANAGER. Buzz, NI5DX, has become the QSL Manager for Steve, KL7SB, in Anchorage, Alaska. Buzz will be able to confirm all contacts with Steve for his Alaskan operation. However, Steve's TF and HB0 operations should still be sent to his home address.

VU2PAI QSLS. Pai, VU2PAI, sends OPDX the following message (edited): "After almost 3 hectic years, I am free and back on the air again. I was very busy with business and office work and doing a lot of travel in India and to DX lands. I was at Dayton Hamfest this year and it was a lot of fun! I will surely be there next year also. I will try and visit Fredrichshafen next year. The reason for my mail is regarding my QSLs. I am clearing all my old backlog of QSL cards, and if anybody needs a QSL card from me for all my activities, they may please send me the QSO details to: vu2pai@gmail.com --or-- ananthpai@hotmail.com

QSL cards for Expeditions to IOTA AS-096 (St. Marys Island, May 2001) and AS-161 (Sacrifice Rock, January 2002) can be sent to me. I still have cards left from my activities as VU2PAI/50, AT0PAI, AT2PAI and VU2PAI/C, so if anyone needs a card for those contacts, I will be happy to QSL.

Please note mail is tampered in the post office. Avoid sending green stamps to India while sending QSL cards. IRCs are fine. If sending green stamps registered air mail letter is better.

I would be happy to recieve any postage stamps instead of IRCs or green stamps, so if you have any spare stamps or envelopes with stamps from your country or DX contacts, I will be happy to get them. I have been collecting postage stamps since I was in school, and I donate my extra stamps to our local stamp club to school children.

All QSL cards for contact with VU7LD/VU2PAI go to W3HNK who is the QSL Manager for the VU7LD expedition. QSL cards for only AT0AI (IOTA AS-169 Arnala Island) is via VU2SWS.

See you on the air soon, and I apologize for the delay in some QSL cards. I will soon be active on digital and low bands also. I hope you publish this information in your next DX news bulletin.....

S7, SEYCHELLES. Tom, DJ6TF, will be on holiday on La Digue Island between September 2-14th. If he can obtain a licence, look for him to be on 30 meters and RTTY.

SILENT KEYS...............

* W4XAA/SK -- Richard Moseson (W2VU), Editorial Director for CQ Communications, informs OPDX that Radio monitoring icon Tom Kneitel, W4XAA (ex-K2AES), passed away in Florida on August 22nd at age 75. He had been in poor health for the past several years. Tom was senior editor and founding editor of Popular Communications magazine, a CQ publication. For more details, please visit the following Web pages at: http://www.popular-communications.com/Tommy.html
http://www.arrl.org/news/stories/2008/08/25/10283/?nc=1

* S53AW/SK -- Jan, DJ8NK, informs OPDX that Goj, S53AW, one of the most vivid and enthusiastic Slovenian DXers, passed away August 25th at the age of 82. Goj was high up on the DXCC list with 332/347 but had not been active for about one year due to his long lasting illness, so he missed some new ones. Although he was a keen DXer and one of the very first foreigners to operate from BY1PK, he had for many years a regular Sunday sked with some W and VE friends. Jan states, "We will miss him."

OPDX and its read would like to send out our deepest sympathy to the family and friends of the above mentioned.

SPECIAL EVENT (Highway to a DX Party!). The Citrus Belt Amateur Radio Club of San Bernardino, California, will host (probably one of the most fun special event activities) the 9th annual "Route 66 On The Air" special event between September 13-21st. The purpose of this event is to offer amateur radio operators a fun way to "Relive the Ride" of their own memories of Route 66, and to celebrate the highway's 82nd anniversary. The U.S. Highway 66 established in 1926, was the first major improved highway to link the west coast with the nations heartland. Through stories, songs, and TV shows, the highway came to symbolize the spirit of the freedom of the open road, inspiring many to see America. Look for the following 19 stations (two are rovers) operating in or around the major cities along the old "Route 66" from Santa Monica, California, to Chicago, Illinois:

Stations	City	Club
W6A	Santa Monica, CA	Westside Amateur Radio Club
W6B	Los Angeles, CA	Westside Amateur Radio Club
W6C	San Bernardino, CA	Citrus Belt Amateur Radio Club
W6D	Victorville, CA	Victor Valley Amateur Radio Club
W6E	Barstow, CA	Barstow Amateur Radio Club
W6F	Kingman, AZ	Hualapai Amateur Radio Club
W6G	Flagstaff, AZ	Northern Arizona DX Association
W6H	Albuquerque, NM	New Mexico Amateur Radio Alliance
W6I	Amarillo, TX	Chapter 141, QCWA
W6J	Elk City, OK	Western Oklahoma Amateur Radio Club
W6K	Oklahoma City, OK	No Club Affiliation
W6L	Tulsa, OK	Tulsa Amateur Radio Club
W6M	Riverton, KS	Wichita Amateur Radio Club
W6N	Joplin, MO	Joplin Amateur Radio Club
W6O	Lebanon, MO	Lebanon Amateur Radio Club
W6P	St. Louis, MO	St. Louis Amateur Radio Club
W6Q	Chicago, IL	Six Meter Club of Chicago

ROVER STATIONS

W6R	Goleta, CA	Santa Barbara Amateur Radio Club
W6S	Santa Barbara, CA	No Club Affiliation

Special event stations are expected to be found in the vicinity of the following frequencies. (Look for digital modes in the standard band segments for such mode) All frequencies +/- QRM:

CW - 3533, 7033, 10110, 14033, 18080, 21033, 24900, 28033 and 50033 kHz
SSB - 3866, 7266, 14266, 18164, 21366, 24966, 28466 and 50166 kHz
R66 MOBILE Operations - Any amateurs operating while actually driving along Route 66 during the special event period are encouraged to take part in "Route 66 On The Air", by using the designation "mobile 66" for SSB or "/m66" for CW after their callsigns. All other amateur radio operators are welcome to contact these mobile operators.
REPEATERS - Some of the participating clubs will also be operating this event from their local VHF/UHF repeaters. Check the ARRL repeater guide for possible repeater frequencies, if your in the local area.

Each participating club will issue their own QSL card commemorating this event. QSL information is available on the Web at:

http://www.w6jbt.org/Route_ota/General_Pages/QSLRoute.htm

For more details about the event and the certificate that is available, please visit the "Route 66 OTA Site" at:

PRESS RELEASE: From the Desk of Martti Laine, OH2BH
For immediate release
September 1, 2008

UPDATE ON THE REPUBLIC OF KOSOVO

Many have been wondering what the status with regard to the Republic of Kosovo is as of today, both in general and in amateur radio terms specifically. Substantial progress has been made, and a new approach to get Kosovo totally on its own feet is well on its way. The United Nations (UNMIK) has scaled down its administrative role while the European Union (EULEX) has initiated its supporting role to help integrate the "interim administration" functions into the local institutions.

The United Nations Frequency Management Office (FMO) is one of those local institutions. This Office was responsible for authorizing Amateur Radio operations before and after the Kosovar declaration of independence, but as of today the FMO does not exist nor are licenses issued. You may still hear some stations operating as YU8 since those licenses issued in the past have not been specifically terminated.

Undoubtedly, Kosovo as a "country" has all required country requirements; (A) a defined territory, (B) a permanent population and (C) a government and (D) is capable of interacting with other countries with whom it has established diplomatic relations. As of today, the Republic of Kosovo is recognized by 46 countries representing many leading states and all geographical continents.

From an Amateur Radio and DXCC perspective, a great deal of confusing discussion has taken place; one side argues that the DXCC criteria needs to be honored at all times. Others see the criteria as not being engraved on a tablet of stone but that the rules facilitate "entities" dynamically in the context of an ever-changing world. Both views have some merit and should be appreciated.

Western Sahara (SO), another disputed DXCC country, is currently recognized by 48 countries and even today it is not a member of the United Nations nor does it have a dedicated ITU prefix. At the time Amateur Radio entered this desert country, no one had argued that it belonged to DXCC. When Swains Island was up for DXCC discussion it was decided that the DXCC criteria had to be changed
and so Swains entered the scene. Swains was added not decades ago - but just recently.

Before Swains Island, DXCC used three "measuring sticks"; UN membership, ITU prefix or IARU society. In facilitating Swains, the ARRL Board of Directors decided to keep the UN and ITU parts but changed the IARU rule to recording of an event by the US Department of State, which again opened up another gate for more DXCC entities.

Now Kosovo meets the highest US Department of State criteria - Kosovo is an independent state recognized by the United States and easily passes the US State Department gate, if that gate is honored in the right spirit. With DXCC rules in place as they existed before Swains, Kosovo would enter through the IARU gate because of its permanent amateur radio population and its national society, SHRAK.

The above is just an illustration of the dynamics of the DXCC at any given time, following the dynamics of the world.

The world outside Kosovo abounds with many other examples that offer a slightly different perspective in the international arena. Another oft-mentioned entity - Northern Cyprus - is recognized only by Turkey, and the situation regarding Cyprus remains deadlocked. Two new cases - South Ossetia and Abkhazia - are recognized by the Russian Federation and probably soon by Belarus (EW) and Venezuela (YV). If they ever achieve wider recognition apart from the countries subject to the current conflict, they will become another set of DXCC candidates.

An immediate UN membership gate is pointed more in the direction of those that get themselves established with no gun fire. The UN's potential for resolving conflicts to its own satisfaction is seriously hampered by the Security Council veto structure that plays a major role in eliminating new countries at that gate.

So, the ARRL is left to define a workable recognition based country criteria - be it qualitative and/or quantitative. Kosovo with its almost 50 recognitions is the first one at the gate. Delaying action on the Republic of Kosovo so that it does not qualify for anything is not an option for the ARRL. Kosovo is a country with a permanent amateur radio population and therefore Kosovar amateurs should be welcomed to our community.

Back to the practical world; YU8/OH2R QSLs for the first amateur radio operation from the Republic of Kosovo were printed last week by Gennady, UX5UO and they will be in the mails in a few days. We thank Gennady for his efforts and support in making these full-color cards meet the spirit of the Kosovo case as they represent a special moment for those involved with the Kosovo project and those who follow world events as well as the development of the DXCC program.

You can view these cards at http://www.dailydx.com/Kosovo.htm

You may read more about YU8/OH2R and Kosovo at www.n4gn.com/yu8/

PJ2, NETHERLANDS ANTILLES (Last Minute Announcement). NODXA member Goose, W8AV, will be on the Island of Curacao (SA-006, WLOTA LH-0942) from the PJ2T Signal Point station signing PJ2/W8AV, September 3-10th. He plans to be on CW and RTTY (he will try to emphasize RTTY on this trip). This is an antenna maintenance trip, so he will only be on the air as time permits and his operating times may be somewhat limited.

CT - Portugal: You will find members of "Algarve DX Group" September 6th

and 7th transmitting from different castles with eleven CT7CA(x) calls. See more infos on http://ct7ca.blogspot.com/
All calls are managed by CT1GFK.

HK - Columbia: Look for Paco, EA7ATX, and Juan Luis, EA7AY, as HK1AT from Columbia for some weeks starting September 4 th. An activation of San Bernardo Island (SA-078) is planned for September 14th through 19 th. QSL via EA7ATX, direct only!

P4 - Aruba: OPs P49T (W3BTX), P43JB, and W3TEF (he is also QSL manager), will be on the air this year again September 3rd through 12th as P41USA. They will use 2 through 160 m reminding to the terroristic attac to the WTC vom September 11th, 2001. This activity took place first time one year ago, logging more than 4.000 QSOs with over 100 countries.

PJ2 - Netherlands Antilles, Curacao: Viaceslav, PJ2/LY4F, will use Signal Point-Station (PJ2T) on Curacao (SA-006, WLOTA LH 0942) as a guest operator September 4th through 18th. During the WAE DX SSB Contest (13./14. Sep) he will operate as PJ2F Single-OP/Allband/High-Power. He will be on all bands and modes, his QSL manager LY1FF prefers QSLing via buro.

S79 - Seychelles: Tom, DJ6TF, will be active during his vacations as S79TF October 2nd through 14th from La Digue Island (AF-024). As reported before he will especially activate 30m and RTTY. Look for him on other modes especially on the first kilocycles of the bands. Tom uses FT-890 and a vertical.

T8 - Palau: Find Sadayuki, JH1UUT/T88DB, September 4th through 8th on Palau (OC-009) also in the ALL ASIAN DX PHONE CONTEST (6./7. Sep). Prefered frequencies are: 3.795, 7.085, 14.200/14.260, 21.260/21.290 and 28.460/28.490 MHz. QSL via home call.

XU - Cambodia: Yuichi, 7K3BKY, will be mainly on the WARC bands using CW September 3rd through 8th as XU7YYY and probably also in SSB part of the All Asian Contest. Yuichi prefers QSLing direct, but he will also accept requests for buro cards to email address 7k3bky@gMayl.com .

ZP - Paraguay: September 4th through 14th Jan and Rolf, ZP6/DL7UFN, and ZP6/DL7VEE will hit the airwaves in the capital Asuncion on all bands 160 through 10 m on CW, SSB, RTTY and PSK using the station of ZP5AZL/ZP0R. QSLs via home calls, direct oder via buro.

8Q7 - Maldives: Since August 30th Igor, UA9KDF, is on the air as 8Q7FD and will stay through September 11th on the Maldives using FT-857 and ATAS-120 on PSK and RTTY.

Greece, special call: 24 centuries ago famous Greek philosopher Aristoteles was born in Stageira. For him SV2GWY, SV2XI, SV7HRJ and SW2HQF will take part in IARU Region 1 Field Day (6./7. Sept) as SX24STG.
QSL via SV2GWY.

WAE60: Successful in WAE60-Marathon

Two weeks after the start of WAE60-Marathon there are already about 100 diplomes attained. Outstanding the performance of Gerd Parzonka, DJ5BV, who was the first for a WAE60 Gold. Quite a number of DX stations achieved WAE60 by taking part in WAEDC and quickly sending the contest log. Initiators of this WAE action DL3TD from DARC Committee "DX and HF contesting" and DJ9MH Award manager for WAE proofed their activity by looking for European stations in SARTG-RTTY-Contest and got the first two bronce diplomes for DIGI-Modes and RTTY. Will anybody come out to WAE60 Silver or Gold on RTTY mode? For more infos on WAE-Marathon look on webside www.wae60.de.

CT - Portugal: You will find members of "Algarve DX Group" September 6th and 7th transmitting from different castles with eleven CT7CA(x) calls. See more infos on http://ct7ca.blogspot.com/
All calls are managed by CT1GFK.

HK - Columbia: Look for Paco, EA7ATX, and Juan Luis, EA7AY, as HK1AT from Columbia for some weeks starting September 4 th. An activation of San Bernardo Island (SA-078) is planned for September 14th through 19 th. QSL via EA7ATX, direct only!

P4 - Aruba: OPs P49T (W3BTX), P43JB, and W3TEF (he is also QSL manager), will be on the air this year again September 3rd through 12th as P41USA. They will use 2 through 160 m reminding to the terroristic attac to the WTC vom September 11th, 2001. This activity took place first time one year ago, logging more than 4.000 QSOs with over 100 countries.

PJ2 - Netherlands Antilles, Curacao: Viaceslav, PJ2/LY4F, will use Signal Point-Station (PJ2T) on Curacao (SA-006, WLOTA LH 0942) as a guest operator September 4th through 18th. During the WAE DX SSB Contest (13./14. Sep) he will operate as PJ2F Single-OP/Allband/High-Power. He will be on all bands and modes, his QSL manager LY1FF prefers QSLing via buro.

S79 - Seychelles: Tom, DJ6TF, will be active during his vacations as S79TF October 2nd through 14th from La Digue Island (AF-024). As reported before he will especially activate 30m and RTTY. Look for him on other modes especially on the first kilocycles of the bands. Tom uses FT-890 and a vertical.

T8 - Palau: Find Sadayuki, JH1UUT/T88DB, September 4th through 8th on Palau (OC-009) also in the ALL ASIAN DX PHONE CONTEST (6./7. Sep). Prefered frequencies are: 3.795, 7.085, 14.200/14.260, 21.260/21.290 and 28.460/28.490 MHz. QSL via home call.

XU - Cambodia: Yuichi, 7K3BKY, will be mainly on the WARC bands using CW September 3rd through 8th as XU7YYY and probably also in SSB part of the All Asian Contest. Yuichi prefers QSLing direct, but he will also accept requests for buro cards to email address 7k3bky@gMayl.com .

ZP - Paraguay: September 4th through 14th Jan and Rolf, ZP6/DL7UFN, and ZP6/DL7VEE will hit the airwaves in the capital Asuncion on all bands 160 through 10 m on CW, SSB, RTTY and PSK using the station of ZP5AZL/ZP0R. QSLs via home calls, direct oder via buro.

8Q7 - Maldives: Since August 30th Igor, UA9KDF, is on the air as 8Q7FD and will stay through September 11th on the Maldives using FT-857 and ATAS-120 on PSK and RTTY.

Greece, special call: 24 centuries ago famous Greek philosopher Aristoteles was born in Stageira. For him SV2GWY, SV2XI, SV7HRJ and SW2HQF will take part in IARU Region 1 Field Day (6./7. Sept) as SX24STG.
QSL via SV2GWY.

TROPO on the VHF-bands
The time for autumn tropo is coming soon. As well as 144 MHz
Sporadic E, MMMonVHF will be able to provide you with LOGs and
overviews about big TROPO openings: http://www.mmmonvhf.de/tr.php
PLEASE report your QSO's - LOGIN and pass your info at the BUTTON:
Send your report - the rest is done by Frank, PA4EME for MMMonVHF
To detect VHF-Tropo-openings its also possible to watch out in
advance on the 3 m band - Have a look at the FMLIST (by G. Lorenz)
FMLIST is a radio station database initiated by the UKW/TV-Arbeitskreis of the AGDX. It contains technical data of FM radio
stations around the globe, in the frequency range 65 to 108 MHz, as
far as information is available. http://www.myradiobase.de/fmlist/

"Young DXpeditioners on Willis Island"
The crew of VK9DWX wants to invite two young hams who have a passion
for Ham Radio, DXing and contesting to take part in the DXpedition
to Willis Island in October this year. One young ham from 6th October
till 19th October and the other one from 15th October till 28th Oct.
You can reside in any country in the world, you hold a valid amateur
radio license in your country, you have some experience in working
pile-ups and you are between 18 and 29. For qualification you have to
send an email to contact"at"vk9dwx.de which must include an essay of
500 words minimum (in English) describing how you got started in ham
radio, who your Elmer was and why you should be selected for this
DXpedition opportunity. Please include also you full name, callsign
and home address. The VK9DWX crew will pay for all expenses except
your flight from your home to Cairns, Queensland, Australia. Send us
your application now to contact"at"vk9dwx.de. We will recieve
applications until September 15th and will make a fast decision.
(The following was edited for clarity) We would be delighted if DXers
would bring it to the attention of their clubs and fellow DXers."

Yes, that's exactly what the DXCC program has been missing: the ability to expand to 600+ entities depending on the situation on the frontlines. Blatant acts of occupation like the Neocon YI (soon to come EP) adventure and the Russian retro-Stalinist theft of other people's land must not go unrewarded. How much blood for a QSL should be sufficient?

Hell, why don't we just institute an open door policy and declare a DXCC entity for whoever comes up with the flag design for his outhouse. Mine is a giant middle finger on a taupe background. I bet I can get at least ten countries to recognize me for a few bucks (I'm looking at you, Kim Jong Il - call me, a'ight?). I want my DXCC. Long live the Republic of Retardistan!

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

 radio/personal-intro
 Subject: Guide to the rec.radio Newsgroups
 Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
 Last Posted: 9 Nov 2001 06:18:17 GMT
 Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1VIC, AUSTRIA. The Vienna International Centre Amateur Radio Club (4U1VIC) will be on the air during the Worked All Europe DX Contest (WAEDC), September 13-14th. This will be a SSB only operation. The station is located in the secured United Nation campus in Vienna, Austria, and due to access restrictions, they will not be able to operate the full 48 hours continuously. They will try to be on the air as much as possible. Operators mentioned are: OE1AWB, OE3BLB, OE1RKS, OE1DWC, OE3SGU and OE3GCU. 4U1VIC will send QSL cards for all QSOs via bureau. If you are in a hurry you can send it direct including SAE and return postage to: AMATEUR RADIO CLUB, VIENNA INTERNATIONAL CENTRE, P.O.BOX 500, A-1400 VIENNA, AUSTRIA.

7X, ALGERIA. Mirek 9V1XE/VK2DXI/SP5IXI, is once again active as 7X0DX until September 11t. Activity will be limited to his spare time because this is a business trip. This time Mirek has difficult conditions to build effective antennas but will try to be active if only possible. QSNs show Mirek has been on 40/30/20 meters CW at various times. QSL via DL4DBR. For updates, please watch the following Web page at:
http://www.7x0.dxing.pl/
The online log available on the above Web page includes data from his previous operations. QSO data from the current activity will be uploaded after this activity is over. Mirek has no chance to send his QSO data on a daily basis at this time as his internet access in 7X is very limited.

A3, TONGA. Paul, A35RK, informs OPDX that he will try to be active as much as possible until he takes his antennas down around October 20th before heading to stateside at the end of that month. He will return to Tonga during the first week of December. However, he states that he will probably not be back on the air until Christmas, weather permitting.
He also mentions that Tonga is having some very unusual weather events lately, and these events are effecting a broad area of the South Pacific. Tonga is also enduring gale force winds at the moment, all due to an enormous (1040mb) high pressure system NE of New Zealand. Paul states, "The Kiwi weatherfolks say that they have never seen such an intense high in this region, and the immediate forecast is for more 'dirty' weather. High winds...cyclones...are expected in our region from late November until March or April. But this is unusual. At the moment, I can't turn my beam where I want to because I have to point it in whatever direction reduces the windload on the antenna/mast. Consequently, I'm as much at the mercy of the wind as of the propagation conditions....and I haven't been able to work hardly anyone in the last few days.... I have

received many requests for digital skeds lately...especially from Europe... but I'm afraid that I can't accomodate them. We'll just have to wait and see what the bands and weather conditions will allow." QSL via W7TSQ. ADDED NOTE: Paul is currently thinking about being active from a few different islands on his return back from the states. Travel arrangements are not finalized at this time, but stay tuned.

CN, MOROCCO. Operators IK2QEI, IK1SPR, IK1RQT, IK1HXN, IV3ZXQ and CN8WW will be active as CN3A during the CQ WW DX RTTY Contest (September 27-28th) as a Multi-Single entry. QSL via LoTW or via I2WIJ.

CQ MAGAZINE PRESS RELEASE. Richard Moseson (W2VU), CQ Editor, reports on September 3rd: "Brittany Decker, KB1OGL, has been named Youth Editor of CQ Amateur Radio magazine, Editor Rich Moseson, W2VU, announced today. Decker, of Hudson, New Hampshire, is 14 years old, has a General Class license, and already holds an amateur radio leadership position as Assistant Section Manager for Youth in the ARRL New Hampshire Section. She wrote the article, 'Saving the Hobby for KG7HF,' about her introduction to amateur radio, that appeared in the April 2008, issue of CQ. Another article, 'A Rookie's Guide to Contesting,' will be published in the October issue.

'CQ's ongoing participation in the Newsline Young Ham of the Year award program has shown me that there are many young hams out there doing all sorts of wonderful things,' explained Moseson, 'and I realized that we need to showcase some of their achievements on a regular basis. But we want this new column to be for young hams as well as about young hams, and we want to keep it in their own voices as much as possible.'

Decker commented on her plans for the column: 'Writing the column is a great way to get young radio operators pumped about getting their licenses and staying in the hobby. For me, it has been such a rewarding hobby, and has allowed me to explore many of my interests that could lead to possible careers. Over the past three years, I've had so much fun with amateur radio, and I would love to get other youth to experience the hobby that has given so much to me. I want kids like me to know that if they get their licenses and stay active, they won't regret it.'

CQ's youth column will appear quarterly and is scheduled to debut in the December 2008 issue. Stories by and/or about young hams should be e-mailed to Brittany at or mailed c/o CQ magazine, 25 Newbridge Rd., Hicksville, NY 11801."

NOTE: Photos of Brittany (one by herself, one with CQ Editor W2VU, at the Boxboro Hamfest) are available on request. Please contact W2VU via e-mail.

D2, ANGOLA. Father Gabriele, D2EB, is back in Angola after five years. Activity will be on the HF bands and 6 meters using CW and SSB. He was active this past week on 20 meters (14052 and 14222 kHz) after 2030z. QSL via IZ3ETU direct only or LoTW.

DXCC NEWS. Bill Moore, NC1L, ARRL Awards Branch Manager, reports on September 3rd: "DXCC Annual List Clarification -- Since the DXCC Annual List has not been published in print for many years a point of clarification may be needed to help explain how the list works...

As was the case when it was published there were certain requirements that needed to be met in order to make the list. Including:

- Anyone 'Current' on the DXCC Honor Roll for the period are automatically listed. (On the Honor Roll modes achieved, only)

- A submission must have been made during the period.

- During the period your number on an active award must have increased by, at least, one point.

eg: If in 2006 you had 225 on 160 Meters and in a 2007 submission you did not increase this number by, at least, one point, the 160 Meter Award will not appear in the yearbook. However, if your 160 Meter Award went from 225 in 2006 to 229 in 2007, your callsign will appear.

The DXCC Annual List reflects 'Activity'"

EA6, BALEARIC ISLANDS (EU-004). Adrian, AA5UK, will be active as EA6/AA5UK from Ibiza (JM09tb), October 15-29th. Activity will be holiday style on 160-10 meters using mostly SSB, RTTY, PSK31, SSTV, JT65A and WSPR. Look for satellite activity on AO51. He will also be active during CQ WW DX SSB Contest (October 25-26th). QSL via his home callsign, by the bureau, LoTW or eQSL.

FG, GUADELOUPE. Dom, F6EPO, will be active as FG/F6EPO from September 7-27th. Activity will be QRP on 40/30/20/15 meters CW using K1 radio. His suggested frequencies are: 7007, 10111, 14014 and 21021 kHz. Dom also plans to operate from Volcan Soufriere between September 13-20th, only during the evenings using a K1 radio and vertical. QSL via F6EPO.

FJ, ST. BARTHELEMY. A stateside team will be active as TO5DX from October 16-28th. Their activities will include the CQ WW DX SSB Contest (October 27-28th). Operators mentioned are: Team leaders Janet/W8CAA & Joe/W8GEX, Dave/K4SV, Phil/W9IXX, Jim/K0RH and Joe/AA4NN. For details and updates, visit the TO5DX Web page at: http://to5dx.homestead.com/index.html
QSL Manager mentioned is Tim, K4TZZ.

FT5Y, ANTARCTICA. Nicolas, F4EGX, is expected to be active as FT5YI from the French scientific station "Dumont D' Urville" during his free time between November to mid-December. He states that he is on a "professional mission". Nicolas will use a FT857D w/ATU LDG Z-100 into a fishing rod antenna for the 14 MHz. QSL via F4EGX. Visit his Web page at:
http://f4egx.homelinux.net

IOTA NEWS............................

EU-007. Operators Dave/EI4BZ, Jeremy/EI5GM, Dave/EI9FBB and Mark/G4AXX will be active as EJ3HB from Great Blasket Island, Ireland, September 10-14th. Activity will be on 80-10 meters CW/SSB. QSL via EI9FBB, direct or by the bureau. For more information, please visit: http://blasketisland2008.blogspot.com

EU-028. Members of A.R.I. Torino and Wave Master Team, will be active as IA5IG from Giglio Island (IIA GR-002), September 24-28th. Activity will be on 160-2 meters using CW, SSB and the Digital modes. They will have 2 or 3 stations on the air. QSL via IZ1DSH, by the bureau or direct. Operators mentioned are: Giovanni/IK1WEG (CW/SSB), Gerry/IZ1DSH (SSB), Marco/IS0KEB (SSB), Davide/IW1DQS (SSB/Digital), Moreno/IZ1MNE (SSB), Sergio/IW1FSQ (SSB) and Veronica/IZ1KFF (SSB). For more info, please visit: http://www.aritorino.it/IA5IG.htm

EU-049. Members of a SV-DX-Group will be active as SY8L from Limnos Island (LH-1740) in Northern Aaegaeis until September 15th. Activity will be on 160-6 meters using all modes. QSL via SV2DGH, by the Bureau or direct.

EU-110. Operators Jan/OK1JK, Jiri/OK1JST, Jarda/OK1JIM, Standa/OK1AGE, Tom/OK1JRA, Vojta/OK1JKV and Radek/OK1MRK are active from Porer Island (ACIA 46, CIA-35, IOCA CI-090, MIA MC-313) as 9A/homecall between now and September 13th. Activity will be on most HF bands, using CW, SSB, RTTY, PSK. Other references numbers (Lighthouse): CLHA CLH-111, ARLHS CRO-014, TWLHD WLH 9A-052 and WLOTA LH-0240. QSL via their home callsigns, direct or by the bureau.

EU-125. Tom, DL4VM, is expected to be active as OZ/DL4VM from Romo Island (NS-001 for the Danish Islands Award) between now and September 20th. Activity will be QRP only (5 watts) and only CW on 40/20/15 meters and perhaps 10 and 6 meters depending on conditions. QSL via his home callsign, by the bureau or direct to: Thomas Scheliga, Stockenbruch 12, 66119 Saarbr, Germany.

SA-078. Two members of Grupo RASE DX, Paco/EA7ATX and Juan-Luis/EA7AY, are currently in Colombia for the next few weeks. Their plans include the activation San Bernardo Islands as HK1AT from October 14-19th. QSL via EA7ATX, direct only. For updates, visit the Grupo RASE DX Web page at: http://www.rasedx.com

JT, MONGOLIA. Andrei, UA3ABR, will be active as JT1CA between September 26th and October 2nd. QSL via his home callsign.

JW, SVALBARD. Tom, LA4LN, will be active from Spitsbergen Island (EU-026, WLOTA LH-0124), September 12-18th. He will operate as JW4LN on 160 meters through 70 cm, mostly on CW with some SSB, digital modes and possibly the satellites. He will also sign JW1V on 60 meters. Tom will be using an IC-7000, with various wires, and a beam antenna for 20/15/10 meters and possibly 6 meters and for the satellites. QSL direct only to LA4LN. Some more details and pictures of QSL cards can be found at QRZ.com under JW1V and JW4LN.

K4, UNITED STATES (Special Event). Members of the Pentagon Amateur Radio Club (PARC) will activate special event station K4AF on Thursday, September 11th. Activity is to commemorate the 7th anniversary of the attacks that occurred on the Pentagon, the World Trade Center and over Pennsylvania in 2001. Activity will be on 80/40/20/15/10 meters using CW and SSB. This will be a 12 hour operation between 1200-2400z. A special QSL card will be available for stations that work K4AF. QSL via PARC, P.O. Box 2322, Arlington, VA 22202. Visit the PARC Web page at: http://www.k4af.org

KP2, U.S. VIRGIN ISLANDS. John "Doc", K3MD, will be active as KP2/K3MD from St.John's, February 19-24th. His activity will include the ARRL DX CW Contest (February 21-22nd) as Single-Op/All-Band/High-Power entry. (He placed 9th in the world in 2008.) Doc informs OPDX that the cabin he rents (overlooks east and west at 1000 feet) is a straight shot to U.S. He will be using an IC-7000 (w/ALS-500M/PS-75) into an all band 80-10m trap dipole up 50 feet and a 160 meter inverted L. Outside of contest he will operate casually, usually working Europe on 20 and 40 meters. QSL via K3MD.

KH6, HAWAII. Scott, NE1RD, informs OPDX that he will be on Kauai operating as KH6/NE1RD for CW WW DX CW Contest (November 29-30th) as a "100 Pound DXpedition". He will be a Single-Op/All-Band/Low-Power entry. Expect pre-contest operations on CW and SSB from both Kauai Island (OC-019, USI HI-003S, WLOTA LH-1761, Kauai County) and Oahu Island (OC-019, USI HI-008S, WLOTA LH-1227, Honolulu County) in the 10 days prior to the contest. QSL via his home callsign. Visit his Web page at: http://www.bsandersen.com

KP4, PUERTO RICO. Joachim, KP4EE, is planning to be active during the CQ World Wide CW DX Contest (November 29-30th) as Single-Op/All-Band entry.

NO SUNSPOTS FOR AUGUST (First Time in 100 Years). The sun has reached a milestone not seen for nearly 100 years: an entire month has passed without a single visible sunspot being noted. Read the entire article at:
http://www.dailytech.com/Sun+Makes+History+First+Spotless+Month+in+a+Century/article12823.htm

NOT A PIRATE (Update). Mamuka, 4L2M, updates OPDX that the station active as 4L6X (Bob) does have operating Georgian permission.

OD, LEBANON. Syl, F5TLN, will be active as OD5/F5TLN from southern part of Lebanon between October and February 2009. Activity will be on all HF bands, using SSB and sometimes CW. QSL via his home callsign, by the Bureau or direct to: Sylvain Bertrand, 14 Rue du Champ Saint Pierre, 55100 Verdun, FRANCE. Visit Syl's Web site at: http://f5tln.site.voila.fr

OH0, ALAND ISLAND. Tomi, OH6EI, will be active as OH0Z between September 20-21st. Activity will include the Scandinavian Activity CW Contest (September 20-21st). He will be a Single-Op/All-Band/High-Power entry. QSL via W0MM.

PJ2, NETHERLANDS ANTILLES. You just have a few more days to work NODXA member Goose, W8AV, who is on the Island of Curacao (SA-006, WLOTA LH-0942) from the PJ2T Signal Point station signing PJ2/W8AV. He is expected to go QRT September 10th. This is an antenna maintenance trip, so he will only be on the air as time permits, and his operating times may be somewhat limited. Activity will be on CW and RTTY (he will try to emphasize RTTY on this trip). Most of his activity has been on 40/30/20 meters, usually in the morning starting around 1100z for about an hour and then again after 1800z, as late as 0145z. LAST MINUTE UPDATE: Goose informs OPDX: "I have been encountering some problems getting the RTTY stuff to work down here which is why I have not been active on that mode. With all the antenna work to do it has become a lower priority to get it working. I will do what I can between now and Tuesday to try to get things fixed. If I do not succeed, I will continue to operate on CW."

PZ, SURINAME. Yuri, VE3DZ, will be active as PZ5TT between November 25th and December 1st. His activity includes the CQ WW CW DX Contest (November 29-30th) as a Single-Op/All-Band/(possibly) High-Power entry. Outside of the contest Yuri will be on all bands using CW, SSB and RTTY. QSL via VE3DZ.

QSL INFO AND NEWS....................

FH1LE QSL STATUS. Alan, F6BFH, reports that all direct requests for the FH1LE activity have been sent out.

Ralph, K2PF, informs that new one letter suffix callsigns can be used in Bosnia-Herzegovina as of September 1st. He will be handling cards for the following:

E70A - formally T95A and currently operating as J28OO
E73U - formally T94DJ and E74DX

QSL Manager Ron, AC7DX, reports: "The QSL card for KL7DX (NA-234) is in the final design stage and then it will be printed. Please be patient as the folding color card will be certainly worth the wait."

OLD QSL COLLECTION (Update). Jean Michel, F6AJA, wants to remind everyone to visit the Les Nouvelles DX (LNDX) Web page to see more than 5700 old QSL cards in several different albums/galleries. This site contains:

- The ten most wanted DXCC entities (2004 to 2007) with more than 200 QSLs
- At least one card for each 58 deleted DXCC countries (more than 900 QSLs)
- Nearest the totality of current prefixes, disappeared now (more than 2200 QSLs)
- Album for stations from Magrebh - 1945 to 1962 (more than 200 QSLs)
- More than 700 QSLs from the Antarctic bases.
- Nearly 230 QSLs from the TAAF (Terres Australes and Antarctiques Francaises).
- More than 20 QSLs for the rare French Pacific Islands such as FK/C, FO/C, FO/A, FO/M, FO/C and FW
- Nearly 100 cards from Eparses Islands such as FR/B/E/G/J/T
- More than 450 cards for the old timer with more than 120 countries before 1945.
- A card from the French Department before 1945.
- One card from each of the states in the U.S. before 1945.

The URL address for the Web site is : http://LesNouvellesDX.free.fr
Some cards are still needed for the collection, and your participation is welcome. Please visit their site and give them your comments by sending an E-mail to: LesNouvellesDX@free.fr

NEW QSL MANAGER. Buzz, NI5DX, is now the QSL Manager for Jeff, YI9NIC.

Buzz will be able to confirm all contacts once the logs are transferred. There will be an initial delay as QSL cards are designed and printed. Buzz has also asked for Jeff to send a copy of his license so it can be sent to ARRL for acceptance for awards.

A3 - TONGA, OC-049

Nob,A35AU (JA2AAU), Yoshi,A35IC (JA2AIC), Iwao,A35SS (JA2LSS), Iku,A35TE (JA2ATE), and Mori,A35ZS (JA2ZS), plan to activate the island Nuku'alofa (OC-049) in all modes on all bands from Sep 12-17. QSLs direct or via JARL bureau to their homecalls.

D2 - ANGOLA

After a break of five years Father Gabriele,D2EB, returned to Angola. He works in SSB and CW on all bands including 6m. QSLs via LoTW or direct via his QSL manager is IZ3ETU.

E5 - SOUTH COOK ISLANDS, OC-013

Bill Vanderheide,N7OU, informs the DX community that he intends to become QRV as E51NOU from Rarotonga (OC-013) from Sep 15 until Oct 11. Bill works only in CW on 40-10m and is going to listen for Europe during the greyline. QSL via N7OU.

EA8 - CANARY ISLANDS, AF-004

EA8/DL5NUA, EA8/DL3HQN and EA8/DL1ARD are working mainly in CW from Puerto de la Cruz on Teneriffa (AF-004) from Sep 7-19. They are using an IC-706 and a vertical also on the WARC bands.

FG - GUADELOUPE, NA-102

FG/F6EPO is staying on Guadeloupe (NA-102) for 20 days starting on Sep 7. He will work from the volcano Soufriere from Sep 13-20. He is working with QRP and a vertical and can be found on following QRGs during the afternoon: 7007, 10111, 14014 and 21021 kHz.

JW - SVALBARD, EU-026

Tom,LA4LN, will show up from Spitsbergen (EU-026, WLOTA LH 0124) signing JW4LN on 160m-70cm mostly in CW but also in SSB, digital modes and via satellite from Sep 12-18. On 60m he is using the call JW1V.

QSLs unfortunately only direct via LA4LN.

TA - TURKEY

The Finnish-Turkish "Friendship Consortium Station" TC4X will be QRV again during the WAEDC SSB Contest on Sep 13/14. QSL via OH2BH.

TY - BENIN

Sam,F6AML, will be QRV from Cotonou from Sep 12-24. Sam is working on following frequencies:

CW on 3525, 7025, 10115, 14025, 18071, 21025, 24892, 28025 kHz and
SSB on 3785, 7057, 14235, 18140, 21275, 24944 and 28444 kHz.

RIG: FT-857D, 800 watts amplifier, HF6V and Inverted V antenna for 80m.

QSL via bureau or direct to F6AML (or QRZ.com).

4U1VIC - UNITED NATIONS, VIENNA INTERNATIONAL CENTRE

OE1AWB, OE3BLB, OE1RKS, OE1DWC, OE3SGU and OE3GCU are going to activate 4U1VIC at the "Vienna International Centre Amateur Radio Club" during the upcoming WAEDC Contest in SSB on Sep 13/14. 4U1VIC is listed on the WAE Countries list and is a separate multiplier.

QSL cards should be sent via the OE bureau or direct to Amateur Radio Club Vienna International Centre, PO Box 500, 1400 Vienna, Austria.

FRANCE, SPECIAL EVENT STATION

The radio club of Tulle,F5KTU, will activate the special callsign TM2NN on HF and VHF during the accordion festival from Sep 15-28.

QSL cards should be sent via the REF bureau.

ARCTICA

The "Akademik Fedorov" anchored off the coast of Wrangel Island from Feb 27-29 and lots of new equipment for the meteorological station was unloaded by helicopter. The crew did not visit the island and thus had no chance to activate it on amateur radio. The Fedorov is looking for a new ice floe in the Laptev Sea now because the original one became too small. For the first time ever both northern passages are ice-free. UE6MAC is the clubstation of the club "Arktika" and UE6MAC/mm will stay active from onboard the "Akademik Federov".

ROUTE 66 ON THE AIR

The "Citrus Belt Amateur Radio Club" from San Bernardino/California arranges a Highway QSO Party from Sep 13-21 celebrating the 82nd anniversary of the famous Route 66. Following 19 stations will be activated along the highways from Santa Monica to Chicago:

Meteor News: Unexpected Outburst of September Perseids (SPE) shower!
The September Perseids shower is not related to the famous August Perseids shower, except for its radiant, which is located in the same constellation of that of the biggest summertime shower. SPE shower is originated by an unknown comet, and usually reaches low ZHR at maximum. Typically, about 5 meteors per hour can be seen at activity peak. This year, close to the predicted time for SPE maximum, in the morning (UT) of September 9, a remarkable increase of SPE activity over its normal annual level took place. Hello to all our friends in the EME world from the K5QE contest team. K5QE will be operating in the ARRL September VHF Contest from EM31 and would really appreciate any contacts that we can make via EME for that "rare" grid. We will be calling CQ and running on 144.142Mhz - Second Sequence, so if possible please show up and work us. We will really appreciate the points. We will begin EME operation at 0230Z on Sunday morning and stop sometime after the moon sets for EU. Read more: http://www.mmmonvhf.de/latest.php?id=1928 73's Marshall K5QE

The W4NH (Fourlanders) Contest Team will be operating again from Soco Bald in North Carolina (EM85jm). We will be doing Limited Multi (50, 144, 222 and 432 MHz). Sorry for not having any higher bands but a couple of key folks are not available this time and our micro wave guru is busy renovating and moving to a new house. We will be operating 1 KW+ power on all 4 bands with stacked beams, RX preamps, etc. We should be loud so make sure you look our way on occasion. The plan at the moment is to just operate CW and SSB but there is a chance we might have WSJT available. I am waiting to hear what the decision on that is. I will make another post if that comes to pass.

K9ZF/R Plans for the September VHF QSO Party
After the Greater Louisville Hamfest tomorrow, I plan to scout for a couple of new operating spots. I'll send an update this week if I find some better spots. But the basic plan is:
EM77 and EM67 on Saturday. Somewhere south of Louisville, KY.
EM68 and EM78 on Sunday. In Salem and Henryville, IN, respectively

W3DHJ/r ARRL SEP VHF DM87, DM88, DM77, DM78
I hope to be out a'rovering in this weekend's contest. Right now it looks Real Good -- but, as always, events can overtake planning.
>From the opening gun on Saturday, I'll do DM88, DM87, DM77, DM78 in that order - for 6-7-8 hours -- more if CONDX (snicker) warrant.
I will rover out of my driveway late on Sat eve if there's prop.
Big Deal: DM78 -- and Fat Chance: it's Sept. On Sunday I will do it all again. But, I'll be reversing the order: DM78, DM77, DM87, DM88. If interested please read more in detail at

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5H, TANZANIA (IOTA Op). Arno, DL1CW, is now active as 5H3AP. Length of stay is unknown. He has been very active on 30 and 17 meters, usually operating CW and RTTY. Reports indicate he will activate Mafia Island (AF-054) between September 22nd and October 1st. QSL via his home callsign, the DARC Bureau is preferred.

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that Harry, 7Q7HB (G0JMU), at last has his brand new radio shack completed. He has a new telescopic tilt-over, free standing lattice mast installed, and a new A4S antenna at the top. However, Allan states, "It's been MONTHS of hard work....now only to find that the rotator is broken beyond repair. So he has fastened the A4 beaming north for the time being." Harry is expected

to stay here until November 1st and then return to England. He will take another rotator down to the southwest shore of Lake Malawi, at "Club Makokola", on his next visit. Remember, the QSL route for 7Q7HB is as always "DIRECT ONLY" to G0IAS (NO BUREAU... Allan is not a member of the RSGB, so he is NOT allowed to use the BUREAU in the UK and there is NO Bureau in Malawi). If anyone has any questions for Allan, his E-mail is good on QRZ.com and is: allan.g0ias@btinternet.com
Allan will answer any E-mails within a couple of hours.

9H, MALTA. Naoyuki, JK1FNL, will be active possibly as 9H3F or 9H3FF between September 19-24th. Activity will be on 40/30/20 meters using CW, SSB and RTTY. QSL via his home callsign.

A3, TONGA (OC-049). A group of JA operators are expected to be active from here between now and September 17th. No QSNs have been reported as this was being typed. Operators mentioned are: Nob/JA2AAU (A35AU), Yoshi/JA2AIC (A35IC), Iwao/JA2LSS (A35SS), Iku/JA2ATE (A35TE) and Mori/JA2ZS (A35ZS). Activity will be on all bands and modes. QSL via the information on QRZ.com for each callsign.

C6, BAHAMAS (Update). Ed, K3IXD, informs OPDX that C6APR will be active from the Crooked Island Lodge, Pittstown Point, Crooked Island, Bahamas, in the CQ WWW SSB Contest (October 25-26th) as a Multi-2 entry. He also states, "The lodge manager has confirmed that the lodge survived both Hanna and Ike hurricanes." The operators will be: W2GJ (Pete), K3IXD (Ed), W3PP (Dallas), and W8ZA (Bob). Look for activity before and after the contest (between October 23-27th) by C6APR to be on 160-10 meters including the 30/17/12 meter bands using CW and SSB. Also, look for C6AXD to be on before and after the contest (between October 23-27th) on 160-10 meters including the 30/17/12 meter bands, mostly RTTY and some SSB. Both callsigns are good for Bird Rock Lighthouse (ARLHS BAH-005) as well as IOTA NA-113 and Grid FL22tt. All QSLs go to K3IXD.

E51, SOUTH COOK ISLANDS. Just a reminder that Bill, N7OU, will again be operating from Rarotonga as E51NOU between September 15th and October 11th. Activity will be on 40-10 meters using low power and CW only. Bill states, "For most of my stay I'll be operating around a work schedule, but I'll make a special effort to be on at grayline times to Europe."
QSL via N7OU.

ER0, MOLDOVA. Serge, UR5FEO, will be active as ER0FEO during the CQWW DX RTTY Contest (September 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via UU0JM.

FM, MARTINIQUE. Freddy, F5IRO, will once again be here. He has received a new work assignment in Martinique (IOTA NA-107, DIFO FM-001, WLOTA 1041) where he is expected to be here starting September 21st through the end of February 2009. His callsign is not yet known, but possibly FM/F5IRO. Activity will be limited because of his work, usually during his spare time in the evenings starting around 2200z, and during the weekends. Using a FT-857D into a V40 and G5RV (HM) antenna, look for him on 40/30/20 meters operating CW, the Digital modes and a little SSB. Sked are possible by request at : f5iro63@gmail.com

Freddy and Philippe/FM5LD plan to enter the next CQWW DX CW Contest at the end of November. Callsign and operating class will be announced later. QSL via F5IRO, direct or by the bureaus after his return home at the beginning of March 2009.

H40, TEMOTU ISLANDS (IOTA Op). A report from DL2GAC indicates that Mike/KM9D and Jan/KF4TUG, who were stuck on Ndende Island (OC-100), have arrived at Vanikolo Island (OC-163) and are presently anchored off Lavaka village. The first activation of OC-163 took place in 1992 from this village. Mike is expected to be active as H40MY from Vanikolo. QSL via OM2SA. As this was being prepared, no QSNs were reported.

HI3, DOMINICAN REPUBLIC. Edwin, HI3K, will be active during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (?) entry. QSL via KB2MS.

IOTA NEWS...........................

AS-008. Giken, JF4CAD, will be active as JF4CAD/1 from To Island, JA1 North Isu Group, from September 14-15th. Activity will be on the HF bands and 6 meters SSB. "To Island" also qualifies for the JIIA Award (http://www3.ocn.ne.jp/~iota/newpage61.htm) as JIIA AS-008-013. QSL via his home callsign, by the Bureau or direct.

AS-026. Han/DS2GOO and his XYL will be taing a trip to Cheju Island (LH0686), October 3-5th. Look for Han to sign DS2GOO/4 and be active on 80-10 meters using CW, SSB and the Digitals modes during his local evening hours. QSL via his home callsign.

AS-045. (UPDATE) A team of 8 Korean operators are now active from Tok Island (Aka Dok Island or Liancourt Rocks, LH-0016) using a specially issued callsign, D9D, until September 18th. Operator Han/DS2GOO was substituted by Kim/6K2GEN due to his work schedule. The team now is: Kim/HL2CFY, Kim/6K2GEN, Kweon/DS2GXU, Lim/DS2HRE, Jeong/6K2ABX, Song/6K2BWA, Cho/6K2FNN and Seok/ 6K2GDT. Activity will be on 80-10 meters (including 30/17/12m) using CW/SSB/FSK/PSK31. They plan to use 4 HF Transceivers with two 600 watts linears with various vertical and wire antenna systems. Some operators may sign as homecall/5 (ex. DS2GOO/5) sometimes for individual purposes. QSLs for D9D go via 6K2BWA. All others via their home callsigns. This operation has a log search which will be updated daily through mobile InterNet. The URL address is: http://dt0hf.com/search/search.html

AS-117. Operator Kenji, JA4GXS, will be active as JA4GXS/4 from Otsu Island, JA4 Yamaguchi Pref, between September 14-15th. Activity will be on the HF bands on CW. This activity is also good for the JIIA Award, reference number JIIA AS-117-110. QSL via his home callsign, by the Bureau or direct to: Kenji Sasaki,
2-15 Ishikannon-cyo, Yamaguchi-City, 753-0038 JAPAN.

EU-028. (UPDATE) Members of A.R.I. Torino and Wave Master Team will be active as IA5IG from Giglio Island (IIA GR-002), September

24-28th. Activity will be on 160-2 meters using CW, SSB and the Digital modes. They will have 2 or 3 stations on the air. Operation will take place on the following frequencies depending on propagation and QRM:

CW - 1835, 3530, 7030, 10115, 14040, 18095, 21040, 24920, 28040 and 50098 kHz

This was the first Belarus WFF expedition. Visit the WFF Web page at: http://www.wff44.com/en

NEED A QSL MANAGER? Frank, N3ZOM, is offering his services as a QSL Manager for any DX station. His E-mail address is: n3zom@comcast.net

PATHFINDER ONLINE. Dave, AA6YQ, has updated "Pathfinder Online" to access callbooks for 74 DXCC countries: 3A, 4S, 4X, 5Z, 9A, 9M2, 9M6, A9, BV, BY, C3, CE9, CX, DL, DU, E7, EI, EP, ER, ES, EW, EY, F, FR, GU, HC, HL, HS, I, J7, JT, K, LA, LX, LY, LZ, OA, OD, OE, OH, OL, OM, ON, OZ, P2, P4, PY, R1F, R1M, S2, S5, S7, SM, SP, SU, SV, SV9, T7, TA, TF, TR, UA, UA0, UA2, VE, VK, VP9, VU, YL, YN, YO, Z3, ZL, and ZS.

In addition, striking the Enter key in the "Target Callsign" box invokes the most recent search. Dave states, "The maintainers of these callbooks do occasionally re-host them or change their access mechanisms; if you notice a callbook being inaccessible for more than a week, please post a message here (DX-QSL or DX-IS mail reflectors), so I can see what's going on. Thanks..." To use "Pathfinder Online", navigate to the following Web page and type a callsign into the "Target Callsign" box, and click search buttons at:

http://www.dxlabsuite.com/pathfinder/WebClient

Vasilij, RW6HS, informs OPDX readers, that anyone who has not received a QSL card from the following stations can now obtain direct via RW6HS:

4K2BY   - 1993-1994- F.J.L
R1FJA   - 21-23/03 1994 - F.J.L
RA0BY   - 1994 - DICKSON ISL. (AS-005)
RA0BY/A - 03/04 -1996, 03/05 -1997 - SREDNY ISL. (AS-042)

Nilay, TA3YJ, reports that if you sent QSL cards to the TA3YJ QSL Service, you can check the status of your cards at:

http://www.aydogmus.gen.tr/ta3yj/qslservice.htm

TOP 5 QSL MANAGER SURVEY (Results are in!) John, K1XN, from the GoList, announced: "The votes are in and you have chosen the TOP 5 QSL MANAGERS for this period. The majority of the voters were from Europe with just a few DXers from the USA expressing their choices. Here are the TOP 5 ranked by voter choice.

1. W3HNK
2. G3SWH
3. IT9DAA
4. IZ8CCW
5. NI5DX

There were over 200 managers entered by DXers around the world. All QSL Managers are winners and their services are very important to all of us that want to claim a card for a contact. Thank you to QSL Managers and card handlers around the world, we really do /*APPRECIATE*/ you.... John K1XN"

QSL TX5C via OH2BH. The Finnish-Turkish Friendship Consortium station was active again this past weekend during the "Worked All Europe DX SSB Contest." Also, the following press release from Jarmo, OH2BN, (dated

Sept 12th) was sent out: "ASIAN TURKEY WITH A HAPPY WEDDING ANNIVERSARY AND ROUND NUMBERS: Leena, OH2BE, and Martti, OH2BH, left Finland for an unknown address in Asian Turkey on their wedding anniversary and Leena's round-number birthday. Today is the wedding anniversary and Mom was on the ropes at an antenna party in the soaring temperature of 36C. They got the job done, and TC4X should be on the air now plus in the European DX Contest this weekend.

Outside of the contest TC4X will be operated by Tefvik, TA1HZ. The upcoming magic day will be topped with a candlelight dinner and lacebed-sheet at a place overlooking the romantic Marmara Sea at sunset.

Gosh, the actual birthday coincides with the contest but mixing and maxing will hopefully provide the best results on both fronts. Who said life is an easy journey when you marry a beady-eyed contest type?"

QSLS VIA LOTW: 5X1NH

QSLS RECEIVED VIA MAIL: 3DA0OK, 5X1NH, 6Y1LZ, 7Q7HB, 7X2GX, 9X0R, C91XO, FG/OH7KD/P, GB8LMI, HC8N, HQ8R, MD0CCE, TA3J, TA3YJ, TX5C and VP6DX

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SILENT KEY. OPDX was informed by Matz, DL8ZAJ, that Teo, DJ1RL, (Elmer and friend of Matz) became a "Silent Key" last Friday, September 5th, at the age of 80. Teo was a well-known CW DXer and DXpeditioner and had also many friends in the U. S. His main interest was on 160 and 80 meters on CW. Beginning with the early 70's, he signed DJ1RL/LX several times and: C21/DJ1RL (1986), C30LDZ (1987-88), DJ1RL/SV9 (1987), C30LFK (1988), C56/DJ1RL (1988), 9J/DJ1RL (1991), KH6/DJ1RL (1994), C2/DJ1RL (1994), 3D2/DJ1RL (1994), ZK1/DJ1RL (1994), FO/DJ1RL (1994), 5R8EY (1996-97, Nosi Be Island) and FH/DJ1RL (1997). OPDX and its readers would like to send out our deepest sympathy to the family and friends of DJ1RL.

SRT HF SSB CONTEST. Just a reminder that the Strange Radio Team's HF SSB Contest is this coming weekend, starting 1300z, Saturday, September 20th through 1300z, Sunday, September 21st. Details can be found on the SRT Web site at: http://www.strangeradioteam.com

Test Preparation Software

Pass your US FCC ham radio license test with ease. Our test preparation software serves as a training aid to help amateurs and prospective amateurs pass the
VEC's administered test. When you can consistently pass the test given by our test
preparation software, you will almost certainly pass an actual test.

Our ham radio license test preparation software uses the latest officially released VEC's approved question pools. The program breaks the test into different sub-element. Integrated into the software are illustrations and Part 97 rules pertaining to the current question. The program tracks the progress of the tests taken. Once you have mastered each sub-element you are ready for the official test.

Visit our web site at http://www.hamradiolicense.net for more information

Bert, it's been a couple of years since I've been active, but until the smart guys get here I'll put my own opinions out FWIW:

If you want a direct reply, $2 US is the minimum for a lot of foreign hams--airmail rates have gone up in recent years in a lot of the world. You can find specifics for various countries--airmail costs, etc., on the web, and you can also find information from hams in other countries about how well IRCs work--some people have a lot of trouble with them, others don't. THis newsgroup used to be a good source of information but usenet seems to be dying off--I'm sure there are websites with this sort of information. THere may be some countries left where $1US will pay an airmail reply, but probably not many and I'd hate to count on it if the QSL is important to you.

I would be hesitant about using a $2 bill to help with postage--too many people in the US are dubious about them, but even in Indonesia and Svalbard, the standard $1 bill is familiar.

I love paper QSLs--I was just looking at some of mine earlier today, enjoying remembering the QSOs, the exotic locations .. but you'll probably want to sign up for "Logbook of the World" in addition. It looks darned useful on the face of it, even if you (like me) still want those paper QSLs when possible.

I used to send QSL requests in old envelopes from work--ones that were to be discarded for being out of date. Laser-print the address on one of those with no callsign visible and it looks like a regular business letter, less attractive to pilferers, I think.

Hope this helps a bit. Who are you working these days? I've been inactive for a while but I'm toying with the idea of setting up a little PSK31 operation, and seeing if 15meters is any good these days ...

I had the same thought; heck, $2 bills ara a curiousity even here.

I'm currently scouring the city looking for post offices which actually have IRCs; they're pretty scarce.

I've uploaded all my contacts for all my calls going all the way back
to about 1963; 3200 contacts (I was surprised at how few there were,
but I go inactive for years at a time) and only 31 QSLs.

It confirms my guesses.

With the dollar in free fall collapse, I have been sending $3 lately.
$3 is now under 2 euros.

I send one dollar bills in as new condition as possible.

They can order them for you. Unless they have a regular call for them, most
post offices don't stock them. Generally a polite request is sufficient but
sometimes you have to be more assertive.

Contesters and big DXers seem to be the best about being signed up for LOTW
and using it. I've uploaded about 6000 and gotten about 1000 confirmations
in LOTW.

There's lots of stuff out there right now if you are patient and persistent.

I know what you mean. I've had post office employees tell me there was no such thing as an IRC. :-)

I did the same thing a couple of years ago; took the time to create an ADIF export routine for my homebrewed log, uploaded them all, 190 countries, about 175 of them verified on paper--and got a total of 31 countries verified via LotW the last time I looked. :-)

I hope they're on the way. I've been inactive for 2 years but wound up dragging out a radio, antenna tuner, and my PSK/RTTY interface--looking forward to giving it a try again! :-)

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M1, SCOTLAND (Satellites and Low-band). Paul, 2E1EUB, will be active again as 2M1EUB from Cairngorms National Park near Aberdeen (IO87RJ) beginning April 12th for 7 days. Activity will be on all satellites (but mainly AO7 SSB), 160/80 meters and some other HF SSB. QSL via his home callsign. Also, visit the QRZ.com Web page under 2M1EUB to see a picture of the location and QSL info.

3B6, AGALEGA ISLAND. Ron, K5XK, sent out the following press release on April 1st (edited): "Rachid, 3B8FQ, has received a license for 3B6, and will activate Agalega Island as a Single-Op for 48-72 hours April 14-17th. The callsign will be 3B6FQ. This will be a working trip. Time will be shared with maintenance duties on the island, but Rachid will be as active as possible when not on duty. Operations will primarily be on SSB, with some CW, all bands 80-10M. After two days transportation by boat, operations are expected to begin around 1830 UTC on 14/4/08. Equipment will be battery powered at 70W with simple antennas. Suggested frequencies & last minute details will be announced prior to departure. QSL via K5XK, 3B8FQ/3B6FQ QSL manager."

3V, TUNISIA. Operators Zoki/Z33F and Momo/Z31MM will be active from Sousse at the 3V8SS Tunisian Scout Club Station between May 15-26th. Activity will be on all bands, including 30/17/12 meters and on all modes (RTTY/PSK/CW/SSB/SSTV). There will also be activity on 2 meters.

Also, Zoki, Z33F, plans to be a Single-Op/Single-Band (80m) entry in CQ WW WPX CW Contest (May 24-25th), and Momo, Z31MM, will be in the EU PSK Contest (May 17-18th). QSL 3V8SS via IZ8FWN. For more and updated info, please visit the following Web pages at:

4U1VIC, AUSTRIA. Seven operators are planning to be active as 4U1VIC from United Nations Vienna during the CQ WW WPX CW Contest (May 24-25th) as a Multi-2 entry. Operators mentioned are: Jozef/ON4ACA, Stefaan/ON4FG, Luc/ON4IA, Karel/ON5TN, Fred/ON6QR, Marcel/ON6UQ and Jun/JH4RHF. Activity depends on the presence of an UN radio operator (JH4RHF) to escort them into the UN building for 48 hours. Currently, JH4RHF is on a mission and it depends on how long he is on that mission, but he is very optimistic to be in Vienna during that time. QSL info will be announced later.

6 METER CARIBBEAN DXPEDITION (Callsign Changes). Dennis, K7BV, will be active this summer from the Caribbean but on 6 meters ONLY. Look for him to sign as V36M (not V3/K7BV as first reported) from Caye Caulker Island (NA-073, WW Loc. EK57XR), Belize, from June 20-26th, and as 5J0M (not HK0/K7BV as first reported) from San Andres Island (NA-033, WLOTA LH-2990, WW Loc EK92DM) between June 28th and July 6th. His equipment will be a FT-450 with ACOM-1000 amplifier, running 1KW into a 7 element and 3 element beam. The main frequency will be 50.106.2 MHz USB and /B. The pilot station will be Pat, W5OZI. QSL direct only to W1JJ (QRZ.com). For more information, visit his interesting Web page at:

http://www.qth.com/k7bv/caribe2008

6V, SENEGAL. By the time you read this a Swedish team of operators will be active as 6V7I from 6W7RV's QTH between now and April 12th. Operators mentioned are Ronnie/SM7DKF, Goran/SM7DLK, Mats/SM7DXQ, Christer/SM7KJH, Tore/SM7MPM and Mike/SM7TGA. The team plans to have two stations on 160-10 meters operating CW and SSB with monoband yagis and verticals. QSL via SM7DXQ.

6Y, JAMAICA (Ops Needed!). David, KY1V (6Y1V), reports after a successful Multi-2 operation during the CQ WW WPX SSB Contest (March 29-30th) and possibly setting a new North American WPX SSB Record with 30 million claimed points, he is planning another Multi-2 operation for the 2008 CQ WW WPX CW Contest (May 24-25th). However, he is looking for 2-4 "experienced" CW operators for a successful M2 operation. He states, "There are no fees to pay for guest operators for this contest. Simply volunteer, confirm your spot by purchasing a ticket to Montego Bay and come have a blast operating one of the Caribbean's best contest stations. Guest operators are welcome to stay at the house for free or share the cost of a rental villa at a local plush resort such as Tryall Golf and Beach Resort or Round Hill. Also, there is a very inexpensive seaside resort close by called the Saraha that has rooms for about 70 USDs/night." If interested, contact David at: david@6y1v.com

9X0R, RWANDA (QRT and Update). Antonio, EA5RM, informs OPDX that the 9X0R Web page has been updated with some pictures, QSL instructions and more. Please visit their Web page at: http://www.9x0r.com

A7, QATAR. Bill, NM7H (YI9WF), is expected to return to here sometime in early April and be active as A7/G0MKT through the middle of June. Activity will be mainly CW on 40-6 meters with some SSB and PSK. QSL via NM7H, direct or by the bureau.

AH8, AMERICAN SAMOA. Dr. Gavin, W9EYE, will be going back here to do some missionary eye surgery from April 21-27th. He hopes to be active as AH8/W9EYE during his spare time. Dr. Gavin will try to be all bands 80-10 meters with high power as propagation allows, SSB and hopefully RTTY. QSL via his home callsign as instructed on QRZ.com.

CQ NEWS (New 160m Contest Director). Richard Moseson, W2VU, Editor of CQ Amateur Radio, sent the following press release on April 4th:
"Andy Blank, N2NT, Named Director of CQ World Wide 160-Meter Contest --

Veteran contester Andy Blank, N2NT, of Dayton, New Jersey, has been named Director of the CQ World Wide 160-Meter Contest. Andy succeeds Dave Thompson, K4JRB, who has decided to retire after 16 years at the helm of the event. During Dave's tenure, the number of logs submitted more than tripled.

Andy has been a ham since 1972, a 160-meter operator nearly as long, and a contester for more than 30 years. He has operated not only from his own station but from various multi-op stations in the U.S. and the Caribbean. He is a past winner of the CQWW DX Contest, the ARRL DX Contest and others, and has been a three-time competitor in the World Radiosport Team Championship (WRTC) competition. Andy says the CQ WW 160-Meter Contest is among his favorites.

Andy's plans for the contest are to build on K4JRB's record of success and growth by making the log-checking procedures consistent with those used in other CQ contests, creating a web presence for the contest and updating some of the rules. The 2009 rules will appear in the November 2008 issue of 'CQ' magazine."

CQ NEWS (2008 DX Marathon Update). John, K9EL, DX Marathon Administrator, informs OPDX: "CQ has announced the addition of Kosovo to the CQ WW and DX Marathon contests with an effective date of 17 February 2008. To receive DX Marathon credit for Kosovo, please use only the latest version (V2008.3) of the official DX Marathon Scoresheet." It is available for download from the official DX Marathon Web site at: http://www.dxmarathon.com

DXCC NEWS..............

Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:

G4GIR/KH9 - Wake Island; 2007 Operation

If you had this rejected in a prior application, please send a note todxcc@arrl.org to be placed on the list for an update.

Bill Moore, NC1L, ARRL DXCC Manager, reports: "In follow up to the January 21, 2008, DXCC blog entry regarding St. Barthelemy, DXCC has completed processing 2007 applications and St. Barthelemy has now been added to the DXCC computer system, and, Logbook of The World.

This moves the #1 Honor Roll position to 338 current entities making entry level Honor Roll 329.

While DXCC has completed 2007 applications, there are a number of application returns still being mailed, so it may be another 2-3 weeks before applicants receive their 2007 return.

Lastly, Logbook of The World is now accepting certificate requests for St. Barthelemy, and once those logs are submitted the matches should occur and applicants can claim DXCC credit.

For programmers who use the DXCC entity numbering system, the entity code for St Barthelemy is 516."

FJ, ST. BARTHELEMY. Jurgen, DJ2VO, will be active as FJ/DJ2VO between April 19 and May 8th. He will arrive on St. Barthelemy April 18th and set up his station which includes an Icom IC-706 MK 2G (w/100 watts), 10 meter vertical antenna with 24 radials and a smart tuner. Activity will be CW only on 80-10 meters. He plans to depart on May 9th.

FS, ST. MARTIN. Bob, N9QGU, will be active from here for about two weeks starting April 22nd. He informs OPDX that he will be operational on 20-10 meters SSB, early mornings and late afternoon. Bob states, "Last year during a two week period in May, I made over 1000 contacts from St. Martin. I worked most of them on 17 meters. It had the best band conditions."

GB1, ENGLAND (Special Event). Look for special event station GB1SUN to be active until the end of the year promoting the use of solar energy in amateur radio. The station will be powered by solar panels and will operate on the HF and VHF bands. The location is Ossett, West Yorkshire, the QTH of Mary and Robert Brown, M3XMW and M0JRB.

GB6, ENGLAND (Special Event). Look for GB6GEO to be on the air from "The Prehistoric Caves", of "Kent's Cavern", England's oldest home in Britain. GB6GEO will be situated in "The English Riviera" (Torbay), that is recognized as having Geo Park status. There are six in the UK, and fifty-three in the world. They hope GB3GEO will help to promote geological heritage to the general public. There will be a special open day at the caves on Sunday, May 25th, and GB6GEO will be on the air during the weekend of May 24-25th. Operations will be on 80-2 meters. The station will be run by Martin/G3VOF, with help from John/G7HIK, Paddy/M1EIW and Roger/2E0GHR. There will be a special QSL card sent for all QSOs made with GB6GEO via the bureau.

GB0, ENGLAND (Special Event On The Birds). Operators Robert/G8ATE and John/G7HIA will be using the special callsign GB0CD to celebrate "Cosmonautics Day" on April 12th between 0800-2200z on AO7, AO16, AO27, SO50, AO51 and VO52. Some other activites may take place over the following 4 weeks with operations possibly on SSTV and other Digital modes. Cosmonautics Day is a Russian holiday celebrated in honor of the historic first manned space flight made on April 12, 1961, by 27 year old Russian cosmonaut Yuri Alekseevich Gagarin of the USSR, who made one complete orbit around the Earth (lasting 1 hour 48 min.) aboard the spacecraft Vostok 1.

H7/YN, NICARAGUA. Eric, K9GY, will be back at the YN2N station near Granada (http://www.yn2n.com) again between November 22nd and December

1st. He plans to be active during the CQ WW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. He is hoping to receive the callsign YN2M for the contest, otherwise he will use H7/K9GY. Eric states that the logs will be uploaded to the LoTW. Direct QSLs are "OK" via CBA too.

HL0, REPUBLIC OF KOREA (Special Event). Look for special event station HL0HQSC to be active until April 30th. Operations will be on all bands and modes, including the satellites. Activity is to commemorate the first YL Korean astronaut, Yi So-yeon (DS3SYL), during her mission on ISS (International Space Station) between April 8-19th, and to celebrate ARISS School Contact that she will communicate with Korean youths through HAM radio during her mission to Space. QSL via HL2CFY, direct or by the bureau.

HS, THAILAND. By the time you read this, Joerg, DL1MJF, is expected to be active as HS0ZGQ between now and April 24th. Activity will be on 40-10 meters, including 30/17/12 meters, CW and SSB, using a TS-50 and G5RV dipole. Suggested frequencies are: 7022, 7062, 14022, 14262, 21022, 21262, 28022 and 28562 kHz. He also plans to visit the Island of Koh Samui (AS-101) between April 20-24th. QSL via DL1MJF, direct or by the bureau.

IOTA NEWS.........................

EU-005. Members of the CQ CQ Portable Group, UK, will active as GB0PIA from Piel Island, May 24-25th. Operators mentioned are: John/M0JFE, Ian/2E0EDX, Brian/2E0OYG, Nathan/2E0OCC, Greg/2E0RXX, Sean/2E0BAX and Liam/M3ZRY. Activity is planned for 160m-70cm (no 30m) with band conditions determining which will be used. HF equipment consists of FT817 rigs with 80w linear and various antenna systems. VHF/UHF equipment consists of various radios for 2m, 6m and 70cm, with beams and verticals. Piel Island lies half a mile (1 km) off the southern tip of the Furness Peninsula in the administrative county of Cumbria (WW Loc. IO84JB, WAB square SD26). This operation will also count for the Piel Island 14th Century Castle (CASHOTA reference G/151/C). For more information and updates, visit the following Web page at: http://www.hamuniverse.com/pielislanddxpedition.html

EU-189. (OPERATORS NEEDED!) With less than 2% of the IOTA participants claiming to have contacted the Isle of Rockall, now a dream of opportunity has arisen to join the "Island Man" (aka Andy Strangeway) on a once in a lifetime trip to the edge of the world. Previously activated in 2005 for a few hours only, it's easy to see why this most wanted island on the air attracts interest from every part of the globe. On June 22nd, Andy will attempt to travel out to Rockall with a professional team of yachtsmen and rock climbing instructors. It's thought generally the weather and sea conditions are kindest then. There will be room onboard for up to eight radio amateurs who may be interested in going to Rockall and activating this extremely rare IOTA. If you are serious in joining Andy, drop an E-mail to him at: info@island-man.co.uk
ADDED NOTE: Andy along with the "World's Most Travelled Person"

- Charles Veley, will also attempt to land on Rockall during the week commencing May 12th. It was reported that there are one or two places still available on this earlier trip to Rockall. Again, if interested, contact Andy - the May visit to Rockall could be an ideal opportunity to do a site survey for the planned June 2008 (amateur radio) visit. For updates and a photo of Rockall, visit the following Web page at: http://hamspirit.wordpress.com/2008/04/03/special-announcement-rockall-isle-eu189-june-2008-planned/

J3, GRENADA. Operator Hans/DL7CM and Siegfried/DM2AYO will be active as J3/homecall between November 6-25th. Activity will be on 160-6 meters, CW, SSB, RTTY and PSK. They plan to have two stations on the air with 750 watts, yagis and GP. QSL via their home callsign. Watch for more details at: http://www.qsl.net/dl7cm

J49, CRETE. Dick, G3URA, will be active as J49XF during the CQ WW WPX CW Contest (May 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via G3URA, direct or by the Bureau.

KH2, GUAM (OC-026). Operators Sei/JA7LU and Yohji/JH1AWN will be active from here between May 9-11th. Sei is expected to sign JA7LU/KH2, but no details were provided on what callsign Yohji will use. Activity will be on SSB on the HF bands and 6 meters. QSLs via the JARL Bureau are "OK" or direct (See QRZ.com).

KH4, MIDWAY ISLAND. It was announced this past week that after six years of no possibility of landing on Midway Atoll, the U.S. Fish and Wild Life Service is reportedly reopening the Atoll for visits. For complete details, please visit: http://www.fws.gov/midway/MidwayOSnr011508.pdf

KP2, U.S. VIRGIN ISLANDS (NA-106). Glen/W5IF and his XYL will be visiting the WP2Z superstation on St. Croix between April 23-30th. He will be operating as KP2/W5IF and plans to be active on all bands with a special emphasis on RTTY and 30/17/12 meters. For RTTY skeds and info, please contact Glen at: W5IF@valornet.com. He also tells OPDX, "Looking forward to a week of R & R (rest and radio) Hi..." QSL via his home callsign, LoTW or by the bureau.

LN2, NORWAY (Special Event). Members of the Radio Club of Gardermoen (LA2G) will be active using the special callsign LN2G between April 11-13th. This special callsign has been authorized in conjunction with the "Norwegian Hammeeting" (See http://www.hammeeting.no). Activity will be mostly on 40 and 20 meters, SSB, PSK31 and RTTY. QSL via the club station LA2G.

LZ9, BULGARIA. Members of the Bulgaria Contest Team will be active as LZ9W during the CQ WW WPX CW Contest (May 24-25th) as a Multi-Multi entry. QSL via LZ9W by the Bureau.

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ WW WPX CW Contest (May 24-25th) as a Single-Op/All-Band or Single-Band (20m)/High-Power entry. QSL via W0MM.

P4, ARUBA (Date Change). Garry/K9WZB and his wife Sharon/K7WZB will be active as P40ZB from May 6-15th (not April 16-24th as first announced). Garry informs OPDX that the dates were changed due to medical problems (Sharon/K7WZB broke her leg). OPDX and its readers wish Sharon the best and speedy recovery. Activity will be on 40/20/17/15/10/6 meters, CW, SSB and RTTY. QSL direct to K9WZB.

PJ4, NETHERLAND ANTILLIES. Andy, W9NJY, is now active as PJ4/W9NJY from the Island of Bonaire (SA-006) until April 10th. Activity will be on 40-10 meters including 30/17/12 meters. QSL via WD9DZV.

9M6LSC LOG. Phil, G3SWH (AD5YS), informs that the log of the March 2008 operation from 9M6LSC by Brian/G4ODV (5B4AIZ) is now fully searchable on his Web site at: http://www.g3swh.org.uk/9m6lsc.html

A35RK UPDATED ON LOTW. Paul, A35RK, informs OPDX that he has uploaded his March log to the LoTW (on April 1st). He states, "There were nearly 4,000 contacts altogether, mostly due to the two contests... ARRL-DX-SSB and WPX-SSB...during March. I also had a couple of good runs on both 17M and 10M." Paul finds it interesting to note that the "confirmation rate" on LoTW is still running at about 30+%. Contesters like LoTW! The DXer's (in general), their "confirmation rate" is about 10-12% via LoTW, and about the same rate via Bob/W7TSQ (his QSL Manager). Paul feels this has taken some of the workload off his outstanding QSL Manager. He also wants to remind everyone: "No direct mail QSLs to Tonga, please...the mail service is terrible. Also, there is no A3 bureau. And...please...NO QSLs via KK6H, my U.S. 'home' call. Please QSL A35RK via W7TSQ (c/o W7 bureau is OK, but returns are slow) or via ARRL Logbook of the World is an excellent choice. I regularly submit my logs for the past month on the first day of the new month...both to W7TSQ and to LoTW...(ie, March log goes out on 1st April)."

Rene, F5LGE, who was active FM/F5LGE, is now home and direct requests should be answered in about two months. QSLs were ordered.

M5BXB AND OK8XB (New QSL Route). Phil, G3SWH (AD5YS), informs that following the sad passing of Graham, M5AAV, he has been appointed as QSL Manager for M5BXB and OK8XB effective immediately. The logs for both callsigns are fully searchable on his Web site at:
http://www.g3swh.org.uk
Phil states that he will be happy to take on the QSLing responsibilities for any of the other callsigns that Graham handled.

QSLS VIA LOTW: A35RK, B3C, FJ/G3TXF, IR4X and TR8CA

QSLS RECEIVED VIA MAIL: 3DA0VB, 4L0B, 4S7NE, 5H3VMB, 5R8VB, 5X1NH, 5X1VB, 5Z/UA4WHX, 7P8VB, 7Q7VB, 7X0RY, 9J2BO, 9J2VB, 9X0VB, 9X0W, 9X0X, 9X0Z, A25VB, A45XR, AP2NK, BU2AI, C50C, C6AKU, C91VB, CX/N3BNA, D20VB, D60VB, EP4HR, FJ/G3TXF, FO/OH1RX, HB0/DL4IAL, HQ4R, HR3/JA6WFM, IS0/YO3RA, J20VB, J5C, J5UTM, J79SJ, JA6WFM/HC5, JA6WFM/HI8, JY4NE, KG4SS, OD5/F5PTM, PJ2/W8AV, ST2VB, T05FJ, TN6X, V31LZ, V51VV, VK3ZL, WP3C, YN2S, Z2/UA4WHX and ZK1IR

TC57, TURKEY (Special Event). Members of the Turkish group called SWAT (Special Wireless Activity Team) will be active as TC57A from Canakkale - Gelibolu Peninsula, April 22-26th. Activity is to commemorate the 57th Regiment Martyrs who lost their lives in World War I. Operation will mainly be on 40/20/17/15 meters. For more information, visit QRZ.com or the TCSWAT Web site at: http://tcswat.tripod.com

TI, COSTA RICA. Orrin, K9KEJ, will once again be active as TI6/K9KEJ in the jungle from the eastern part of Costa Rica between now and April 11th. Activity will be mostly on 20 meters with some 17/15 meters.

VU/VU4/VU7 NIARS NEWS. It was announced this past week that the National Institute of Amateur Radio (NIAR) will be celebrating its "Silver Jubilee" in Hyderabad, India, between October 18-20th. To help celebrate this event, look for some special amateur radio activities to take place between October 24th and November 3rd from many Indian locations which will include operations from the Andaman & Nicobar Islands (VU4) and Lakshadweep Islands (VU7). NIAR will be assisting foreign amateurs in regard to reciprocal licenses or operation permits for the VU4 and VU7 activations. To receive details about license requirements, fill out the registration form at:
http://www.niar.org/sj/form.html
More information is available at: http://www.niar.org/sj/index.htm

WELL-KNOWN YL DXER REPORTEDLY VERY ILL. OPDX was informed that well known YL Nellie, XE1CI, is quite ill. Nellie de Lazard is noted for being a QSL Manager, an operator on some major DXpeditions and on the INDEXA Board of Directors since 2002. She is reportedly fighting cancer and is undergoing chemo but continues to be active on the air. Some DX clubs are sending her certificates of acknowledging her achievements in Ham Radio and are also making a donation in her honor to organizations like INDEXA and the Northern California DX Association. If you would like to send her a get well QSL card, we are sure she would appreciate it. Her address is: Nellie de Lazard, Sierra Chalchihui 235-502B, Mexico City, 11000, Mexico. OPDX and its readers wish Nellie a complete recover.

XU, CAMBODIA. Retu, OH4MDY, is now active as XU7MDY from Sihanoukville until April 14th. Activity will be on the HF bands using CW, SSB and various digital modes. He was spotted this past weekend on 20/17 meters SSB/RTTY. QSL only direct to XU7MDY address on QRZ.com.

XU, CAMBODIA. Wim, ON6NP, will once again be active from here this time as XU7ADV from April 9-28th. Activity will be on SSB and the Digi modes (PSK31 and RTTY). His equipment will be a FT857D, band pass filter, automatic antenna tuner CG-5000 and SB-1000 interface.

ZF, CAYMAN ISLANDS (NA-016). Bob, K3UL, will once again be active as ZF2UL between now and April 12th. Activity will be mainly CW on 160/80/30 meters. QSL via his home callsign.

ZS8, MARION ISLAND. Petrus, ZS6GCM, is now on Marion Island. He arrived on the island on March 31st. As reported last week, do not expect him to be on the air as ZS8T for about three to four weeks. This is due to a changeover time in working patterns and general settling in on the island. He is expected to be on Marion for at least a year. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

```
 radio/personal-intro
 Subject: Guide to the rec.radio Newsgroups
 Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
 Last Posted: 9 Nov 2001 06:18:17 GMT
 Posting-Frequency: 15th of each month
```

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

HL - SOUTH KOREA

The special event station HL0HQSC is active in all modes on all bands until Apr 30. They are celebrating the new Korean hero Yi So-yeon, DS3SYL, the first female astronaut from South Korea. Yi So-yeon shall fly to the ISS onboard a Russian spacecraft on Apr 8.
QSL via HL2CFY, direct or via bureau.

KH9 - WAKE ISLAND, OC-053

Colin,WA2YUN/KH9, will have a 3ele tribander in a few weeks. About two months later he will get a power amplifier as well. Colin will stay on Wake Island (OC-053) until the end of 2009. His QSL manager is K2PF.

PJ4 - NETHERLAND ANTILLES, SA-006

Andy,PJ4/W9NJY, is activating Bonaire (SA-006) on 10-40m until Apr 10.
QSL via WD9DZV.

V6 - FEDERATED STATES OF MICRONESIA, OC-012

Members of the "Yamato Club" (JA1ZEK) will visit Yap Island (OC-012) from Apr 9-15. The operators Sasi,JA1KJW (V63JQ), Mat,JA1JQY (V63JY), and Kuni,JA8VE (V63VE), will have three transceiver, a small amplifier,

dipoles for 160-30m and beams for the other bands. V63JY and V63JQ will work in CW, V63VE will operate in SSB and RTTY.
QSLs for V63JY and V63JQ via bureau to the operator's homecalls,
V63VE via JF1OCQ.

XU - CAMBODIA

XU7ADV will be the callsign of Wim,ON6NP, from Apr 9-28. Wim will use a FT-857D, a CG-5000 automatic antenna tuner and a SB-1000 interface in SSB, PSK and RTTY.

YK - SYRIA

Roger,G3SXW, Nigel,G3TXF, Fred,G4BWP, Lionel,G5LP, and Rob,GM3YTS, will show up as YK9G from the capital Damaskus from Apr 9-15. They will work in CW only with two stations (including amplifiers) 24 hours a day. Though they have antennas for 160-10m they want to activate 40-17m at most. QSLs via buro or direct to G3TXF, via LoTW or via e-mail request. Check also their website at: http://www.yk9g.com

3B6 - AGALEGA AND ST BRANDON ISLANDS, AF-001

The surprise of the week is the upcoming activity from Agalega (AF-001) from Apr 14-17. Rachid,3B8FQ, is holding a license in his hands and wants to hit the airwaves as 3B6FQ for about 48 to 72 hours. He will be QRV mainly in SSB on 80-10m but sometimes also in CW. Rachid hopes to hit the airwaves with his battery powered 70 watts transmitter and simple antennas on Apr 14 around 1830 UTC. Rachid will be on a QRL trip to Agalega so he can enjoy his hobby amateur radio only during his spare time. Please send your cards to his QSL manager K5XK.

ENGLAND, SPECIAL EVENT CALLSIGN

GB1SUN is active since Apr 5 and promotes solar energy in amateur radio until the end of the year. It goes without saying that GB1SUN is totally powered by solar energy itself. Mary and Robert Brown (M3XMW and M0JRB) in Ossett/West Yorkshire are working on HF and VHF.

NORWAY, SPECIAL EVENT CALLSIGN

LN2G will be active during the "Norwegian Hammeeting" from Apr 11-13. Operation will take place in SSB/PSK31/RTTY on 40m/20m. QSL via LA2G.

USA, SPECIAL EVENT CALLSIGN

The ocean liner Titanic sank 96 years ago. To remember this event the operators WA0SAP, W0ERE, KB9YZE and K0ADI will activate the special event station W0S in SSB/CW on HF from the world's largest Titanic museum in Branson/Missouri on Apr 12/13.
The museum's website can be found at: http://www.titanicbranson.com

DXCC: QSLs of G4GIR/KH9 (Wake Island 2007) are accepted for DXCC credit now.

3B6, AGALEGA ISLAND. As this was being written, OPDX received the following press release from Ron, K5XK (edited - dated April 13th, 1600z): "Rachid, 3B8FQ, is expected to land overnight on Agalega Island, AF-001. He will operate as 3B6FQ for five days, April 14-18th (2008). When not tending to radio officer duties, Rachid will operate all bands 80-10m, on SSB and CW only. Following are the preferred operating frequencies:

Freq	CW	SSB
28 MHz	28008	28491
24 MHz	24898	24941
21 MHz	21008	21241
18 MHz	18078	18131
14 MHz	14008	14191
10 MHz	10108	-
7 MHz	7008	7048
3.5 MHz	3508	3791

Operations should begin around 1830z on April 14th, on 14 MHz, and later on 3.5 MHz from 0130-0230z on April 15th. Equipment will be battery powered at 70 watts, with simple antennas. Rachid expects to concentrate on SSB, but he is also a skilled CW operator and will also operate on the CW frequencies indicated. QSL via K5XK."

4W, TIMOR-LESTE (Update). The Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) is proud to announce a project in East Timor to take place in June 2008. URE's Radiosolidarity Department will organize an Amateur Radio DXpedition, combined with activities to promote Amateur Radio including the donation and setting up of a complete amateur radio station at the University of Dili. It is hoped that by operating alongside students and teachers of the Electrical Engineering and other departments it will be possible to sow the seeds of future amateur radio activity of a permanent nature in East Timor. The current team consists of the following experienced operators: Angel/EA1QF (Team Leader CW/Digi), Txema/EA5BWR (CW/SSB/Digi), Eugene/EA4KA (CW), Pere/EA3CUU (CW), Jose/CT1ERC (SSB/Digi) and Jose/EA4DB (CW/SSB/Digi). Activity will be on CW, SSB, RTTY and the HF bands. QSL Manager is EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid - SPAIN. More details and up-to-date info is now available on their new Web paqe at:

http://www.ure.es/hf/eadx/expediciones/4w2008/home.php?lang=en

6V, SENEGAL. Operators Witek/SP9MRO and Marian/SP9CTT will be active from here between April 17th and May 5th. They have requested the callsigns 6V7K and 6V7J. Activity will be on 160-10 meters (with an emphasis on

160-30 meters), CW, SSB, PSK31 and RTTY. QSL 6V7K via SP9SX and 6V7J via SP9CTT.

9M6, SPRATLY ISLANDS. Operators Halvard/LA7XK (KK6ZS), Just/LA9DL and Erling/LA6VM will be active as 9M6/LA7XK, 9M6/LA9DL and 9M6/LA6VM, respectively, from Layang Layang in the Spratly Islands, between April 18-25th. QSL via their home callsigns, direct or by the bureau.

CT3, MADEIRA ISLANDS (AF-014). Lars, DF1LON, will be active as CT3/DF1LON during the RSGB IOTA Contest (July 26-27th). Operating class was not provided. QSL via DF1LON.

DAYTON HAMVENTION NEWS..........

DX DINNER - Jay, K4ZLE, SWODXA HamVention publicity person, sent out the following: "This press release is a reminder that Dayton HamVention is coming soon. For those DXers who have not attended the DX dinner held on Fridays of HamVention you are missing a great opportunity to meet and greet some of the most well known DX operators in the country, if not the world. For those who have attended before this is a reminder to get your tickets while you can. They are still available, but remember seating is reserved and is done on a first come, first served basis.

The 23rd annual DX Dinner will be Friday evening, 16 May, at the Crowne Plaza Hotel, located in Dayton city center. Up to date information on the DX dinner may be found at: http://www.swodxa.com
Tickets are 37.00 USDs per meal, payable in U.S. funds to SWODXA. (Sorry, we do not process PayPal or Credit Card payments.) Please advise if you want a vegetarian meal when you order. You may order from Pete Meyer, N0FW, at his CBA with SASE. We attempt to honor group seating requests when tickets are ordered together. There is not a bad seat in the house, but seating is definitely limited. Come join us for an evening of fun and fellowship. Further information may be obtained at: n0fw <at> live <dot> com. N0FW's CBA is Pete Meyer, N0FW, 3049 New London Rd., Hamilton, OH 45013"

LAST MINUTE UPDATE - As this was being written, Jay, K4ZLE, informs OPDX that "the program has been set for the DX dinner. Eric Scace, K3NA, one of the forces behind the excellent VP6DX operation will be our main speaker. He will present "A Day in the Life of a DXpeditioner" ... photos, stories and maybe some audio snippets that paint a picture of what life is like for a person in an expedition. Obviously, Eric will use VP6DX as his backdrop."

DX FORUM AT THE CONVENTION - Jay, K4ZLE, informs OPDX that "The program has been set for the DX Forum. We will have the following presentations:

3B7C	Wes Lamboley, W3WL
J5C	"Wild Bill" Beyer, N2WB
VP6DX	Eric Scace, K3NA
TX5C	John Kennon, N7CQQ

In addition, at the conclusion of the DX forum there will be a raffle drawing for a Yaesu FT-950 or equivalent. Tickets are 5.00 USDs each or 5 for 20.00 USDs. You do not have to be present to win and all proceeds from this raffle will go into the SWODXA DXpedition grant fund."

Information on purchasing the raffle tickets and on either of the above two activities can be found at: http://www.swodxa.com

DXCC NEWS. Just a reminder that cards for A52AM are NOT valid for DXCC. The reason given: "because his license was revoked" - Unauthorized Operation. For more details, you can view the official paper work from the Bhutan PTT at: http://www.darc.de/ausland/new/auslref_dokumente/bicma_a52am.pdf

FM, MARTINIQUE (NA-107). French DXCC card checker Gerard, F2VX, will be active as FM/F2VX between April 25th and May 8th. Activity will be SSB on the HF bands. QSL via F2VX, direct or by the bureau.

FS, FRENCH ST. MARTIN. John, K9EL, will be here between April 24th and May 4th on a family vacation and will operate as FS/K9EL whenever possible. He will be using an IC7000 and verticals for 80-10 meters, mainly CW and SSB. RTTY is possible as well. Please QSL to his home callsign, Bureau cards are "OK".

GB3, ENGLAND (Special Event - Corrected). Look for GB3GEO (not GB6GEO) to be on the air from "The Prehistoric Caves", of "Kent's Cavern", England's oldest home in Britain. GB3GEO will be situated in "The English Riviera" (Torbay), that is recognized as having Geo Park status. There are six in the UK, and fifty-three in the world. They hope GB3GEO will help to promote geological heritage to the general public. There will be a special open day at the caves on Sunday, May 25th, and GB3GEO will be on the air during the weekend of May 24-25th. Operations will be on 80-2 meters. The station will be run by Martin/G3VOF, with help from John/G7HIK, Paddy/M1EIW and Roger/2E0GHR. There will be a special QSL card sent for all QSOs made with GB3GEO via the bureau.

HB0, LIECHTENSTEIN (EME Activity). Operators Kasimir/DL2SBY and Georg/DF1SR (ex-DD0SB) will be active from here between May 5-12th. Activity will be on 80-6 meters, CW, SSB and RTTY, using 600 watts into a Butternut HF9V antenna. They also plan to be active in the EU-EME Contest (May 11-12th) on the 23cm band. Operations will also include EME on 1296 MHz (500 watts/ Dish 3m) and 2320 MHz (200 watts/Dish 3m). Callsigns will be be HB0/DF1SR (EME-activity) and HB0/DL2SBY (HF-activity). Visit the following Web page for more details and photos at: http://home.arcor.de/dl2sby/

IOTA NEWS.............................

EU-030. Michael, DL6MHW, will be active as OZ/DL6MHW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203) between July 18th and August 4th. Activity will be on all bands 80-10 meters, including an entry in the RSGB IOTA Contest (July 26-27th). QSL via his home callsign, direct or by the bureau.

EU-130. Jens, DL8WOW, will be active as OZ/DL8WOW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203), August 3-15th. QSL via his home callsign, direct or by the bureau.

EU-042. Operators Helmut/DL1ECU and Rolf/DK1DN will be active as homecall/p from Hallig Langeness (N-19 for the German Islands Award, WLOTA LH-1245) between April 22nd and May 3rd. They plan to have two stations active on all HF bands. QSL via their home callsigns.

EU-043. Bernd, DL8AAV, will active as SD1B/6 from Tjorn Island, Sweden, June 15-28th. Activity will be on the HF bands, on or near the usual island and IOTA frequencies. QSL via his home callsign, direct or by the bureau.

EU-051. Members from the Noantri Radio Club in Rome will be active as IE9N from Ustica Island between April 24th and May 1st. Activity will be on all bands and modes. Look for their 6m beacon to be on air as IE9N/B. This group will activate this unique location, trying to give another good reference number to the world-wide IOTA comunity after last year operations as OH1OTA. Ustica is a small volcanic island situated in the Tyrrhenian Sea. It is characterized by reduced sources of water, and the vegetation is consequently scarce. It is also a marine protected area, and one of most important scuba diving spots in Europe. More details and live updates are available at: http://www.ie9n.com
QSL via IZ0FKE.

EU-170. Gianfranco, I6GFX, plans to activate several islands in the Dalmatia North Group (EU-170) for the Islands of Croatia Award (IOCA) as 9A/I6GFX from June 21-27th. He will start with six days on Dugi Otok Island (IOCA CI-018, ACIA-367, CIA-10, MIA MC-074, CLHA-178, TWLHD WLH 9A-077) in Veli Rat, locality Verunic, and set up his base there. The others islands to be activated are as follows:
  Zverinac (IOCA CI-150, ACIA-259, CIA-59, MIA MC-479)
  Brscak (IOCA CI-299, ACIA-365, MIA MC-045)
  Magarcic (IOCA CI-305, ACIA-383, MIA MC-220)
  Rava (IOCA CI-099, ACIA-392, CIA-39, MIA MC-337)
  Luski (IOCA CI-304, ACIA-382, MIA MC-216)
Depending on the weather and landing, other possible islands to be activated are:
  Lagnici (IOCA CI-419, ACIA-379, MIA MC-195)
  Mezanj (IOCA CI-307, ACIA-387, MIA MC-242)
  Silo (IOCA CI-406, ACIA-250, WLOTA LH-2529)
  Planatak Veli (IOCA CI-308, ACIA-399, MIA MC-298)
  Utra (IOCA CI-298, ACIA-397, MIA MC-443)
QSL via his home callsign.

EU-172. Stefan, DF8HS, will be active as OZ/DF8HS from Langeland Island (DIA FY-019, WLOTA LH-0590), April 14-26th. Activity will be on 80-10 meters, SSB, RTTY and PSK. QSL via his home callsign.

NA-213. Ray/K9DUR and Pam/KC9JMA will be active as homecall/p from Dauphin Island (USI AL-002S, Mobile County, Alabama), April 17-22nd. Look for activity on the usual island and IOTA frequencies. QSL via his home callsign, direct or by the bureau.

OC-130. Maarten, PA3GZU, will be active as DU9/PA3GZU from Mindanao Island (LH-2803, WW Loc. PJ27UH) between now and May 12th. Activity will be mainly on 20 meters (14260 kHz SSB and 14070 kHz BPSK31). Maarten is on holiday, so his activity will be limited. Most of his activity is expected at the end of April and the first week of May. QSL via his home callsign, the bureau is preferred.

OC-223. Nick, VK1AA, plans to be active as VK1AA/2 from this rare entity called Montague Island (WLOTA LH-0722) between April 15-18th. He has obtained permission from the NSW Parks and Wildlife Group to operate from the island. The operation is provisionally planned to start on April 15th for 3 nights, but factors such as weather conditions may change the dates. He will be running 75 watts into a vertical antenna, mostly CW on 40/30/20 meters. QSL direct via Nick Hacko, PO BOX 900 Spit Junction, 2088 NSW, Australia. Bureau requests via VE3EXY.

KP2, U.S. VIRGIN ISLANDS. Operators Ann/KP2YL and Brian/KP2HC will be back to visit the island of St Croix from April 16-23rd. Look for them on 160-6 meters, CW and SSB. QSL direct only via their California address which is listed in all the major callsign databases.

KP4, PUERTO RICO. A group of operators will be activating Isla de Cabras (PUR012 - Goats Island) for the U.S. Islands awards program and commemorating "World Amateur Radio Day" on April 18th. Activity will be on 20-10 meters and possibly 40 meters using the callsign KP4DJ on CW, SSB and maybe PSK31. Operation will be from 1300-2300z. QSL via WP4F.

MJ, JERSEY. Lars, DF1LON, will be active as MJ0LON during the CQWW WPX CW Contest (May 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via DF1LON.

MJ, JERSEY. Operators Charles/M0OXO and Nigel/M0NJW will be active as MJ0X from Les Minquiers Islands (EU-099) during the RSGB IOTA Contest (July 26-27th). Operating class was not provided. QSL via M3ZYZ.

OJ, MARKET REEF (EU-053). Six operators will activate Market Reef between July 11-14th, which will include a Multi-Single entry in the IARU HF World Championship (July 12-13th). The group will have three stations on the air on 160-6 meters. Operators mentioned are: Olaf/SM0CKV, Seppo/OH1VR, Markus/ OH3RM, Bob/W6RGG, Vicky/AE9YL and Carl/K9LA. All operators will sign OJ0/homecall before and after the IARU Contest, except for OH1VR who will use OJ0VR. QSL all OJ0/homecalls via operators' home callsigns and OJ0VR via OH1VR. A special callsign for the contest has been applied for and is not yet known. The Market Reef lighthouse has the following reference numbers: ARLHS MAR-001, TWLHD WLH OJ0-001, WLOTA LH-0542 and Admiralty C4472.

OL76, CZECH REPUBLIC (Special Event). Look for special event station OL76CAV to be active for 24 hours on April 20th. Activity is to celebrate 76th anniversary of the founding of Ceskomoravsti Amateri Vysilaci

(Czech-Moravian Transmitting Amateurs, http://www.c-a-v.com/). Activity will be on all bands CW, SSB, RTTY and BPSK from the various places in the Czech Republic. QSL via OK1UU.

PJ2, NETHERLANDS ANTILLES. Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2T during the CQ World Wide DX CW Contest (November 29-30th) as a Multi-? entry. Operators mentioned are Geoff/W0CG, Jeff/K8ND, Jim/W8WTS and possibly others. Also look for Martin/W1MD and possibly others to be active as PJ2T during the CQ World Wide DX SSB Contest (October 25-26th) as a Multi-? entry. QSL both operations via N9AG. Also, QSL PJ2T via LoTW.

PJ2, NETHERLANDS ANTILLES (Contest Station Available For IARU). Geoff, W0CG/PJ2DX (PJ2T Rental Coordinator and Chief Janitor), announced this past week that the PJ2T Signal Point Station on Curacao (SA-006, WLOTA LH-0942) is available for IARU Contest in July, given that none of the club members are able to make that trip this year. If you or your group want to take a crack at that contest, you could get almost any PJ2* callsign assigned except PJ2T, PR2A, or PJ2R. Geoff will be on site during your visit to support you in using the station and getting around in the QTH. There are four beds available in two bedrooms (with two baths). Geoff is also willing to operate with your team if you wanted help, or would also be happy to sit it out and let you or your group do it on your own. If you're interested, drop Geoff an E-mail and also have a look at the following Web page which should answer most of your questions, at: http://www.pj2t.org
Geoff's E-mail address is: ghoward@kent.edu
Geoff adds, "Who knows what the sunspots will or won't do by July...? It just seems a shame for a big and well-maintained station not to be on...."

3D2AG/P QSL STATUS. Tony, 3D2AG, reports, "Concerning the QSL cards for the Rotuma operation, blank cards are expected anytime from UX5UO, and these will be taken with me to New Caledonia first week of May, from which time QSL requests will start to be processed. As all logging was manual (two logbooks!) online logs will be delayed unfortunately. Sam, FK8DD, informs me that thousands of letters have safely arrived in New Caledonia and await attention, so there is no need for operators to re-QSL." Finally, Tony states that his Rotuma story -- about his DXpedition, will also be posted on the official 3D2AG/p Web site at: http://www.3d2ag.fr.tc/

7O8AA ON LOTW. Alan, G4NXG, received 7O8AA credit (for a 1990 QSO) on "Logbook of The World" (LoTW). ADDED NOTE: OPDX has also found out that Paul, F6EXV, has also added the following rare and interesting DXpeditions to the LoTW: 4U9U (Burundi - 1994), 9X5DX (Rwanda - 1993/94), 9Q5EXV (Dem. Rep. of the Congo - 1994/95), MU0EXV (Guernsey - 2006), TO5FJ (St. Barts - 2008), WH8/F6EXV (American Samoa - 2005), ZA1ZXV (New Zealand - 1991) and F6EXV.

MORE ON W3HC. Well known QSL Manager, Bob Schenck, N2OO, informs OPDX that since Mac, W3HC, is retiring as a QSL Manager, the QSL Manager's Society is acquiring the logs and cards from Mac. All callsigns will be assigned to new managers from the QSL Manager's Society. It will take some time to sort and reassign most of these callsigns. However, the following currently ACTIVE callsign ONLY will be handled by Kim Larsen (dad, Steve Larsen) via N3SL. The callsigns are: CO6AP, 7X5VRK, PY2KC, YL2EC, TU2XZ, PT5T, PS2T and ZY100S (previous special event). Bob states, "I ask everyone with any QSLs for Mac, W3HC, to hold off sending them until we announce new managers. Please be patient while we organize this project. It could take a few weeks to sort it all out. Anyone who has already sent a QSL via W3HC does not need to resend. All mail already received by Mac will also be passed along to us."

QSLS VIA LOTW: 5D5A, 5F3COM, 7O8AA, CN3A, FJ/G3TXF, HH4/K4QD, TO5FJ, TR8CA and YK9G

QSLS RECEIVED VIA MAIL: 4O3A, C4EURO, CX/N3BNA, FJ/SP6IXF, OA4/N6XQ, OJ1ABOA, PZ5YV and T32YA

QSLS RECEIVED VIA THE BUREAU: 4O3T, 9H3RZ, 9U0A, 9V1CW, C336LJ, C38LJ, EY8/UA4CC, FY/G3SXW, GW6GW, HB0/DL7AFS, RA2FF, RU0SYL, SV8/DF7XE/p, V63JQ and YA1BV

S2, BANGLADESH. John, KX7YT, will once again be active as S21YV from Dhaka, April 14-21st. It was reported that he was only able to secure a 7 day license for this trip but is having difficulty securing anything longer term. John is expected to be there until May 1st, but may return in late spring or early summer. Activity will only take place during his spare time. QSL via his home callsign.

T2, TUVALU. Udo, DL9HCU, is now active as T20HC. The length of his stay is unsure (possibly through April 22nd or sooner). He likes 20 meters CW, so watch 14002 or 14025 kHz between 0500-0800z. Also, watch 14183 kHz (after 0500z), Udo will check into the ANZA Net. He was also spotted on 18077 kHz between 0800-0945z this past weekend. QSL via DL9HCU.

TI, COSTA RICA (IOTA Op). Klaus, DK6AO, will once again be back here signing TI/DK6AO between April 16th and May 17th. This time he will try to activate IOTA islands groups NA-191 and NA-117. Activity will be mainly on the weekends. Klaus prefers 20/17 meters. QSL via his home callsign (using the QRZ.com address).

V8, BRUNEI (OC-088). Operators John/9M6XRO and Gerben/PG5M will be active from the lodge of Ambran, V85SS, in Brunei later this week. Both have applied for the license, but the callsigns are not known yet. Their activity schedule is as follows: John/9M6XRO from April 17-23rd and

Gerben/PG5M from April 18-21st. Equipment will be a JRC 245 and antennas are a Mosley TA-53-M, a full wave dipole for top band as well as two verticals covering all bands including 30/17/12m. QSL cards for the operation by 9M6XRO will go via his QSL Manager M3SDE (note that his previous manager passed away (SK) just three weeks ago), and QSLs for the operation by PG5M go to his home callsign. Visit Gerben's Web site for the latest information and the callsigns once they are released at:

http://www.dx.to

VK9X, CHRISTMAS ISLAND (Oceania Adventure DXpedition). Four operators will be active from Christmas Island (OC-002) during July for 10 days. Activity will be on 160-10 meters and possibly 6 meters. They plan to have three station active (one with high power, 2 barefoot). Operators, with modes of operation and their callsigns are as follows:

```
   Manuel/CT1BWW (CW/SSB/RTTY/PSK31/SSTV) - VK9XWW
   Juan/EA3GHZ   (CW/SSB)                 - VK9XHZ
   Juan/EA45EOR  (SSB/RTTY/PSK31/SSTV)    - VK9XOR
   Claudina/EC5BME (YL - SSB only)        - VK9XME
```

Pilot stations are: Africa - ZS1AU, Asia -JA8BMK, Europe - EA4TD, Ocenia - ZL2AL and VK2CZ, and North America - K4SV. QSL via EA4URE, or via the operator's home callsign. The offical Web site is:

http://www.dxciting.com/vk9x/

The group is looking for sponsors and donations. Please visit the above Web page for details.

VP5, TURKS AND CAICOS ISLANDS. Bob, K0OK, will be active from the Island of Providenciales (NA-002) between May 21-28th. Activity will be on 160-6 meters, CW and SSB, and include the CQ WW WPX CW Contest (May 24-25th). He will operate as VP5E during the contest and as VP5/K0OK before and after the contest. QSL VP5/K0OK via his home callsign, by the Bureau, LoTW or direct to: Robert Novak, 26502 Esteban Mission, Viejo, CA 92692-3355 USA.

WEB PAGE OF THE WEEK (Short Term Awards Available!). Well known awards guru Ted Melinosky, K1BV, informs OPDX that he has a page on his Awards Web site which keeps track of "Very Short Term Awards" - those awards commemorating club anniversaries, centennials, special celebrations - from all over the world. He states, "As of today, I'm showing the rules for 17 such awards, mostly for those coming up in the next few weeks, but some of them going out a few months into the future." Ever wonder what those special callsigns were all about: LY90, SP75, EM10, etc? Many of them are good for interesting awards. Check out:

http://www.dxawards.com/REALSHORT.htm

Also, visit the "K1BV DX Awards Directory" at: http://www.dxawards.com/

YK, SYRIA. Only a few more days to work Roger/G3SXW, Nigel/G3TXF, Fred/G4BWP, Lionel/G5LP and Rob/GM3YTS as YK9G from the capital city of Damaskus. They will go QRT on April 15th. They have two stations on the air (with amplifiers) 24 hours a day on CW ONLY (mostly on 40/30/20/17m). They do have antennas for 160-10 meters. The YK9G log is being uploaded to LoTW at regular intervals during the operation. Many are surprised and happy to receive their contacts on LoTW basically the next day! QSL

YK9G via the bureau or direct to G3TXF, via LoTW or via E-mail requests. Visit the YK9G Web site (photos and log search available) at:
http://www.yk9g.com

YK, SYRIA. Saad, N5FF, informs OPDX that he will be arriving in Damascus on the evening of April 20th and should be active again as YK1BA from April 21st and May 2nd. He will return home to Texas on May 3rd. As usual, the purpose of the trip is not a DXpedition, so his operating will be spotty. However, Saad states that he hopes to be able to operate at least 3-4 hours a day. He also states, "With the current band conditions and my typical operating times, I suspect that I will spend most of my radio time on 30, 40, and 80 meters. However, I will operate on whatever band (80-10m) and mode that have the best propagation at the time. Most probable operating times are between 2000-2300 UTC or between 0200-0500 UTC and possibly some occasional activities between 1200-1400 UTC. I will be active on SSB, CW, and RTTY." QSL via N5FF.

ZD9, TRISTAN DA CUNHA ISLAND (Update on Atlantic Ocean Tour - Possibly Bouvet Island 3Y/b). Tom, ZD7X (KC0W), reports that he will be departing St. Helena Island in late June and will be traveling to his next DX location of Tristan da Cunha Island. His callsign on Tristan will be ZD9X, and he will be there for at lease 4-6 months, maybe longer. A home has been secured for him with a backyard measuring one acre with plenty of room for antennas. Tom states, "Operating from St. Helena has been rather fun. I will be excited for a new DX location after all is said and done though. Full story to come out someday!!! With almost 35,000 QSOs now, the radio and vertical antenna have been doing a good job. I DO NOT want to have to break out the spare radios of a Kenwood TS-2000 and a Yaesu 100D if something should go wrong with my main 'good' radio. Once on Tristan, my plan is to explore a way of getting to Bouvet Island and to operate from there before a TENATIVE operation to the three islands of South Sanswich, South Orkney and South Georgia via the Falkland Islands. According to the '100 Most Needed List', (2006) Bouvet is ranked at 8th in the world. It would be a crying shame to be less than 1400 miles from Bouvet and not to give a 100% effort to try to put Bouvet on the air. Bouvet is located nearest to Tristan than any other island. Still no plans of any RTTY/PSK activity as either ZD7X or ZD9X. My MicroHam unit that should allow Digi operation has not worked since I got here. Personal interest in the Digi modes is also not that great..... Good DX, Tom ZD7X"

ZS8, MARION ISLAND. Petrus, ZS6GCM, is now on Marion Island. He arrived on the island on March 31st. As reported last week, do not expect him to be on the air as ZS8T for about three to four weeks. This is due to a changeover time in working patterns and general settling in on the island. He is expected to be on Marion for at least a year. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

FJ - ST BARTHELEMY, NA-146
Juergen,FJ/DJ2VO, will work only in CW on 40-10m (perhaps also on 80m) running 100 watts into a vertical from Apr 19 until May 8. Juergen confirms QSL cards direct and via the DARC bureau.

FS - ST MARTIN, NA-105
Starting on Apr 22 Bob,N9QGU, will be QRV in SSB on 20-10m for about two weeks. He will have time for his radio hobby during his early morning and late afternoon hours.

GJ - JERSEY, EU-013
Dani,HB9IQY, writes: "I will sign GJ/HB9IQY in SSB und CW on 80-10m

from the channel island Jersey (EU-013) between Tuesday, Apr 22, and Friday, May 2. Please understand that I am going to work mostly Swiss stations during the Helvetia (H26) Contest on Apr 26/27." Dani will use a TS-450, a W3DZZ antenna and asks for QSLs via his homecall.

GU - GUERNSEY, EU-114

The "Barry Amateur Radio Society" members Glyn,GW0ANA, and MW0USK with their German guests Markus,DL9RCF, Alois,DL8RBL, and Franz,DJ9ZB, will activate Guernsey Island (EU-114) from Apr 19-26. Listen for GB0U in all modes and on all bands on the usual DX frequencies.
The QSL manager is Glyn,GW0ANA.

KH2 - GUAM, OC-026

Yoshi,JE2EHP, announces his activity as K1HP/KH2 in CW/SSB on all bands from Guam (OC-026, Usi GU-003S, WLOTA LH 0064) from Apr 18-21.
QSLs via JE2EHP, direct or via the JARL bureau.

KH8 - AMERICAN SAMOA, OC-045

Gavin J. Roberts,AH8/W9EYE, will go on a business trip to Tutuila from Apr 21-27. He will work with high power in SSB/RTTY on 10-80m during his spare time. QSLs via homecall, direct or via W9 bureau.

KP2 - AMERICAN VIRGIN ISLANDS, A-106

Ann,KP2YL, and Brian,KP2HC, will activate St. Croix (NA-106) in CW/SSB on 160-6m from Apr 16-23. QSLs "direct only", see QRZ.com.

S2 - BANGLADESH

John,KX7YT, is back in Dhaka again since Apr 14 and will stay there until May 1. He could extend his old license by seven days so that he will be active on the air as S21YV until Apr 21.
QSLs either direct (1 US$ or 1 IRC) to KX7YT, via bureau or via LoTW.

T8 - PALAU, OC-009

Mat,T88JY (JA1JQY), Sasi,T88KJ (JA1KJW), and Kuni,T88VE (JA8VE), will stay in Palau (OC-009) from Apr 16-19. They have three radios and a small amplifier, dipoles for 160-30m and yagis for the other bands.
T88JY and T88KJ will work in telegraphy, T88VE prefers SSB and RTTY.
QSLs via the operator's homecalls, bureau is ok.

V8 - BRUNEI, OC-088

Gerben,PG5M, is staying at the "Ambran Lodge" at the QTH of V85SS in Brunei (OC-088) from Apr 18-21. His callsign is not known yet.
QSL via PG5M. Find more information on his homepage http://www.dx.to
John,9M6XRO, will visit the lodge as well and will support Gerben in the pile-ups from Apr 17-23. His QSL manager is M3SDE.

YK - SYRIA

Saad,N5FF, announced to show up as YK1BA from Apr 21 until May 2. He will be situated in the capital Damascus and plans to work in CW, SSB and RTTY on 10-80m mainly from 2000-2300 and from 0200-0500 UTC.
His preferred bands are 30m, 40m and 80m. QSL via N5FF.

ZA - ALBANIA

Franck,ZA/F4DTO, will be QRV from the city of Elbassan from Apr 22 until May 3. Franck will work in SSB on 20m, 17m and preferably 10m running the 100 W of his FT-100 into a vertical for 10m and a dipole.
QSLs only direct via F4DTO.
Check also his website: http://monsite.orange.fr/f4dto

ZD7 - ST HELENA, AF-022

The latest information says Tom,ZD7X (KC0W), will stay on St. Helena until the end of June (a little longer than planned). The next stop in his plans is Tristan da Cunha (AF-029) from where he plans to become active as ZD9X for four to six months.

1S - SPRATLY ISLANDS, AS-051

9M6/LA7XK, 9M6/LA9DL and 9M6/LA6VM will be QRV from Layang Layang from Apr 18-25. While LA6VM works CW the other two OP's will activate SSB, RTTY and PSK feeding their 100 watts into verticals.
QSLs via the operator's homecall, direct or via the LA bureau.

6W - SENEGAL

Witek,SP9MRO, and Marian,SP9CTT, are staying in Senegal between Apr 17 and May 5 and plan to hit the airwaves in CW/SSB/PSK31/RTTY on 160-10m (lowbands preferred). They applied for the callsigns 6V7K and 6V7J.
QSL: 6V7K via SP9SX, 6V7J via SP9CTT.

FRANCE, SPECIAL EVENT STATION

The 150th birthday of Max Planck is celebrated in France with the special callsign TM2MP which will be activated from Apr 18 until May 1. Max Planck was a German physicist who is considered to be founder of the quantum theory and received the Nobel prize in Physics in 1918.
QSL via F6KTN.

CZECH REPUBLIC, SPECIAL EVENT STATION

OL76CAV will be put on the air on Apr 20. QSL via OK1UU.
Find more information online at: http://www.c-a-v.com

TURKEY, SPECIAL EVENT STATION

TC57A will be QRV on 40/20/17/15m from Apr 22-26�. This station shall remember the battle of Gallipoli, which took place in 1915 on the Dardanelles, and the 57th infantry regiment ("Alay") of the "Fifth Turkish Army". The QSLs are managed by TA1HZ.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4D75, PHILIPPINES (Special Event). Ram, DV8AIK, is sometimes active as 4D75D to celebrate the Diamond Anniversary (75th) of the Philippine Amateur Radio Association (PARA). This callsign will be used throughout the year 2008. Look for activity on 20/15 meters SSB. Ram is located on Mindanao Island (OC-130). QSL direct is preferred, but for those stations who are comfortable to send by the Bureau it is "OK".

5B, CYPRUS (AS-004). Operators Frank/DL2SWW and YL Gabi/DF9TM will be active as 5B/homecall, May 1-6th. Activity will be on 80-10 meters, mainly CW and SSB. QSL via their home callsigns, direct or by the bureau.

5X, UGANDA. Mike, PA5M, is now in Uganda and is currently active as 5X1DX until an unknown specific length of time. His activity will be limited due to his work (mostly his evenings and weekends). Mike, who works for the United Nations World Food Program (UNWFP), was heard this past week on 30/20 meters CW between 1600-1700z. QSL via PA7FM.

8P, BARBADOS. Darren, G0TSM, will be active as 8P9TS from May 21st to June 1st. Activity will be limited because he is on holiday, but look for him to be on CW, the HF bands and 6 meters. He will also be in the CQ WW WPX CW Contest (May 24-25th) as a Single-Op entry using the callsign 8P2T. QSL via G0TSM. Bureau requests can be obtained via E-mail at:
qsl@g0tsm.com

9N, NEPAL. Kazu, JA8MWU, will be staying in Katmandu between April 27th and May 5th for his vacation. He hopes to operate during his free time using the callsign 9N7WU on SSB. Look for him on 14180, 18120, 21280 and 28480 kHz. QSL via his home callsign.

A6, UNITED ARAB EMIRATES. After almost five years in the Democratic Republic of Congo, Philippe, 9Q1TB (F5LTB), will be leaving the region in the coming months and will be stationed in U.A.E. Philippe is a United Nations High Commissioner for Refugees (UNHCR) worker. He hopes to obtain from authorities a callsign in a reasonable time, and as a first step, be authorized to use A6/F5LTB. SM7DJZ will remain his QSL Manager.

ATTENTION DXPEDITIONS. OPDX has received a special request to remind operators of DXpeditions to listen or take time out to work the thousands of "U.S. General Class Hams" above 14225 kHz." This limitation is not known to all DXers throughout the world, and the many Generals are also looking and waiting to work DXpeditions as well.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/Single-Band (160m) entry. QSL via W7EJ. See the station from CN2R at:
http://www.arraysolutions.com/Users/cn2r.htm

EY8, TAJIKISTAN. Jean, F4EOH, will be active as EY8/F4EOH from Dushambe between now and the end of August. Activity will be mainly 20 meters SSB. QSL via his instructions or direct to: Jean Bernard, 701 Rue des Bartavelles, 6 Lot des Cigognes, 84100 Orange, FRANCE.

H44, SOLOMON ISLANDS. Moffet, H44MD, continues to be active on 20 meters SSB usually around 14190-14200 kHz between 0700-1230z. He is only using 100 watts and a dipole but is being worked by NA and OC stations. PLEASE NOTE: His address listed on QRZ.com is incorrect. The correct address is: P.O. Box 490, Honiara, SOLOMON ISLANDS.

HC8, GALAPAGOS ISLANDS (SA-004). Members of the Ukrainian DXpeditioners Team (UDXT) will be active from here between April 24-29th. Activity will be on 160-6 meters, CW, SSB, PSK and RTTY, with two stations and an emphasis on the low bands and 30/17/12 meters. Operators mentioned are: Sergey/UX0HX (HC8/UX0HX), Max/UZ1HZ (HC8/UZ1HZ), Len/UR3HR (HC8/UR3HR) and Alex/UT5UY (HC8/UT5UY). QSL via their home callsigns, direct or through the Ukrainian Bureau.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operations have been approved for DXCC credit:

5X1NH - Uganda; 2007 Operation
9UXEV - Burundi; 2008 Operation
HZ1PS - Saudi Arabia
S05A - Western Sahara; 2007 Operation

QSL INFO AND NEWS....................

Buck, DL5KAT, informs OPDX that he has uploaded all QSOs for his 1983 A22BT DXpedition into the LoTW.

SOON TO BE ON LOTW. Tony, W4FOA, announced this past week that the following will soon be on the LoTW: EL2AD (1962-1965), 7Q7AA (1969-1972) and PY1ZBA (1973-1975). He states that this will be made possible thanks to the kindness, diligence and the many, many hours that Mr. Art Burk, N4PJ, has put into taking Tony's handwritten logbooks and converting them to a format which will soon be entered on LOTW.

NOT THE QSL MANAGER. Gert, K5WW, is NOT the QSL Manager for HQ8R. He is the QSL Manager for HQ9R only. The correct QSL route for HQ8R is:
HQ8R Swan Islands 2008 DXpedition, c/o Radio Club de Honduras,
PO Box 273, San Pedro Sula, Cortes, Honduras C.A. Please see the following Web page for more HQ8R QSL info at: http://www.hondurasdx.com

PS2T CORRECION. Bob, N2OO, reports, "In my previous announcement regarding QSLs formerly handled via W3HC, please make the following correction: PS2T is via K3IRV (not N3SL)."

QSL XE83IARU via N7RO. QSOs are valid for the DXXE award. See the DXXE Website for details at: http://www.dxxe.org/index6.html

ROSKILDE 1658 AWARD ACTIVITIES. Look for six special event callsigns to be active from various provinces (See OPDX.841) from former Danish parts of Sweden and in Denmark. Activity is to celebrate the 350th anniversary of the signing of the Treaty of Roskilde on February 26, 1658.

SC1658OZ - Will be active between April 20th and May 5th. Activity will be on 80-17 meters, most likely on PSK31, RTTY and Olivia. QSL via SK7BQ.

SK1658DK - Will be active on every first Saturday and Sunday of the month, different bands and modes. QSL via SK7CE.

SB1658OZ - Will be activated almost daily on 20, 15 and 10m, mostly on 20m due to condx, around 0700-1300z. PSK31 and CW only. Look for PSK31 around 14071 kHz. The signal is activated by three operators as time permits on SSB, CW, RTTY and PSK31.

Other callsigns: SK1658OZ, SH1658OZ, SH1658DK are active from time to time. All callsigns with 1658 in the callsign from Sweden and Denmark are valid for the award.

OZ1658ROS - Is QRT until further notice due to high winds that damaged their antennas. They will repair them as soon as WX and time permits.

Look for all details, an activity calendar, online logs and the award design (soon) at: http://www.sk7bq.com/roskilde

SILENT KEY. Phil, G3SWH, informs OPDX that Peter, 8R1WD, became "SK" last week at the age of 83. His health was deteriorating over the last few months, but he was still active from time to time. OPDX and its readers would like to send out our sympathy to Peter's family and friends.

SPECIAL EVENT (International Museum Ship Radio Event). The 2008 Museum Ships Event will be sponsored by "The Battleship New Jersey Amateur Radio Station" (BNJARS) and will take place during the period of 0001z, June 7th to 2359z, June 8th. Ships wishing to participate should send a note to <museum@nj2bb.org> with the name of ship, callsign, location, QSL info and contact info for person responsible. During this event every year there are participation of naval ships, lightships, steamships, research vessel and merchant ships. Interesting international ships as the British cruiser HMS "BELFAST" (GB 2 RN) will take part. A certificate is available for all stations that work at least 15 different ships listed as officially participating by sending a copy of their log entries showing these contacts. Working the same ship on different frequencies DOES NOT count as 2 ships. To receive a certificate, please send either 3 USDs to cover costs or send a large enough envelope with enough postage (Certificates should not be folded) to: Margaret Burgess, KB2BRR, 150 Schooner Ave., Barnegat, NJ 08005, USA. All certificate requests must be received by September 30th, 2008. A list of participating ships is available on the USS "NEW JERSEY" Web site at: http://www.nj2bb.org

SV5, DODECANESE (EU-001). Ben, OZ6B (5P1DX), will be active as SV5/OZ6B from Ialyssos between May 31st and June 7th. Activity will be only 20 meters SSB. QSL via his home callsign.

T32, EAST KIRIBATI. Haru, JA1XGI/W8XGI, will be active as T32XG from May 27th to June 3rd. Activity will be on 40/30/20/17/15 meters, mainly on CW, but some SSB and Digital mode. QSL via JA1XGI, direct or by the Bureau. ADDED NOTE: Haru told OPDX that he is making plans for T30 and T31 to possibly take place during his next trip in November. He has already received the licenses for both islands when he received his T32 license.

TF, ICELAND. Siggi, TF3CW, will be active in the CQWW WPX CW Contest (May 24-25th) as Single-Op/Single-Band (20m) entry. QSL via LX1NO.

TM8, FRANCE (Special Event - CDXC Convention). Look for special event station TM8CDX to be activated this year from September 6-20th. Operations will be on the HF bands and 2 meters, all modes, CW, SSB and the Digital modes. QSL Manager is Rafik, F5CQ. QSL either direct or by the bureau. Activity is to celebrate the 2008 Clipperton DX Club (30th) Convention being held this year at Chasseneuil-du-Poitou, near the European Picture Center on September 19-20th. Current speakers announced include operators from 2008 DXpeditions of J5C, VP8DX, TX5C, 9X0R and possibly many more. If possible, the TM8CDX station will be installed at the site of the convention during Saturday. More information is available at:
http://www.cdxc.org/index-e.htm

TO4G, GLORIOSO ISLAND (Postponed Again). Didier, F5OGL, Gloriosos 2008 team leader, announced (edited): "The operation for Glorioso 2008 must be delayed for some weeks. The HQ of the south zone of the Indian ocean informed us that this is due to the fact that important works of facilities will take place on the island. During two and a half months, at the beginning of June, anti-cyclonic shelters will be built to protect the military personnal, long with some equipment for the weather station. Due to the number of persons who will be on the island during the same period, we decided with the HQ of force of the south zone of the Indian Ocean to do this DXpedition when these works will be ended. The exact dates will be defined according to the operational occupation of the military transport in this region but we hope to accomplish this operation at the end of September or the beginning of October. This leaves us the time to improve our preparations and, we thank you all those who contributed to the realization of this plan and firstly the military authorities of the Reunion Island, and our financial and equipment sponsors." For more details and updates for the upcoming Glorioso Island (Glorieuses - AF-011) DXpedition, visit the Web site at:
http://glorieuses2008.free.fr

TS78, TUNISIA (Special Event). You still have a few days to work special event station TS78WARD. The last day is April 24th. Activity is to celebrate "International Amateur Radio Day" (April 18th) from the amateur radio club station 3V8ST of Tunisian Scouts. QSL via the 3V bureau.

V8, BRUNEI (Update/OC-088). Operators John/9M6XRO and Gerben/PG5M are now active from the lodge of Ambran, V85SS, as V8FRO and V8FGM, respectively. By the time you read this, Gerben/PG5M should be packing it up. However, John/9M6XRO should be active until April 23rd. QSL V8FRO via his QSL Manager M3SDE and V8FGM via PG5M. Visit Gerben's Web site for the latest information at: http://www.dx.to

VK9X, CHRISTMAS ISLAND. Operators James/9V1YC and Wilbert/PE7T are now active (since April 18th) as N1YC/VK9X and PE7T/VK9X, respectively. Their length of stay is unknown. Activity has been mainly CW on 40/30/20/15 meters. QSL N1YC/VK9X via 9V1YC and PE7T/VK9X via his home callsign.

VK9X, CHRISTMAS ISLAND (Update to OPDX.854). Four operators will be active from Christmas Island (OC-002) between July 8-20th. Activity will be on 160-10 meters and possibly 6 meters. They plan to have three stations active (one with high power, 2 barefoot). Operators, with modes of operation and their callsigns are as follows:

Manuel/CT1BWW	(CW/SSB/RTTY/PSK31/SSTV)	- VK9XWW
Juan/EA3GHZ	(CW/SSB)	- VK9XHZ
Juan/EA45EOR	(SSB/RTTY/PSK31/SSTV)	- VK9XOR
Claudina/EC5BME	(YL - SSB only)	- VK9XME

Pilot stations are: Africa - ZS1AU, Asia -JA8BMK, Europe - EA4TD, Ocenia - ZL2AL and VK2CZ, and North America - K4SV. QSL via EA4URE, or via the operator's home callsign. The offical Web site is:
http://www.dxciting.com/vk9x/
There will be a special DXpedition "Christmas Island Award" available. The group is looking for sponsors and donations. Please visit the above Web page for details.

YI, IRAQ. Kitch, WD6V, is now active as YI9WV possibly until late November (2008) unless he receives an extension. He is currently operating near Fallujah, using a dipole antenna and a low power radio (FT-817) but is expected to receive another rig soon and will be able to run 100 watts. Activity is limited to his free time, mainly on CW and PSK31, but may operate SSB at times and possibly RTTY. All contacts thus far have been with Europe and Russia stations. QSNs show Kitch was heard on 20 meters CW after 1345z. QSL YI9WV via NI5DX, by the Bureau or direct (w/SASE & 1 USD/1 IRC).

ZL7, CHATHAM ISLAND. David, ZK2CZ, is planning to be active as ZL7M from May 10-11th. Activity will be SSB only. QSL via VK2CZ direct.

ZM2, NEW ZEALAND. Operators Lee/ZL2AL, Stan/ZL2ST, Mike/ZL2FAR and Peter/ZL2LF will be active as ZM2M during the CQWW WPX CW Contest (May 24-25th) as a Multi-2 entry. QSL via ZL2AL.

EY - TAJIKISTAN

Jean Bernard,EY8/F4EOH, is working in SSB on 20m from Dushanbe from Apr 17 until the end of August 2008.

FS - ST MARTIN, NA-105

John,FS/K9EL, will spend his holidays together with his family on St. Martin (NA-105) from Apr 24 until May 4. He will work mainly in CW and SSB but also in RTTY on 80-10m using an IC-7000 and verticals for 80-10m. QSLs via homecall, bureau ok.

FR/G - GLORIOSO ISLANDS, AF-011

The DXpedition to Glorioso Island (AF-011) originally scheduled for May 6-Jun 6 has been postponed once again. Starting in June some new shelters against tropical storms will be built on Glorioso for about two and a half months. Due to the big number of persons on the island during the construction the authorities decided to postpone the

DXpedition to a time when these works will be finished. The exact dates will be defined according to the military transport posibilities but they hope to accomplish this operation by the end of September or the beginning of October.

HC8 - GALAPAGOS ISLANDS, SA-004

Sergey,HC8/UX0HX, Max,HC8/UZ1HZ, Len,HC8/UR3HR, and Alex,HC8/UT5UY, plan to show up from Galapagos (SA-004) from Apr 24-29. They will work in CW/SSB/PSK/RTTY on 6-160m with two stations. Emphasis will be put on the WARC bands and the lowbands. QSLs via bureau to their homecalls. See also: http://www.dxer.com.ua

KH9 - WAKE ISLAND, OC-053

K2PF who is the QSL manager of Colin,WA2YUN/KH9, writes that Colin is active mainly on 60m, but also on 20m, 17m and 30m. He might be louder in EU when he has beams and a power amplifier available in a few weeks.

KP2 - AMERICAN VIRGIN ISLANDS, NA-106

Glen,KP2/W5IF, will operate from the super station WP2Z on the island of St. Croix (NA-106) from Apr 23-30. Glen prefers working in RTTY and on the WARC bands. W5IF confirms QSLs via bureau and via LoTW.

VK9X - CHRISTMAS ISLAND, OC-002

James,9V1YC, and Wilbert,PE7T, are working mostly in CW on 40m/30m/20m/15m signing N1YC/VK9X and PE7T/VK9X since Apr 18. Nothing is known about the length of their stay.
QSL routes: N1YC/VK9X via 9V1YC and PE7T/VK9X via PE7T.

ZF2 - CAYMAN ISLANDS, NA-016

Gerd,DL7VOG, is informing us about his upcoming trip to the Caymans: "I will be QRV as ZF2GU from Grand Cayman Island (NA-016) between Apr 28 and May 14. As usual I will work on all open bands with my minimal machinery IC-706MK2G, HF9V for 80m-6m and Inverted L for 160m. I prefer operating in CW and RTTY - SSB upon request. There is a good internet access so I will update my log daily. You can find it at: http://www.qslnet.de/zf2gu   QSLs should be sent via DL7VOG preferably in this order: via buro, via e-mail request to qsl@dl7vog.de or direct. The QTH looks promising, only a few neighbours and only little distance to the sea. I hope there will be only little QRM/QRN. 73, Gerd/DL7VOG."

3V - TUNISIA

On the occasion of the World Amateur Radio Day (Apr 18) the special event station TS78WARD will be activated until Apr 24.
QSLs via 3V8 bureau.

5X - UGANDA

Michael,PA5M, is working for the "UN World Food Programme" in Uganda. He is active as 5X1DX during his rare spare time mainly in the evenings or at the weekends. QSL via PA7FM.

9N - NEPAL

Kazu,JA8MWU, will stay in Kathmandu from Apr 27 until May 5 and hopes to become active as 9N7WU in SSB during that time. His preferred QRGs are 14180, 18120, 21280 and 28480 kHz. QSL via homecall.

9Q - DEMOCRATIC REPUBLIC OF CONGO

Philippe,9Q1TB (F5LTB), will take his new assignment in the United Arab Emirates soon and intends to show up as A6/F5LTB. He will stay in the Congo for only a few months and his QSL manager SM7DJZ will keep his duties also in the future. See also: http://www.qrz.com/callsign/9Q1TB and http://www.qrz.com/callsign/F5LTB

AUSTRIA, SPECIAL EVENT STATION

The clubstation of the documentation archive "Funk" activates the special callsign OE2008XQC during the International Marconi Day on April 26. Contacts count for the IMD award and also for the EURO2008 award. QSLs via bureau or direct to OE1WHC.

4S7DXG no PIRATE!

Mario,4S7BRG (HB9BRM), writes following: "If you read the latest DX bulletins and comments on the web many OMs get eliglible doubts about 4S7DXG. Even in one one the last DXNLs I read "4S7DXG - Pirate" again. I have visited him today on Apr 17,2008, and while dicussing I asked him also to show his license. Ivans transmitting license for Sri Lanka (4S7DXG) is valid from Jan 1, 2008, until May 1, 2008. The time before Jan 1,2008, where he operated from Sri Lanka is a grey area but Ivan,UR9IDX, filed his application to extend his licence in Colombo already in November or December. The regulation authority TRCSL is only an executive office but the OK (Yes or No) originally comes from the defence ministry which takes some time. Ivan,4S7DXG (UR9IDX), says he will go back to the Ukraine during the next one or two weeks but but still wants to recover from his broken leg. I hope I have helped out with my little contribution. Vy 73 de Mario,4S7BRG."

SILENT KEYS

The wellknown German DXer Uli Adelung,DK2OC, passed away being only 63 years old on April 6, 2008. Uli was holder of the DXCC Honor Roll and was very active also as EA8/DK2OC. The international DX family will keep him in an honorable memory.

Phil,G3SWH, writes that Peter,8R1WD, has died at the age of 83. Despite his illness Peter was spotted sporadically on the bands during the past months.

DXCC: The DXCC manager Bill Moore,NC1L, writes that following operations have been approved for DXCC credit now:

5X1NH	Uganda, 2007
9UXEV	Burundi, 2008
HZ1PS	Saudi Arabia
S05A	Western Sahara, 2007

Special event stations during the Euro2008 in Austria and Switzerland

Similar to the Soccer World Championships in Germany two years ago the HAMs from Austria and Switzerland are preparing several amateur radio activities from both countries during the 13th European Soccer Championshps 2008. The tournament will start on Jun 7 and ends on Jun 29. Several special callsign blocks have been reserved for this operation and are valid from Apr 26 until Jun 30 (HB2008AA-ZZ and OE2008AAA-ZZZ). The "Euro 2008 Award" is issued by both clubs USKA (Switzerland) and OEVSV (Austria). More information about the callsigns and the award can be found on their website:

Many thanks for contributing to this issue of the DXNL are going to:

6m Beacon: 50105, also CW/SSB QS0s.

QSL via VK4AN, direct or by the bureau. Logs will be uploaded daily to:
http://hosenose.com/logic/logcheck/default.aspx

4W, TIMOR-LESTE (Update). The Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) announced on their Web page (edited):

"Finally we have reached our goal, obtaining the callsign 4W6R for the operation, thanks to the hard work of our local team (TKS Pascoela de Carvalho) and to the kindly procedures of Mr. Celestino Nicolau and Mr. Jose M de Araujo from ARCOM. Also the renting of the house that we will use for accommodation and operation is OK.

We have 'incorporated' to our local team a compatriot displaced there in Dili who has been an incalculable value for the pending management. A lot of thanks to Agustin.

The solidarity and interest of organizations and particulars is remaining patent in the numerous donations and contributions that we are receiving for the project. Many thanks for your generosity!

Most of the materials have already gone out in a container --by air-, by kindness of the FUP, to our destination. Finally the operators are finalizing their preparations by getting their vaccinations. Our goals are coming together step to step.

Looking for SPONSORS.... The majority of this project`s funding is provided by the Alicante Provincial Government and by URE. The rest of the budget, at this time, will be down to the operators although we have already received news of some small but useful donations.

We would be very grateful if individuals and organisations could consider making contributions to this project at any time, including after the operation. Please bear in mind the following two considerations."

9A08, CROATIA (Special Event). Special event station 9A08P (Nine Alpha ZERO EIGHT Papa) has been active since April 1st and will be active through December 31st. Activity is to celebrate the City of Djurdjevac, and operations will be on all bands and modes. A special QSL card will be issued with a story on it. All QSOs will be confirmed automatically via the bureau.

9Q, DEM. REP. OF CONGO (Attention VK/ZL stations). OPDX was informed that operators Phil/9Q1TB and Georges/9Q1EK have been trying to call the Oceania area between 0500-0600z, but find it is not easy. Out of the thousands of QSO made, Georges has only made 21 QSOs from VK and 7 QSOs from ZL. Phil has only made 2 QSOs from VK and 2 QSOs from ZL, and he is supposed to leave 9Q-land in June. Georges is expected to stay in 9Q-land for possibly another 1 to 2 years (and he may be the only active station in 9Q land on CW). Both operators would really like to make QSOs with the Oceania area.

A5, BHUTAN (Just a reminder). Torben, OZ1TL, is expected to be active as A52TL during his stay in May of 2008. He is expected to arrive in Bhutan on May 2nd. Torben will be attending some of the inauguration ceremonies of the new King of Bhutan. Activity will be mainly on CW (almost exclusively) on most bands including 160/80/40 meters. QSL via his home callsign. He also plans to use the LoTW.

ADXO WEB SITE ENHANCEMENT. Bill, NG3K, informs OPDX that he has installed a new feature on his "Announced DX Operations (ADXO)" Web page at:

http://www.ng3k.com/Misc/adxo.html

Beginning April 25, 2008, active DX operations now include a link to the DX Watch spot database. The link takes the form - [spots] - and is located beneath the callsign in the Call field for most active DX operations listed in ADXO. A user clicking on this link will view a real-time list of recent DX Cluster spots for the call in question. Users can, if they choose, open the link in a new tab or window. This enhancement lets users immediately see whether or not an announced DX operation has actually been spotted, which bands and modes the operator is using, and where his signal is being heard. Bill states, "For the present, links are not provided for additional operators at some multi-op operations. But, if ADXO users find the new capability useful, I may try to expand its coverage to multi-op expeditions. I am also considering using this capability as a tool for weeding out announced operations that, for whatever reason, never took place. Comments and suggestions will be welcome and may be addressed to: Bill@ng3k.com

My thanks go to Felipe, PY1NB, and DX Watch for making this possible. While you're visiting DX Watch, be sure to take the time to look around. Felipe has created a remarkable and innovative 2nd generation DX spotting application that integrates data from packet cluster, qrz.com, and 425DXN."

CN, MOROCCO (6/2m Activity). Andre, HB9HLM, will be active as CN2DX from IM63BM on 6m and 2m between July 26th and August 8th. He will have 100 watts on 6m and 500 watts with a 2x7 elements on 2m. QSL via EA7FTR.

EG4, SPAIN (Special Event). Members of the URE of Leganes in Madrid will be active as EG4DCM through May 4th. Activity is to commemorate Communication Day of Madrid and the Bicentenary of the War for independence. Operations will be on 80/40/20/17/15/12/10 meters. QSOs will include a serial number that will allow you to participate in a commemorative trophy. You can repeat the contacts on different bands only. On May 5th a winner will be picked for the trophy. A special QSL will be available; send direct within 30 days or via the bureau to EA4CT. After June 4th, QSLs will be sent out via the Bureau.

EM5, UKRAINE. Members of the Ukrainian National Team will be active as EM5HQ during the 2008 IARU HF Contest (July 12-13th). QSL manager for this year event is UR5EAW (Alexander Shevchenko). All QSLs will be sent 100% via the QSL Bureau. PLEASE NOTE: Stations making 4 QSOs with the station EM5HQ will be sent a special certificate.

GB, ENGLAND (Special Event). Members of the Bittern DX Group (in conjunction with Holt Town Council) will activate the special event station GB0GFH between May 3-5th. Activity is to celebrate the 300th anniversary of the "Great Fire of Holt", in Norfolk. Activity will be on all bands 160-10 meters and as well as 2 meters. The group's challenge is to contact as many stations from places called "HOLT" worldwide during their 3 day event. So if you live in or near a town or place called HOLT, call them. QSL direct to M0CNP. More information about the fire and the club's operation is available at QRZ.com under GB0GFH. Also, visit the Bittern DX Group Web page at: http://www.bittern-dxers.org.uk

H7, NICARAGUA. Operators Mike/AJ9C, Gerard/KE9I and Octavio/YN2N will be active as H7/AJ9C (or possibly a special callsign) during the CQ WW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL via AJ9C. Mike/AJ9C is expected to be active outside of the contest between October 21-26th, on 160-6 meters, CW, SSB and RTTY.

HP, PANAMA (Island Activity). Kaku, JA6REX, will be active from three different islands over the next two weeks. He is scheduled to activate the following on CW/SSB on the HF bands:

HP4/JA6REX - Bocas del Toro (NA-088); April 27-28th
HP8/JA8REX - Penonome; May 1-4th
HP2/JA6REX - San Blas Islands (NA-170); May 6-7th

QSL via JA6REX (see QRZ.com).

IOTA NEWS......................

AS-123. A Turkish team of radio amateurs under the leadership of Metin, TA1ED, will be working from Bogsak Island between April 30th and May 5th. The team will be using the special callsign YM0TA. Activity will be on CW, SSB and the digital modes. Operators mentioned are: Metin/TA1ED (SSB), Nuri/TA3BN (CW) and Arif/TA1EE (Digital). They plan to have three stations on the air with various antennas possibly on all bands. QSL direct to TA1ED: Metin Korkmaz, P.O.Box 27, TEKIRDAG 59100, TURKEY. Bogsak Island is 10 km away from Tasucu, and there are historical ruins dating from late Roman and early Byzantium times. Last operation from this island was carried out by TB0DX team in April 2006.

EU-008. By the time you read this, members of the "Camb-Hams" will be active from the Isle of Mull (IOSA NH15, SCOTIA CN10) until May 3rd. The group is expected to sign as GS3PYE/p from their base camp at Carsaig (IO76) on the south coast of the island. They plan to have two stations on the air operating on most HF bands, as well as 6 and 2 meters, on CW, SSB, with some RTTY, PSK31 and SSTV. Look for operators to use their own callsigns when they start SOTA, WAB and VHF operations from IO66. The operators mentioned are: Gavin/M1BXF, Bob/G1SAA, Neil/G4HUN, Daryl/G0ANV, Allan/MM1BJP, Dave/M0VMC, Voi/G0BOE, Geoff/G0DDX and Rob/M1XZG. The group is also planning a brief side trip to the Treshnish Islands (EU-108, IOSA NH17, SCOTIA DI09), on April 30th for 6 hours. More information can be found at:

http://www.camb-hams.com/camb-hams-mull-dx-pedition

EU-048. Francois, F5JNE, will be active from Belle Ile en Mer (AT-015, WLOTA LH-0872, Department Morbihan/56, Province Brittany) between May 8-21st. Activity will be on the HF bands, CW mainly in the evening. Other activities scheduled to take place are, but only on 80/40m CW/SSB:

May 10th - The Sauzon Mill; DMF 56010
May 18th - (European Castles Day), from the Fort de

QSLs are bureau preferred, SWL cards welcome.

EU-095. Members of the EME Phoceen Radio Club (F5KDK) will be active as TM5F from Frioul Archipelago between August 15-18th. Activity will be on the HF bands, CW, SSB, PSK and RTTY. Operators mentioned are: Jean Michel/F1IKA (SSB and QSL Manager), Michel/F5IVP (CW/SSB/Digi), Eric/F5ODA (CW/SSB), Dave/F5SDD (CW/SSB) and Chris/F6DHI (SSB/Digi). Visit their Web page at:

http://tm5f.free.fr

EU-123. A few operators from Glasgow are going on a speedy boat to activate a few islands in the Firth of Clyde, May 3-4th, and all of them are in IOTA EU-123. This is a good opportunity to work some rare islands for IOSA and SCOTIA awards. The team consists of: Jurij/MM0DFV, John/GM0WRR, Davie/MM0GDL and hopefully Alan/GM4TOQ. The Glasgow team is not sure yet which islands will be activated; it depends on the weather conditions and other circumstances. The callsigns to be used are: MS0EPC for PSK contacts, and MS0DGR - for other modes. Each island would be visited for about 2-3 hours. Separate full colored QSL cards will be printed for each island. They are hopeful that they will activate: Horse Island (SC21), Lady Island (SC28), Ailsa Craig Island (SC28), Pladda Island (SC21), Inchmarnock Island (SC04) and Little Cumbrae Island (SC21). Some of them are good for lighthouse chasers - ARLHS and WLOTA. All QSL cards should be sent via MM0DFV (both Bureau and direct are accepted). They are taking very light portable antennas and radios, nothing fancy, 100 watts output power. The boat captain is Davie/MM0GDL, Jurij/MM0DFV is the PSK and CW "working horse", John/GM0WRR will work PSK and SSB, and their "Papa" is Alan/ GM4TOQ who will work SSB and is the most wise man and Chief of the Tribe.

OC-223. (Update) Nick, VK1AA, informs OPDX that his OC-223 mini IOTA expedition last week was a success. He managed to log 1,716 QSOs on 40/30m running 75 watts into a homemade vertical. You can find the video and sound recording on Youtube at:

http://www.youtube.com/watch?v=3Dia6EAoJbSMs

Also, to view a few more photos, please visit:

JD1, OGASAWARA. Koji, JI1LET, will be active as JI1LET/JD1 from Chichijima Island (AS-031) between May 1-5th. Activity will be on 40-6 meters, CW, SSB and RTTY. QSL via JI1LET by the JARL Bureau or direct.

LIGHTHOUSE ACTIVITY. Members of the Spanish Demons DXer's Team and possibly others will activate "Tazones Lighthouse" (IN73hn, ARLHS SPA-137) during the first weekend of May. Callsign will be EE1TR and the QSL route is via EA1YG. The list of operators still has not been announced yet, but will be forthcoming. For more information and updates, please visit:

http://www.demonsdxers.es

MMAA 2008 CW CONTEST. Ed, PY4WAS, President of the CWJF, wants to remind everyone the 2008 Manchester Mineira All America CW Contest will be taking place between 1500z, May 17th and 2356z, May 18th. For details on rules visit the CWJF Web site at: http://www.powerline.com.br/cwjf
ADDED NOTE: Last year's 2007 1st Place winner for North America as a Single-Op/Single-Transmitter/All-Band entry was Joseph Trench, AA3B.

MJ, JERSEY. Operators Charles/M0OXO and Nigel/M0NJW will be active as MJ0X from Les Minquiers Islands (EU-099) during the RSGB IOTA Contest (July 26-27th). Outside of the contest, look for Charles to sign GB8LMI (GB8 Les Minquiers Islands) between July 23-29th. QSL via M3ZYZ.

NH0, MARIANA ISLANDS. Koji, JL3RDC, will be active as NH0DX during the CQ WW DX SSB Contest (October 25-26th) as a Single-Op/All-Band/High-Band entry. QSL via JL3RDC direct ONLY (no Bureau).

PACIFIC TOUR. Ulli, DL2AH, will once again be traveling, but this time to the Pacific areas between September and early November. First stop will be Samoa in September (specific dates have not be announced yet). Second stop will be Manua Islands (OC-077) in the American Samoa Island group between October 7-27th. Look for him to sign KH8/DL2AH. Third stop will be Tonga between October 29th and November 9th. Callsign has not been issued yet. Operations from the above will be holiday style with activity on 40-10 meters, mainly SSB with some RTTY. He will use a FT897 and Windom antenna. QSL via DL2AH, direct (see QRZ.com) or by the bureau.

QSL INFO AND NEWS....................

Mohamed, 7X4AN, announces that DJ2BW is "NOT" his QSL Manager since 1997. All contacts must be confirmed by 7X4AN direct only via the following address: MOHAMED BOUKHIAR, P.O. Box 30133, Barcelona 08080, Spain. For more information, see QRZ.com.

9M6/N1UR LOG. Ed, N1UR, informs OPDX that the online log for 9M6/N1UR, as well as plenty of pictures showing the location, equipment and antennas on his and XYL Christine/KB1PQN's operation to Layang-Layang Island Resort, Spratly Islands (AS-051), are available at:

http://www.n1urspratly.com/

He adds, "We appreciate everyone's support." QSL via K2RET:

PY100, BRAZIL (Special Event). Special event station PY100JA will now be on the air through December to commemorate the 100th anniversary of 1st Japanese immigration to Brazil. The special callsign will be used by a group of PY2 stations on 160-6 meters on all modes. QSLs will be available after September 2008, by the Bureau or direct via PY2PA.

SILENT KEYS..........

W4RNL - It was reported this past week that well-known ARRL Technical Advisor and author on antennas (and antenna modeling), L.B. Cebik, W4RNL, became a "Silent Key" at the age of 68. He was also noted for his excellent antenna Web site at: http://www.cebik.com/
More details about L.B. can be found on the ARRL Web site at:
http://tinyurl.com/5xj8d3

DK2OC - The well-known German DXer Uli Adelung, DK2OC, reportedly has become a "Silent Key" at the age of 63 on April 6th. This interesting DXer will be dearly missed. Many may remember his famous 10 meter DX nets back in the late 80s and early 90s.

OPDX and its reads would like to send out our deepest sympathy to the family and friends of the above operators.

SI, SWEDEN (Special Event). Jan, PA0IJM, will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society from late evening May 5th to May 15th. Suggested frequencies are as follows:

CW - 1817, 3517, 7017, 10117, 14017, 18077, 21017, 24897 and 28017 kHz
SSB - 1840, 3760, 7060, 14210, 18160, 21310, 24960 and 28510 kHz
FM - 145.550 MHz and repeater RV49 - 145.612,5 MHz

QSL via SM3CVM, by the bureau or CBA (E-mail requests for bureau cards can be sent to: info@si9am.se). More information can be found at:
http://www.si9am.se/

SX2, GREECE (Special Event). Operators Kostas/SV2CWV, Diana/SV2HRV/DL2HRV, Archelaos/SV2KBB and Kostas/SV2LBB will be active using the special callsign SX2MT (Makedonian Tombs) during the 2008 International Museums Weekend (Museums ON THE AIR!) from the Museum of Vergina (Royal Tombs) in Hellas. The International Museums Weekend (IMW)takes place on the weekends of June 14-15th and 21-22nd. Activity will be on all bands and modes. Reference numbers are: Grid Locator KN10dl, Museum Nr. I.M.W. #5178 and EPC Nr. #3701. QSL via SV2KBB, only direct or eQsl (+SWL Report).
For more details, see: http://www.qrz.com/sx2mt
For details on the IMW, see: http://www.ukradioamateur.co.uk/imw/

TF, ICELAND (Also OY). Before starting his Iceland activity, Al, LA9SN, will do a one day operation from Faroe Islands (OY, EU-018) on April 28th. From there, he will travel to the Westman Islands (TF7, EU-071), and be active between May 1-8th. He will then be active from the main island of Iceland (EU-021), May 9-13th. Activity will be on CW and SSB from his car usinga vertical antenna and high power. Watch around the usual IOTA frequencies. See his QSL at QRZ.com. QSL via his home callsign, direct or by the bureau.

V6, MICRONESIA. Operator Shoji/JA7HMZ will make his usual regular May trip to Pohnpei (OC-010) and will once again be active as V63DX. Activity will take place between May 19-24th on all band and modes including 6m. QSL via his home callsign, JA7HMZ.

VK9X, CHRISTMAS ISLAND (Update and Now QRT). Operators James/9V1YC and Wilbert/PE7T (ex-ZL2BSJ) were active this past week as N1YC/VK9X and PE7T/VK9X, respectively, and went QRT on April 24th. James informs OPDX that the correct QSL info is as follows:
N1YC/VK9X via N5ID (his usual 9V1YC QSL Manager)
PE7T/VK9X via the PA Bureau
ADDED NOTE: QSL Manager Joe, N5ID, informs OPDX that if you sent your QSL card to 9V1YC, do not worry, it will eventually get to him.

ZD8, ASCENSION ISLAND (AF-003). Steve, G3ZVW, will be active as ZD8N between May 2-13th. Activity will be on CW, SSB and RTTY mainly in the evenings and during the weekends. QSL via G3ZVW, direct or by the bureau.

144 MHz "Sporadic E" Summary (http://www.mmmonvhf.de/es.php)

"Sporadic E" may be considered the most important ionospheric
propagation mode in VHF dxing supporting long distance communication
even with low power radio stations (read more at http://www.df5ai.net)
As well as in past years, also in 2008 there will be again an over-
view of the big "Sporadic E" openings on 144 MHz. We thank Steffen,
DM2SR and Udo, DK5YA, for their fabulous work which have been done
in the past years and also for the agreement to take the job now
over to the VHF-DX-Portal Make More Miles on VHF. Responcable team
member for these new section will be Frank, PA4EME, who will collect
daily infos and spread these at our new Propagation Section: "ES"
http://www.mmmonvhf.de/es.php
Each logged in person is able to upload his Sporadic E Log here!
Later the opening will be viewed and comments around will be made.
As well an overview of past years openings will be available later on.
So please do welcome these new tool at MMMonVHF and hope there will
be soon the first good Sporadic E openings to report about...

Just like on Earth, where some radio waves can travel around the horizon, radio waves on Saturn can also do that.

"Cassini's radio plasma wave instrument detects the storm every time it rotates into view, which happens every 10 hours and 40 minutes, the approximate length of a Saturn day. Every few seconds the storm gives off a radio pulse lasting for about a tenth of a second, which is typical of lightning bolts and other electrical discharges. These radio waves are detected even when the storm is over the horizon as viewed from Cassini, a result of the bending of radio waves by the planet's atmosphere."

Ring planet DX anyone? :-)

RELEASE: 080-37

"4D" IONOSPHERE MAP HELPS FLYERS, SOLDIERS, HAM RADIO OPERATORS

GREENBELT, Md. -- Today, at the Space Weather Workshop in Boulder, Colo., NASA-funded researchers released to the general public a new "4D" live model of Earth's ionosphere. Without leaving home, anyone can fly through the dynamic layer of ionized gases that encircles Earth at the edge of space itself. All that's required is a connection to the Internet. Airline flight controllers can use this tool to plan long-distance business flights over the poles, saving money and time for flyers.

"This is an exciting development," says solar physicist Lika Guhathakurta of NASA headquarters in Washington, DC. "The ionosphere is important to pilots, ham radio operators, earth scientists and even soldiers. Using this new 4D tool, they can monitor and study the ionosphere as if they're actually inside it."

The ionosphere is, in a sense, our planet's "final frontier." It is the last wisp of Earth's atmosphere that astronauts leave behind when they enter space. The realm of the ionosphere stretches from 50 to 500 miles above Earth's surface where the atmosphere thins to near-vacuum and exposes itself to the fury of the sun. Solar ultraviolet radiation breaks apart molecules and atoms creating a globe-straddling haze of electrons and ions.

Ham radio operators know the ionosphere well. They can communicate over the horizon by bouncing their signals off of the ionosphere -- or communicate not at all when a solar flare blasts the ionosphere with X-rays and triggers a radio blackout. The ionosphere also has a big impact on Global Positioning System (GPS) reception. Before a GPS satellite signal reaches the ground, it must first pass through ionospheric gases that bend, reflect and attenuate radio waves. Solar and geomagnetic storms that unsettle the ionosphere can cause position errors as large as 100 meters. Imagine a pilot flying on instruments descending toward a landing strip only to discover it is a football field to the right.

"Understanding the ionosphere is clearly important. That's why NASA's Living with a Star (LWS) program funded this work," says Guhathakurta. Space Environment Technologies, Inc. of California received the LWS grant and they partnered with Space Environment Corp. of Utah and the US Air Force to develop the 4D ionosphere.

"The best way to appreciate the 4D ionosphere is to try it," says W. Kent Tobiska, president of Space Environment Technologies and chief scientist of its Space Weather Division. Instructions may be found at

http://terra1.spacenvironment.net/~ionops/ES4Dintro.html

Within minutes of downloading the files, Google Earth will appear on your computer screen, the globe wrapped in an atmosphere of vivid color.
"Colors represent electron content," Tobiska explains. "Bright red is high density; that's where radio communications are restricted to few or no frequencies. Blue is low density; no problem there."

Using the intuitive Google Earth interface, users can fly above, around and through these regions getting a true 3D view of the situation. Make that 4D. "The fourth dimension is time. This is a real-time system updated every 10 minutes."

The 4D model can be fun and even a little addictive, warns Tobiska, who likes to use it to pilot an imaginary plane over the Arctic. "A growing number of commercial business flights are crossing the Arctic Circle," he says. "It's the shortest distance between, say, Chicago and Beijing and many other major cities."

The ionosphere is particularly important to these lucrative flights. While they are over the Arctic, planes lose contact with most geosynchronous satellites and must rely on "old-fashioned" radio communications-a link that could be severed during a radio blackout. Using the 4D model, a flight controller could examine the ionosphere from the flyer's point of view and use that information to anticipate problems that could cause a flight to be delayed or diverted.

The proper name of the system is CAPS, short for Communication Alert and Prediction System. Earth-orbiting satellites feed the system up-to-the-minute information on solar activity; the measurements are then converted to electron densities by physics-based computer codes. It is important to note, says Tobiska, that CAPS reveals the ionosphere not only as it is now, but also as it is going to be the near future. "Forecasting is a key aspect of CAPS available to our customers from, e.g., the Department of Defense and the airline industry."

Contributing partners to the development of CAPS include the Space Environment Corporation of Utah, Air Force Research Laboratory of Massachusetts, and IPS MeteoStar of Colorado.

DXCC NEWS.............

Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:

YA/LY1Y - Afghanistan; Operations in 2006 and 2007

If you had cards rejected for this operation, send an E-mail to dxcc@arrl.org to be placed on the list for an update.

SPECIAL DAYTON HAMVENTION CARD CHECKING INFORMATION: DXCC card checking will be done at the Dayton Hamvention. Card checking will occur during all hours of operation at the Hamvention on Friday, Saturday and Sunday. Many hams travel from around the world, and this is a busy event for card checking. Please remember these tips which will help you and the card checkers through the process, avoid delays and allow them to serve everyone:

Preparation: THERE IS A 120 CARD LIMIT PER APPLICANT

* Make sure that your cards are in proper order. Band first, then mode. Cards with multiple QSOs at the end; The order on the record sheet MUST match the order of the cards.
* The latest forms are on the DXCC web site at:
  http://www.arrl.org/awards/dxcc
  Have all paperwork completed before you come to the table; make sure everything is legible; List only QSOs you want credit for.
* If you plan to do a Hybrid application (paper application with Logbook of The World), you should do the LoTW portion just prior to leaving for Dayton.

Card checkers will be checking cards for the following awards: DXCC, Worked All States (WAS), VHF/UHF Century Club (VUCC) and Worked All Continents (WAC).

Upon your arrival:

* Take a number; stay in line.
* Make note of anything important to the card checker before they start; when finished, the card checker will review any problems with you.
* Stay with the card checker until completion; if you are a vendor you can drop your application to a checker and return later for pickup.

Upon Completion:

* The card checker will return your cards to you; DXCC will not take cards back with them.
* The card checker will advise you of the final fees upon completion of your application.
* Payment is due upon completion of your application.

Payment methods:

* Credit Card or Cash (US or Euro only); Check (from USA bank only); Money Order (US and International OK); DXCC cannot bill

you. Please see rule 15 for the latest fee information. If possible, please bring with you a copy of your last credit slip.

Again remember, if you are doing a hybrid application, LoTW plus cards, be sure you do the LoTW element prior to leaving for Hamvention.
If you have questions please contact DXCC: dxcc@arrl.org
Or call at: (860)594-0234

FJ, ST. BARTHELEMY. Operators Arliss/W7XU and Ed/W0SD are planning a 6 meter DXpedition to St. Barthelemy that will take place between June 28th and July 6th. Ed informs OPDX that a TO5 callsign has been applied for. He also requests, "Please do not give us your grid square. We are not interested in your grid square and it just wastes time. Our grid square will be FK87nv for those wanting to confirm this as a new grid square. There may be some night time HF RTTY and CW operations on 30 and 40 meters when six meters sporadic E is over for the day." QSL via W7XU. An on-line log will be on their Web site (they plan to upload their log nightly, and it will be available starting May 15th) at:
http://www.w0sd.com/stbart/bart.htm
They also request that if you are in the log, please don't call again and let others have a chance to work them.

FK, NEW CALEDONIA. Nao, JK1FNL, will be active as FK/JK1FNL from Noumea (OC-032), May 5-10th. Activity will be on 40-6 meters using only 100 watts and wire antennas. QSL via his home callsign.

IOTA NEWS....................

AS-043. Operators Mitsuo/JA1UNS, Suehiro/JI1PLF, Minowa/7N1GMK, 7L4PVR and 7N4VPS will be active as homecall/1 from Hachijo Island (JIIA AS-043-003), in the JA1 South Izu Group, from May 16-19th. Activity will be on 160-6 meters, CW, SSB and RTTY. QSL via their home callsign, direct or by the Bureau.

AS-079. Take, JI3DST, is now active as JS6RRR from Miyako-Jima Islands (AS-079, JIIA AS-079-005) until May 7th. Activity will be on 160/80/40/17/15/12/10/6 meters, CW, SSB, RTTY, FM and SSTV. Take may possibly make side trips to Ikema-jima (JIIA AS-079-001) and Kurima-jima (JIIA AS-079-003). He may possibly use the callsign JI3DST/JS6. QSL via his home callsign through the JARL Bureau only.

EU-008. Paul, M3KBU, will be active as MM3KBU/p from the Isle of Skye (IOSA NH-07, SCOTIA CN-14), July 26-27th, during the RSGB IOTA Contest. QSL via M3KBU, direct is preferred, but Bureau is "OK".

EU-074. Operators Benoit/F8PDR, Jean-Jacques/F5NKX, Denis/F5RJM, Rolf/F9ZG, Alain/F5HVI, Rene/F6CMC and Alain/F6ACH will be active as F5KAQ/p from Brehat Island (DIFM MA-012, WLOTA LH-2010), September 1-8th. Activity will be on all bands and modes. QSL via F5RJM, direct or by the Bureau.

EU-189. (UPDATE) Mike, K9AJ, is a member of the team travelling to

Rockall in two weeks. If weather and seas allow, he will be active using battery power on 20/40 meters CW on the IOTA frequencies for +/- 24 hours. The time window is approximately May 14-15th but landing date/time is at the sole discretion of the captain and could be +/- one or two days.

NA-044. Juergen, NF6J, will be active as VO2/NF6J from Battle Island (CISA NF-049, Newfoundland and Labrador), June 25-30th. Activity will be on or near the usual IOTA frequencies. QSL via DL7RV (QRZ.com).

NA-088. Tom, W4JKC, will be active as HP4/W4JKC from Colon Island, May 5-10th. Activity will be on 40-10 meters, CW and SSB. QSL via his home callsign, direct or by the bureau.

NA-102. Members of the Radio Club ACRA Guadeloupe (FG5KC) will activate the Island of Petit-Terre (Small Island Earth) for a day as FG5KC/p on June 8th. Activity will be on the HF bands, CW, SSB and VHF bands. Operators mentioned (at the moment) are: FG5BC, FG5DN, FG1JD, F8BIH, FG1AR, SWL-05 (Issac) and SWL-16 (Jacques). Suggested frequencies are: Listen to the IOTA frequencies. This expedition is granted by the NFB because it is a natural reserve. Visit their Web page at:
http://acra-radioclub.site.voila.fr

JAPAN HAS NEW BAND PRIVILEGES. The JARL announced on their Web page that as of April 28th, Japanese radio amateur operators will receive more band privileges on the 80/75 meters band. JA operators are now allowed to operate on the following frequencies (*new): 3500-3575 kHz (CW only), 3520-3525 kHz (Digital Mode and CW), 3525-3575 kHz (Phone and CW), 3599-3612 kHz (* CW and Phone), 3680-3687 kHz (* CW and Phone), 3702-3716 kHz (* CW and Phone), 3745-3770 kHz (CW and Phone) (* 3745-3747 kHz and 3754-3770 kHz) and 3791-3805 kHz (CW and Phone). Japanese band plans are available at: http://www.jarl.or.jp/English/6_Band_Plan/JAbandplan.pdf

JW, SVALBARD. Mika, OH2FFP (OJ1ABOA), is expected to be operating from the Kinnvika base on Nordaustlandet Island (EU-063) in July for 20 days. Read about the scientific station at Kinnvika on: http://www.kinnvika.net/ Also, Mika could be active from the research vessel "RV Horizont-2" which supplies the Kinnvika base from Longyearbyen.

KH2, GUAM. Operators Lee/HL1IWD and Harry/WX8C will be active as KH2/K1IWD and KH2/WX8C, respectively, between May 23-26th. The operation will also include participation in the CQWW WPX CW Contest (May 24-25th) as a Multi-Single/All-Band entry as KH2/WX8C. QSL KH2/K1IWD via HL1IWD and KH2/WX8C via WX8C.

LZ08, BULGARIA. Look for special event station LZ08KM (LZ Zero Eight KM) to be active until May 31st. Activity is to commemorate St. Cyril (Kiril) and Methodius, the creators of the cyrillic alphabet, as well as the "Day of Cyrillic Alphabet and Bulgarian Culture" - May 24th, which is one of the most important holidays in Bulgaria. As team operators they will try to activate as many bands and modes as possible. More information and a QSL card preview can be found on: http://www.qrz.com/callsign/lz08km QSL via LZ1PJ, direct or by the Bureau or LoTW. NO e-QSL! E-mail requests for Bureau QSLs are accepted at: lz1pj@bgnet.bg

SILENT KEY/CORRECTION! OPDX reported that Peter, 8R1WD, was "SK" in OPDX.855. Apparentlly, Peter is alive and well and was heard on the air last week. OPDX would like to apologize to Peter, and Peter's family and friends for the error.

However, we were informed that Peter, 8R1J, is the individual that has become the "Silent Key" at the age of 83. OPDX and its readers would like to send out our sympathy to Peter's family and friends.

TG, GUATEMALA. Eric, K9GY, will be active as TG/K9GY (callsign tentative) during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All-Band/ Low-Power entry. QSL via LoTW.

TK7, CORSICA (EU-014/Update). Members of the F6KOP Provins ARS will be active as TK7C between now and May 10th. Opertaors mentioned are: Thierry/ F4TTR, Bruno/F5AGB, Bernard/F9IE, Jean-Paul/F8BJI, Jean-Luc/F6BIV and Laurent/F1JKJ. The group plans on having 3 stations on the air, on 80-10 meters, with Acom 1010, Spider-beams, dipoles and verticals. Modes will be CW, SSB and the Digitals modes. QSL via Bernard, F9IE, direct or by the Bureau. The log will be posted on the LoTW -- after a few months, once the largest flow of paper QSLs have been processed. Visit their Web page at: http://tk7c.free.fr/

VP9, BERMUDA. Ralph/K9ZO and his XYL will be on holiday from here during July, and he expects to be active as K9ZO/VP9. During his stay he plans to be in the IARU Contest (a bit) and also monitor 30/17/12/6 meters.

VR2008, HONG KONG (Special Event). Members of the Hong Kong Amateur Radio DX Association (HARDXA) are pleased to announce that they have received official permission from the "Office Of The Telecommunications Authority" authorizing them to use the special event callsign VR2008O for the period between July 15th andt August 31st, to celebrate the 2008 Beijing Olympics. Operations will be primarily HF from 40-10 meters and VHF on 6 meters. The modes used shall be primarily SSB, RTTY and PSK31. QSL direct only to VR2XMT: Charlie Ho, PO Box 900, Fanling Post Office, Hong Kong. There will be no e-QSL or LoTW. Preliminary information and QSL card design has been put onto QRZ.com at: http://www.qrz.com/vr2008o

XW, CAMBODIA. Bruce, XW1B, will be active in the CQWW WPX CW Contest (May 24-25th) as a Single-Op/Single-Band (20m) entry. QSL via E21EIC.

ZF, CAYMAN ISLANDS (NA-016). John, K6AM, will be active as ZF2AM during the CQWW WPX CW Contest (May 24-25th) as a Single-Op/All-Band entry. QSL via K6AM, direct or by the Bureau or LoTW.

ZF, CAYMAN ISLANDS (NA-016). Jim, W6NRJ, will be operating from Grand Cayman as ZF2LJ from May 17-22nd. This will be a holiday operation only (from the beach). Activity will emphasize the WARC bands as propagation permits. QSLs via W6NRJ, by the Bureau or direct to W6NRJ per QRZ.com. ADDED NOTE: Dennis, N6KD, will also be joining Jim. Callsign and length of stay was not provided.

ZS8, MARION ISLANDS. Rhynhardt, ZS6DXB, ZS8T Press Officer, announced this past week that Petrus, ZS6GCM, has been on the island for just a little over a month. The staff takeover period is completed and the ship "SA Agulhas" is making its journey back to Cape Town. Rhynhardt also reports the following:

* Petrus has already undergone a full circle walk around the Island with one of the research scientists and has been out of base camp for the past week.
* The team is currently on cleaning duty since the takeover and is now cleaning the entire camp - furthermore it is business as usual and all is well.
* Petrus is planning on starting construction of the antennas this week and will be *QRV as ZS8T by May 9th, 2008.*
* Petrus has also confirmed that the newly installed satellite internet system on Marion Island is working beyond expectations to date, so correspondence between Petrus and the ZS8T team is a lot easier than during the Bouvet Island 3Y0E operation.

Rhynhardt states, "We hereby say good luck to all in working ZS8T, and we look forward to seeing your callsign in the ZS8T logbook." For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

KH2 - GUAM ISLAND, OC-026

JA7LU/KH2 and JH1AWN/KH2 will be active in SSB on HF from May 9-11. QSLs via homecalls, also via JARL bureau.

ZS8 - PRINCE EDWARD AND MARION ISLANDS, AF-021

Like announced earlier in DXNL 1563 Petrus Kritzinger,ZS6GCM (ex-3Y0E), is working on Marion Island (AF-021) for one year since Mar 31. Further information has been released meanwhile: He should appear on the bands around May 9 when he is not occupied by his daily work. Petrus got the callsign ZS8T allocated. He wants to build on his experiences made as 3Y0E, please remember that he is fresh licensed. Petrus got an intensive training before he left so he should be prepared for the pile-ups now. Expect activities in SSB/CW/RTTY on 160/80/40/30/20/17/12/10m. Petrus has the possibility to use a good radio station on Marion Island. He can use an ICOM IC-7000, an AL80 power amplifier, a 5 band Spiderbeam and a SteppIR vertical.
Petrus has also a website at: http://zs8t.net and latest news can be

obtained at: http://zs8t.net/newsletter
The QSL manager of ZS8T is Emil,LZ3HI.

ZL7 - CHATHAM ISLANDS, OC-038

David,VK2CZ, plans to hit the airwaves in SSB as ZL7M from Chatham Island (OC-038) on May 10/11.
Unfortunately QSLs only direct via his homecall.

ASIA TRIP

Nicola,I0SNY, will show up as JT1SNY from Bayankhongor starting on May 7. He will then go to China where he will be QRV as BY1PK/I0SNY from Beijing from May 19-28. QSLs via homecall.

BULGARIA, SPECIAL EVENT STATION

LZ08KM will be QRV during the whole May celebrating the St. Kiril and Methodius Day (May 24). Kiril and Methodius are considered the inventors of the cyrillic alphabet and May 24th is an important holiday in Bulgaria. QSLs via LZ1PJ, direct, via bureau or LoTW.
QSLs requests via e-mail are possible via lz1pj@qsl.net

CZECH REPUBLIC, SPECIAL EVENT STATION

The special event station OL1908D is active throughout the month of May to celebrate 100 years of railroad in the Czech city of Dobruska.
QSL via OK1KT, direct or via bureau.

ITALY, SPECIAL EVENT STATION

Gianpaolo,IW0EFA, will activate the special callsign II0ALE from the military airbase in Viterbo on May 9/10. "ALE" stands for "Aviation Light Army". QSLs should be sent via bureau or direct to IW0EFA.

JAPAN, SPECIAL EVENT STATION

The 50th General Assembly of the JARL takes place in Kochi this year from where 8J50JARL is activated in SSB/CW/AM/FM on all bands from May 1-25. QSLs via JARL bureau.

DXCC: YA/LY1Y (Afghanistan, operations in 2006/2007) is accepted for DXCC credit now.

JAPAN: New frequency allocations in the 80m band:

As of now Japanese HAMs may also use following band segments in the 80m band 3599-3612 kHz; 3680-3687 kHz; 3702-3716 kHz; 3745-3747 kHz, 3754-3770 kHz.
The resulting 80m band plan for our Japanese colleagues is:
3500 - 3575 kHz; 3599 - 3612 kHz;
3680 - 3687 kHz; 3702 - 3716 kHz;
3745 - 3770 kHz; 3791 - 3805 kHz.

8R1WD is in the best of health:

Helmut,DK8NC, diagrees with the statement in DXNL 1568 that Peter,8R1WD, has become a "silent key"! Peter has written an e-mail to Helmut stating that it is good to know to stay with the living again.

We regret any false reports and express our excuses to copy a statement from another bulletin. Meanwhile this bulletin writes that not 8R1WD has passed away but 8R1J. We wish Peter that the saying becomes true: There's life in the old dog yet.

Callbook CD-ROM Summer edition 2008:

The summer edition 2008 is expected to come out by the end of May.
Manfred,DF6EX, plans to place a special order. If you are interested please e-mail him to df6ex@winqsl.de until May 18. Advance orders can be placed at the usual conditions (including shipment outside DL: 40 Euro).

Many thanks for contributing to this issue of the DXNL are going to:
Carl Smith(QRZ DX), 425DXNews, OPDX Bulletin, DF6EX (WIN-QSL), DH4PSG,DJ5AV, DK8JB, DK8NC, DL1SBF, DL7RBI, DL7VOA, F5NQL, LZ1PJ, NC1L, NG3K and others.

The rec.radio.info newsgroup, first established in 1993, has been

recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

 Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

144 MHz "Sporadic E" Summary (http://www.mmmonvhf.de/es.php)

"Sporadic E" may be considered the most important ionospheric propagation mode in VHF dxing supporting long distance communication even with low power radio stations (read more at http://www.df5ai.net)
As well as in past years, also in 2008 there will be again an overview of the big "Sporadic E" openings on 144 MHz. We thank Steffen, DM2SR and Udo, DK5YA, for their fabulous work, which have been done in the past years and also for the agreement to take the job now over to the VHF-DX-Portal Make More Miles on VHF. Responsable team members for these new section will be Frank, PA4EME, with the help of Udo, DK5YA, who will collect daily infos and spread these at our new Propagation Section: "ES" (http://www.mmmonvhf.de/es.php)
Each logged in person is able to upload his/her Sporadic E Log here!
Later the opening will be viewed and comments around will be made.
As well an overview of past years openings will be available later on.
So please do welcome these new tool at MMMonVHF and hope there will be soon the first good Sporadic E openings to report about...

F/LA0BY/p Perseids 2008 activity from JN02SV

This year I plan to activate this relatively rare square in the French Pyrenees on 144 MHz during the maximum of the Perseid shower. I will participate in the QRP class of the MMMonVHF/DUBUS MS-Sprint Contest and will therefore be QRV for random SSB on 12.08.2008 from 00:00 to 23:59 UTC. My location will be at 1400 m asl with superb take-off from Northwest (EI) over North to Southeast (LZ/SV). My equipment will be a single 9-ele-F9FT yagi and 150W RF power into the antenna. Operation will be in SSB only, with 1 min periods (breaks every 10-15 s). Please make sure that final RRR are exchanged so the contact is complete. I will use the frequency 144,195 MHz (perhaps +/- 2 kHz depending on QRM). On site I will not have access to the Internet or DX-Clusters, but can receive/send SMS through my French cellphone +33-6-86913388. Note: From the same location I plan to participate also in the VHF Contest on 5./6. July 2008. Probably being QRV from early evening on Saturday to late morning on Sunday.

Dear EME guys, Katsuura Dish Experimental Station (KDES) will use the call sign 8J1AXA for the operation from QM05DF, the JAXA Space Communications Center, using 18m Gregorian dish antenna. Station license would hopefully be issued in a few months first for a simple small station of JA beginners' size, and then grow up to be a big one. It is requrested here in Japan to apply for the station license change on every occation when you change main rigs/output power/bands/antennas, which would use to delay the licensing procedure.
So we can not tell you now when we could operate EME with full output power on a certain band. The original JAXA 18m dish is designed for 137MHz and 2.1GHz. We are desiging the modified feeds for amateur bands, from 144MHz up to 5.7GHz possibly. Fortunate enough, it would be very possible to operate with the original antena configuration 2.3/2.4GHz. For EME use, we have to re-model the auto-tracking system from the present manual servomoters. JAXA already removed the program tracking system from this antenna, and the high power TWTA, as well.

Hello All, Sadly Frank DH7FB and me DF2ZC have to inform you that our planned ZB dxpedition end of this month is now cancelled. Why? There are changes in reciprocal licensing in ZB land effective as of July 2007
(oh how we were lucky that we went there in April 2007). The main changes are that there is NO HF reciprocal license granted any more and
that on 2m and 6m the maximum radiated power is limited to 100 watts ERP (!). Use of linear amps is forbidden altogether. Read more details and the new plans at: http://www.mmmonvhf.de/latest.php?id=906

METEORSCATTER - NEXT MS-SHOWER:
Arietids and Zeta-Perseids in begin of June
First a short review to the Eta-Aquarids with its peak later than
excpected on 6th of may (a ZHR at 74!). Have a look at at our MMM
MS-Propagationpage: http://www.mmmonvhf.de/ms.php
We have to come now to a periode of the daylight meteorshowers.
From up begin of may there are several minor MS-showers which are
potential enough to give some good reflection rate for playing our
ms-hobby again. Specially in the Southern Hemisphere the coming
showers shall be great! The new MS-Shower PEAKS (Arietids and
Z-Perseids) are updated and shown as well at our MS-Propagationpage

SPORADIC E - first and (sorry) "false alarm"...
As you already have noticed MMMonVHF will be now repsoncable for
the SUMMARIES of SPORADIC E openings at: http://www.mmmonvhf.de/es.php
We have had situation that there was a big tropo opening from EA/CT
to EI/G around 5th of may and some logs arrived showing is as ES.
Of course we was happy about the logs but after checking it more in
precise we found out it was a false alarm. So we did take out the
first
"hurra" and placed it under our "TROPO Section". It was a good test
for
the Team and as well our log inputs. All worked very well - congrats
to the people around that section getting in up within 3 weeks time!
So, who will be the first station reporting us a SPORADIC E QSO 2008?

Svalbard, JW. Update and operation procedure.
PE1L and PA0ZH are activating JW Svalbard - locator JQ78tf - from June 5th to June 9th 2008 on 144 MHz EME. The call at 144 MHz will be JW5E. Rig is 2 x 20 xpol dj9bv opt2, TS-2000, gasfet preamp and 2 x GI7B amplifier. We will TX and RX at 144.110 MHz, for JA we will TX and RX 144.082 (others can call us there as well). If all is OK we have internet over there and we will announce if we change from 144.110 to 144.082. Last year PE1L was active as PJ4EME and made 273 qsos (no dupes counted). Based on that experience a few things. READ more at: http://www.mmmonvhf.de/latest.php?id=1330

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or
  more likely a "BUSTED CALLSIGN". As always, you never know - "Work
  First Worry Later" (WFWL).

5X, UGANDA. Franz, DC7NF, is now active as 5X7FN until the end of June. Activity is expected to be mainly on 40 and 20 meters SSB. Most of his activity so far has been on 20 meters on various frequencies between 1700-2100z. QSLs will go out when he returns home.

5X, UGANDA. Nick, G3RWF, will be active again as 5X1NH from June 25th to August 15th. Activity will be from Fort Portal in Western Uganda. QSL via G3RWF. He was active during February and March this year and made 11000 QSOs.

6M0, SOUTH KOREA (IOTA and Lighthouse Activity). Members of the GyeongNam DX Club will activate 6M0W/4 from Paegya Island (AS-060) between June 6-8th. Operators mentioned are: 6K5AQY, 6K5AYC , 6K5BHZ, 6K5ALT, DS5AJT and HL5BMX. Activity will be on 80-10 meters, using CW, SSB and the Digital modes. This operation also counts for Paekya Do lighthouse (ARLHS SKR-022, WLOTA LH-3386). QSL via HL5BMX, direct or by the bureau.

8J, JAPAN (QRP Event). Look for special event stations 8J4P and 8J6P to be active until June 30th. Activity is to celebrate "QRP Day" (June 17th). Stations will run less than five watts output. Activity over the past week has been on 40/30/20 meters CW and PSK. QSL according to the operator's instructions.

9X, RWANDA. "The Daily DX" reports that Rich, WA3FPK, will be here for three weeks starting on May 15th. Activity will be limited to his spare time (especially during his last week) and will be mainly on 20 meters SSB. QSL via KA1CRP.

ANTARCTIC CRUISE/EXPEDITION (Update). Mehdi, F5PFP, organizer of an upcoming Antarctic Cruise/Expedition for about 4 weeks in 2009, informs OPDX the following Antarctic bases and the main goal of the expedition is to operate about 5 to 7 hours from each base, BUT also have a great adventure, sailing, trekking, photos...etc. The Antarctic Cruise/Expedition will start in February, departing from Ushuaia on the 18th and returning to Ushuaia om March 17th. Mehdi states, "Our plan is very extensive and several bases could be cancelled due to weather and sailing conditions, but each area will be visited." The list of areas and bases are as follows:

AN-016 - ANTARCTICA (Mainland); Videla Station (Danco coast) and Almirante Brown Station (Danco coast)
AN-012 - PALMER Archipelago; Yelcho Station (Doumer Island) and Port Lockroy (Wiencke Island)
AN-010 - SOUTH SHETLAND Archipelago; Macchu Picchu Station & Republica del Ecuador Refuge (King George Island), Gurruchaga Refuge (Nelson Island), Maldonado Station (Greenwich Island), Juan Carlos Station (Livingston Island), Station B (Deception Island) and Risopatron Station (Robert Island)

The expedition team will travel on the yacht "Le Boulard". The "Le Boulard" home page can be viewed (in French) at:

http://www.croisieres-boulard.com/index.php?page=antarctique

The French skipper is Jean Monzo who lives in Ushuaia and speaks English/Spanish and is probably one of the most experienced sailors of the Antarctic Penninsula sailing every summer season in that zone since 1992 with the same yacht. The "Le Boulard" is 14 meters long with automatic pilot, phonesat, GPS and can accommodate 6 passengers + 1 or 2 crew members. It is possible to be part of this expedition as an operator or just as a tourist. If interested in being part of this Cruise/Expedition, please conatct Mehdi at: f5pfp@aliceadsl.fr
Also, for information about the expedition and amateur radio activities in the Antarctica, please visit: http://f6kdf.ath.cx/f5nod/

CQ MAGAZINE NEWS. Richard Moseson, W2VU, Editor of CQ Amateur Radio, sent out the following press release on May 8th: "Randy Thompson, K5ZD, Named Director of CQ WPX Contests (Hicksville, NY) -- Contesting luminary Randy Thompson, K5ZD, has been named Director of the CQ World Wide WPX Contests, effective immediately. Randy succeeds Steve Merchant, K6AW, who has been WPX Contest Director since 2002 and who needed to step aside due to business obligations.

Randy has been a contester for more than three decades and has multiple wins to his credit in the single-op, all-band categories of both the CQ World Wide DX Contest and the CQ WPX Contest, in both CW and SSB modes. Randy is also a past editor of the "National Contest Journal" (a post he has held three separate times) and a co-founder of the eHam.net website. He is a longtime member of the Yankee Clipper Contest Club and an instructor at K3LR's Contest University. In the past year, Randy has been working with Steve Merchant behind the scenes on the WPX contests, so he is already familiar with the program from the administrative side.

Any questions regarding the 2008 WPX Contests (SSB weekend was held last March; CW weekend is coming up at the end of May) should be directed to Randy via e-mail to: k5zd@cqwpx.com . We thank K6AW for his years of dedicated service to the WPX Contests and look forward to a seamless transition to K5ZD's administration of the event."

ZS8, MARION ISLANDS. From the ZS8T Web page, Christian/DL6KAC and Col/MM0NDX report on behalf of ZS8T team (dated May 11th): "Over the past 24 hours numerous spots have been appearing on DX clusters mentioning Petrus is on air. As yet, we have no confirmation from Petrus. It's becoming apparent there are internet/phone problems on the island, so news is currently scarce. In the meantime, be aware of bogus ZS8T stations appearing on the bands. If you'd like to familiarize yourself with Petrus's voice please visit previous recordings during 3Y0E at:

http://3y0e.com/live-audio-recordings/

As soon as we hear again from Petrus, all news will be updated."

For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

End of CXpedition! On the last day we changed twice the feed (helps slimming), starting with 70 cm. We worked OE9ERC and G4YTL. Later in the evening after having changed back from 23 cm JT experiments, our last QSO was with Grant, VE6TA, pushing our scores on that band to 30 QSO, 25 initials in 17 countries. VE6TA was also the last to switch off the light on 13 cm yesterday. On 23 cm we completed 5 JT65C contacts today with RD3DA, UT5JCW (random), PA3DZL, G4DZU (random) and OH3MCK (random). We saw other stations calling, while still in progress with our takers. This sacrificed the sked with VE7BBG, who was unfortunately burried under other stations, although we were specifically calling him very sorry for that. In total we made 143 CW-QSO, 4 SSB-QSO and 6 JT-contacts, which includes 104 initials in CW and 6 in JT. Compared to 79 initials during last year TF-DXpedition (94 total QSO's), we were able to improve our score another time. Thanks to all, who were looking for us off the rock, sorry for those we missed. It was once again a splendid experience for us, even more as we made new friends in Uruguay and got a lot of support from local hams. Hopefully we were successful in infecting a few of them with the contagious virus of moonbouncing. Uruguay is a very interesting place to visit, ideal for EME, as it is flat like a pancake, but sometimes gum trees are a bit obsolete. Monika even discovered an area with a large quantity of Notocactus and Cereus (thanks heaven...) The locallly produced wine is excellent, especially the Tannat is well-suited to make you survive the night, even in a bedroom with only 11. See you from another rare location??? 73 / 88 de M & M

V6 - FEDERATED STATES OF MICRONESIA, OC-010

Shoji,JA7HMZ, will show up as V63DX in all modes on all bands from Pohnpei Island (OC-010) from May 19-24. QSLs via homecall.

3D2 - FIJI

Eddie,VK4AN, and his 13-year-old son Rajiv,VK4FRAJ, will activate the island Malolo-Lailai (OC-121) as 3D2A from May 17-31. They have 3 rigs: Two FT-450AT + ALS-500M PAs & FT-100 for 6m. Their announced QRGs are:
in   CW: 2-5 kHz from the lower band edge,
in   SSB: 3795, 7095, 14195, 18145, 21295, 24925, 28495 kHz,
in RTTY: 7042, 10112, 14082, 18102, 21082, 28082 kHz and
in PSK31: 7042, 10112, 14072, 18102, 21072, 28072 kHz.
Eddie and Rajiv will take part also in the upcoming WPX Contest. Their online log is hosted at http://hosenose.com/logic/logcheck/default.aspx QSLs for 3D2A should be sent direct or via bureau to VK4AN.

3V - TUNISIA

Zoki,Z33F, and Momo,Z31MM, will visit the scout clubstation 3V8SS in Sousse from May 15-26. They want to become active in CW/SSB/RTTY/PSK/SSTV on all bands (including WARC and 2m).

Zoki,Z33F, plans to participate as single OP/single band (80m) in the WPX Contest on May 24/25. Momo,Z31MM, intends to take part in the EU PSK Contest (May 17/18). The QSL route for 3V8SS is IZ8FWN.

For updates and further details please visit their websites at:
http://www.mdxc.org/3v8ss and http://www.z33f.blog.com.mk

5Z - KENYA

5Z4DX is active from May 14 until Jun 11. Wasini Island (AF-067) will be activated on the weekend of May 25/26.

Unfortunately QSLs only direct to: Frank Steffen Gast, Eskifirdi,
735 Eskifjoedur, Iceland.

9X - RUANDA

Rich,WA3FPK, will stay in Ruanda for three weeks starting on May 15. He is already holding the 9X0A license in his hands. During his little spare time you will find him working mainly in SSB on 20m - especially during the third week. His QSL manager is KA1CRP.

TP2CE, EUROPEAN COUNCIL, STRASBOURG

A few members of a HAM radio group at the German Bundeswehr have been invited to activate the clubstation of the European Council in Strasbourg from May 16-18. Dieter,DK5PZ, Volker,DL1WH, Peter,DL2RPS, and Rene,DL7WR, will work in CW, SSB and digital modes especially on the lowbands. Chances are high that the callsign used will be TP2CE.

QSLs direct or via bureau to F5LGF.

COTA - CASTLES ON THE AIR

The COTA Team Germany reminds us that the International COTA Activity Weekend takes place on May 17/18. Activities from castles and palaces have been announced from: DL, EA, F, G, HA, HB, I, OK, ON, SP and more.

ITALY, SPECIAL EVENT STATIONS

The kayak athletes gather at the Piedmontese city of Ivrea for the Wildwater World Championships 2008 from June 5-8. The local radio club IQ1IV is signing IO1WWC on all bands on HF, VHF and via satellite from May 12 until Jun 8. QSLs direct or via bureau should be sent to IQ1IV.

The ARI section Catania celebrates its 60th anniversary by activating the special event station II9LXCT until May 25. QSL via IT9VCE.

The first three legs of the 91st "Giro d'Italia" are taking place in Sicily which is the reason for IR9GI hitting the airwaves until May 18. QSLs via IT9TQH.

SILENT KEYS

Torben Loevenhoej,OZ1TL, was en route to Bhutan to become active as A52TL when he passed away on May 2. Several sources state that Torben has suffered a heart attack in his hotel room in Kathmandu/Nepal.

The DX community mourns also for Stuart "Stu" Santelmann,KC1F, Rustom Zal Kabraji,VU2BK, Zivko Trendafilovski,Z31CM, and Armand De Fusco,W1WKO.

Matej, OK1TEH, did ask us to spread a article by OK1VPZ:
Even I don't like "multi-beaming" contest style with more of power amplifiers and many antennas (however each fixed in different direction) due to a huge EMC troubles, requests from other operators pushed me to build such a simple and operators friendly RX antennas switch for such a kind of contest operation. The result of my effort is described at:

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, KF2TI, W2VU, K3IXD, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4VQ, K8YSE, N8OFS, DX-IS News Site, Pete's-DX-Newsdesk, 9M2TO, BD5RV/4, DC7NF, DK8JB, DL5ME, DL7MAE & The DX News Letter, F5NQL & UFT, GM0DHZ, I1JQJ/IK1ADH & 425 DX News, JA1DFK, JI6KVR & JA-IOTA Island News, LY5W, LZ1BJ, OH2BN, RA6YY, RN3RQ, RSGB IOTA Web Site, SM6WET, TA1HZ, TA0U, VA3RJ & ICPO, VE3ZIK and VK4HDX for the following DX information.

*** NOTES FROM THE EDITOR (by Tedd, KB8NW): Well, I am still recovering from the Dayton HamVention weekend. It was a rough week at work, and I guess my age is beginning to show. Hopefully, I will be back to normal next week. You may also note that this week's bulletin is extra long (two weeks of announcements). I also included an extra page this week on stations that were expected to be in this past weekend's CQ WPX CW Contest (Sorry, I could not get it out sooner).

Anyway, Dayton was great, as usual. The SWODXA DX Dinner provided DXers with a good meal and a great VP6DX presentation by Eric, K3NA. The VP6DX QSL cards should be arriving soon from the printers (within two weeks). DXers will be really surprised when they receive their collectable QSL card (a 32 page booklet with pictures from the DXpedition). It will be worth the wait Eric states. Eric also did a presentation during the DX Forum at Hara Arena which was excellent and different from the DX Dinner. During the DX Dinner the SWODXA announced their annual "DXpedition of the Year" award and it went to the 2007 BS7H operation. They also announced during the dinner the CQ magazine's 2008 CQ DX Hall of Fame inductees (see below).

Other interesting things for DXers during the HamVention included the SWODXA's DX Forums which had a very good line-up of presentions on 3B7C, J5C, VP6DX and TX5C. I would also like to mention the great turnout for the NODXA Hospitality Suite by many notable world-wide DXers. The suite was open most nights until 1:00 am. Thanks to those who attended. It may have been long nights and early mornings, but I enjoyed myself.

Lastly, I would like to mention that OPDX Webmaster John, K8YSE, has put together his annual HamVention listing of losing ticket numbers (those who did not stay for door prizes - with the list of prizes they could have won) and the winning ticket numbers of main prizes on the OPDX Web page at: http://www.papays.com/opdx.html

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 18th/May, through Sunday, 25th/May there were 227 countries active. * PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V, TUNISIA. Alex, GM0DHZ/AA8YH, informs OPDX that he is returning here in mid-November for 5 weeks. He plans to concentrate on the LF bands. He adds that he willing to accept skeds from "QRP" operators/stations, either CW or SSB. They can contact him via his E-mail address listed on QRZ.com.

4O, MONTENEGRO. Joska, HA9RT, will be active as 4O/HA9RT from Budva between May 30th and June 6th. Activity will be mainly CW on the HF bands. QSL via his home callsign.

4U1WED, AUSTRIA (Special Event). Look for special event station 4U1WED to be active between June 1-30th. Operations will be from the Vienna International Amateur Radio Club (4U1VIC) at the United Nations in Vienna. Activity is to celebrate the "World Environment Day" (WED) on June 5th. QSL via 4U1VIC. For more details on WED, please refer to the following Web site: http://www.unep.org/wed/

5X, UGANDA (Correction/Update). Franz, DJ5MR (not DC7NF as reported), is now active as 5X7FN until the end of June. He is currently there teaching at the "Butende Technical School" near Masaka, 120km north of Kampala City. Activity is expected to be mainly on 40 and 20 meters SSB. Most of his activity so far has been on 20 meters on various frequencies (mostly 14250 kHz) between 1700-2100z. He is only using a dipole and 100 watts. QSL via Albert, DC7NF.

9A, CROATIA. Zrinko (Zik), VE3ZIK/DO7ZZ, will be once again active from Bilice at Croatian Coast until May 27th. Activity will be on all HF bands, CW, SSB and the Digital modes (RTTY, PSK31 and PSK63). He was also expected to take part in the CQWW WPX CW Contest as a Single-OP/Single-Band or All-Band entry. QSL via DO7ZZ, DARC bureau 100%. E-mail requests for QSL cards via: zik@tiscali.de . He will update his log on-line LOG after his activity at: http://www.qslnet.de/ve3zik

9M1, EAST & WEST MALAYSIA (Special Callsigns). Look for 18 never-been-heard radio scouting special callsigns to be on air - activity started May 17-18th. In conjunction with the centennial celebration of scouting in Malaysia and the World Telecommunication & Information Society Day 2008, the Scouts Association of Malaysia have organized their first Malaysia national Jamboree-On-The-Air (JOTA) on May 17-18th. The Malaysian Communications & Multimedia Commission (SKMM) granted eighteen special event callsigns, 9M1CSx, to stations nationwide. The callsigns are valid until December 31st, 2008, and will be used for the following on air jamborees in 2008:

Asia Pacific JOTA: 0000z, August 2nd until 2359z, August 3rd
World JOTA: 1800z, October 18th until 2359z, October 19th

The national society, Malaysian Amateur Radio Transmitters' Society (MARTS), will provide QSL Bureau service to all of the following 9M1CSx stations. Details are available on: http://jota.scouts.my

The following is the list of special callsigns:

9M1CSA Perak
9M1CSB Sungai Besar, Selangor
9M1CSC Pahang
9M1CSD Kelantan
9M1CSF Muar, Johor
9M1CSI Segamat, Johor
9M1CSJ Johor Bahru, Johor
9M1CSK Kedah
9M1CSM Malacca
9M1CSN Negeri Sembilan
9M1CSP Penang Island
9M1CSQ Sarawak
9M1CSR Perlis
9M1CSS Sabah
9M1CST Terengganu
9M1CSW Federal Territory of Kuala Lumpur
9M1CSY Cyberjaya Secondary School
9M1CSZ Gombak, Kuala Lumpur

PLEASE NOTE: 9M1CSS is 9M6 and the others are 9M2.

ADDED NOTE: 9M1CSP (9M2 - Penang Group) was active this past weekend during the CQWW WPX CW Contest. QSL via 9M2 Bureau or 9M2TO: PO BOX 125, GPO 10710, PENANG, MALAYSIA.

BT1, CHINA (Special Event Stations). Michael Chen, BD5RV/4, informs OPDX that the Chinese Radio Sports Association (CRSA) has announced that five special event stations will be active during the 2008 Beijing Olympics starting May 18th and ending September 17th. Each of the five different callsigns will represent one of the 5 Olympic Games ring symbols: BT1OB for Beibei (blue), BT1OJ for Jingjing (black), BT1OH for Huanhuan (red), BT1OY for Yingying (yellow) and BT1ON for Nini (green). Activity will be on 160-10 meters using SSB, CW, and RTTY. The contacts can be used to apply for a "Beijing Olympics Award" which will be available soon. Also. look for operations on SSTV, PSK, the satellites, EME, and possibly other modes. Contacts using these modes will not be valid for the award. The QSL Manager for these special event stations is BA4EG, by the Bureau or direct. QSL cards will be sent out starting October 2008. A Web site is now active with news updates, station setup, logs, award info and QSL status, at: http://www.bj2008ses.com.cn
The CRSA is at: http://www.crsa.org.cn/news_end.php?id=301

C6, BAHAMAS. Operators Peter/W2GJ, Ed/K3IXD and Dallas/W3PP will be active as C6APR from here between July 25-28th. Their activity will include the RSGB IOTA Contest (July 26-27th) as a Multi-Op DXpedition entry. The team will be on Crooked Island (NA-113, LH BAH-005 and Grid FL22tt). Look for activity outside of the contest on 80-6 meters including 30/17/12 meters, CW, SSB, and RTTY. QSL via K3IXD.

CARIBBEAN TOUR (IOTA Op/FG & FM). Operators Freddy/F5IRO and David/F8CRS will be making visits to the Islands of Martinique and Guadeloupe between August 4-21st. Their schedule and stops are as follows:

August 4-17th - Active as TO8S from Les Saintes Island (NA-114); with 2 HF stations, mainly CW on 80-10 meters (some SSB and RTTY too). During the same period, they will try to be active as FG/homecall from Guadeloupe (NA-102) for 3-4 days with one station, and FM/homecall from the Island Martinique (NA-107) for 3-4 days. It is recommend to watch the clusters!

August 18-21st - They will end their stay and be active as FM/homecall from the Martinique (NA-107) with 1 station.

Operations will be holiday style during their spare time. QSL via F8CRS, by the Bureau or direct (w/SAE+postage).

CQ ANNOUNCES 2008 HALL OF FAME INDUCTEES. CQ Editor Rich Moseson, W2VU, sent out the following press release May 16th: "CQ magazine today announced its 2008 Hall of Fame inductees, welcoming 14 new members into the CQ Amateur Radio Hall of Fame, three new members of the CQ DX Hall of Fame and two new members of the CQ Contest Hall of Fame.

The CQ Amateur Radio Hall of Fame honors those individuals, whether licensed hams or not, who have made significant contributions to amateur radio; and those amateurs who have made significant contributions either to amateur radio, to their professional careers or to some other aspect of life on our planet. The 2008 inductees (listed alphabetically) are:

Gaston Bertels, ON4WF - Honorary President, former President & CEO, UBA (Belgian IARU society); founder & President, AMSAT Belgium; Chairman, ARISS Europe

L.B. Cebik, W4RNL (SK) - Noted antenna authority, prolific author on topics relating to antennas and antenna modeling

Gordon England, ex-W3AWO - Deputy Secretary of Defense; former Secretary of the Navy; former defense industry executive

Adm. Edmund Giambastiani, N4OC - Retired Vice Chairman, Joint Chiefs of Staff

Gerald Griffin, MD, K6MD - Brigadier General, Medical Corps, US Army (Ret.) - Led medical brigades and humanitarian missions in various combat zones; delegate to NATO medical advisory committee

Larnelle Harris, WD4LZC - Multi-award-winning Gospel singer/songwriter

Lenore Jensen, W6NAZ (SK) - Co-Founder, Young Ladies' Radio League (YLRL)

John Kanzius, K3TUP - Inventor of possible cure for cancer using RF energy; process for possible use of seawater as fuel

Charles (Chip) Margelli, K7JA - DXer and DXpeditioner; arranged the use of Yaesu equipment for countless DXpeditions; successfully represented hams in Morse code vs. text-messaging competition on "The Tonight Show with Jay Leno" in 2005

Philip S. Rand, W1DBM (SK) - TVI pioneer; author, Television Interference; engineer, Remington-Rand (son of one of the founders); author, many articles in CQ and QST

Vice Adm. Scott Redd (Ret.), K0DQ / A92Q - Former Director, National Counterterrorism Center; Retired Commander, US Fifth Fleet; active contester and DXer

Dr. Tony Tether, K2TGE - Director, Defense Advanced Research Projects Agency (DARPA)

Dr. Hamadoun I. Toure, HB9EHT - Secretary-General, International Telecommunication Union (ITU)

Dr. John Townsend, W3PRB - Space program pioneer, aerospace industry executive.

The CQ Contest and DX Halls of Fame honor those amateurs who not only excel in personal performance in these major areas of amateur radio but who also "give back" to the hobby in outstanding ways.

The 2008 inductees to the CQ DX Hall of Fame are:

John Devoldere, ON4UN, who more or less single-handedly popularized DXing on 80 meters. His book, "Low Band DXing", is considered the "bible" for DXing on these bands, with more than 50,000 copies sold in the 20+ years in which it's been in print. John was the first ham to earn CQ's 5-Band Worked All Zones (5BWAZ) award, in 1979; he holds 80m DXCC certificate #1 and currently has 357 countries confirmed on the band.

Nellie Saltiel de Lazard, XE1CI, a pediatrician and DXer/DXpeditioner, Nellie has earned just about every major DXing award and has operated from more than a dozen different countries, including being the first YL to operate from Palestine (E4).

Bob Schenck, N2OO, has made his greatest contribution to DXing behind the scenes as QSL manager for over 100 DX stations and more than 130 DXpeditions and as founder of the QSL Manager's Society.

The 2008 inductees to the CQ Contest Hall of Fame are:

Paolo Cortese, I2UIY - has too many top-10 finishes to list. Off the air Paolo served for more than a decade as the HF Contest Manager for Italy's national amateur radio association; wrote a book on contesting, has been a member of the CQWW Contest Committee since 1990 and co-director of the CQ WW RTTY DX Contest and CQ WPX RTTY Contest since 2005.

Randy Thompson, K5ZD, has multiple wins in the CQ World Wide DX Contest, ARRL Sweepstakes, CQ WPX (CW and SSB), CQ 160 and the IARU HF Championship. His station has also hosted many #1 performances by guest operators. Randy is three-time editor of the National Contest Journal, co-founder of the e-ham.net website. He has just been named Director of the CQ WPX Contests.

Formal inductions to the CQ Contest and DX Halls of Fame were scheduled for the contest and DX dinners, respectively, at the Dayton Hamvention."

CU3, AZORES. Alain, F5LMJ, will be active as CU3/F5LMJ from Terceira Island (EU-175) during the RSGB IOTA Contest (July 26-27th). QSL via his home callsign, direct or by the REF bureau.

DXCC NEWS................

* Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:

  TI9KK - Cocos Island; 2008 Operation

  If you had cards rejected for this operation, send an E-mail to dxcc@arrl.org to be placed on the list for an update.

* DXCC card checking will be done at Ham Radio Friedrichshafen. Card checking will occur during all hours of operation Friday, Saturday and Sunday June 27-29th. Many hams travel from around the world and this is a busy event for card checking. Please remember these tips that will help you and the card checkers through the process, avoid delays and allow us to serve everyone:

  Preparation:

- Visit http://www.arrl.org/awards/dxcc/faq/ for complete information on the Application Process and for information on filling out the form;
- THERE IS A 120 CARD LIMIT PER APPLICANT
- Make sure that your cards are in proper order. Band first, then mode. Cards with multiple QSOs at the end;
- The order on the record sheet MUST match the order of the cards;
- The latest forms are on the DXCC web site at:www.arrl.org/awards/dxcc;
- Have all paperwork completed before you come to the table;
- Make sure everything is legible;
- List only QSOs you want credit for

For more details on "Hybrid application" and "Payment methods", please visit the DXCC Dialog Weblog at: http://www.arrl.org/blog/DXCC%20Dialog

NEW DX SUMMIT NOW AVAILABLE AS OF FRIDAY, MAY 23RD! A press release from Jarmo, OH2BN, states (edited): "The original OH2AQ DX Summit was launched in 1998. It represented something that changed the entire DX hunt. Spinning the dial became old history that would never return.

Yasme Foundation President Wayne Mills, N7NG, put it as follows; 'Jukka Salomaa, OH2BUA and Antti Kantola, OH5TB were awarded the Yasme Excellence Award for conceiving, operating, and maintaining the DX Summit, the first widely used Web-based spotting network portal. They created a tool that fundamentally changed the nature of HF operating, a true advancement of the radio art.'

The OH2AQ Summit has been a reliable tool for DX spotting for ten years. It was based on a concept and the computing power of those other days. Today marks the 10th anniversary of this innovation.

The New DX Summit, operated by Arcala Extremes, OH8X and supported by Yasme Foundation Inc., boasts a dramatic increase in computing power with the latest available equipment providing easy access to configure a Microsoft Server 2003 platform. State-of-the-art multiple servers are located in California, USA for fast information throughput and massive data storage. A huge amount of data will be retrieved for potential future applications. The system has been developed by Admino Technologies Ltd. located in Oulu, Northern Finland. <http://www.adminotech.com>

Traffic congestion should be a thing of the past. You can sample the speed and functionality during this coming weekend's WPX Contest. You should reconfigure your setup to <http://www.dxsummit.fi> (please update your browser bookmarks) because the original OH2AQ DX Summit will close down soon.

While the new system begins as a stepped-up carbon copy of the original system, it will provide an advanced technical platform for many new features that are on the drawing board as we speak.

Arcala Extremes, OH8X is a group of serious hams seeking technical innovations, experimenting with advanced radio and antenna concepts to further the evolution of amateur radio by using the competitive spirit as their trademark to attract young people. Their stations, OH8X and CU2A, are located in Oulu, Northern Finland and Azores Islands respectfully.

Yasme Foundation <http://www.yasme.org> is a non-profit corporation undertaking scientific and educational projects related to amateur radio, including DXing and the introduction and promotion of amateur radio in developing countries."

NEW FREQUENCIES FOR ITALY. It was announced effective May 13, 2008, Italian amateur radio operators will be authorized to use the frequencies between 7100-7200 kHz (on a secondary basis), using only a total radiated power not exceeding 24 dbW.

Also, QSL for UA3RAR, RX3RXX and RP3RTK can be sent ONLY to RN3RQ (Jack has the logs that are dated after January 1st, 2002). Jack also mentions that he has sent 12000 QSL cards via the Bureau as of March 1st, 2008. If you don't receive a QSL, please send him an E-mail request at:

rn3rq@tamb.ru

QSL TC1ATA via TA1KB. Activity was to commemorate the 89th anniversary of Mustafa Kemal Ataturk's arrival in Samsun (the city where the War of Independence started) and the "Youth and Sports Day". Operators were TA1GR, TA1IG, TB1CGX, TB1CRN and TB1CRQ.

Kadek, YB9BU, is now the QSL Manager for the following: YC8TXW (OC-210), YC8TXW/P (OC-022), YC8TXW/p (OC-236), YC8UFF/P (OC-236), YC8RSW/p (OC-236), YC7IPZ (OC-166), YC8XNE (OC-076) and YC8XWJ (OC-076).

QSLS VIA LOTW: CT1YTS, HL0U, KG6DX, PA7RA, SU1KM and VU2NKS

QSLS RECEIVED VIA MAIL: 3D2MT, 5T5DC, 5Z4HW, 6W1SJ, 7P8FC, C21DL, GI3OQR, JH4RHF/BY1DX, OJ1ABOA, RK2FWA, S21ZDT, SU1KM, SU9NC, TS6A, V63ZM, XU7XRO, XW1B, YI9SV and YK9G

QSLS RECEIVED VIA THE BUREAU: NONE REPORTED THIS WEEK!

T32, EASTERN KIRIBATI. Operators Tom/NY0V and Rod/K0DAS will be heading to Christmas Island (Kiritimati) in October. They plan to be active between October 23rd-28th as T32CXX and T32DAS. Activity will include the CQWW SSB Contest and they plan to use T32CXX as a Multi/Single entry in Zone 31 over the contest weekend. QSL T32CXX via W0CXX and T32DAS via K0DAS.

T8, PALAU. Takashi, JA0DCQ, is now active as T88CQ until May 27th. Activity will be on the HF bands, SSB and CW. QSL via his home callsign.

TC17, TURKEY. Urcun, TA0U, will be active as TC17GS between June 1-15th. Operations will be on 40 and 20 meters and the activity is to celebrate the 17th Championship of Galatasaray. Recently, Galatasaray has won the 2007-2008 Turkish Super League title and will be one of the two teams representing Turkey in the 2008-2009 Champions League. For more details, see: http://www.qrz.com/callsign/TC17GS

TC40, TURKEY (Special Event). Tevfik, TA1HZ, will be signing as TC40TRT to celebrate the 40th anniversary of TRT Turkish Television broadcasting. A one-day ONLY activation will take place on Saturday, May 31st, and he will be on the air on 40/20/17 meters. The first 40 direct received QSLs will be replied to with a Turkish Post Office's special TRT 40th Year stamp.

TK, CORSICA. Chris, F8DZY, will be active as TK/F8DZY, from Furiani Province (EU-014, DIFM TK-001, WLOTA 1390) between July 9th and August 3rd. Activity will be limited to his spare time, but look for him to be on 40-10 meters, CW and SSB. He will use an Icom IC-706MKII and a G5RV junior antenna. QSL via his home callsign, direct or by the bureau.

TOKYO DX BANQUET. All DXers are invited to attended the "2008 DXers Banquet in Tokyo" that will be held on August 23rd, in conjunction with the 2008 Ham Fair in Tokyo. The location of the banquet is the Tokyo Fashion Town (TFT) building, East-Wing 9th floor. The place is about 7 minute walk from the Big Site Ham Fair location. For complete details, visit the NDXA Web site at: http://www.ndxa.net/modules/news/article.php?storyid=35

VK9D, WILLIS ISLAND (DXpedition Update). A press release (#3) dated May 24th, on the new VK9DWX Web site at < http://www.vk9dwx.de > states, the DXpedition Team was rather active during the last couple of months. Excerpts advise readers that the team has found substantial support in VK-Land through Dale, VK4DMC who lives near Cairns, Queensland. Dale has been helping them by talking to local ship-owners, authorities and logistic companies. The team has also added two new operators to their DXpedition:

Robert/SP5XVY - SSB/RTTY operator and was a member of the VP6DX team
Gerd/DJ5IW - No details available

A QSL Manager has been announced. QSLs will be going to Mario, DJ2MX, who did a very reliable job after their VK9DNX DXpedition. Details on planning their antenna and station setups is still being worked out by Joerg/DL8WPX. They want to have four stations with full legal power on the air operating at the same time and also on the same band in different modes, if situation is requiring. Their location will be very close to the beach. Antennas will be vertical antennas on all bands, with arrays from 80-10m. They will have beverages for better receiving possibilities on the low bands. The team has not yet decided to operate 6 meters. Donations are coming in but are still needed. A list of contributors is available in the complete press release on their Web page.

VP2, MONTSERRAT (NA-103). Graham, M0AEP, will be active as VP2MDD from June 7-19th. Activity will be on 80-10 meters with 200W and a Carolina Windom antenna. Also, look for operations on 6 meters. He will use a 5 element yagi and 100 watts. QSL via M0AEP, direct or by the bureau.

YU8, KOSOVO. Boyan, LZ1BJ, is now active from here using the callsign YU8/LZ1BJ. Boyan informs OPDX that he will be here over the next few months. Activity has begun on 10 meter SSB and 40/20 meters RTTY/PSK. He told OPDX that he plans to be on 40/30/20/17/15/12/10 meters using CW, SSB, PSK31 and RTTY. QSL via LZ QSL Bureau.

ZF, CAYMAN ISLANDS (Update/6m Op). Operators Jim/K4BI and Mario/K2ZD are planning a major 6m DXpedition here. Look for them to sign ZF2BI and ZF2ZD, respectively, between June 20th and July 6th. They will be running an ACOM amp into a 6M5X. Look for them on 50.105 MHz. Their beacon will be on 50.095 MHz. Emphasis will again be EU, AF, SA and AS, but will of course work NA. They will have HF capability but don't plan on being there very much or very often. QSL via their home callsign.

ZS8, MARION ISLANDS. Still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

First Sporadic E Openinings 2008 on 144 MHz in Europe...
24th may: After long time waiting on the first Sporadic E on 144 MHz today it finally occured. There was high MUF since the early morning. Several QSOs have been made. MUF was high until midnight when FAI occured between I and G as well as F and HA while 3 meter was open from the border DL/SP to CT and EA. Thats always good sign for the coming days. 25th may: And again 144 was open. 50 and 70 MHz didn't really drop in the night (G was working into I on 4 meters after midnight) and that was a great promise for today... So - if you interested in reading more info or if youself made some ES contacts and wants to share it with the active community, please welcome at: http://www.mmmonvhf.de/es.php
You will be able to find up to date infos, as well summaries and details back to the year 2004 and as well you be able to upload your own sporadic E log! We just start the service and so please excuse that we also have learn day by day. We will try to implement some DXC Spots to the MAP�s maybe as well (tnx for the input) - any further ideas are very welcome!

PE1L and PA0ZH are activating JW Svalbard - locator JQ78tf - from
June 5th to June 9th 2008 on 144 MHz EME (If setup station goes they
will be qrv 2 june already). The call at 144 MHz will be JW5E.
Rig is 2 x 20 xpol dj9bv opt2, TS-2000, gasfet preamp and 2 x GI7B
amplifier. We will TX and RX at 144.110 MHz, for JA we will TX and
RX 144.082 (others can call us there as well). If all is OK we have
internet over there and we will announce if we change from
144.110 to 144.082. Last year PE1L was active as PJ4EME and made
273 qsos (no dupes counted). Based on that experience a few things:

VK9DWX - Willis Island - taking place October 2008
The DXpedition Team was rather active during the last couple of month. Here the latest news: 6m operations. Right now we have not yet decided, whether it will be meaningful to operate 6m, because it will require more costs and time and we are not sure if the (probably only small) results are worth the efforts. Maybe we will hear more on this in our guestbook soon. Let us know, how strong you would support a 6m operation.

***

FAROE ISLAND 2008 - OY/LA6FJA & OY/LA7WCA will be QRV from Elduvik North-West on Stromoy Island 25th-30th June on HF to 50 MHz. QSL have a look at http://www.qrz.com/la6fja

***

Svalbard, JW4LN. LA4LN, Tom, will be QRV from Spitsbergen Island, Svalbard from September 12-18. While there he'll be QRV on 60 meters as JW1V. He'll also operate JW4LN on 160 meters through 70 cm, mostly on CW with some SSB, digital modes and possibly Satellite. Tom will have an IC-7000, various wires, a beam for 10, 15 and 20 meters and possibly on 6 and Satellite. QSL cards must go direct only to LA4LN. More details can be found at www.qrz.com/jw1v

***

EA8/G8BCG IL39 (rare) 30/5 - 11/6. I'll be operating from Famara Lanzarote during these dates and will be on for the UKSMG Summer Es Contest. Also QRP eme and data as time permits (100w 7ele). 73 Peter, G8BCG

***

Operators Peter/W2GJ, Ed/K3IXD and Dallas/W3PP will be active as C6APR from here between July 25-28th. Their activity will include the RSGB IOTA Contest (July 26-27th) as a Multi-Op DXpedition entry. The team will be on Crooked Island (NA-113, LH BAH-005 and Grid FL22tt). Look for activity outside of the contest on 80-6 meters including 30/17/12 meters, CW, SSB, and RTTY. QSL via K3IXD.

***

Mal Bonner, G8ALB, will be operating GB1SCC celebrating the 50th Anniversary of the foundation of the South West Essex Technical College Caving Club. Operation will be from 28 May to 3 June at Dalesbridge Centre, Austwick near Settle, North Yorks. Expect activity on most HF bands, 4m and 70cm.

***

Neth. Antilles, PJ2/N5ZO. - Marko N5ZO plans to be active as PJ2/N5ZO on

OJ0 - MARKET REEF, EU-053

A Swedish team will be active from Market Reef (EU-053, ARLHS MAR-001) during the first week of June. They plan to become active in CW, SSB, RTTY and WSJT on 160m-2m and via satellite.

TK - CORSICA, EU-164

Dan,TK/IK2UWA, is expected to show up from Cavallo Island (EU-164) in CW and SSB on 10-40m between May 31 and Jun 6. Dan will use a FT-857 with 100 watts and a homebrew I1UJX-multiband-vertical.
QSLs direct or via bureau to IK2UWA.

4O - MONTENEGRO

Joska,4O/HA9RT, will be QRV mainly in CW from Budva/Montenegro from May 30 until Jun 6. QSLs via homecall.

4W - EAST TIMOR, OC-148

The Spanish radio society URE (Union de Radioaficionados Espanoles) is planning a DXpedition to Dili, the capital of East Timor, using the callsign 4W6R in June 2008. They plan to build up an amateur radio club station at the university in Dili as well. The equipment -which will stay in East Timor as a donation- consists of a Kenwood TS-690, a Mosley beam TA63M, a G5RV antenna and an antenna rotator. A second station will be activated but taken home again after the DXpedition. They plan to log 30.000 QSOs in CW, SSB and RTTY during 15 days. Similar projects were realized by the URE in Cameroon, Cuba, Honduras, El Salvador, Guatemala, Albania, Algeria and Mali from 1998 until 2007.
The Spanish team includes following experienced operators:
Angel,EA1QF (team leader, works CW/digital modes), Pere,EA3CUU (CW), Jose,EA4DB (ex-EA4BPJ,CW/SSB/digital), Eugene,EA4KA (CW), Txema,EA5BWR (CW/SSB/digital), and Jose,CT1ERC (CW/digital).
As usual the QSLs are managed very reliably by EA4URE (also via buro).
Following frequencies were announced for 4W6R (in MHz):

	CW	RTTY	SSB
160m	1.830	-----	1.845
80m	3.508	3.615	3.785
40m	7.008	7.038	7.065
30m	10.118	10.145	------
20m	14.018	14.085	14.185
17m	18.078	18.105	18.135
15m	21.018	21.085	21.295
12m	24.898	24.925	24.945
10m	28.018	28.085	28.485
6m	50.098	50.300	50.155

Special information about DXCC Card Checking in Friedrichshafen, Germany:

DXCC card checking will be done at HAM RADIO Friedrichshafen. Card checking will occur during all hours of operation Friday, Saturday and Sunday June 27 through 29.

Many HAMs travel from around the world and this is a busy event for card checking. Please remember these tips that will help you and the card checkers through the process, avoid delays and allow us to serve everyone:

1. Preparation:

Visit http://www.arrl.org/awards/dxcc/faq/ for complete information on the Application Process and for information on filling out the form:

- THERE IS A 120 CARD LIMIT PER APPLICANT
- Make sure that your cards are in proper order. Band first, then mode. Cards with multiple QSOs at the end
- The order on the record sheet MUST match the order of the cards
- The latest forms are on the DXCC website: http://www.arrl.org/awards/dxcc
- Have all paperwork completed before you come to the table
- Make sure everything is legible
- List only QSOs you want credit for

If you plan to do a Hybrid application (paper application with Logbook of The World) you must do the LoTW portion prior to leaving for Friedrichshafen

2. When you arrive at the ARRL booth in Friedrichshafen:

- Check in with the next available card checker
- The checker will take your application and issue you a numbered receipt
- Advise the checker of anything important to the card checker BEFORE they start
- You do not have to wait while your application is checked

3. When you return to claim your cards:

- Present the numbered receipt to the card checker to claim your cards
- The card checker will return your cards to you
- DXCC will not take cards back to ARRL with them, you must claim them
- The card checker will advise you of the final fees
- Payment is due upon completion of your application

4. Payment methods:

- Credit Card (preferred)
- Cash (USD or Euro only)

- Check   (from USA bank only)
- Money Order (US and international OK)
- DXCC cannot bill you
- Please see rule 15 for the latest fee information

If possible, please bring with you a copy of your last credit slip.

Special information about the LogBook of The World registration:

If you would like to apply for a new LogBook of The World certificate,
bring a copy of your home call license and a picture ID. If you wish to
create an LoTW account for a DXpedition or a club callsign, you must bring
proper documentation (eg: License and proof that you were at the DXpedition

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal

****

144 MHz SPORADIC E Summaries 2008 - http://www.mmmonvhf.de/es.php

As you already have seen the VHF-DX-Portal MMMonVHF started to work
out the first 144 MHz Sporadic E Openings of the year.
Up to now we have had daily input of logs since 24th of May!
Today some short info and hints about the progress and future:
These Summaries follow-up the ufb work on the pages of Udo, DK5YA and
Steffen, DM2SR. It is a real SUMMARY and NOT a REAL TIME Program.
In the case you want to have real time info about the MUF we recommend
the DX Sherlock by Gabriel, EA6VQ (www.vhfdx.net) or LiveMuf by Dave,
G7RAU (www.g7rau.demon.co.uk/).
MMMonVHF will only collect the LOGs over the day and put it together to
an overview later the day (so NO need to send the LOG twice - its NOT
shown earlier ;-)). In case of small openings we are able to provide
as well typical QSOs from the DXC to our MAP - BUT we have seen that a
lot of "rubbish" QSOs and SPOTS are via DXC.
The basis for MMMonVHF-Maps are the Log-inputs from YOU! So if YOU work
any 144 MHz Sporadic E QSO please be so kind and send us your log online:
LOGIN at MMMonVHF, go to the Sporadic E page (www.mmmonvhf.de/es.php)
and click "Send your Report". We only be able to accept registered Users
to avoid Spam and Mal-Spots...

***

A Poll at our ES Section initiated by Allard, PE1NWL (DX-Robot) and MMM
"How did you discover this ES opening this time?"
If you pass your ES-Log to MMMonVHF please have a short look at the lower
end of the page - you might mark how you did discover this Sporadic E
opening at these day! After the Sporadic E Saison we will spread the
rsults and maybe try to make some more tools around these stuff...

40 METER DX NET. John, VK6JB, is the moderator of a 40m DX Net that presently runs on Wednesday, Friday and Saturday at 1200-1330z. The frequency is 7077.5 kHz, but if this is unusable for some reason, they will move the net to 7092 kHz +/- QRM. John states that this net may be quite early in the morning for some stations and is interested in starting another net possibly between 7.125-7.200 MHz if a clear frequency could be found for the duration of the net. He adds, "As the seasons change, so do the broadcast stations, but it is worth a try to find a frequency so we can all join in on the DX net together. There are many VK stations from the west to the east coast that would like to work you. If you can join the present net or assist in finding a clear net frequency, please send any frequency reports to vk6jb@wia.org.au and I will collate them. I would also like to offer an open invitation to any amateur interested in 40m DX, to join our YAHOO group. Address details are as follows:

4X0, ISRAEL. Operators Hal/W8HC and Jerry/K8OQL have announced their return to Israel in October for another CQWW DX Phone Contest (October 25-26th) from the Holyland. In commemoration of Israel's 60th anniversary in 2008, they have been granted permission to operate as 4X0C as a special event/contest station from atop Israel's historical Masada National Park.

Masada was built during 37 BC to 31 BC by "Herod the Great" and served as a "nearly" impenetrable stone fortress and palace. The site is located in the remote Judean desert and is situated on a rhomboid-shaped table-top plateau rising nearly 450 meters. This contest location offers a breathtaking panorama of the Dead Sea and Jordan's Moab Mountains. Interestingly however, Masada's actual elevation is near-sea level since the Dead Sea below is over 400 meters below sea level. Masada is also known as the site of one of the largest mass suicides in history when in 73 AD, some 960 Jewish Zealots took their own life rather than die at the hands of the Roman legions that had breached the fortress walls. Hal and Jerry will be hosted and joined by Ruben/4Z5FI for their Multi/Single operation during the contest. QSL via W8HC, direct or by the Bureau. All 4X0C QSOs will also be uploaded to LoTW as in previous operations (4X0WV). Hal will QSL 100% via GlobalQSL.com. Additional information about this operation can be found at: http://www.w8hc.com
To get more information about this site, please visit the Web page at:
http://www.bibleplaces.com/masada.htm

7W0, ALGERIA. Mike, DB1JAW, will be active as 7W0JAW (or 7X/DB1JAW) from Bou-Saada and possibly other locations in the Algerian Sahara, October 2-14th. Activity will be on 80-10 meters, but with a focus on 20/17/12 meters using SSB and PSK31. QSL only direct to DB1JAW; he is no longer a member of DARC. SAE is not required as Mike prints computerized envelopes.

9L3, SIERRA LEONE (IOTA Op). Operators Alfeo/I1HJT, Silvano/I2YSB, Carlo/IK1AOD, Vinicio/IK2CIO, Angelo/IK2CKR, Marcello/IK2DIA and Stefano/IK2HKT are expected to be active from Sherbro Island (AF-056) next year, between January 25th and February 13th. Callsign is to be determined. QSL via I2YSB, direct or the G6MBY Bureau.

C9, MOZAMBIQUE (Update/Operator Needed). Frosty, K5LBU/C91CF, informs that a spot has opened up on their team for their July DXpedition. One of the operators had to drop out, so if anyone would like to join them, please send an E-mail to Frosty before June 6th. He states that he needs to pay for all the rooms (and other things) on that date. His E-mail address is: frosty1@pdq.net
Currently, a group of 4 operators from the U.S. are on the team to go to C9-land, as well as one from 9M6-land and 3-4 operators from ZS-land. This is an "African DX Safari Team", and each operator will be using their own callsign during the July 16-30th operation. Activity will be from the Blue Anchor Inn <http://www.blueanchorinn.com/>. They plan to have 3 stations set up: one for CW, one for Phone and one for RTTY/PSK. They also plan to be on EME (6m-70cm) and the satellites.

CU1, AZORES. Operators Arlindo/CT1EGW, Luis/CT1EEQ, Hermann/CT3FN, Antonio/CU2HJA, Antonio/CU8AS, Lutz/DL9DAN and Rudolf/HB9CQL will be active as CU1T during the RSGB IOTA Contest (July 26-27th). The team will be active from Santa Maria (EU-003) between July 21st and August 1st. Activity will be on 80-6 meters using CW, SSB, RTTY and PSK31. They will have a beacon on 50113 kHz. QSL via CT1GFK.

CU2/CU3, AZORES (Update). Alain, F5LMJ, will be active as CU2/F6HMJ from Sao Miguel Island (EU-003) from July 19-26th and CU3/F5LMJ from Terceira Island (EU-175) from July 26th to August 1st. He will be active on CW and the Digital modes. Also, Alain will participate in the RSGB IOTA Contest (July 26-27th) from CU3. QSL via his home callsign, direct or by the REF bureau.

DXCC NEWS..................................

* If you had a problem using the "LogBook of The World" (LoTW) during the past week, that is because it was down for a scheduled maintenance. The Logbook system was off-line for approximately 24 hours starting at 1200z on Wednesday, May 28th (8:00 AM EDT) in order to perform some hardware additions. The system should have return to service by 1200z, May 29th.

* Ham Radio Friedrichshafen (Special information about the LogBook of The World registration): "If you would like to apply for a new LogBook of The World certificate, bring a copy of your home call license and a picture ID. If you wish to create an LoTW account for a DXpedition

or a club callsign, you must bring proper documentation. (eg: License and proof that you were at the dx-pedition location, or a copy of the club license). The ARRL representative will immediately issue you a password to get started."

* It was announced that the DXCC DeSoto Cup Challenge has a new winner for 2007. Fausto Minardi, I4EAT, (w/3129 band points) has passed second place medal winner Bob Eshleman, W4DR, (w/3124 band points). Third place medal was won by Leif Ottosen, OZ1LO (w/3119 band points). Frank DH7FB and Bernd DF2ZC are currently looking for a suitable QTH either on Guernsey or Jersey (with priority Guernsey). We are planning for a 2m EME dxpedition from 11 to 18 October 2008 since our planned ZB activity had to be cancelled due to circumstances beyond our control. We are looking for a detached holiday cottage, preferably with few or no neighbours. So if you know a QTH with good tropo takeoff (but not 100% necessary as we will cocentrate on EME, so only usual moon QTF definetly needs to be open). Maybe some fellow hams from GU/GJ read this, or somebody who already was there on holiday? Any suggestions are welcome. vy 73 Bernd DF2ZC"at"gmx.de

Jussi, OH6ZZ, will be trying o activate the Water-Square (JP91)
and as well OH0 (KO09) after the JP91-Gig 8th until 9th of June 2008.
LATEST NEWS from Jussi at his new Expedition Webpage:
Few words ab my working policy - pse call with report all the time,
during ongoing qso. This will increase qso rate. In JP91 I might leave
73 away. I keep list of copied calls all the time and try to work every
station but please patience because f ex last week in KO09 I had 5..10
calls waiting. Only two exceptions; - stations within tropo range, say
500..600km - pse call only short 5..10s period, because tropo signal
will block all pings/bursts and prevent finishing qso. - BIG GUNs
You will be heard and worked, dont need to call all the time

For June this year Zdenek OK1DFC is preparing in cooperation with Dime Z35Z a EME DX pedition to Monte Negro and Macedonia. LATEST NEWS de Zdenek, OK1DFC - 2008-06-02: Hi EME gang, all for pedition ready. Today wrap up all things and tomorrow at 07.00 we start with Zdenek OK3RM trip to 4O. All units are working, dish and SPID rotator are also ready. So you can find us on HB9Q chat according schedule on pedition web. http://www.ok1dfc.com/Peditions/z3/z3.htm Regards Zdenek - OK1DFC
Hi all, we are on air but with non expecting problems. More details you will see on web tomorrow where are pictures. 50m from our dish is mast with profi digital service on CDMA and we have strong noise on the 432. But we are able to hear Sun noise and also own echo. So we have now turn polarization to vertical because QRM is lower now. So we will be QRV on 432,045 at 4th of Jun at 04:00. We have worked today Jan DL9KR as a his #99 DXCC on 432 with very good signal O/449. SO tomorrow we will try again G4YTL. Dave where around and copy him "O", but not final RRR and N.C. QSO JT65B tested also and working well. I will be again on ON4KST and HB9Q chat for possible sked how described on my web page. GL and looking for us. This summer, Gerd DL2SB will again be QRV as OH5SB/mm on the way to the summer QTH in his second home country Finland. In recent years, I used to activate the water squares on 2m in SSB (until 2005 with my previous callsign OH5NYI). On 6m, mobile operation was forbidden. Now in current Finnish regulations, mobile operation including /mm in international waters on 6m is allowed. This year, in addition to possibly 2m (144.288 and 144.300) the main activity during ship travel will be 6m SSB. The 6m frequency may depend on

TV QRM situation. Read: http://www.mmmonvhf.de/latest.php?id=1314

I meant the above in the particular case of Kosovo, not in general, obviously. There have been sovereign countries that existed for centuries, yet did not seek the UN membership for whatever reason. Their sovereignty, however, had never been disputed.
The problem with Kosovo is that if the UN does not accept it (due to the Russian and Chinese veto, or Serbian objection, or whatever else), there is no legal ground on which it can be assigned a prefix block.

It would be interesting to know whether the membership is granted by the member-state vote and whether the permanent UN Security Council members have a veto right in such issues.

Yes, even HB9 joined as late as 2002. When you're neutral and serve as the world's piggybank, there is little need for the UN "protection" (we all know how effective the UN is in protecting people). HV is not a member either.

But isn't that pretty much the same as the situation as with E4? (the primary difference being which Security Council member would veto UN membership)

I did some digging around and best I can tell, the Security Council *does* have a veto with regard to new members.

I got Tonga (A3RK) & Christmas Is. (T32OU) during the contest using an end-fed random-length wire (shaped in a rectangle) inside my studio apt, but couldn't get VP6DX, who was coming in 599 on both 40 and 15 meters. Unfortunately, I was working QRP & everybody & their brother were trying for him, probably drowning out my sig. I'll see if I can get him later this week.

I couldn't find any QSL info for PJ4O (Netherlands Antilles), who I worked during the ARRL DX CW contest at the 11th hour. Looking at some spotting archives, he appears during the contest and then disappears. Was he a contest club?

Any QSL info would be appreciated.

Thanks,

Probably a contest station--that area is popular with Stateside contesters looking for a contest vacation. Back when I played in contests, there were some of those clubs I'd work every year from various places around the Caribbean and SA. Some of them are great QSLers and some aren't--but if it was a club, it may take a while to reply to your card.

QSL information will appear after the contest, online. One easy way to look is to pop the callsign into Google and see what you find--many of these folks put up a little website with QSL info, etc. If you do much of this, subscribe to "QRZ DX" published by N4AA--a great resource for DXing!

If it's a club station, there will often be a US QSL address. I usually send a SASE with my own QSL, and if it was a club contesting effort, about half the time I add a 'green stamp' to help with their printing and other QSLing costs.

GL and hope you had fun in the contest!

Thanks. I'll be realistic and assume the ops had a good set of "ears" (aka antennas), and were eager hunters. A35RK came right back to my 1st call like it was a day in the park. Of course he was operating "way up there" (21.053MHz) and not down amongst the noisy fray. I got T32OU 3 mins after the start of the contest and A35RK 32 mins before the end. Both stations were putting out 100W and came in 5x5 on 15 meters. I guess ya gotta get in early and stay late to get the pretty stuff <G>.

Cheers,

I did a search for the c/s in Google and the c/s DBs I know of (QRZ & HamCall) w/o any luck.

There was a club (PJ4R), managed by N4GG, in 2006. N4GG was part of another PJ4/ team; but, nothing on PJ4O.

This Kantronics KAM Plus All Mode TNC for HF & VHF has the ver. 7.0 firmware and can be updated further with updates from Kantronics. It is a dual port TNC.

This unit is in AS NEW condition. It was removed from my station where it was all connected and working fine. I am a non smoker so it is free from any smoke or smell!

I have the DC power cord, cables, all the manuals, box and a connecting cable for Icom. Other radio cables are all common and should be no problem to find. http://tinyurl.com/3yrgtf has many KAM to radio cables.

This is a great deal on a nice clean KAM Plus All Mode Packet TNC. This KAM Plus has been operating flawlessly for about 14 years. It runs PACKET, RTTY, ASCII, AMTOR, WEFAX, CW, NAVTEX/AMTEX, KISS, HOST, G-TOR and PACTOR.

The KAM-XL is the closest replacement.

MSRP $400

I am asking $180 plus shipping CONUS.

I also have the HostMaster II software and manuals for the KAM. I am asking $25 for that.

Shoot, I missed Tonga...

I did work VP6DX on 15 meters - and I was running QRP. Pretty big antenna though. They've been loud enough (and on frequently enough) that I'm sure you'll have plenty of opportunities.

Not really. Palestine has "received a standing invitation to participate
as observer in the sessions and the work of the General Assembly and
maintaining permanent observer mission at Headquarters", i.e. it is as
close as it can get to the full UN membership without the ultimate
solution of its territory, etc. It is a tacit acknowledgment that the
state is de facto there with a future promise of a membership once the
peace process results in the permanent settlement.
Kosovo is a much crazier socio-political situation, if that's even possible.

So much for a new one, eh? In the meantime, the ARRL DXCC manager issued
a clarification on the YU8:

"The 'Event Date' will be either the date Kosovo became a UN member or it receives its prefix from the ITU."

Which, as things stand right now, means never. Either way, the present YU8 operation can only ever count as YU.

As of when I left for work yesterday, I still needed them on 160, 80, and 40.

Landed them on 40 on the way home from work. (yes, from the mobile. I work second shift so this was around 0700 UTC +/-.)

Got home & found them on the bottom of 80. Had just turned on the amp to give 'em a call - phone rang. Server upgrade that worked when I left had gone bad. Had to turn around & go back in. Figured that was the end of my shot at working them yesterday on 80.

Guess not. Stuck the 80m resonator on the car on the way home. Found 'em on 3503 working up 3. Took about 10 minutes of calling - but they heard me. Worked on 80 from the mobile.

I don't have a 160 resonator, so had to wait until I got home to try there. On 160, the problem was QRN. HORRIBLE on this end - severe storms about 250km south of here in Alabama - and from what I hear it wasn't any better on their end. And, my amp doesn't work on 160 so was limited to 100 watts.

Got 'em anyway.

Still need 30 and 10 meters. Heard them on 10 during the DX Contest but was a QRP entry & that wasn't enough "soup" to make a QSO.

I need to replace my old "Radio Amateurs Prefix Map of the World" with something a bit more up-to-date and can't find anything suitable online.

I thought I had a winner with Millennia Art's "Ultimate DX World Map" at http://www.millarts.net/, but when I tried to buy one at http://www.hammaps.com/, the only place that I could find it offered, I find that the Web site appears to be abandoned. Emails to millarts.net bounce.

Any suggestions for an updated map that's as big as the old map in a Mercator (or similar) projection?

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2J/MJ, JERSEY. Operators Kevan/2E0WMG (2J0WMG) and Mark/M0MJH (MJ0MJH) will be active from Jersey (EU-013) between March 20-26th. They also hope to activate Les Minquiers Reef (EU-099) during their trip. QSL via their home callsigns (addresses on QRZ.com).

4S, SRI LANKA (160m). Nelson, 4S7NE, announced this past week that he will be active on 1822 kHz at 0045z. Once he is done on 160m, he will then QSY to 3505 kHz.

5R, MADAGASCAR (AF-013). Franck, F4DBJ, will be active as 5R8HT from Ivato between March 30th and April 17th. His bands and modes of activity were not provided, but it was reported that he plans to activate Nattes Island (AF-090).

5Z4, KENYA. Remember to look for Sigi, DL7DF, who will be on holiday with his XYL Sabine at Diani Beach at the coastline of Kenya. He will be active as 5Z4HW from February 27th to March 11th. Activity will be on 160-10 meters, CW, SSB, RTTY and SSTV. Operations will be limited (holiday style). He will use an IC-735 and Linear TY900. Antennas will be a R7 vertical and 18m Tower for 160/80m. QSL via DL7DF, direct or by the DARC Bureau. Visit his Web page at: http://www.DL7DF.com

8P, BARBADOS. Tom, W2SC, will be active as 8P1A during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/High-Power entry. QSL via NN1N.

ATLANTIC OCEAN TOUR. Tom, KC0W, who moved to St. Helena Island in early September and has been active as ZD7X, has been given permission by the Tristan da Cunha government to visit Tristan for an extended stay. He is expected to leave St. Helena sometime in late April. So, Tristan will be his next DX location. Tom hopes to operate from Tristan for a period of 4-6 months and plans to be VERY active from Tristan as he was from St. Helena. He states, "My next planned DX locations after Tristan will be the three islands of South Sandwich, South Orkney and South Georgia. My goal is to activate each island for at least two weeks straight. This three island DXpedition is in the planning stages right now. I hope to stage this whole operation out of the Falkland Islands."

C9, MOZAMBIQUE (Update to OPDX.846/Correction to URL Web address). Frosty, K5LBU/C91CF, reports, "The web master (Steve, W9DX) was doing some updates to the Web page for July's C91 Mozambique trip. He had to make a change so therefore it is: http://www.tdxs.net/C9.html
The C had to be capitalized due to some conflict. Sorry about that."

CARIBBEAN TOUR. Yannick, F6FYD, currently active as HH2FYD, will leave Haiti early March. He can usually be found on 17 or 15 meters SSB between 1430-1700z or on 20 meters SSB after 2000z. He will try to go to St. Martin and be active as FS/F6FYD on March 8-9th. Yannick will then go to St. Barthelemy and be active until March 12th before he heads back to St. Martin and then France. QSL via his home callsign.

DAYTON HAMVENTION TOP-BAND DINNER BANQUET. George/W8UVZ and George/K8GG report, "All 160 meter enthusiasts are cordially invited to the Topband dinner on Friday evening of the 2008 Hamvention in Dayton. This annual event brings together 160 meter operators from around the world for food, drink and camaraderie. We will again be at the Barnsider Restaurant - same location as the past two years." The event details are Friday, May 16th, at The Barnsider Restaurant (Near Hamvention Arena), 5202 N. Main Street (Route 48 just north of Needmore Av), Dayton, Ohio. Phone Number: (937) 277-1332. Social hour will be 6:15 PM (Cash Bar) and dinner at 7:30 PM. Dinner includes: Salad, rolls and butter, dinner entree, dessert and beverage. Choose from Grilled Chicken, Salmon, Pork Chop or Sirloin Beef Tips (selected at the restaurant). This is a plated dinner - not buffet. Program will be: Presenters include K9DX on a "Circle 8" rx array and K3NA on the fantastic VP6DX DXpedition. The cost is 29 USDs each (in advance and includes complete dinner, taxes and gratuity). It is the same price as the last three years. Reservations can be made via E-mail, snail mail and pay cost in advance to: George Taft, W8UVZ, 271 Parkshore Drive, Battle Creek, MI 49014 (E-mail: w8uvz@arrl.net or w8uvz@voyager.net) Reserve now and pay dinner charge by May 1st. Foreign visitors may pay at the door but need to reserve in advance. Restaurant is spaced limited so reserve ASAP. They will confirm by email or airmail. They are looking forward to another great gathering of Top-Band enthusiasts.

DXCC NEWS...........

Bill Moore, NC1L, ARRL DXCC Manager, reports that the 3Y0E DXpedition to Bouvet Island from December 2007-February 2008 has been approved for DXCC credit. "If you had cards rejected for this operation, please send an E-mail to the ARRL DXCC Desk (dxcc@arrl.org) to have your DXCC record updated," Moore said.

KOSOVO AND ADDING NEW COUNTRIES TO DXCC - Bill Moore, NC1L, ARRL DXCC Manager, reports (on February 19th): "Naturally there are many questions about the DXCC status of Kosovo, and whether or not it will be added to the DXCC list.

The DXCC rules, which were modified in 2000 to better handle inclusion to DXCC, are clear on how additions can be made:

For inclusion in the DXCC List, conditions as set out below must be met. Listing is not contingent upon whether operation has occurred or will occur, but only upon the qualifications of the Entity.

Political Entities, Geographical Entities, Special Areas

#1, Political Entities is the category with which we are concerned with respect to Kosovo.

1. Political Entities: Political Entities are those areas which are separated by reason of government or political division. They generally contain an indigenous population which is not predominantly composed of military or scientific personnel.

   An Entity will be added to the DXCC List as a Political Entity if it meets one or more of the following criteria:

   a) The entity is a UN Member State.
   b) The entity has been assigned a callsign prefix bloc by the ITU. (The exceptions to this rule are international organizations, such as the UN and ICAO. These Entities are classified under Special Areas, 3.a); and Ineligible Areas, 4.b).) A provisional prefix bloc assignment may be made by the Secretary General of ITU. Should such provisional assignments not be ratified later by the full ITU, the Entity will be removed from the DXCC List.
   c) The Entity contains a permanent population, is administered by a local government, and is located at least 800 km from its parent. To satisfy the 'permanent population' and 'administered by a local government' criteria of this sub-section, an Entity must be listed on either (a) the U.S. Department of State's list of 'Dependencies and Areas of Special Sovereignty' as having a local 'Administrative Center,' or (b) the United Nations list of 'Non-Self-Governing Territories.'

New Entities satisfying one or more of the conditions above will be added to the DXCC List by administrative action as of their 'Event Date.'

So, Kosovo will be added to the DXCC list if it becomes a member of the UN, or (2), if it receives a prefix bloc from the ITU. The third condition does not apply. The date upon which either (a) or (b) occurs will be the event date." Bill Moore spells it out even more in this week's "ARRL Letter": "The 'Event Date' will be either the date Kosovo became a UN member or it receives its prefix from the ITU. Contacts made before the 'Event Date' will be counted as Serbia."

FR, REUNION (AF-016). Look for Jean-Pierre, F5HIJ, to be active as FR/F5HIJ from Bernica, near Saint-Paul, between March 3-31st. He will use a FT-897 and 2x20m dipole. It is suggested to look for him during his evenings between 1800-2000z.

H4, SOLOMON ISLANDS. Bernhard, DL2GAC, will be active as H44MS from Honiara, on Guadalcanal Island (OC-047, it will also count for WLOTA LH-0086) between March 5th and April 27th. As usual, look for Bernhard to confirm all QSL cards via the bureau or direct after his return home.

H7, NICARAGUA. Roberto, IV3IYH, will be active as H7/IV3IYH from February 28th to March 11th. He is going there to participate in the ARRL DX Phone

Contest (March 1-2nd) as HT2N. Outside of the contest, activity will be mostly CW with emphasis on 30/17/12 meters and low bands. QSL both callsigns via IK2ILH, either by the bureau or direct. E-mail requests for bureau cards or LoTW confirmations are welcome at: ik2ilh@libero.it

IOTA NEWS.......................

OC-164. Operator John, VK6HZ, will be active as VK6ARI from Rottnest Island (WLOTA LH-2197), March 27 to April-3rd. This will be a holiday style operation using an IC-7000 on SSB, PSK and RTTY, possibly CW. Antenna will be a Buddipole. Activity will be around the usual IOTA frequencies. He will also be active during the CQWW WPX SSB Contest (March 29-30th). Look for him to be active on the 17/12 meters bands before and after the contest. Online logs will be available during his operation at:

http://www.vk6hz.com

Logs will also be uploaded to LoTW. QSL is via VK6NE.

IR9, ITALY. Operators Marcello/IT9ABY, John/IT9DQM, Sal/IT9HUV and Joe/IT9RBW will be active as IR9Y from Sicily during the following contests as a Multi-Single entries: ARRL DX SSB Contest (March 1-2nd), CQ WPX SSB Contest (March 29-30th), CQ WPX CW Contest (May 24-25th), RSGB IOTA Contest (July 26-27th), CQ WW DX SSB Contest(October 25-26th) and CQ WW DX CW Contest (November 29-30th).   Halland - SH1658DK (QSL via SK6JX); (laen N)
            SH1658OZ (QSL via SK6KY); (laen N)
```

All stations are valid for the Swedish/Danish award: "Roskilde 1658

Award". Only two contacts with the special callsigns are needed for the award on February 26th (UTC), and four special callsigns are required the rest of the year. Rules and information can be found (in English) at: http://www.sk7bq.com/roskilde

T4, CUBA. Members of the T49C crew will use the callsign T40C as their call for the ARRL International DX SSB Contest (March 1-2nd) as a Multi-Op-Single entry from CO2II's QTH. Operators mentioned are: George/CO2II, Oscar/CO2OJ, Bob/CM2KL, Osmany/CM2OY and Winty/CO2WF. QSL via N1KI.

T6, AFGHANISTAN (6/2m EME). Ross, ex-VK1UN/VK8UN, 4W6UN and EX1UN, is now active as T61AA from Faizabad for possibly 2 years. Reports indicate that he has been on 20 meters SSB (PLEASE SEND QSNs). It has also been reported by Mike, K6MYC, that Ross is expected to be active soon on 6/2 meters EME from Afghanistan (MM57). He is using an IC-7000 into a Tokyo Hi-Power HL-1.5KFx Amp for HF/6m and also a new Acom for HF/6m. Ross is currently using a 2x8 element antenna on 2 meters but plans to increase the size as weather premits. His operations are good for DXCC. QSL via T61AA: Ross Ballantyne, PO Box 99, World Trade Centre, Victoria 8005, Australia.

TF, ICELAND (EU-021). Ric, DL2VFR, plans to activate various locations of Iceland (WLOTA LH-2975) using the callsigns TF1/homecall, TF5/homecall and TF6/homecall between June 9-19th. He also plans to activate Hrisey Island (EU-168) from 1800z, June 10th to 1200z, June 12th. Activity will be on 80-10 meters, CW, SSB and RTTY. QSL via the DARC Bureau to his home callsign. More information is available at:
http://www.iota-expedition.com/ice08/ice08.html

TF, ICELAND (EU-021). Franz, DL3PS, and possibly others will be active from various sections of Iceland as TF/homecall and TF7/homecall between July 17th and August 5th. Their plan include a visit to Heimaey Island, Vestmannaeyjar [Westman Islands] (EU-071, WLOTA LH-0976), the Coastal Islands (EU-168) and the main island (EU-021, WLOTA LH-2975). QSL via their home callsign(s), by the bureau is preferred. A Web site for this activity has been set up and can be found at:
http://www.iceland-dxpedition.de

TI50, COSTA RICA (Special Event). Look for twelve members of the South-eastern DX Club (SEDXC) to activate TI50DX (Tango India Five Zero Delta Xray) during the upcoming ARRL DX Phone Contest (March 1-2nd). This activity is part of the celebration of the SEDXC's 50th anniversary. QSL via N4NX. Also, look for the SEDXC operators to use their individual callsigns prior to the contest. Visit the SEDXC Web site at:
http://69.89.25.185/~trexsoft/t-rexsoftware.com/chazcone/sedxc/

TK7, CORSICA (EU-014). Members of the F6KOP Provins ARS will be active as TK7C between May 3-10th. Operators mentioned are Thierry/F4TTR, Bruno/F5AGB, Bernard/F9IE, Jean Paul/F8BJI and Jean-Luc/F6BIV. Activity will be on 80-10 meters, CW, SSB and the Digital modes. QSL via Bernard, F9IE.

- If direct (SAE + postage, - 1 valid IRC or 1 USD for the European Community (EEC) or 1 IRC or 2 USDs elsewhere -). Bernard's address is "OK" in all of the major callbooks and QSL Managers data bases.

- If bureau, via the French Ref-Union Bureau (please only this bureau).

ADDED NOTE: The crew is looking for a 6th operator, who if possible, can operate CW/SSB/DIGITAL. If interested, get in touch with Thierry/F4TTR, CBA, QRZ, Buck, French callbook, by snail mail or f4ttr@cegetel.net, or with Franck, F4AJQ at: f4ajq@wanadoo.fr

TM5, FRANCE (Special Event). Friends and members of the "French Amateur Radio Society for the Disabled Hams" (AFRAH) will be active on the air using the special callsign TM5H until March 2nd. Activity will be on the HF bands, CW and SSB. The group was active over the past weekend during the French SSB Championship. QSL via F4ABC, direct using the QRZ.com address (sae + postage) or by the French U.R.C. QSL Bureau: B.P. 40148, 42012 St Etienne cedex 2, FRANCE.

TX5C, CLIPPERTON ATOLL DXPEDITION UPDATE. From a press release (dated February 19th): Jay Slough, K4ZLE, reports: "On behalf of the Clipperton 2008 team: The Clipperton 2008 team is proud to announce that Outfitter Satellite (http://www.SatelliteGPS.com) has become a major sponsor of the TX5C DXpedition to Clipperton Atoll. 'Outfitter Satellite will provide the high bandwidth needed for the DXpedition to upload its logs on a frequent basis as well as enable a wide range of high bandwidth content. This support will enable our French team to make video conference calls with two schools in France that are following the DXpedition to Clipperton that would not be possible without this sponsorship. We are also planning a webcam that will stream live images during the DXpedition, frequent uploads of new images from the island, as well as being able to watch the clusters and receive email so that we can be as responsive as we can to the needs of the DX community,' says Steve Hammer, K6SGH, Web Master and team member of TX5C. 'Outfitter Satellite has been very responsive to our needs and we deeply appreciate their support of TX5C and the ham community.' TX5C's Web site is available at: http://www.clipperton2008.org

Outfitter Satellite rents and sells Iridium, Inmarsat BGAN, and Thuraya satellite phone equipment. Iridium rentals are available for as little as 6 USDs/day to the ham community. 'We are thrilled to be able to contribute to the success of TX5C and be a part of a new generation of DXpeditions that can utilize satellite based Internet systems to enrich the DX experience of hams worldwide,' noted Jim McKinley of Outfitter Satellite. Outfitter Satellite can be reached on the web at

http://www.satellitegps.com

and toll free at 866-898-5312.

The TX5C team will meet in San Diego early the week of Feb. 23rd, and may depart aboard the fishing vessel Shogun as early as Wednesday evening, Feb. 26th. Conditions permitting, expect them to be QRV, March 7-17th, 2008. Thanks to Outfitter Satellite, you will be able to monitor the web site mentioned above for up-to-date information on their progress. C U N D Pileups!"

Updated from their Web page (corrected by Editor): "The TX5C Dxpedition will operate as FO5A/mm from the Shogun while on route to Clipperton Atoll. The expected departure date is February 28th, but it is also possible the team will be able to leave a day earlier on the 27th. Part of the French team is already in San Diego with other members coming in from points around the U.S. and Canada. The team expects to be together on the 26th."

UU5, UKRAINE. Operators Rustam/UU2JQ and Eugene/UU5DX will be active as UU5A during the ARRL DX SSB Contest (March 1-2nd) as a Multi-Single entry. QSL via K2PF.

V2, ANTINGUA. Operators Charles/K1XX (V26X) and Martin/W1MD (V26F) will be active from here. Activity will include the ARRL DX SSB Contest (March 1-2nd) as a Multi-Single entry. QSL V26X via K1XX and V26F via W1MD.

V3, BELIZE. Mike, DF8AN, will be active as V31MN between February 23rd and March 9th. He plans to activate two different islands: Caye Caulker (NA-073) during his first week and Ambergris Caye (NA-073) during the second week. Mike will operate mainly on CW using only 100 watts into a longwire. QSL via DF8AN.

VC2, CANADA (Special Event). Members of the Club Radio Amateur de Quebec, Inc., (CRAQ) will activate special event station VC2VQ between April 1-30th. Activity is to celebrate the 400th anniversary of Quebec City. For more details, visit the CRAQ Web page at: http://www.craq.qc.ca

VISALIA IDXC IOTA DINNER CORRECTION. Jim Zimmerman, N6KZ, IOTA Dinner Coordinator, informs OPDX that there is a correction to the IOTA Dinner announcement: The cost per person is 28 USDs, not 25 USDs as stated in the announcement. Jim states, "My apologies to the OH/PA DX Bulletin folks (I used last year's dinner announcement and missed that detail)."

VK4, AUSTRALIA. John/K8UP and Marsha/N8FE will be visiting their new granddaughter and son James/VK4TJF and family. They received their licenses before the Aussie government announced that you could operate with just the VK4 prefix and your home license. Listen for John to sign VK4AIJ and Marsha to sign VK4AII. This will be holiday style operation from March 3-13th, on 20/15/10 meters SSB. Logs will be uploaded to LoTW, but they are avid card collectors and will answer 100%. QSL via N8FE; use info on QRZ.com.

VP5/VQ5, TURKS AND CAICOS ISLANDS. Operators Bill/KX4WW, Vic/W4VIC, Noll/W9RN and Bruce/W4OV will be active as VP5/homecall between March 24th and April 1st. The group will be active in the CQ WPX SSB Contest (March 29-30th) using the special callsign VQ59W. QSL VQ59W via KX4WW, LoTW or direct ONLY (NO BUREAU QSLs). Bill, KX4WW, states, "Please QSL direct with SASE or ONE USD. International IRCs are difficult to process here locally, so please send U.S. Dollar ONLY." QSL all others as follows:
VP5/KX4WW - LoTW or Direct Only with 1 USD or SASE - NO eQSL
VP5/W4VIC - LoTW, Direct, or Bureau - NO eQSL
VP5/W9RN - Direct or Bureau
VP5/W4OV - Direct, Bureau, LoTW - NO eQSL
More info can be found at: http://vadxcg.com/VQ59W.htm

VP6, DUCIE ISLAND (Update). The VP6DX operation is very active and will continue until they leave on February 28th. As this was being written, the VP6DX Web site was reporting just under 139,000 QSOs. Online logs are now available at: http://ducie2008.dl1mgb.com/onlinelog/index.php
For more details on donating funds and updates, visit the VP6DX Web page at: http://www.vp6dx.com

VP8, FALKLAND ISLANDS (SA-002). Just a reminder to look for Ulli, DL2AH, to be active as VP8/DL2AH from Pebble Island between February 26th and March 13th. Activity will be holiday style on 40-10 meters, mainly SSB with some RTTY, using a FT-897 and Windom antenna. QSL via DL2AH, direct (QRZ.com) or by the bureau.

WEB PAGE OF THE WEEK (ARRL Field Day Web Page). The League announced on February 23rd the official 2008 ARRL Field Day Web page is now up and running. The page includes a summary of available resources, with links to Field Day forms and rules, logos and reference links. There is also a link for ordering commemorative Field Day T-shirts, pins and other supplies. ARRL Sales and Marketing Manager Bob Inderbitzen, NQ1R, said supplies will begin shipping in early March, but it's not too early to place a pre-order now. Radio clubs are encouraged to order early. Visit the ARRL Field Day Web Page at: http://www.arrl.org/FieldDay

YU8, KOSOVA (Update on Project Goodwill Kosova). Member of Project Goodwill Kosova (YU8/OH2R) have gone QRT as of Thursday, February 21st, after making 11,000 QSOs. Operators were Nigel/G3TXF, Wayne/N7NG, Martti/OH2BH, Pertti/OH2PM, Juha/OH8NC and Bernie/W3UR. The operators were issued a licences by the UNMIK (the United Nations Mission In Kosovo) "in an effort to support and help revitalize Amateur Radio locally" as reported last week. QSL all YU8/homecall via their home callsigns and YU8/OH2R via OH2BN. You may have noticed that the spelling for KOSOVO is now Kosova. Reports indicate that this is the way the new nation will spell its name. Nigel, G3TXF, has posted some photos of the recent YU8/OH2R operation on his Web page at:
http://www.g3txf.com/dxtrip/YU8-G3TXF/YU8-Kosovo.html

FJ - ST BARTHELEMY, NA-146

Craig Maxey,AH8DX, is going to activate this recently added DXCC entity during the upcoming ARRL DX SSB Contest on Mar 1/2. He will be QRV as FJ/AH8DX also in RTTY and on the WARC bands before and after the test. QSLs via AH8DX.

Yannick,F6FYD/HH2FYD, will finish his stay on Haiti in the beginning of March. He will then go to St Barth via St Martin (FS/F6FYD on Mar 8/9) where he plans to be QRV as FJ/F6FYD from Mar 10-12 before returning to France.

FR - ILE DE LA REUNION, AF-016

Jean-Pierre,FR/F5HIJ, will be active from Bernica using his FT-897 with dipoles from Mar 3-31. The best time to work him is from 1800-2000 UTC.

HK0/SA - ISLA DE SAN ANDRES, NA-033

Six members of the "Texas DX Society" will be on the air from Mar 1-6. The OPs WF5W, W5PF, K5WAF, NM5G, W5PR and N4AL will be QRV also during the ARRL DX Contest in SSB on Mar 1/2. They will activate the island San Andres (NA-033) with two separate stations in SSB/CW/digital modes on all bands. The calls are not known yet. The QSL manager for all calls will be W5PF and the log will be uploaded to the LoTW later. The DXpedition homepage is: http://www.tdxs.net/hk0.html

J8 - ST VINCENT, NA-109

Dave,G3TBK, will be QRV again as J88DR for one week starting on Mar 1. His activity will start with his participation in the ARRL DX Contest in SSB on Mar 1/2. The rest of the week will be spent in CW/SSB/RTTY or SSTV on all bands. QSL via G3TBK, direct or via the RSGB bureau.

V4 - ST KITTS AND NEVIS, NA-104

Mike,W1USN, Bob,AA1M, and Scott,W1SSR, will stay on St. Kitts (NA-104) between Feb 28 and Mar. Listen for V44/homecalls in CW/SSB/PSK on 160-10m. QSLs via homecalls.

Nick,V4/G4FAL, will also stay on St. Kitts from Mar 3-10. He will be QRV mainly in CW on 80/40/20/15/10m. He also plans to take part in the RSGB Commonwealth Contest on Mar 8/9. QSLs via his homecall.

VP6 - DUCIE ISLAND, OC-182

This DXpedition is going to be very successful: They logged already 168.700 QSOs on Feb 25 with still four days to go. This exceeds the record of the DXpedition with most QSOs which was set up by D68C back in 2001. The operation is scheduled to last until Feb 29.

YN - NICARAGUA

Roberto,H7/IV3IYH, can be found mostly in CW on the WARC and lowbands from Feb 28 until Mar 11. During the ARRL DX SSB Contest he will use the special call HT2N. QSL cards for both calls via IK2ILH.
Bureau QSLs can be requested also via e-mail to: ik2ilh@libero.it

4S7 - SRI LANKA, AS-003

Nelson,4S7NE, is now also active on 160m. Listen for him on 1.822 MHz around 0045 UTC. When is 160m closed he usually makes QSY to 3.505 MHz.

5Z4 - KENYA

Sigi,DL7DF, is spending his holidays with hsi XYL Sabine in Kenya. He will sign 5Z4HW in CW/SSB/RTTY/SSTV on 160-10m from Feb 27 till Mar 11. His equipment consists of an IC-735, homebrew amplifier, R7 antenna and a 18m long vertical for 80/160m. QSLs via DL7DF, direct or via bureau.
See also: http://www.DL7DF.com

CZECH REPUBLIC, SPECIAL EVENT STATION

Vladimir Remek was the first Czech astronaut in March 1978 and also the first one not originating from the Soviet Union or the USA. The special event call OL30SPACE will be activated 30 years later from Mar 1-30.
QSL via OK1TIR, also via bureau.

DXCC: For the time being the Kosovo is not becoming a new DXCC entity though several countries have already acknowledged its independence. The DXCC Desk writes that the Kosovo is not a member of the UN nor has an own prefix block been allocated to it by the ITU yet. So the counter still stands at 338 DXCC entities.

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

Detailed information about current VHF activities can be found on the VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

---

The QSL cards of SU8BHI have been printed now and the frontside can be downloaded already from this website: http://www.qsl.net/ha3jb
The mailing of the QSLs starts already in this month.

Shack for hire in Brunei

Ambran,V85SS, announced that his newly built DX station ("Tungku Lodge")
can be rented by DXpeditions, for contests and by travelling HAMs. The lodge
consists of a bungalow, which is situated next to his house, 10 minutes
from the airport. The shack is equipped with a Mosley TA-53-M on top of
12m tower, verticals for 80-10m and a dipole for 160m. For your personal
needs there are three beds, a small kitchen and a shower. More information
can be found on his homepage: http://www.tungkulodge.blogspot.com
If needed Ambran can also help obtaining the guest licences.

Got this from Ohio/Penn DX Bulletin :

PJ4, NETHERLANDS ANTILLES. Operators Hal/N4GG, Mayse/W4OC, Mark/N5OT and Mike/W9RE will be active as PJ4/homecall from Bonaire between February 12-19th. Their activity will include the ARRL CW DX Contest (February 16-17th) as a Multi-2 entry signing PJ4M. Look for operations before and after the contest. QSL PJ4M via N4GG and all other callsigns via their home callsigns.

Quite possible you maybe ended up with an extra "dah" in the call sign during the heat of the contest.

3's to ya,

Homer

They were definitely signing PJ4O in the contest. At least, *someone* was
signing PJ4O - and they made enough contacts that they pretty much had to
be these guys...

I might educated-guess that this does mean N4GG is the right route for PJ4O.

I might also educated-guess there was some kind of misunderstanding either at the PJ4 licensing authority or among these ops (or both) as to what call would be assigned.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2J/MJ, JERSEY (Date Change). Operators Kevan/2E0WMG (2J0WMG) and Mark/M0MJH (MJ0MJH) will be active from Jersey (EU-013) between April 20-26th (not March 20-26th). They also hope to activate Les Minquiers Reef (EU-099) during their trip. QSL via their home callsigns (addresses on QRZ.com).

9M0, SPRATLY ISLANDS (Update). Operator Ed/N1UR and his xyl Christine/KB1PQN (her first DXpedition) are still expected to be active from Layang-Layang Island Resort, Spratly Islands (AS-051) between 0800z, March 22nd and 0000z, March 30th. The duo have already received their 9M6/N1UR and 9M6/KB1PQN licenses. Once they get permission from the Navy, they will apply for a special 9M0 callsign. Activity will be on 160-10 meters, CW and SSB. There will be a station on 160m or 80m CW from 1030-1300z and 2100-2300z daily. At other times in darkness, they will be on various bands at different times. Sunset on Spratly is 1040z and Sunrise is 2240z by the middle of that week. Since omnidirectional verticals on the beach will be used, please be sure to check long path and short path for the strongest signals. The operators will be moving bands frequently to take advantage of any shorter band openings. They will only be using 100 watts. QSL via K2RET: Bob Tomkovich, Jr., 405 Hemlock Dr., Lanoka Harbor, NJ 08734 USA. More information, as well as a "needs and wants" mode/band survey can be found at: http://www.n1urspratly.com/

BY4, CHINA. Pascal, F5JSD, is working in China this week and hopes to visit the Shanghai BY4AA ARC. He reportedly has received a Chinese license and hopes to be active for one or two hours on March 3rd, between 0600-0900z from this ARC using the callsign F5JSD/BY4AA. Activity will probably be on 20 meters CW. Watch for DX clusters spots.

CS9/CT3/CT9, MADEIRA ISLANDS. Operator Helmut, DF7ZS, will be active as CS9L (or CT9L) during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/High-Power entry. He is also planning to be active before and after the contest if time permits as CT3/DF7ZS. QSL via DJ6QT (Bureau).

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:

3C7Y - Equatorial Guinea; 2007 Operation

EA9, CEUTA AND MELILLA. Jorge, EA9LZ, will be active as EA9LZ or possibly EE9Z during the CQ WW WPX SSB Contest (March 29-30th) as Single-Op/All-Band entry. QSL via EA9LZ (QRZ.com).

FM, MARTINIQUE. Rene, F5LGE, is now active FM/F5LGE until March 30th. Activity is 160 and 80 meters only and on CW. Operations seem to take place between 2330-0730z. QSL via F5LGE, by the Bureau or direct to:
Courgibet Rene, 13 Ruelle Crepion, 51240 ST Germain la Ville, FRANCE.

HI, DOMINICAN REPUBLIC. Operators Edwin/HI3K, Tino/HI3CCP and Dani/EA4ATI, who were active in this past weekend's ARRL DX Contest as HI3C, will also be active in the upcoming CQ WPX SSB Contest (March 29-30th) from Lomas del Toro in Santiago (Lomadeltoro Contest Team's HI3CCP station):

http://www.lomadeltoro.com

HK0, SAN ANDRES ISLAND (NA-033). Six members of the Texas DX Society were active during this past weekend's ARRL International DX Phone Contest (March 1-2nd) as 5J0E. The group will continue to be active until March 6th, signing as HK0/homecall on SSB, CW and the Digital modes. Operators are: Cal/WF5W, Paul/W5PF, Keith/NM5G, Bill/K5WAF, Chuck/W5PR, and Jim/N4AL. The QSL Manager for all callsigns during this operation is W5PF. More details can be found on the TDXS's Web page at:

http://www.tdxs.net/hk0.html

IOTA NEWS......................

AS-113. Jenchieh, BU2AI, will once again be active as BU2AI/9 from Matsu Island between now and March 20th. He will operate as a mobile station during this period. Activity will only be during his spare time, mainly from 1000-2300Z. He will try to focus on low band, CW and SSB. More information can be found on: http://bu2ai.tripod.com/BU2AI-9-Matsu-2008.htm
QSL via his home callsign, direct or by the bureau.

EU-128. Operators Axel/DH8AK, Sebastian/DO6ELW, Dirk/DK4DJ and Henning/DK9LB will be active as homecall/p from Fehmarn Island (O-01 for the German Islands Award) from March 14-21st. They will also activate two lighthouses: Marienleuchte - Old Tower (ARLHS FED-151) and Marienleuchte - New Tower (ARLHS FED-016, WLOTA

LH-0637). Activity will be on 80-10 meters, SSB, PSK31 and 2m SSB. QSL via their home callsigns, direct or by the bureau.

NA-035. (Update) Operators Ray/WQ7R/HR9, Lane/KC4CD/HR2, Antonio/HR2DX, Daniel/HR2DMR, Ramon/HR7REA, Javier/HR2J, Pedro/HR2PAC, Vinicio/HR2MD, Oscar/HR9OGS, Boyd/HR9BFS, Tom/W4JKC, Bill/NZ5N, Jim/W9GL, Ted/K9IMM and possibly more will activate Swan Island as HQ8R between March 15-23rd. They plan to be active on 160-10 meters with two stations on phone, one on CW and one on the Digital modes (RTTY and PSK31). They plan to have four stations with ten operators. Bill/NZ5N announced this past week that he will be active on the satellites from Swan Island (Grid EK87), using a FT-817 and an Arrow antenna. Time permitting, Bill will also try to make a few contacts before and after the expedition from the Honduran mainland, EK55, EK65 and EK75. Weather permitting, they may also try to give out EK76 from the boat on the way to and from the island. QSL via HR2RCH: Radio Club de Honduras, PO Box 273, San Pedro Sula, Cortes, HONDURAS (Information from QRZ.com). Visit their Web site at:
http://www.hondurasdx.com

NA-194/
NA-205. Operators Cezar/VE3LYC and Ken/G3OCA will activate Finger Hill Island (NA-194) and Paul Island (NA-205) in the Newfoundland Province (Labrador) North and Centre Group, respectively, between July 30th and August 4th. These island groups have only been activated once, 14 and 13 years ago, respectively. Since only 6-7% of the IOTA members have them confirmed, both groups are on the most wanted list. Callsigns will be VE3LYC/VO2 (Cezar) and VO2/G3OCA (Ken). QSL via VE3LYC, direct or by the bureau (G/GM/GW/GI stations can confirm via G3OCA).

OC-130. Maarten, PA3GZU, will be active as DU9/PA3GZU from Mindanao Island (WLOTA LH-2803, WW Loc. PJ27UH) between April 12th and May 12th. Activity will be mainly 20 meters (SSB - 14260 kHz and BPSK31 14070 kHz). Operations will be limited because Maarten is on holiday. Most activity is expected during the end of April and first week of May. QSL via his home callsign, bureau is preferred.

KH9, WAKE ISLAND. Colin, WA2YUN, currently on a work assignment on Wake Island (OC-053, USI OI-012S, WLOTA LH-2293) for an extended period, will operate as time permits as WA2YUN/KH9. QSL via K2PF. He was heard this past week on 60 meters (5403.5 and 5371.5 kHz) between 1100-1200z and 20 meters usually after 0715z.

KL5, ALASKA (Special Event). Ron, AC7DX, informs OPDX that he will be the QSL Manager for Alaska DX Club's, KL5O, special event club station celebrating the 50th anniversary of Alaska's statehood. No QSNs are available yet (PLEASE send them in). Please follow QSL directions of AC7DX at QRZ.com.

ON70/ON9, BELGIUM (Special Event). The radio club OSA in Antwerpen (member of the UBA) will activate the special callsign ON70REDSTAR during the year 2008. A special QSL card will be available via ON4OSA, either by the bureau or direct (QRZ.COM). The special event station was active this past weekend on 20 meters CW (around 14032 kHz after 1345z). Activity is to celebrate the "Red Star Line", a shipping company that operated from Antwerp to North America between 1873 and 1934. During that period, over 3 million immigrants travelled with that line to the USA and Canada. A special exhibition for the "Red Star Line" is being shown in the Antwerp Shipping Museum during 2008. The Antwerp Shipping Museum is located in "Het Steen" an old castle on the banks of the river Schelde. At the end of the year the museum will move to a new location in the old harbour of Antwerp where there will be more possibilities to show the rich history of Antwerp and the River Schelde. Also to be activate on a regular basis is the callsign ON9BD from the Lightship Westhinder III, a museum ship located in the old harbour of Antwerp.

QSLS VIA LOTW: VP6DX

QSLS RECEIVED VIA MAIL: 3XD2Z, AP2TN, E4/OM2DX, ET3JA, HI3T, HI3TEJ, J69DS and YI9X

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SU0, EGYPT (Possible 80m!). Mustapha, DL1BDF, will be active from the Egyptian Amateur Radio Assembly ARC (EARA) station, SU0ARA, in Cairo, between March 11-19th. Activity will be on all HF bands. For the first time there "could" be some activity on the 80 meters (permission is pending). Usually in Egypt this band is reserved for the military authorities. QSL via SU1KM.

T8 & V6, PALAU AND MICRONESIA. Members of the Yamato Club (JA1ZEK) will be active from Yap Island (OC-012) between April 9-16th. Look for the following operators to sign: Sasi/JA1KJW (V63JQ), Mat/JA1JQY (V63JY) and Kuni/JA8VE (V63VE). The group will then move to Palau (OC-009) and be active from April 16-19th as T88KJ (JA1KJW), T88VE (JA8VE) and T88JY (JA1JQY). Activity will be on the HF bands, CW, SSB and RTTY. QSL V63VE and T88VE via JF1OCQ. QSL all others to their home callsign, direct or by the bureau.

TC18, TURKEY (Special Event). Members of the Turkish group called SWAT (Special Wireless Activity Team) will be active as TC18M between March 15-19th. Activity is to commemorate the 93rd anniversary of the "Naval Victory in th Gelibolu Wars (World War I). Operations will take place from the University of Canakkale grounds and on the Asiatic side of Dardanelles, overlooking the Straits where the Naval War took place. Look for activity to mainly be on the 17, 20 and 40 meter bands using SSB and CW. Operators will be TA3FB, TA2IJ, TA2RX, TA1FR and TA1HZ. For more detailed information, visit: http://tcswat.tripod.com/ Weather and antenna space permitting, possible 2m and 70cm activity towards SV and LZ stations will also be tried.

TF, ICELAND. A Russian team of operators will be active as TF/RK3MWL and homecall/TF from here between March 11-18th. Operators mentioned are Alex/RA3MR, Artem/RD3MA, Dmitry/RA3MF, Helen/RV3ACA (YL), Valery/RZ6AU and Serge/UA1ANA. The group will be active with an emphasis on the low band and 30/17/12 meters using all modes. Also, look for them to be active in the Russian DX Contest (RDXC - March 16-17th) as TF4Y. Visit the RDXC Web page at: http://www.rdxc.org/asp/pages/news.asp QSL via RV3ACA.

TK, CORSICA (EU-014). Members of the Radio Club Pazin (9A7P) will be active as TK/homecall between March 13-17th. Operators mentioned are Dragan/9A2SX, Igor/9A3AXX, Hrle/9A6XX and Marko/9A8MM. Activity will be on 80-10 meters and include an entry in the Russian DX Contest (March 15-16th) as TK/9A8MM. The group will be operating from Sisco valley in the north part of the island just outside Bastia. The equipment that they will be using is a TS-440S + FT-857D, SB-220, 2 laptops, Spiderbeam (20/15/10m) and an Inverted Vee for 80/40m. Other Corsica reference numbers are: DIFM TK-001, MIA MCO-001 and WLOTA LH-1390. All QSL cards will be sent via the bureau (per their other previous two operations). You don't have to send your QSL cards to them. For more info, visit: http://www.rkp.hr/active/index.php?option=content&task=view&id=473&Itemid=90

TX5C, CLIPPERTON ATOLL DXPEDITION UPDATE. The TX5C team is now heading toward Clipperton aboard the "Shogun" and has been active on the air as

FO5A/mm. The team set sail from San Diego during their evening, February 27th, a day ahead of schedule. If everything goes as planned and weather permitting, the team should be active from the island March 7th for ten days. Here are the following suggested frequencies:

CW - 1827, 3507, 7007, 10107, 14027, 18078, 21027, 24897, 28027, 50107
SSB - 1847, 3797, 7057, 14197/14227*, 18147, 21295, 24947, 28497, 50127
RTTY - 3577, 7037, 10127, 14077, 18107, 21077, 24927, 28077
* 14227 for U.S. Generals

Their goal is to make over 100,000 QSOs, and they will pay special attention to working some of the more difficult areas like Europe and the Middle East. Pilots stations for this operation are Dave/K4SV (k4sv@yahoo.com), Jean-Michel/F6AJA (f6aja@escaut.net) and Chris/DL5NAM (force12@web.de). QSL via N7CQQ, by the bureau or direct to: John Kennon, P.O. Box 31553, Laughlin, Nevada 89028, USA. The log will also be uploaded to LoTW once the official log has been certified. For more information, online log and updates, visit the TX5C Web page at:

http://www.clipperton2008.org

V2, ANTIGUA (NA-100). Chris, M0AJT, will be active as V26CC between now and March 14th. He plans to be active in the Commonwealth Contest or BERU (March 8-9th) from the Cable & Wireless site located at Boggy Peak on top of the highest hill on the island. Outside of contest, Chris will be active from the hotel, mainly on CW with some SSB. He will be using a FT-900AT w/100 watts into Butternut multi-band vertical.

VP2M, MONTSERRAT. Nobby, G0VJG, has announced that after his Antigua (NA-100) operation as V25V from the V26B super station at Gunthroppes (between March 28-30th) for the CQ WW WPX SSB Contest (March 29-30th), look for him to be active as VP2MAD from Montserrat (NA-103) between April 1-3rd. Activity will be on the HF bands and 6 meters SSB only. QSL only direct to his QSL Manager G4DFI.

V4, ST. KITTS (NA-104). Nick, G4FAL, will be active possibly as V4/G4FAL between March 3-10th. Activity will be on 80/40/20/15/10 meters mainly on CW. Also, look for him to be an entry in the RSGB Commonwealth Contest (March 8-9th). QSL via his home callsign.

VP6DX NOW QRT. After breaking several QSO records (including the most QSOs by a DXpedition), the VP6DX operation from Ducie Island went QRT at 1359z, February 27th. The team made a total of 183686 QSOs (CW - 87294, SSB - 86140 and RTTY - 10252). The complete breakdown (by band and mode), as well as the log and updates on their trip home, is available on their Web page at: http://www.vp6dx.com

ADDED NOTE: On February 21st, the Ducie Island expedition submitted data for over seven thousand VP6DX contacts to the ARRL robot. These contacts were with over 900 stations whose owners made financial contributions of at least five U.S. dollars to the expedition through February 24th.

W4, UNITED STATES (USI Op and Special Event). Operators Bill/KE4KQQ, Chris/KI4RVH and Brad/AG4MB will be active as W4U from Ocean Isle Beach (USI NC-011S, Not IOTA, Brunswick County, North Carolina), between March 3-7th. Activity is to celebrate the "Public Kite Lifted Antenna Demonstration In honor of Gorge Pocock" and will be on the air around or near 28390, 14245, 7250, and 3900 kHz on SSB. The trio may try 60 meters, so watch on 5371.5 and 5403.5 kHz in the evening. QSL via KI4RVH, direct or by the bureau or eQSL. For direct QSLs in the U.S. please include a SASE.

WEB PAGES OF THE WEEK......

Check out the new search engine for ham radio ops. It is 100% ham related. Ron, KA2BZS, states, "Google is great! 'CQoogle.com' is a 'Search Engine' design specifically for the Radio Hams. Our engineers have designed a sophisticated set of rules and algorithms to ensure only Ham Radio results are found. We hope you enjoy using our 'Search Engine' as much as we enjoyed building it."

DXCLUSTER INFO. Jim, AD1C, has been maintaining a Web site with a wealth of information on DXcluster nodes at: http://www.dxcluster.info He has been trying to update it at least monthly. If you find any information missing or incorrect, please let him know at:
jjreisert@alum.mit.edu

URL ADDRESS CHANGE. Jean Michel, F6AJA, Editor of the French DX bulletin (LNDX), informs that "Les Nouvelles DX" has changed their URL address. If you have referenced your site to their Web page, please make a change.
Previous address http://LesNouvellesdx.free.fr
New address http://LesNouvellesdx.fr

YN, NICARAGUA. Members of 4M5DX Group (Alex/YV5SSB, Jose/YV5TX and possibly others) will be active as YN2YV from Granada between March 17-21st. Their goal is to have at least 2 stations on the air on different bands during all of the operation. They want to be active on 160-6 meters, as well as 60/30/17/12 meters and the lower bands. Modes mentioned are: SSB/RTTY/BPSK31/BPSK63 and possibly CW. QSL via IT9DAA. They plan to upload their log to the LoTW. The YN2YV Web page is available at: http://www.yn2yv.4m5dx.info/
ADDED NOTE: They are looking for more operators.

FO/C - CLIPPERTON, NA-011

Definitely TX5C will be the most sought after callsign from Mar 7-17. The experienced operators Bob,N6OX, John,N7CQQ, Dave,K4SV, Bill,N2WB, Arnie,N6HC, Paul,W8AEF, YL Ann,WA1S, Steve,K6SGH, Al,K3VN, Gerard,F2JD, Jean-Pierre,F5AHO, Joel,F5PAC, Neil,VA7DX, Alan,F6BFH (with his YL Danielle), Jim,F5JY, YL Maryse,F8FDN, Michel,FM5CD, Laurent,F6FVY, Wayne,K8LEE, and Jay,K4ZLE, promised to make many QSOs and band points. The demand is expected to be huge because Clipperton Island (NA-011) is ranking 24th on the "Most Wanted" list. This is the reason for the enormous efforts undertaken inlcuding almost 30 antennas like yagis for 40-6m, verticals for 80m/160m and a balloon antenna for 160m.
On the DXpedititons website http://www.clipperton2008.org you will find not only an online log but also a webcam with live pictures. The sails were hoisted on Feb 28 around 0300 UTC and they are already active on the bands signing FO5A/mm during their journey there.
Pilot stations will be K4SV, F6AJA and DL5NAM. The targets of the DXpedition are high: They want to log more than 100.000 QSOs! This is the frequency plan of TX5C (in MHz):

	CW	SSB	RTTY
160m	1.827	1.847	---
80m	3.507	3.797	3.577
40m	7.007	7.057	7.037
30m	10.107	---	10.127
20m	14.027	14.197	14.077
17m	18.078	18.147	18.107
15m	21.027	21.297	21.077

12m	24.897	24.947	24.927
10m	28.027	28.497	28.077
6m	50.107	50.127	---

The QSL manager is N7CQQ. His address: John P Kennon, PO Box 31553, Laughlin, NV 89028, USA. John is known to confirm via bureau very reliably and also via LoTW.

KH9 - WAKE ISLAND, OC-053

In its last issue the "QRZ DX" writes that Colin,WA2YUN, is momentarily staying on Wake Island (OC-053) and plans to stay there for a while. He has already been spotted on the bands (14240 kHz around 0030 UTC, especially on sundays) but not working Europe.
QSL cards for WA2YUN/KH9 are managed by K2PF (also via bureau).

SU - EGYPT

Mustapha,DL1BDF, plans to become active from SU0ARA (EARA ARC) on all bands from Mar 11-19. He also hopes to get a special permission for 80m because this band is usually not permitted for amateur radio.
QSLs via SU1KM.

TF - ICELAND, EU-021

Alex,TF/RA3MR, Artem,TF/RD3MA, Dmitry,TF/RA3MF, YL Helen,TF/RV3ACA, Valery,TF/RZ6AU, and Serge,TF/UA1ANA, will be QRV from Mar 11-18. They will also use the club callsign TF/RK3MWL from Mar 11-13 and the special call TF4Y from Mar 13-18 (including the Russian DX Contest). Activities take place on all bands with emphasis on WARC and lowbands.
All QSLs via RV3ACA.

V2 - ANTIGUA, NA-100

V26CC is the callsign of Chris,M0AJT, working mostly in CW and only little SSB from Mar 1-14. He plans to take part in the BERU Contest. Chris is using a FT-900AT with 100 watts and a Butternut multiband vertical. QSLs via his homecall.

VP6 - DUCIE ISLAND, OC-182

Due to bad weather VP6DX had to shut down earlier than scheduled on Feb 27 at 1359 UTC after logging more than 183.000 QSOs. This is not only the largest number of QSOs made during a DXpedition but several other records were broken as well.
This is the fabulous band/mode-breakdown of VP6DX:

Band	CW	SSB	RTTY	Total
160m	5.097	1.574	0	6.671
80m	9.756	8.592	0	18.348
40m	14.487	14.935	1	29.423
30m	10.576	0	3.699	14.275
20m	12.852	17.205	3.479	33.536
17m	11.813	16.603	3.073	31.489
15m	12.366	15.526	0	27.892
12m	6.046	7.215	0	13.261
10m	4.301	4.490	0	8.791
6m	0	0	0	0

Mode 87.294 86.140 10.252 183.686

ZD9 - TRISTAN DA CUNHA ISLAND, AF-029

Tom,KC0W, momentarily still active as ZD7X from St. Helena received permission for entry to Tristan da Cunha (AF-029). When he leaves St. Helena by the end of April he plans to stay on Tristan for about four to six months. However this will not be the end of his trip because he plans to spend two weeks each on the South Sandwich, South Orkney and South Georgia Islands as well.

Clarification of the German DX Foundation Rwanda DXpedition (Feb 13-20,2008)

Antonio Gonzalez, EA5RM released an announcement to the press on 16 Feb 2008 with the title "Disappointment with the operation of DJ6SI, DK2WV and DJ9ZB from Rwanda", in which he heavily criticized the operation from 13-20 Feb 2008 of the President of the GDXF, Franz Langner,DJ9ZB/9X0Z, GDXF member Baldur Drobnica,DJ6SI/9X0X, and Karl Ilg,DK2WV/9X0W.
EA5RM, the team leader of the planned March 2008 DXpedition 9X0R, accused the German DXpeditioners of pulling their DXpedition forward into February,

due to their knowledge of the timing of the planned multinational DXpedition In addition, he accused them of only being able to acquire their licenses due to the preparation he had done in advance with the responsible authorities in Rwanda. Finally, the press announcement then called for a boycott of the German DXpedition.

EA5RM points out that he was involved for 6 months in acquiring a license. Indeed, DJ6SI had already placed his first applications for a 9X license on 24 September 2002 and 28 November 2002, then an additional application on 10 December 2002, due to a change in responsibilities at a new government authority. In a letter dated 23 January 2003, more specific details were requested on the planned location and equipment. In March 2003, DJ6SI contacted the German Ambassador to Rwanda. A reply was received on 23 May 2003 that a license will be issued in the near future when the expected legal basis has been set. DJ9ZB received notice on 31 March 2006 that the RURA (Rwanda Utilities Regulatory Agency) postponed the matter on issuance of amateur radio licenses. After a lot of further correspondence in the years 2004 and 2005, a new license application, this time including DJ9ZB, was submitted to the authorities in Kigali. DJ9ZB discussed the situation on 1 October 2007 with Rwanda's Ambassador to Germany in Berlin. On 23 October 2007, the final answer was received: "Once on ground (Rwanda) you will get the license as requested". This communication came from Col. Diogene Mudenge,9X1AA, Vice-Chairman of Regulatory Board and Acting Director General of the RURA. At this point, DK2WV was included as the RTTY operator. Due to timing conflicts of the three participants, the only window of opportunity was possible in February. These details clearly prove the priority of the German DXpedition, without any advance preparation by a third party.

The GXDF maintains that the allegations are absolutely unfounded that its President did not act as a gentleman and broke the rules of the ham spirit. Over many years and a number of joint DXpeditions, DJ9ZB and DJ6SI have won high recognition by DXers across the world. It is now up to EA5RM to rethink his untenable statements.

Amateur Radio License Exam Preparation Software
Getting your Amateur Radio License has never been easier. Effective February 23, 2007 the FCC removed the Morse Code requirements for all Amateur Radio License Classes . Since that date, applicants for a Technician, General or Extra Class Amateur Radio License no longer have to demonstrate proficiency in Morse Code. You just have to pass the applicable written examination.

That's where we come in. Our amateur radio license exam preparation software serves as a training aid to help amateurs and prospective amateurs pass the Volunteer Examiner Coordinator's (VEC's) administered exam. When you can consistently pass the exams given by our exam preparation software, you will almost certainly pass an actual Volunteer Examiner Coordinator's (VEC's) administered exam.

Our amateur radio license exam preparation software uses the latest officially released Volunteer Examiner Coordinator's (VEC's) approved question pools. The program breaks the test into different sub-element. Integrated into the software are illustrations and Part 97 rules pertaining to the current question. The program tracks the progress of the tests taken. Once you have mastered each sub-element you are ready for the officially administered exam.

Wait a little while and the FCC will grant us a single block license as they did in the Seventies for CB licensees. Then you can make up your own callsign and have at it. This is how dimly we are viewed by the powers-that-be.

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR-LESTE (URE - RadioSolidaridad Press Release). The following was received last week from "URE - RadioSolidaridad":

"The Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) is proud to announce a project in East Timor to take place in June 2008. URE's Radiosolidarity Department will organize an Amateur Radio DXpedition, combined with activities to promote Amateur Radio including the donation and setting up of a complete amateur radio station at the University of Dili. It is hoped that by operating alongside students and teachers of the Electrical Engineering and other departments it will be possible to sow the seeds of future amateur radio activity of a permanent nature in East Timor.

During the last few years URE's Radiosolidarity has been involved in projects in the following countries:

1998-TJ2RSF-Cameroun [in collaboration with RSF]
1998/1999-Cuba [campaign of donation of material]
1999-HU4U-El Salvador
2000-HQ0R-Honduras
2001-TG0R-Guatemala
2003-ZA1A-Albania [an IARU project]
2004-7W0AD-Algeria
2004-T42R-Cuba
2005-TZ6DEL-Mali
2007-T42R-Cuba
2007-HQ2R-Honduras

This new project will take place in cooperation with the University of Dili, located in the capital of East Timor. We don't yet know the callsign that will be used; whether it will be a special one for the occasion, hopefully 4W6R, the callsign of the University (4W6UTL) or the callsign of one of the operators (4W6ERC).

The group that will take part in the activity is made up of the following experienced operators:

EA1QF Angel (team leader)
EA3CUU Pere
EA4DB (ex-EA4BPJ) Jose
EA4KA Eugene
EA5BWR Txema
CT1ERC Jose

QSLs will be via EA4URE.

A complete station (Kenwood TS690 + Mosley TA63M + G5RV + rotor) will be donated to and installed at the University of Dili for use of the students and teachers of the Electrical Engineering Department or anyone else who might be interested in Amateur Radio. Another station will be set up, temporarily, at the team=B4s lodgings in order to have two stations (CW and SSB) operating permanently during the 15 days of operation. Time will be spent on other modes (RTTY, etc) and special attention will be paid to operation on six meters.

The majority of this project`s funding is provided by the Alicante Provincial Government and by URE. The rest of the budget, at this time, will be down to the operators although we have already received news of some small but useful donations. We would be very grateful if individuals and organizations could consider making contributions to this project at any time, including after the operation. Please bear in mind the following two considerations.

The objective of this project is to contribute to the development of a very young country and to promote amateur radio activity by East Timor nationals.

The DXpedition part of the activity is intended to achieve 30,000 plus QSOs in spite of the limitations imposed on us. We feel able to achieve this due to the very considerable experience of our six-man team of proven DXpedition operators."

5B4 & G4, CYPRUS AND ENGLAND (Contesting from 2 QTHs!). Terry, G4MKP, will be operating as G4MKP (home QTH) during the CQ WPX SSB Contest on Saturday, March 29th, but also plans to be active from Cyprus (5B4) on Sunday for a few hours too (after 1700z).

5T, MAURITANIA. A German team of operators will be active from Nouakchott between March 15-30th. No callsign(s) were provided. They plan to be active in the CQWW WPX SSB Contest (March -29-30th) as a Multi-? entry. Operators mentioned are: DK8YY, DL2ARD, DL2JRM, DL3JJ, DL4JS, DL5SE and DL7ZZ. QSL via DH7WW, direct or by the DARC Bureau.

6V, SENEGAL. A Swedish team of operators will be active as 6V7I between April 6-12th. Operators mentioned are Ronnie/SM7DKF, Goran/SM7DLK, Mats/SM7DXQ, Christer/SM7KJH, Tore/SM7MPM and Mike/SM7TGA. The team plans to have two stations on 160-10 meters operating CW and SSB, with monoband yagis and verticals. QSL via SM7DXQ.

6Y, JAMAICA (60m Activity). Frank, K3TRM, informs OPDX that he is returning to Lucea, Jamaica (NA-097), again for vacation and will be active as K3TRM/6Y5 from March 14-23rd. Activity will be on 80-10 meters SSB, CW, and RTTY. He has also received permission from the Jamaican authorities to activate 60 meters for the first time from Jamaica. QSL via his home callsign direct (w/SASE), by the bureau or LoTW. Additional information is available on his Web site at: http://www.k3trm.com/

9A70, CROATIA (Special Event). Look for amateur radio operators of Lipik to be active using the special callsign 9A70LPC. Activity is to celebrate the return of and the 70th anniversary of Lipik stud horses. The Lippizaner

horses were taken during the war in 1991 by Serbia and were recently returned to Lipik in October 2007. For details, please see:
http://www.croatia.org/crown/articles/9303/1/66-out-of-300-Croatian-Lipizzan-horses-returned-home.html
The special event station was active this past week on 40/30 meters CW. QSL via 9A7KM, by the bureau or direct.

9M0, SPRATLY ISLANDS (Update). Operator Ed/N1UR and his xyl Christine/KB1PQN (her first DXpedition) are still expected to be active from Layang-Layang Island Resort, Spratly Islands (AS-051) between 0800z, March 22nd and 0000z, March 30th (See details in OPDX.848). Ed (now in BY-land) informed OPDX this past week that both operators now have permission from the Navy to use the callsign 9M6/N1UR. He is also looking for any donations (if possible) to help defray the significant "Extra Baggage" charges to Spratly. There are lots of coax and wire going over to the island to put up the best TX and RX antennas possible with their limited budget. Ed mentioned that he will be updating their Web site regularly as it gets closer to their arrival on Spratly. He is not sure if they will be able to post updates from Spratly itself, but they will try. QSL via K2RET: Bob Tomkovich, Jr., 405 Hemlock Dr., Lanoka Harbor, NJ 08734 USA. More information, as well as a "needs and wants" mode/band survey can be found at: http://www.n1urspratly.com/

9X, RWANDA (Update). The multi-national DXpedition team scheduled to be active as 9X0R this coming weekend between March 16-27th, has added another operator to their team. The new operator is Benard, F9IE. The 9X0R team plans to have at least 3 stations on the air on the following suggested frequencies:

```
   CW   - 1824, 3504, 7004, 10104, 14024, 18074, 21024, 24894 and 28024
   SSB  - 1845, 3795, 7065, 14195, 18145, 21295, 24945 and 28495
   RTTY - 7035, 10140, 18100, 21080, 24920 and 28080 kHz
```

QSL via EA5RM. For more info on the DXpedition, please visit their Web page at: http://www.9x0r.com

CARIBBEAN TOUR (Update). Yannick, F6FYD/HH2FYD, who is expected to be active between March 10-13th from St. Barthelemy, possibly as FJ/F6FYD or under the St. Barth ARC callsign FJ5KH, will go back to Haiti (HH) before leaving for France at the end of March (26th). Look for him to be active again active from Ile a Vache (IOTA NA-149) between March 21-23rd as HH2FYD/6. QSL via F6FYD.

FR/G, GLORIOSO ISLANDS. Jean-Michel, F6AJA, editor of Les Nouvelles DX, informed OPDX on Monday last week that after many years of effort, the permission has finally been received and an operation to Glorioso (Glorieuses) Islands will take place, probably early May (possibly between May 5-9th) for some weeks. At the moment, operators mentioned are Pascal/F5PTM, Freddy/F5IRO, Stephane/F6KIN, David/F8CRS, Yves-Michel/F5PRU and possibly 3 others. The team plans to have 3 or 4 stations on the air. They are currently looking for sponsors, and if you would like to help, please contact Didier, F5OGL. Presently, Glorioso is ranked 4th in "DX Magazine's 2007 Most Wanted Countries World-Wide" in the mixed modes (EU 7th, Asia 9th and NA 4th). There is no Web page currently available for this operation, but details from the 2005/2006 planned operation Web page (which did not take place) states:

> "The Glorioso Archipelago consists of two coral islands: Grande Glorieuse (3 km in its larger diameter) where the human installations are, and Ile du Lys (circular island, 600 metres in diameter) which is desert. The archipelago also includes two rock islets - Roches Vertes and l'Ile aux Crabes - as well as a sand bank more or less above water at high tide. At the east and northeast of Grande Glorieuse are a series of dunes reaching a maximum elevation of 12 m. The islands and rocks are surrounded by a reef and a lagoon which is drained dry at low tide. The Glorioso islands are situated 220km northwest of Diego Suarez (Madagascar).
>
> The island became French territory in 1930. Around 1912, a French came from the Comoros and planted a fine coconut palm plantation there. Exploited until 1958 by people from the Seychelles, it is currently abandoned. There are also filaos. Fauna consists exclusively of a rather large colony of terns.
>
> The meteorological service of the French colony in Madagascar installed on the island a rather primitive weather station in 1955 which was opened only during the hurricane season from October to April. Since 1960 the the station is open all year round. The importance of this station is clear. It predicts cyclones for the North Madagascar and Comoros area. It ensures safe navigation on the Madagascar-Djibouti-Madagascar and Kenya-Mauritius-Kenya air and maritime routes. (From minister for the French overseas Web site)"

ADDED NOTE: Jean-Michel, F6AJA, provides DXers with an interesting Web page that (probably) has the most complete QSL collection (28 different QSL) from Glorioso. Take a look at:
http://lesnouvellesdx.fr/galerie/galerie2.php?page=topten&pfx=FRG
He still needs some cards for his collection: FR5ES/G, FR5HG/G and FR5KH/G.

HH, HAITI. Operators Jan/K4QD and Don/AF4Z will be active as HH4/homecall from the Northwest Haiti Christian Mission (www.nwhcm.org) between March 24th and April 4th. They will operate 80-10 meters on CW, SSB and RTTY as time permits. They will also participate in the CQWW WPX SSB Contest (March 29-30th). QSL via their home callsigns. Operators prefer direct or LoTW, but the Bureau is "OK".

INDIAN OCEAN TOUR (3B8 and 3B9). The "425 DX NEWS" reports that Slavo, SP2JMB, will be active as 3B9/SP2JMB from Rodrigues Island (AF-017) between April 1-8th, and 3B8/SP2JMB from Mauritius Island (AF-049) between April 9-24th. Activity will be mostly CW.

IOTA NEWS.........................

AS-155. Operators Bill/BV8BC, Bob/BV8BQ, Jeng/BV8SE and Chan/BX8AD will be active as BV9O from Orchid Island, March 28-31st. QSL via BV8BC.

EU-008. Members of Macclesfield and District Radio Society will be active as GS4MWS/P from the Isle of Jura (IOSA NH21, SCOTIA CS28), Inner Hebrides between April 26th and May 3rd. Activity will be on or near the usual island and IOTA frequencies. The main IOTA meeting frequency is 14260 kHz. Other suggested

frequecies are:
SSB - 28560, 28460, 24950, 21260, 18128, 7055 and 3755 kHz
CW - 28040, 24920, 21040, 18098, 14040, 10115 and 3530 kHz
No specific frequency has been nominated for 7 MHz CW, but it is recommended that operations should include a frequency above 7025 kHz when the band is open to North America. Operators mentioned are: Keith/G3VKF, Ray/M1REK, Adrian/2E0DOD, Andy/G1DDU and Alan/G0JNJ. QSL via 2E0DOD, direct or by the bureau. Further info is available at: http://www.gx4mws.com

EU-008. Members of Sands Contest Group and Workington Amateur Radio Society are combining to activate the Isle of Jura, between September 22-29th. They hope to be active on all modes and bands as conditions allow. The Sands Contest Group has previously activated Mull in 2006 and the Workington Amateur Radio Society has had several activations, the last of which was Barra Island in 2007. More information as it happens can be found on the Sands Contest Group blog at:
http://m0scg.blogspot.com
The blog will have daily updates during the activation. They hope to work as many stations as possible. There should also be some SOTA activation during that week.

EU-057. Look for Frank/DL2SWW and his XYL Gabi/DF9TM to be active as DL2SWW/p from Ruegen Island (O-07 for the German Islands Award), March 14-16th. QSL via DL2SWW, direct or by the bureau.

EU-125. Klaus, DK9LO, is expected to activate Romo Island (NS-001 for the Danish Islands Award) as OZ/DK9LO between now and March 21st. Activity will be on 80-10 meters, conditions permitting. QSL via his home callsign, direct, by the bureau or eQSL.

OC-142. Bill, VK4FW, reports that there is a chance for him to be active late this week for 4 days from Fraser Island. He states, "My wife is slowly on the mend and we will visit the island to have a few days away from the hospital rat race, so I will take an antenna. I will be only barefoot so it will primarily be a CW operation when time permits. I would like to also take this oportunity to thank all those wonderful people who have sent us their kind thoughts over the last months. My wife is especially grateful to the many who sent personal emails."

OC-164. John, VK6HZ, will be active as VK6ARI from Rottnest Island during the CQWW WPX SSB Contest (March 29-30th) possibly as a Single-Op/All-Band or Single-Band(15m)/Low-Power entry. QSL via VK6NE.

J8, ST. VINCENT. Operators Babs/DL7AFS and Lot/DJ7ZG are now active as J8/DL7AFS and J8/DJ7ZG, respectively, until March 20th. Activity will be 80-6 meters, mostly on RTTY, PSK31 and SSB. QSL via DL7AFS.

MEGA DX PEDITIONS HONOR ROLL. Jari, OH2BU, has put together and maintained an interesting Excel spreadsheet over the last 12 years called - The

"Mega DX Peditions Honor Roll". This Honor Roll listing currently includes data of 114 DXpeditions that have worked 30,000 or more QSOs since 1979. This unique listing includes data on:

- A summary on the DXpedition (dates, length, QSOs, stations..etc.)
- Information on Logs, Web site, QSL routes and if it is in LoTW
- List of operators of the DXpedition
- QSO statistics per continents, modes and bands
- Also continental, band and mode records

The whole purpose of this listing is to help future DXpeditions in planning their next operation, and to understand the possibilities in making QSOs to different continents and to optimize their efforts.

The following is the currently "TOP TEN DXPEDITIONS ON THE HONOR ROLL":

Pos.	Call	DXCC Entity	Length (days)	Dates	Year	QSO total with dupes	Stns
1	VP6DX	Ducie I.	17	Feb 11-27	2008	183,686	7
2	D68C	Comoros Is.	20	Feb 8-28	2001	168,722	10
3	3B9C	Rodrigues I.	24	Mar 19-Apr 12	2004	153,113	10-12
4	3B7C	St. Brandon	15	Sep 9-24	2007	137,500	
5	4O3T	Montenegro	24	Jul 20-Aug 13	2006	120,000	
6	N8S	Swains I.	11	Apr 4-15	2007	117,205	7
7	5A7A	Libya	14	Nov 16-29	2006	112,232	7+1(6m)
8	VU7RG/VU7MY	Lakshadweep Is.	14	Jan 15-29	2007	110,201	13
9	ZL9CI	Campbell Is.	17	Jan 7-24	1999	96,004	6+(1)
10	K1B	Baker & Howland	9	Apr 28-May 7	2002	95,127	6

The above is just a very small sample of this unique listing. If you are interested in the complete Excel spreadsheet (4 MB), contact Jari, OH2BU at: jari.jussila@oh2bu.pp.fi

OJ, MARKET REEF (EU-053, ARLHS MAR-001). A Swedish team will activate the reef during the first week of June 2008. Activity will be on 160-2 meters CW/SSB/RTTY/WSJT and also the satellites. The callsign(s) and the operators (as well as QSL routes) are to be announced later.

PACIFIC TOUR. Rick, AI5P, is expected to start his month long Pacific tour this week. Between March 15th and April 16th, look for him to be active as AI5P/KH2 from Guam (OC-026) between March 15-23rd, as V73PX from Kwajalein (OC-028 - Marshall Islands) between March 24th and April 5th, and ending his trip as AI5P/KH0 from Northern Mariana Islands (OC-086) between April 7-16th. QSL all his operations via his home callsign.

FJ/OH2AM QSLS AND THE OH2BN WEB SITE. Bob, W4ETN, informs OPDX that he received a message from Martti Laine, OH2BH, concerning the OH2BN Web site being down and the QSL cards for the FJ/OH2AM operation. Martti states, "Bob, yes OH2BN Web site is down because we were concerned about some hacking into it as was the case to our QRZ.com during our recent operation from Kosovo." He also adds (about the FJ/OH2AM QSLs), "We are doing FJ cards at the rate of 200 per day and should have them all out by March.15."

J79XBI QSLS. Leif, SM5FWW, informs OPDX that J79XBI is now QRT as of March 2nd (2008) and Seth, SM0XBI, should be home by the time you read this. All QSL cards are now to be sent to his home callsign (SM0XBI or SM7XBI - same guy). Leif states that he still has some 30 cards left, so if any late QSLers are sending cards to him, he can still help out.

SP0, POLAND (Special Event). With the commencement of the new PGA Award (Polish Gminy Award) program, look for special event station SP0PGA to be active from March 15th to April 15th, 2008. Activity will be on the HF bands, CW and SSB. QSL via SP2FAP. For more information, please go to the following Web pages: http://www.qrz.com/callsign/SP0PGA

SPECIAL EVENT (Attention PFX-Hunters). The European Soccer Championship will be held in Austria and Switzerland during June 2008. Special event stations are expected to be on the air from April 26th to June 30th (2008) using special callsigns and prefixes ranging from HB2008AAA-ZZZ and OE2008AAA-ZZZ. A special limited time award is available. Please visit the following Web page for details: http://eurodiplom2008.oevsv.at/

TC3, TURKEY. Yasar, TA3D, will be active as TC3D during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via TA3D.

TK, CORICA. Anne, OH2YL, (YL) will be active as TK/OH2YL from March 16-22nd. Activity will be on the HF bands, CW and SSB. OSL via OH2YL.

TK7, CORSICA (Update). Members of the F6KOP Provins ARS, who will be active as TK7C between May 3-10th (see OPDX.847), have named Laurent, F1JKJ, as the final 6th operator of their team. The group plans on having 3 stations on the air, on 80-10 meters, with Acom 1010, Spider-beams, dipoles and verticals. Modes will be CW, SSB and the Digitals modes.QSL via Bernard, F9IE.

TX5C, CLIPPERTON ATOLL DXPEDITION UPDATE. The Clipperton team is now on the air!. Looks like activity by TX5C started around 0000z, March 9th. Reports indicate the team battled sea sickness getting there and are now fighting the heat (110 deg. F). Because of the heat, the team was approximately 24 hours behind their intended schedule during the set up. Their Web site stated, "The heat has compounded our work load and Arnie, N6HC, had his hands full dealing with sunburns and mandatory work and water breaks every 30 minutes to ensure each team member's safety." As this bulletin was being prepared, it seemed that they were on all bands except 12m and 60m. QSL via N7CQQ, by the bureau or direct to: John Kennon, P.O. Box 31553, Laughlin, Nevada 89028, USA. The log will also be uploaded to LoTW once the official log has been certified. For more information, online log and updates, visit the TX5C Web page at:
http://www.clipperton2008.org

V2, ANTIGUA (NA-100). Operators Mark/W9OP and Bob/W4OWY will again be active as V25WY and V25OP, respectively, from Gunthroppes (WLOTA LH-1118, WW Loc. FK97BC), March 11-17th. Activity will be on 160-6 meters, CW, SSB and RTTY. They plan to be very active on 50.110 MHz using an OMNI-7 at 100 watts with a 3 element yagi at 40 feet. QSL via their respective home callsigns.

VK9A, NORFOLK ISLAND. Masa, VK1ANU, plans to be active as VK9ANU between March 19th and April 2nd. Activity will be on 80-10 meters using vertical antennas for the LF, a wire for HF and only 100w. He also will be an entry in CQWW WPX SSB Contest (March 29-30th). QSL via JO2SLZ.

VP2E, ANGUILLA. Operators Franz/DL9GFB (VP2EFB) and Jan/DJ8NK (VP2ENK) will be active from Anguilla between March 26th and April 6th. Jan tells OPDX that their activity will include the CQ WW WPX SSB Contest (March 29-30th). They plan to operate on 160-10 meters, CW, SSB, RTTY and PSK. The final decision about their equipment is yet to made, but for sure they will have a quarter wave antenna for 75/80m and an Inverted L for 160m. They also plan to have 2 stations with linears. The QTH is placed in the north part of the island at "Island Harbour" overlooking the sea. QSL via their home callsigns.

VP2M, MONTSERRAT. Art, N3DXX, will be active as VP2MAH between March 26-31st. Activity will be on 160-10 meters, as well as a Single-Op entry in the CQ WW WPX SSB Contest (March 29-30th).

ZA, ALBANIA. Operators George/EC2ADN and Kepa/EA2DCF will be active as ZA/homecall between March 15-22nd. Activity will be on 40, 20 (14184)

and 10 meters and possibly 17 and 30 meters. QSL preferably via the
bureau.

filled DX Cluster last night.

Strangely enough, the easiest place to work them was 160! (and my amp doesn't work down there) Nice signal on 10 this noon.

Apparently the weather stinks, VERY hot and bad storms. Hope it improves.

Good luck to all!

DXNL 1562 - Mar 12, 2008
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE

BY - CHINA

Red,W6ALC, will stay in China for three weeks starting on Mar 17. Red has the permission to operate from the contest station B7P. He also plans to visit the new clubstation BY7OK in Foshan.

CE0Z - JUAN FERNANDEZ ISLANDS, SA-005

Primarily Ulli,DL2AH, is going to spend his holidays on Juan Fernandez but he cannot do that without amateur radio. So he plans to activate Robinson Crusoe (SA-005) mostly in RTTY and SSB on 40-10m signing CE0Z/DL2AH between Mar 18 and Apr 7. He will take a FT-897 and a windom antenna with him. QSL via bureau to DL2AH.

FJ - ST BARTHELEMY, NA-146

Naturally the youngest DXCC entity is very attractive not only to the belles and the rich but also to the DXpeditioners community. Patrick,FJ/F6CMH, will be QRV mainly in SSB on 20m/40m from Mar 13-22. QSL via F6CMH.

FR/G - GLORIOSO ISLANDS, AF-011

The French group which tries to activate Glorioso Island (AF-011) for several months has finally received the necessary landing permission. They hope to hit the airwaves already in the beginning of May. The OPs Pascal,F5PTM, Freddy,F5IRO, Stephane,F6KIN, Yves-Michel,F5PRU, and David,F8CRS, will probably be joined by three more OPs so chances are good that they might be active with three or four stations on the air. Don't forget to bookmark their site: http://glorieuses2005.free.fr

J8 - ST VINCENT, NA-109

Babs,J8/DL7AFS, and Lot,J8/DJ7ZG, are working in RTTY/PSK/SSB on 80-6m from St. Vincent (NA-109) until Mar 20. As usual QSLs are confirmed very reliably direct or via bureau by Babs,DL7AFS.
Check their website with logs and more at: http://www.qsl.net/dl7afs

TA - TURKEY

The special event station TC18M active from Mar 15-19 remembers the Battle of Gallipoli which took place 93 years ago during World War One. TA3FB, TA2IJ, TA2RX, TA1FR and TA1HZ are working in CW/SSB mostly on 17m, 20m and 40m . Their homepage is: http://tcswat.tripod.com

TK - CORSICA, EU-014

Dragan,9A2SX, Igor,9A3AXX, Hrle,9A6XX, and Marko,9A8MM, are members of the radioclub Pazin (9A7P). They plan to show up as TK/homecalls on 80-10m from EU-014 (DIFM TK-001, MIA MCO-001, WLOTA LH-1390) from Mar 13-17. They will sign TK/9A8MM during the Russian DX Contest on Mar 15/16. Their equipment consists of a TS-440S, FT-857D, SB-220 amp, a spiderbeam (20m/15m/10m) and an inverted V for 80m/40m.
QSL cards will be sent via bureau automatically.

YN - NICARAGUA

Alex,YV5SSB, Jose,YV5TX, and some more OPs will be active as YN2YV working with at least two stations in SSB/CW/RTTY on 6-160m (and 60m) from Mar 17-21. QSLs should be sent via bureau to IT9DAA or via LoTW. The homepage of this DXpedition is: http://www.yn2yv.4m5dx.info

ZA - ALBANIA

George,ZA/EC2ADN, and Kepa,ZA/EA2DCF, will be QRV on 10m, 17m, 30m, 40m and 20m (14.184 MHz) from Mar 15-22.
QSLs are preferred via bureau to their homecalls.

5T - MAURITANIA

Rich,DK8YY, Oliver,DL2ARD, Rene,DL2JRM, Ralf,DL3JJ, Ingolf,DL4JS, Dan,DL5SE, and Andy,DL7ZZ, will be QRV from Nouakchott/Mauritania from Mar 16-30. They chose a QTH near the Atlantic coast which provides enough space for the various antennas taken with them. They plan to run three stations simultaneously (two with amplifiers) including two V160- and V80 verticals to produce loud signals also on 80m/160m. Verticals are also used on 40m and yagis on 30-10m supported by two groundplanes, one for the digital modes and one for the WARC bands.
Updates and an online log can be found at: http://www.5t2008.de
QSL manager is DH7WW, via bureau or direct.
The team is still looking for some donations and sponsors.

6W - SENEGAL

Alessandro,6W/IK4ALM, will be active on 10-40m runnging 100 watts into a groundplane during his holidays from Mar 16-27.
Alessandro confirms QSLs direct or via the ARI bureau.

6Y - JAMAICA, NA-097

Frank,K3TRM/6Y5, will be QRV in SSB/CW/RTTY on 80-10m (including 60m)

from Lucea on Jamaica (NA-097) from Mar 14-23.
QSLs via his homecall K3TRM, direct, via bureau or LoTW.
See also: http://www.k3trm.com

9X - RUANDA

A multinational team of Roberto,EA2RY, Gerard,EA3EXV, Manuel,EA7AJR, Javi,EA5KM, Toni,EA5RM, Ruben,EB5ESX/EA5BZ, Javi,EC4DX, Bernard,F9IE, Massimo,I8NHJ, Fabrizio,IN3ZNR, and Dimitri,UY7CW, plans to show up as 9X0R from Mar 16-27. They want to run at least three stations in CW, SSB and RTTY on 10-160m at the same time. QSLs via Toni,EA5RM.
This is the frequency plan they announced (in MHz):

BAND	CW	SSB	RTTY
10m	28.024	28.495	28.080
12m	24.894	24.945	24.920
15m	21.024	21.295	21.080
17m	18.074	18.145	18.100
20m	14.024	14.195	14.080
30m	10.104	---	10.140
40m	7.004	7.065	7.035
80m	3.504	3.795	---
160m	1.824	1.845	---

More details about their DXpedition can be found at http://www.9x0r.com

BELGIUM, SPECIAL EVENT STATION

The radioclub OSA in Antwerpen will operate the special event station ON70REDSTAR until the end of 2008. The "Red Star Line" was a shipping company that connected Antwerpen and North America from 1873 till 1934. The QSL manager ON4OSA confirms direct or via bureau.

Clipperton Island (TX5C) has not been spotted yet. The DXpedition started already on Mar 9 around 0000 UTC. The last update from the island reports seasick team members and an extreme heat on Clipperton which makes the antenna works very difficult. We wish them good luck!

DXCC NEWS............

Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation has been approved for DXCC credit:

ZL1GO/8 - Kermadec Island; 2007 Operation

If you had this operation rejected in a recent submission, please send a note to dxcc@arrl.org to be placed on the list for update.

Andrew, G7COD, reports that his 8Q7AK (that took place between January 21st and February 2nd) is accredited for DXCC. He also states, "All direct QSL cards received have been returned and all eQSLs have been responded to. If you have not received your direct QSL card by now, that is because I have not received yours. Therefore, please re-send. I will post out bureau cards immediately as and when I receive cards through the bureau."

EL, LIBERIA. Operators Bruno/HB9BEI and Chris/HB9AUZ are expected to be active as EL8BK (CW and Digital) and EL8CB (CW). Bruno will arrive first on March 16th, followed by Chris on March 30th. Both operators will stay for a month. They will only operate during their spare time on various HF bands. Hopefully, more details will be forthcoming.

FJ, ST. BARTHELEMY (DXCC Newest Entity!). Remember Patrick, F6CMH, is expected to be active from St. Barthelemy (NA-146) as FJ/F6CMH between March 13-22nd. No QSNs have been reported as of yet (while this was being written). Activity will be mainly 40/20 meters SSB. QSL via F6CMH.

FR/G, GLORIOSO ISLANDS (Update). Didier, F5OGL, is reporting that the operation will take place between May 6th and June 6th. The team currently is: (operators and Staff in Metropolitan France)

F5OGL	DXpedition team leader and QSL Manager
F5CQ	Webmaster
F5CW	Sponsors, and technical staff
F5CWU	Computers, softwares and antennas
F5PTM	DXpedition's team chief, CW leader/operator
F5IRO	CW operator
5U5U	SSB leader/operator
TT8SS	CW/SSB operator
F5PRU	INMARSAT op.

This "Most Wanted Country" will be on the air thanks to the permission given by the Major General Dominique ROYAL, Commandant of the Transmissions Superior School of Rennes, and under the authority of the Staff Army, The Armies HQ, and the Chief of Staff Army for the South Indian Ocean Zone, and with the sponsoring Clipperton DX Club. Finalized dates and other things like callsigns will be communicated as soon as possible. Look for more info to follow. Rafik, F5CQ, is expected to update the Web page soon.

IOTA NEWS......................

AS-079. Operators Takeshi/JS6RRR and Takeshi/JI3DST will be active as homecall/JS6 from Miyako-Jima (WLOTA LH-0249) between March 18-24th. They may make side trips to Ikema-jima and Kurima-jima. QSL via bureau.

OC-022. Adhi (Bimbo) will be active as YB3MM/9 from Menjangan Island during CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via IZ8CCW, direct or by the bureau.

OC-133. Operators John/GM3OOK (9M6XRO) and Steve/9M6DXX will be active as 9M6XRO/P (on CW/RTTY) and 9M6DXX/P (on SSB) from Pulau Labuan, March 16-17th. This a prelude to possibly a longer operation in November, depending on the resort's cooperation to the operation and antennas etc. This activity will be on 80-10 meters using a FT-857 (SSB) and IC-7000 (CW) with Tokyo Hy-Power amplifier (400W). Antennas will be a Butternut HF6V, dipole for 17 meters and an inverted "L" with 42 ft. vertical section for 80 meters. No antennas for 12m or 160m. QSL 9M6XRO/P via M5AAV only (by the RSGB Bureau or direct). QSL 9M6DXX/P via M5AAV, or direct to: WDT 527, 88905 Kota Kinabalu, Sabah, Malaysia.

JD, MINAMI TORISHIMA (OC-073). Masa, JA6GXK, will once again be active as JD1BMM from March 17th to April 7th. His activity is usually limited to his spare time, but he will be on the HF bands, CW, SSB and the Digital modes. QSL via JD1BMM.

MMAA 2007 RESULTS. Ed, PY4WAS, President of the CWJF, informs OPDX that on March 17th, at 2100z, the CWJF Web site will publish the results of the 2007 Manchester Mineira All America CW Contest at:

http://www.powerline.com.br/cwjf

The CWJF group hopes amateur radio operators will participate in this year's event.

QSLS RECEIVED VIA THE BUREAU: None reported this week!

SPECIAL EVENT. To commemorate the 96th anniversary of the sinking of the Titanic, special event station W0S will be aired April 12th and 13th. Operators Dave "SAP" Beckler/WA0SAP, Rich Vogt/KB9YZE, Al Gallo/W0ERE, and Rod Kittleman/K0ADI organized this special event station along with Mary Kellogg, part owner of the World's Largest Titanic Museum in Branson, Missouri. They will be active on the HF bands, SSB/CW, packet, Dstar and 2m. QSL via operator's instructions. You can visit the museum's Web page at: http://www.titanicbranson.com

SX5, DODECANESE (EU-001). Operators Bill/SV5AZP, Panos/SV5AZK, Michalis/SV5DDP, Efstathios/SV5DKL, Stelios/SV5DZR, Giota/SV5FRB, Denis/SV5FRD, Mike/SV5KJC, Yannis/SV5KKJ and SV5KKR will be active as SX5P during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Multi entry. QSL via SV5FRD.

SX5, DODECANESE (EU-001). Members of the Radio Amateur Association of Greece will be active as SX5C from the rocky islet Strogili (GIOTA DKS 001) at the end of July. Operators mentioned are: Cliff/SV1JG, Spiros/SV1RC, George/SV1RP, Nikiforos/SV1EEX, Theodoros/SV1GRM, Sotirios/SV1HER and Daniel/SV1JCZ. The group will also activate the lighthouse on the islet named Ipsili (WLOTA L-0237 and ARLHS GRE-053) between July 25th and August 4th. More details are forthcoming, but there is talk about EME, and the team is looking for donations for their operation (like 2m power amplifiers/longer beams etc.). If you can help, please contact SV1HER.

T8 & V6, PALAU AND MICRONESIA (QSL Correction). Members of the Yamato Club (JA1ZEK) will be active from Yap Island (OC-012) between April 9-16th. Look for the following operators to sign: Sasi/JA1KJW (V63JQ), Mat/JA1JQY (V63JY) and Kuni/JA8VE (V63VE). The group will then move to Palau (OC-009) and be active from April 16-19th as T88KJ (JA1KJW), T88VE (JA8VE) and T88JY (JA1JQY). Activity will be on the HF bands, CW, SSB and RTTY. QSL T88VE via JA8VE (not JF1OCQ as first reported), and V63VE via JF1OCQ. QSL all others to their home callsign, direct or by the bureau.

TL, CENTRAL AFRICA (Op cancelled). A very disappointed Dave, W1DV, has announced that his activity as TL8DV (which was to take place in late March/early April for 8-9 weeks) has been scrubbed. Details why were not provided. He did state, "It appears as though this is a long-term postponement, not a cancellation. As (if) plans develop for our future trip(s) to TL8, I will of course let you know. Jean and I are disappointed in this turn of events, but there is nothing we can do about it. More to follow."

TO1, MARTINIQUE. Christian/FM1II and a group of operators will be active using the special callsign TO1C during the CQ WW WPX SSB Contest (March 29-30th) and 15 days afterwards. Plans for activity outside of the contest (for bands and modes) was not provided. QSL via ON4IQ.

TO5, ST. BARTHELEMY. Membrs of the RZS Amateur Radio Club (W2RZS) will be active as TO5RZ from March 25th to April 1st. Activity will be on 160-10 meters, CW, SSB and RTTY, including 30/17/12 meters. Operators mentioned are Bob/WB2NVR, Mike/WA2VQW, Bob/N2DVQ and Adam/N2DHH. QSL via W2RZS.

TX5C, CLIPPERTON ATOLL DXPEDITION UPDATE. The operation is now QRT as of early March 15th. Last report on their Web page is a total of 59875 QSOs: CW/28402, SSB/28736 and RTTY/2737. The team had to endure major tropical storms and extreme heat which took its toll on operators and equipment. QSL via N7CQQ, by the bureau or direct to: John Kennon, P.O. Box 31553, Laughlin, Nevada 89028, USA. The log will also be uploaded to LoTW once the official log has been certified. For more information, online log and updates, visit the TX5C Web page at:
http://www.clipperton2008.org

VB3, CANADA. Ron, VA3RVK, will be active using the special callsign VB3E during the period of March 28th and May 27th. He will mainly use this callsign during the CQ WW WPX SSB Contest (March 29-30th) and the CQ WW WPX CW Contest (May 24-25th). QSL via VA3RVK, by the Bureau or direct to: Ron Vander Kraats, 9 Jopling Avenue South, Islington, ON M9B 3P4, Canada.

VISALIA CONTEST DINNER. The 9th Annual Contest Dinner will be held on Friday, April 25th, at the International DX Convention in Visalia, CA (hosted by the Mother Lode DX and Contest Club). Spreaker will be Wayne Burdick, N6KR, co-founder of Elecraft and principal designer of the Elecraft K3. He will be speaking on "Contest Ergonomics and the Elecraft K3." PLEASE NOTE: They will be handling payment differently this year - you will need to sign up *and pay in advance*! For all of the details and to sign up, please visit: http://mldxcc.com/contestdinner2008.html

VP2E, ANGUILLA. Gordon, N5AU, will be active as VP2E during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Single entry. He is expected to test out some new antennas. QSL via N5AU.

WEB PAGE OF THE WEEK (A Fun Game For A Change!). OK DXers, how well do you know your DXCC entities? This Web page is not only fun and educational, but great for the kids. Go to the following link and click on "WORLD". The "Traveler IQ Challenge" URL address is:
http://www.travelpod.com/traveler-iq?9b43=3D0622

YJ, VANUATU. Operators Trent/VK4TI, Tony/VK3TZ and Laurie/VK4VCC will be active as YJ0AX from New Hebrides (OC-035) during the CQWW WPX SSB Contest (March 29-30th) as a Multi-2 entry. QSL route will be announced later.

YN, NICARAGUA. Members of 4M5DX Group (Alex/YV5SSB, Jose/YV5TX and possibly others) are expected to be active as YN2YV from Granada this week between March 17-21st. Their goal is to have at least 2 stations on the air on different bands during all of the operation. They want to be active on 160-6 meters, as well as 60/30/17/12 meters and the lower bands. Modes mentioned are: SSB/RTTY/BPSK31/BPSK63 and possibly CW. QSL via IT9DAA. They plan to upload their log to the LoTW. The YN2YV Web page is available at: http://www.yn2yv.4m5dx.info/

YO22, ROMANIA (Special Event). The past fifteen years have witnessed the emergence of new challenges in the security environment. As a result, the frequency of NATO summit meetings has increased. From the founding of NATO until 1990 - over forty years - there were ten summit meetings. The following sixteen years saw eleven more. In total, twenty-one summit meetings have taken place. Between April 2-4th, the next summit meeting will in Bucharest, Romania. To mark this event, look for special event station YO22NATO to be on the air between March 28th and April 9th. Activity will be on all bands and different modes. QSL via YO3KAA.

CT3 - MADEIRA, AF-014

Helmut,DF7ZS, will be QRV from Madeira (AF-014) between Mar 25 and Apr 1. He will use either CS9L or CT9L during the WPX Contest but will sign CT3/DF7ZS before and after the contest.

EL - LIBERIA

Bruno,HB9BEI (EL8BK), and Chris,HB9AUZ (EL8CB), will have to work in Liberia from Mar 18 until the end of April. Expect minor activities during their rare spare time, Bruno will work in telegraphy and the digital modes and Chris works CW.

FO/C - CLIPPERTON ISLAND, NA-011

Bad weather destroyed parts of the camp and their equipment and an almost unbearable heat of up to 45 degrees Celsius forced the TX5C team to strike their tents two days earlier than planned already on Mar 15. Though they experienced several difficulties they logged more than 60.000 QSOs.

GD - ISLE OF MAN, EU-116 / GJ - JERSEY, EU-013

Peter,K8PT, and Craig,K3PLV, will be guests at the contest station GD6IA (http://www.gd6ia.com) and are going to sign MD/K8PT and MD/K3PLV from Mar 19-21.
Their next stop will be the channel island Jersey (EU-013) from where they will show up as MJ/K8PT and MJ/K3PLV from Mar 22-27.
Please send your QSL cards to their homecalls.

HB0 - LIECHTENSTEIN

Michael,HB0/DG3NDN, will be QRV in SSB only on 20m/80m from Mar 23-28.

HH - HAITI, NA-096

From Mar 24 until Apr 4 Jan,HH4/K4QD, and Don,HH4/AF4Z, will stay at the "Northwest Haiti Christian Mission" (http://www.nwhcm.org) and will spend as much time on the bands as possible in CW/SSB/RTTY on 80-10m. They also plan to take part in the WPX SSB Contest.
QSL cards should be sent via homecall, direct, via QSL bureau or LoTW.

JD1 - MINAMI TORISHIMA, OC-073

Masa,JD1BMM, will be active on HF working in CW/SSB/digital modes from Minami Torishima (OC-073) for three weeks starting on Mar 17. QSLs via the JARL QSL bureau or via his address in QRZ.com.

KP2 - AMERICAN VIRGIN ISLANDS, NA-106

Harry,KP2/W6DXO is going to work "holiday style" from St. John (NA-106) mostly in SSB on 20-10m from Mar 24-28. He also plans some CW and 40m activities if he finds enough space for a 40m antenna. QSL via KF6JOQ.

VK9/L - LORD HOWE ISLAND, OC-004

Willy,ON5AX, and his XYL Magda,ON3AX, are going to hit the airwaves from Lord Howe Island (OC-004) signing VK9ALH in CW, SSB and PSK31 from Mar 23-30. QSLs via ON5AX, bureau is ok.

VK9/N - NORFOLK ISLAND, OC-005

Masa,VK1ANU/JO2SLZ, will stay on Norfolk Island (OC-005) from Mar 19 until Apr 2. He plans to become QRV as VK9ANU in SSB/CW on 80-10m with 100 watt, wire beams for the high bands and verticals for the lowbands. Masa intends to take part in the WPX Contest as well. QSLs via JO2SLZ.

VP5 - TURKS AND CAICOS ISLANDS

VP5/KX4WW, VP5/W4VIC, VP5/W9RN and VP5/W4OV will be active from Mar 21 until Apr 1. They will use the special prefix VQ59W during the upcoming WPX SSB Contest. QSLs for VQ59W should be sent to KX4WW, all other QSLs should be sent direct to the appropriate homecalls or via LoTW.
You can find more information online at: http://vadxcg.com/VQ59W.htm

YI - IRAQ

Carlos,N4THW, is going to return to Al-Falluja and should be QRV again as YI9HW on 160-10m soon. QSLs via his homecall N4THW.

ZS8 - PRINCE EDWARD AND MARION ISLANDS, AF-021

Petrus Kritzinger,ZS6GCM, who just went QRT as 3Y0E, will be the leader of the next scientific expedition to Marion Island (AF-021). He will stay there for one year starting around the end of March.

3W - VIETNAM

Jack,F6BUM, is going to activate several islands belonging to the Gulf of Tongking South Group (AS-185) between Mar 20 and Apr 2.
He will show up as 3W3M in CW and SSB on 40-10m using 100 watts and vertical antennas from following islands:

Mar 20-23	Con Co	AS-185P (new)
Mar 25-28	Phu Quoc	AS-128
Mar 29-Apr 2	Dao Con	AS-130

QSL via bureau to F6BUM. More information at: http://www.f6bum.net

9M0 - SPRATLY ISLANDS, AS-051

Any recommendations on a dentist in Algodones?

Sure would appreciate referrals.

Thanks,

Dean

No problem, OM. I'm still trying to figure out if I've got Algodones confirmed yet. ;-)

There's darned little traffic on this newsgroup--on almost all of them--these days. A bit of off-topic chat won't hurt anybody.

   Most are good... some have specialties.
Some close down during the summer so you will have
to be aware of that.
We get most of our work done there. Send me an
Email ( remove - ) and I will give you a name.

Nope, it's BC

Los Algodones, Baja California, Mexico

My dentist there is:
Dr. Jesus F. Barraza
Mariano Ma Lee #80
phone: 01152-651-777-68

Directions from the border crossing:
Just as you go past the Mexican check point, turm left and walk down
the street that runs right beside the border fence for about 3 blocks.
If you get the the canal you have just past his office.

Of all the DX-vacation sites, PJ seems to be remarkably well
represented on LOTW. I count 17 QSO's in the November and February
contests; ALL of them were confirmed in LOTW, including PJ4O. (I
contrast this with, say, some eastern european countries, like
Croatia: I worked 22 QSO's with them in the February contests and none
were confirmed via LOTW.)

Not sure why LOTW is so universally popular and used at some
locations, and seems to be so neglected at other locations.

Tim.

Shortly after I posted this request I found the QSL manager for PJ4O and
have sent my QSL card to him.  I've uploaded my contest log to LoTW, but
PJ4O hasn't matched my QSL yet.

CQ NEWS. Richard Moseson, W2VU, Editor for CQ Amateur Radio, sent out the following press release on March 21st (2008): "Kosovo Added to CQ DX Awards Country List Effective 2/17/08 -- Kosovo is being added to the list of countries and territories recognized for CQ DX awards, effective immediately, CQ DX Awards Manager Billy Williams, N4UF, announced today.

Verifications for contacts made on or after February 17, 2008 are acceptable for CQ DX Award credit. CQ DX Honor Roll members with 335 or more credits should update by May 31st for highest placement in Honor Roll listings.

The new 339 entity maximum will appear on CQ DX Honor Rolls to be prepared in early June. CQ DX Honor Roll listings prepared in early April will be based on a 338 maximum count.

All Kosovo contacts will count for field KN on applications for the CQ DX Field Award.

Kosovo's status has been the subject of some controversy in the amateur radio community as well as the world community, as the ARRL declared that special operations from there on February 17 will count as Serbia, not Kosovo, in terms of DXCC credit. The United States and many European countries immediately recognized Kosovo's independence. However, Russia and China are opposed to it and Russia has threatened to veto any U.N. action to recognize Kosovo as an independent nation.

'We are aware that the ARRL has not yet added Kosovo to the DXCC list,' explained CQ magazine Editor Rich Moseson, W2VU. 'The League says it is waiting for Kosovo to become a member state of the United Nations or be issued a callsign block by the International Telecommunications Union (ITU), a U.N. agency. However, because of geopolitical issues far beyond the realm of amateur radio, it is unlikely that the United Nations or the ITU will act on Kosovo in the near future, even though the United States and many other countries have granted it recognition.'

'Because it is CQ's policy to grant credit for contacts with 'new' entities as of the date that their status changes,' Moseson continued, 'we have decided not to wait for U.N. action, but to follow the lead of the United States and other countries that have recognized Kosovo's independence, and to grant credit for contacts made with stations in Kosovo as of its independence day, February 17, 2008.'

(NOTE: This action does not affect the country list for the CQ WW DX Contest. CQWW rules state that its country list is composed of those entities on the DXCC list and the WAE (Worked All Europe) award list. If the WAE Committee decides to add Kosovo to its list, it will automatically be added to the CQWW list.)"

CT, PORTUGAL. Operators Jose/CT1ENQ and Paulo/CT1ETE will be active as CT7X during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Single/ Lower-Power entry. QSL via CT1ENQ.

D7, SOUTH KOREA. Operators Cho/DS5TOS, Ho/6K5WOB, Si-yeul/6K5XYB, Ha/ 6K5XQE, Bae/6K5YPD, Kenny/6K5YOQ and Tai/DS2NMJ will be active as D73D during the CQ WW WPX SSB Contest (March 29-30th) from Daego City, Korea. QSL Manager is DS5TOS.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operations are approved for DXCC credit:

S05A - Western Sahara; 2007 Operation
TX5C - Clipperton Island; 2008 Operation
VP6DX - Ducie Island; 2008 Operation

E7, BOSNIA-HERZEGOVINA (News). The International Telecommunications Union (ITU) announced last year on August 8th (2007), that they replaced the callsign series prefix block of Bosnia-Herzegovina (BiH) from T9 to E7. It was announced this past week that effective 2300z, March 21st (March 22nd, 1200 AM in Bosnia-Herzegovina), Amateur Radio operators from BiH will begin using their new E7 callsigns. Boris Knezovia, T93Y (soon to be

E73TW), stated the Communications Regulatory Agency has issued only two and three letter callsigns suffixes. Applications for one letter suffixes can be applied for starting April 14th and hopefully will be issued in late May 2008.

E7, BOSNIA-HERZEGOVINA. Operator Emir/OE1EMS and a team will be active as E77DX during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-2 entry. QSL via OE1EMS (QSL also is "OK" via T98U).

EI, IRELAND (EU-115). Dieter, DK2AT, will be active as EI/DK2AT from near the capital Dublin between now and March 30th. He is on holiday but activity will be on CW and SSB using a FT-897 with 100 watts into a 10m vertical. QSL via his home callsign, direct or by the bureau.

HAM COM DX DINNER. The Lone Star DX Association is proud to announce that Eric Scace, K3NA, the co-leader from the recent record breaking VP6DX Ducie Island DXpedition will be the keynote speaker for the LSDXA's DX Dinner Banquet at HamCom 2008, June 13-14th, at the Plano Center, north of Dallas, according to LSDXA President Tim Pearson, K5AC. Dinner tickets are 36.00 USDs each and may be ordered through the Ham Com 2008 Web site at: http://www.hamcom.org (Click on the DX dinner block)
The dinner will be in the ballroom of the Holiday Inn Express at 700 Central Expressway (U.S. Highway 75)at 6:30 p.m. Additional information on Ham Com itself can also be found on the Web site. General admission is 8.00 USDs each. Other DX program speakers and programs will be announced later. In addition, the LSDXA will have its usual plethora of door prizes for both the DX dinner and the two days of DX programs at Ham Com. See the Web page: http://www.dxer.org (Click on LSDXA)
Donors already committed include: Alpha Radio Products, Array Solutions-WX0B, Buddipole, Ten-Tec, QRZ DX, and W4MPY. The list will continue to grow up until dinner and program times. Tom Anderson, WW5L, a LSDXA Vice-President and its information director, said both the DX dinner and the daily DX programs will have some new donors in 2008, in addition to those contributing in past years. 'If you miss the DX dinner or the DX programs, you lose!,' Anderson said."

HB0, LIECHTENSTEIN. Michael, DG3NDN, will be active as HB0/DG3NDN between now and March 28th. Activity will be on SSB only on 80/20 meters. QSL HB0/DG3NDN via DG3NDN.

IOTA NEWS........................

EU-029. Ben, DO1BEN, will be active as OZ/DO1BEN from Lolland Island (DIA SJ-015 for the Danish Islands Award, WW Loc. JO54QV) until March 28th. Activity will be on all HF bands. QSL via his home callsign, direct (QRZ.com) or by the bureau.

EU-120. Chris, M0DOL, will be active as M0DOL/p and GX4KPT from Lindisfarne Castle on Holy Island starting April 5th for six days. The CASHOTA reference number will be given when QSOs take place. QSL via M0DOL.

EU-171. Operators Ela/DL1TM and Tor/DJ4MG will once again be active as OZ/homecall from Ingstrup (JO47UH), Community of Lokken,

Nordjylland Island, Denmark, between March 24th and April 10th. They plan to have two stations on the air. One on SSB operating 160/80/40/20/15 meters and the other on PSK31 on 40/20 meters. Antennas will be a spiderbeam, a 160m loop and a DK9SQ loop. They will also be on 2 meters SSB with only 100 watts and an 11 element yagi at 16m above the ground level. They also plan to participate in the Nordic Activity Contest. QSL via their home callsigns, direct or by the bureau. More information can be found at:

LX, LUXEMBOURG. Operator Philippe, LX2A will be active as LX7I during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band entry. QSL via LoTW or bureau or direct. He has a new home page with a log search at: http://www.lx2a.com

M8, ENGLAND. Members of the Cray Valley RS will be active as M8C during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-? entry. QSL via G4DFI.

PACIFIC TOUR CONTINUES. Operator Willy/ON5AX and his XYL Magda/ON3AX continue to be active from the Pacific locations on their three month tour. By the time you read this, they should be active from their next stop, Lord Howe Island, as VK9ALH until March 30th. Activity will be on CW, SSB and PSK31 using an Alinco DX70 transceiver with only 100 watts into a groundplane antenna designed and made by Tony, ON4CEQ. QSL via ON5AX or ON3AX. Next stop is Australia as VK4/ON5AX between April 2-7th.

QSL INFO AND NEWS....................

Phil Whitchurch, G3SWH (AD5YS), informs OPDX that he has been appointed the QSL Manager for 5B4AIZ, 9M6LSC and C4Z. However, PLEASE NOTE that 9M6LSC is a club station and Phil is *ONLY* able to handle QSLs for the operation by Brian, G4ODV/5B4AIZ, for his activity between March 6-10th (2008). He has updated his Web site and expects to receive the logs and finalize the QSL designs over the next few weeks. His We page is at:
http://www.g3swh.org.uk

9M6LSC CORRECT QSL ROUTE. Phil Whitchurch, G3SWH (AD5YS), states, "There appears to be some confusion and incorrect QSL routing information in circulation for the operation from 9M6LSC between 6th and 12th March 2008. 9M6LSC is a club station and this operation was by Brian, G4ODV aka 5B4AIZ. QRZ.com lists the QSL route as being via JN1WTK, which is incorrect. Some sources list G4ODV and even G4OBK as the QSL route. The correct route for this operation *ONLY* is via G3SWH.
See: http://www.g3swh.org.uk/9m6lsc.html
I'll be grateful if you can amend your records accordingly.
73 for now -- Phil Whitchurch"

QSL E72AA (ex-T97M, Edin) via his QSL Manager Ralph, K2PF.

QSL MANAGER TAKEOVER. Mac, W3HC, is looking for somebody to take over the QSL MANAGER'S job for 127 stations. They must be able to pick up the blank cards (over 150 boxes) and be able to fill out DX cards. Mac states, "the last two people I talked to knew nothing about DX." If interested, please contact Mac at: w3hcw@comcast.net

R1, ANTARCTICA (Russian Expedition). A large Russian Antarctic Expedition did start last March 13th, at 0800z, leaving from Cape Town, South Africa, on board the ship "Academician Fedorov" on a route to Antarctica. Planned goals are to visit the following Antarctic bases: Station Progress, Station Mirnyj, Station Molodezhnaya and Station Novolazarevskaya. There are plans for visiting 2 more Antarctic bases including possibly Maitri Base. Leading the expedition is Valey Sushkov, RW3GW, who did replace Yuri Zaruba, UA9OBA, who is actually very busy. The team also includes Michael Botchkarev (ex-UA0XB) the head of film radio expedition. Look for the callsign R1ANT to be used. While on board the "Academician Fedorov", they will use R1ANT/MM starting March 24th. They will use a FT-897D with only 100W and the following antennas: 6BTV, 20m Delta loop and 20m Vertical. Activity will be on 40/30/20 meters on SSB, CW, RTTY and PSK. For a special card, QSL via RW3GW - the general producer and the author of the project "Antarctica". Dates and more details on operations in Antarctic will be available after April 2nd. Watch the WAP Web site under "News & Information" at: http://www.waponline.it Changes in program may be possible on the way there depending on the logistics and weather conditions.

SPDX CONTEST (75th Anniversary). Tony, SP8AJK (SP75N), wants to remind everyone that 2008 SP DX Contest (April 7-8th) is getting very close. This year it is a very special contest edition celebrating the 75th anniversary of the SP DX Contest (first organized in 1933). To celebrate the SP DX Contest, the Polish Amateur Radio Union and SP DX Club are sposnsorig a special Jubilee Award: The SP DX Contest - 75th Anniversary Award. The award is free for all licensed operators and SWLs. Please look at the award rules and visit the Web page at:
http://www.spdxcontest.info

TA0, TURKEY. Operator Urcun, TA0U, will be active during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/Single-Band (20m) entry. QSL direct to TA0U.

TO4G, GLORIOSO ISLANDS (Update). The Web site for the upcoming Glorioso Island (Glorieuses - AF-011) DXpedition is now available online at:
http://glorieuses2008.free.fr
Days are currently NOT set yet, but the operation will take place between May 6th and June 6th. Activity will be on 160-6 meters, CW, SSB and the Digital modes. Frequencies will be published later closer to operation or can be viewed at the above Web site. The team is looking for sponsors and donations for this operations (details on Web page). Glorioso is

currently ranked #4 on the "DX Magazine's Most Wanted List". The pilots stations for this DXpedition are:

Europe - Jeff/F6AOJ,
North America (east coast) - Floyd, N5FG
Australia/New Zealand - Lee, ZL2AL

They are awaiting the confirmation for Asian pilot station(s) (possibly Toshi/JA1ELY and Mike/UA0MF). The DXpedition is still looking for a pilot for North America (west coast).

TX5C, CLIPPERTON ATOLL DXPEDITION UPDATE (More). The TX5C operation went QRT at 1400z, March 15th, two days earlier than originally planned. This was due to both weather and sea conditions. The Captain of the Shogun determined that an earlier departure was required to ensure the safety of his crew and their team. Their Web page states, "We began moving equipment offshore two days prior in challenging conditions. By the time the last team members were extracted from the atoll late in the day, all but one of the zodiac spare propellers had been broken on the reef. The Shogun pulled anchor at 0130z, March 16th, and as the sunset, the team watched Clipperton Atoll slowly fade from view." Their Web page now reports a total of 71,794 QSOs in 156 hours (6.5 days) of operating: CW/34171, SSB/33843 and RTTY/3780. QSL via N7CQQ, by the bureau or direct to: John Kennon, P.O. Box 31553, Laughlin, Nevada 89028, USA. The log will also be uploaded to LoTW once the official log has been certified. For more information, online log and updates, visit the TX5C Web page at: http://www.clipperton2008.org

VK9A, NORFOLK ISLAND. Masa, VK1ANU, is now active as VK9ANU until April 2nd. Activity will be on 80-10 meters using vertical antennas for the LF, a wire for HF and only 100w. He was heard this past week on 80/40/30 meters CW. Remember, he will also be an entry in CQWW WPX SSB Contest (March 29-30th). QSL via JO2SLZ.

VP5/VQ5, TURKS AND CAICOS ISLANDS. Remember to look for operators Bill/KX4WW, Vic/W4VIC, Noll/W9RN and Bruce/W4OV to be active as VP5/homecall between March 24th and April 1st. The group will be active in the CQ WPX SSB Contest (March 29-30th) using the special callsign VQ59W. QSL VQ59W via KX4WW, LoTW or direct ONLY (NO BUREAU QSLs). Bill, KX4WW, states, "Please QSL direct with SASE or ONE USD. International IRCs are difficult to process here locally, so please send U.S. Dollar ONLY." QSL all others as follows:

VP5/KX4WW - LoTW or Direct Only with 1 USD or SASE - NO eQSL
VP5/W4VIC - LoTW, Direct, or Bureau - NO eQSL
VP5/W9RN - Direct or Bureau
VP5/W4OV - Direct, Bureau, LoTW - NO eQSL

More info can be found at: http://vadxcg.com/VQ59W.htm

VR2, HONG KONG. Tomas, LY1F (VK2CCC), will be active as VR2/VK2CCC between June 19-21st. Activity will be holiday style on CW on the HF bands. QSL route to be announced later.

XX9, MACAO. Tomas, LY1F (VK2CCC), will be active from here between May 27-29th. Callsign is to be announced later. Activity will be holiday style on CW on the HF bands. The QSL route will also be announced later.

YB0, INDONESIA. Members of the Orari Kebayoran Radio Club will activate their club station YB0ZDA during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Op/All-Band (no 160m) entry. All QSLs for YB0ZDA will be replied by direct or by the Bureau. Operators mentioned are: Fan/YB0AI, Anna/YE0ANA, Rani/YC0UI, Kar/YB0NDT, Pri/YB0ECT and Gus/YB0MJY.

ZS8, MARION ISLANDS. Rhynhardt, ZS6DXB, reports (edited): "Following the fairy tale of 3Y0E Bouvet Island, Petrus Kritzinger, ZS6GCM, sets out to yet another unique amateur radio venture that many DX'ers around the world can only dream about. Petrus will be QRV from Marion Island #6 on the 'DX Magazine 2007 Most Wanted List' as ZS8T. He is expected to be QRV by May 2008 depending on his work load. Building on the success of the 3Y0E Bouvet Island operation, Petrus wanted to take his amateur radio activity to the next level. Having more time to effectively plan the operation from Marion Island as ZS8T, work began to set a team together that could rise above the high standards that were set during the 3Y0E Bouvet Island operation.

The ZS8T team consists of the following people:

Rhy ZS6DXB	- Press Officer/Logistical Support
Don N1DG	- Finance/Logistical Support
Tom N4XP	- Finance Support
Emil LZ3HI	- QSL Manager
Christian DL6KAC	- Website construction
Col MM0NDX	- Website construction
Stan SQ8X	- Website design, graphics & multimedia, media & PR advisory

One of the first tasks was to start work on a website that could take DXpedition Web sites to a new standard. Chris/DL6KAC, Col/MM0NDX and Stan/SQ8X really stood up to the challenge and created an interactive website that will change the future of DXpedition Web sites. The team has built in a unique news cluster into the site that you can subscribe to that will enable you to receive all the latest news from the team behind ZS8T direct. Please register to the Web site on the following link: http://zs8t.net/newsletter/

The second challenge was to obtain better radio gear that was used during 3Y0E. The ZS8T team is proud to announce the following principal sponsors to the ZS8T operation; these principal sponsors were strategic in getting the hardware needed for ZS8T. Without these sponsors ZS8T would never off made it out of the harbor...

- ICOM America donated an IC7000
- Spiderbeam donated a 5 band HD Spiderbeam yagi
- NCDXF donated funds to obtain an Ameritron AL80 Amplifier, with a SteppIR Vertical.
- Tigertronics donated a Signalink USB digital interface
- Mr. Emil LZ3HI at Gold Print Services donated all QSL cards and QSL management services
- INDEXA, GDXF, GMDX, EUDXF, Chiltern DX Club, Clipperton DX Club, David Topp W5BXX, Mile Hi DXA, Aurum Telemedia, Funkamateur, Passau DX Club, Danish DX Group, DXXE and EUDXF made financial donations to offset costs. Donations from kind individuals during 3Y0E, we are pleased to announce some of that money helped offset the cost of radio equipment now being used on Marion Island. It also greatly

assisted with shipping costs to South Africa. In addition, Marios 5B4WN, offered his awesome online log facility that has been used with great success at VP6DX, TX5C etc. for ZS8T online log look-ups.

The team behind ZS8T would like to thank each and every organization and individual that has contributed to date in making the operation a full success.

Petrus, ZS6GCM, has also undergone extensive training and will be active on the following bands 160, 80, 40, 30, 20, 17, 12 and 10 meters. He will be active on the following modes: SSB, CW and RTTY. A detailed timetable with frequencies and modes will be made available closer to the QRV date. Petrus will also be communicating with Rhy, ZS6DXB, on a regular basis, and you can expect regular updates with photos and even the possibility of videos from the Island as the year progresses. ZS8T will be uploaded to LOTW on completion of the operation.

Without any further ado, please join us on a life changing journey to Marion Island, official website address: http://zs8t.net

Within ZS8T.net you will find an abundance of information, discussions, images/movies and enough viewing to entice you into working Petrus. The entire ZS8T Team would be delighted if you joined us in following Petrus by subscribing to the RSS-feed at: http://zs8t.net/feed/
Or our ZS8T-newsletter at: http://zs8t.net/newsletter/
73.... Rhynhardt Louw ZS6DXB"

ADDED NOTE: There is an interesting 12 minute audio interview with Petrus, ZS6GCM, about his upcoming ZS8T operation available on the Web at: http://zs8t.net/interview-with-petrus-kritzinger-zs6gcm-zs8t/

Kosovo Added to CQ DX Awards Country List

Kosovo is being added to the list of countries and territories recognized for CQ DX awards effective Feb 17th 2008. This decision resently concerns "CQ DX Awards" only, but not WPX Contest (and other contests also of CQ-Magazin) because CQWW rules state that its country list is composed of those entities on the DXCC list and the WAE (Worked All Europe) award list. If the WAE Committee decides to add Kosovo to its list, it will automatically be added to the CQWW list.

QSLs arrived direct: A92GT & HK1XX & TI9CBT (all via EA7FTR), CE1/K7CA (via NW7O), HC2SL (EA5KB), HZ1MD/p (AS-193, via PA2V), KL7HBK (NA-004 & NA-050), PZ5RA, TN6X (DJ6SI), TO5FJ (F6EXV), TR8CA (F6CBC), UK8AJ, V73NS (WD8CRT), VK9WWI (HA7RY), 3C7Y (EA5BYP), and 8P9NX via W0SA.

QSLs arrived bureau: C6APR (via K3IXD), DR50Band (DL1WH), EO80W (UT7WZ), FM/IV3IYH (IK2ILH), FR1AN (N5FTR), HP/F5PAC (NA-072), J5UCW (IK2ILH), JA1MSS (AS-007), JA6GCE (AS-077), JD1BLY (JI5RPT), KH6/N0CO, KP4ED, P29K (LZ1JZ) R3ARC/1 (EU-147, via RW3RN), RX9TX/6 (EU-185), S01R (EA5RM), SU8GFTN (AF-101, via IZ8CCW), T88CW (JH0IXE), TA/YZ1SG, TZ1T, TZ3M, VE1/F5PAC (NA-010 & NA-126), K8SCH/W1 (NA-055), H79W/YN4 (NA-228), YV5YMA, ZF2BU, 3V3B (YT1AD), 4O3ANT, 4O7WWYC, 5H1HW (AF-032, I5JHW), and 9M50MP (AS-015, via 9M2TO).

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7P, LESOTHO. Belgium operators and members of the Radio Club Secunda from South Africa are now active as 7P8FC from Katse Dam in Lesotho until April 3rd. See OPDX.845 for complete details. Activity will be on 160-10 meters, SSB, RTTY and PSK. The QSL Manager is ON4CJK. The direct address is: Jose Duyck, Molenakker 56, 8740 Egem, Belgium. Further information is available on their Web site at: http://www.7p8fc.be/index.htm
The TEAM will also be active during the CQ WPX SSB Contest.

9X, RWANDA (Update). The 9X0R operation is now QRT. The multi-national DXpedition team made just under 63k QSOs: +31k/CW, +26k/SSB and 4.9k/RTTY. The complete breakdown is available on their Web page. QSL via EA5RM. For more info on the DXpedition, please visit their Web page at:
http://www.9x0r.com

A3, Tonga. Paul, A35RK, informs OPDX that he has a nice opening to North America on 17 meters during his morning (2030-2130Z)...coast-to-coast. However, he also said, ".. the pile-up was totally unruly: calling out of turn, tuning on frequency, kibitzing, frequency cops, etc. It was no fun for me, and if that sort of bad behavior continues, I'll simply QRT. I don't need any more U.S. QSL cards."

AO8, CANARY ISLANDS. Operators Siggi/TF3CW, Jorma/OH2KI, Ville/OH2MM, Marko/OH6DO, Vilho/OH2ZZ, Manuel/EA8ZS, Pekka/EA8AH and Juan/EA8CAC will be active as AO8A during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Multi entry. QSL via EA8AH.

BP0, TAIWAN. Operators Rex/BX6AP, Marie/DS1RDJ, Sang/DS4NMJ and JP6VTI will be active as BP0W from Tanian during the CQ WW WPX SSB Contest (March 29-30th). QSL Manager is BX6AP.

BP0, TAIWAN. Members of the Amateur Radio Taipei (ART) will be active from BU2AQ's QTH as BP0P during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Multi entry. Operators mentioned are: Tung-Ying/BU2AQ, Eddie/BV2DD, Bruce/BV2KI, Evan/BV2KS, Lee/BV2NT, BM2AAV, BX2AAM and BX9AAA. QSL via BV2KI.

CQ NEWS..............

Richard Moseson, W2VU, Editor for CQ Amateur Radio, sent out the following press release on March 24th: "Online CQ Magazine Archive Complete; Issues from 1945-2006 Posted on HamCall.net -- CQ Communications, Inc. of Hicksville, New York, publisher of CQ Amateur Radio magazine, and Buckmaster Publishing of Mineral, Virginia, jointly announce that Buckmaster's searchable online archive of CQ magazine back issues, dating back to the magazine's first issue in January 1945, is now complete. The searchable archive may be accessed via the internet at < http://hamcall.net/cq> or via a one-click link from the CQ website at < http://www.cq-amateur-radio.com>.

All issues through early 2006 are now online, according to Buckmaster President Jack Speer, N1BIC. By agreement with CQ, issues are not posted until two years after their publication dates, as paper copies are still available from the CQ bookstore. Newer issues will be posted as the two-year 'window' expires.

Buckmaster, which produces the 'HamCall' CD and website, and has for decades filmed back issues of CQ onto microfiche for use by researchers and hobbyists alike, has applied its advanced scanning and searching technology for online posting of documents to back issues of CQ. It has taken nearly four years to get all back issues scanned and posted. Pages are available to users as either low-resolution or high-resolution JPEG image files, or as PDF files, which are more 'printer-friendly' than the JPEGs.

'One of the great benefits to this approach is Buckmaster's very powerful search engine,' which indexes every word on every page, notes CQ Publisher Dick Ross, K2MGA. 'It is far better than anything we could put onto a CD.' Ross also noted that most readers looking for back issues are seeking a specific article and don't necessarily want to spend the money for a set of CDs, 'an amount which can really add up if you want access to nearly 65 years worth of magazines.'

On the HamCall archive site, pricing is based on the length of time for which the user wants access. Searches are free, as is access to the first ten pages of each issue, assuring that the table of contents page will always be accessible. Archive subscription pricing is as follows:

* Searching and access to the first ten pages of each issue: Free

- 1-day "test drive": 5 USDs (same as the cost for ordering a reprint of a single article from CQ)
- 3 months: 20 USDs
- 6 months: 30 USDs
- 12 months: 50 USDs

Views are limited to 300 pages per day to conserve bandwidth on the busy 'HamCall' server.

CQ Communications, Inc. publishes CQ Amateur Radio, CQ RadioAmateur (Spanish CQ), CQ VHF and Popular Communications magazines, plus the CQ Library of books, videos and CDs. It is headquartered in Hicksville, New York.

Buckmaster Publishing is a leading archiving and retrieval service based in Mineral, Virginia. In the amateur radio world, it is best-known for archiving all major ham magazines onto microfiche, and as the publisher of the 'HamCall' amateur radio international callsign lookup CD and web site."

Richard Moseson, W2VU, Editor for CQ Amateur Radio, sent out the following press release on March 26th: "Update: Kosova (Kosovo) added to CQ WW DX Contest / CQ DX Marathon Lists -- The Worked All Europe (WAE) award committee of the Deutsche Amateur Radio Club (DARC) has voted to add Kosova (Kosovo) to the WAE country list. The CQ World Wide DX Contests and the CQ DX Marathon both use a combination of the DXCC and WAE lists as the basis for their country lists. Therefore, Kosova will now be considered a separate entity for both the CQ DX Marathon (effective February 17, 2008) and for the CQ WW DX Contests, beginning with the CQWW RTTY DX Contest on September 27-28, 2008.

CQ previously announced that it was accepting Kosova as a separate entity for award credit, as of February 17, 2008."

CT6, PORTUGAL. Members of the Contest Team CT6P will be active during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Single from Vila Nova de Cerveira. Operators will be: CT1DWT, CT1GGO, CT1HIX, CT2HKN, CT2IQK, EA1CBX and with special guests EA1AHO and CT2GSN. QSL by the BUREAU via CT2HKN or QSL via DIRECT to CT2HKN: Miguel Goncalves,
Rua Dr. Joel Magalhaes n�-6, 4740-272 Esposende, Portugal.

CY0, SABLE ISLAND (Update). The 6 meter DXpedition to Sable Island scheduled to take place during the summer (June 25th through July 7th) has updated their Web page at: http://www.cy0x.com
Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP will be active on CW and SSB. The fixed 6m station (in FN93) will use the callsign CY0X. They will be transmitting on 50.117 MHz. The team requests, "Please do NOT send your grid square as it consumes valuable time during an opening." They will also try and activate rare grid GN03 if there is a solid opening, using a portable station with a 5 element M2 6M5X yagi with the callsign CY0RA. The team will also plan on being on HF on 20 meters and 40 meters, CW and SSB - but the HF operation will always take lower priority over the 6 meter operation. HF antennas will be elevated monoband ground-plane

verticals for each band, and the IOTA island designator is NA-063. The special callsign CY0X commemorates the 225th anniversary of the 1783 Loyalist landing in Nova Scotia: http://www.loyalistlanding2008.org
QSL via VE3IKV (please include two green stamps).

HQ2, HONDURAS. Operator Dan, HR2DMR, will be active as HQ2W during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/High-Power entry. He will use monobander antennas. QSL via HR2DMR.

IOTA NEWS........................
  EU-120. Chris, M0DOL, had to cancel his April 5th trip to Holy Island due to ill health.

KH3, JOHNSTON ISLAND. OPDX readers have been asking about Susan, W7KFI, and her trip to KH3. Well, Susan in Kee'hi Lagoon, Honolulu, and told your editor the trip is still on, but she is currently saving money to replace an engine (as she put it....it has died a horrible death) for her boat. She states, "Just as soon as I get it replaced I am off to KH3 -- should be in about two months, I hope..... I will make the trip... it has been in the planning for over 25 years." If you would like to help out Susan (please note she is a self-funded operator living on social security and army retirement), her address while in Hawaii (until she has a running engine) is: Attn: USSV Dharma - Susan Meckley, Kee'Hi Lagoon Harbor Master, 4 Sand Island Access Road, Honolulu, Hi 96819. Her permanent address (after leaving Hawaii): Susan Meckley, P.O. Box 1210, Pahrump, NV 89041.
PLEASE NOTE: The Nevada address is a remailing service that sends her mail when she arrives at a port and requests it.
ADDED NOTES: QSLs can be sent via the Bureau, K6FAF or the Nevada Address. QRZ.com has a photo of the boat and her. Susan says, "Proves a photographer can make even a 73 year old gal look good." Track her ship, the USSV Dharma, by putting in her callsign W7KFI at the following Web page:
http://www.shiptrak.org
Susan told your editor that she has ordered a PSK31 unit to use as she visits various atolls in the South Pacific. This will allow her to operate most modes. She can do Pactor upon request. Susan states that she listens to 6 meters, but has never heard anything except local Honolulu beacon. Also, she will be giving out as many grid squares as possible during her passages.

KL5, ALASKA. Members of the Alaska DX Club will be active as KL5O during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-2/All-Band entry. Operators mentioned are Francis/KL7FH, Corliss/AL1G, Randy/KL7Z, Del/NL7RT and Allan/N5XZ (KL5DX). QSL KL5O via AC7DX. Please follow QSL Manager's instruction at AC7DX on QRZ.com only.

N5, UNITED STATES (Unusual DXpedition?). Members of the "Unusual Suspects" 2 meter group will be active as N5D during an HF DXpedition in a remote area of the Texas Hill Country, May 16-17th. Working under field conditions, their goal is to operate under harsh conditions on solar and generator power with no more than 100 watts power and perform world wide contacts. The group will be providing QSOs on 160/80/40/20/17/15/12 meters with a goal of making over 5,000 contacts world-wide during the two day period. They will be operating primary SSB but will be doing PSK on 40 and 20

meters as well during scheduled times. Visit their link with details of this DXpedition at:
http://web.mac.com/ke5kxu/iWeb/Unusual%20Suspects/DXPedition%20Intro.html

P2, PAPUA NEW GUINEA. David, P29GQ, can usually be found on the Pacific ANZA Net on 14183 kHz between 0500-0600z on the weekends. QSL via P29GQ (QRZ.com).

P3, CYPRUS. Operators Sandy/RW4WR, Dmitry/RX3DCX and Harry/RA3AUU will be active as P33W during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Single entry. QSL via RA3AUU.

QSL INFO AND NEWS.....................

QSL ROUTES by Johannes/DK8JB and Tedd/KB8NW:

4D75D	direct
4D75J	via DV1JM
4D75T	via DU1IVT

John, 9M6XRO, announced that Tim, M3SDE, has agreed to take over the duties of QSL Manager from Graham/M5AAV (SK - See Silent Key below). M3SDE will therefore be QSL Manager effective immediately for the following callsigns: 9M6XRO, 9M6XRO/P, 9M6/G3OOK, A25OOK and XU7XRO. Please QSL direct or via the RSGB bureau to M3SDE. Cards received direct with sufficient return postage will go out the same way. M3SDE'S DIRECT ADDRESS: Tim Beaumont, P.O. Box 17, Kenilworth, Warwickshire CV8 1SF, England. Please NOTE: John does not have any QSL cards at his home in East Malaysia - the only route is via M3SDE. As QSL Manager it is Tim's intention to maintain the high standard set by M5AAV. At present there are a large number of QSL cards at M5AAV's QTH which he hopes to retrieve at the appropriate time. Obviously that cannot be done immediately, and your patience is appreciated to allow M5AAV's family time to grieve for their loss.

NOT THE QSL MANAGER. Edgar, N6OU, informs OPDX that he is receiving Bureau cards for ZK1NOU and E51NOU. These cards should go to N7OU.

QSLS VIA LOTW: 4Z5LA, GI5K, LX1KC, LX5T/LX6T, PT7CB, R1FJT and V31MX

QSLS RECEIVED VIA MAIL: 5X1NH, 6W/DK8YY, 9X0W, E51WWA, FJ/OH2AM, FO/JA8BMK, FK/JA8BMK, J5C, OA4DJW, UA2FX, XU7ACY, YK9SV and ZP6/N3BNA

QSLS RECEIVED VIA THE BUREAU: No reports this week!

R1, FRANZ JOSEF LAND. R1FJT has been very active on 80/40/30/20/17 meters CW. Activity is from the Krenkel polar station which is situated on Heyss island. This operation is valid for Arctic challenge program.
http://f6kdf.ath.cx/f5nod/arcticchallenge/index.htm

S9, SAO TOME AND PRINCIPE (AF-023). Luciano, CT1HHP, is now active as S92FM until April 2nd. Activity will be mainly on digital modes. Also, look for him on 60 meters (check 5346.5 and 5403.5 kHz). He accepts skeds via E-mail at: ct1hhp@oniduo.pt

SILENT KEY. It was reported that QSL Manager Graham Ridgeway, M5AAV, became a "Silent Key" on March 25th. Graham was a very efficient QSL Manager and well respected around the world. OPDX and its readers would like to send out our deepest sympathy to Graham's family and friends.

SPDX CONTEST (Date Correction). Tony, SP8AJK (SP75N), informs OPDX that he provided the wrong dates for the 2008 SP DX Contest. Dates should be April 5-6th, not April 7-8th. For details, see OPDX.851 or visit:
http://www.spdxcontest.info

T2, TUVALU. Paul, A35RK, talked to Udo, DL9HCU, who is currently active as 3D2HC in the Fiji Islands for about another two weeks and was told Udo will be heading to Tuvalu after his Fiji stay.

T4, CUBA. Operators Mary/CO2EE, Oscar/CO2OJ, George/CO2II, Winty/CO2WF, Bob/CM2KL and Osmany/CM2OY will be active as T49C during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-2 entry. QSL only via K8SIX.

TC7, TURKEY. Operators Hudaverdi/TA7OM, Ayhan/TA7N, Mustafa/TA2MW and possibly others will be active as TC7KA during the CQ WW WPX SSB Contest (March 29-30th) as a Multi-Single entry. QSL via TA7KA.

TG0, GUATEMALA. Juan, TG9AJR, will be active as TG0WPX during the CQ WW WPX SSB Contest (March 29-30th). QSL direct via TG9AJR or LoTW.

TO6, GUADELOUPE (NA-102). Operators Micheal/F6GWV and Gildas/F6HMQ will be active as TO6T between March 28th and April 8th. QSL via F6HMQ.

V3, BELIZE. Eddie, K5WQG, a FISTS member, is now active as V31MR from Placencia until April 3rd. He plans to operate almost around the clock on CW and RTTY. There is a report that he may also be in the CQ WW WPX SSB Contest. QSL via N5ET. Look for logs to be put on LoTW.

V7, MARSHALL ISLANDS. Operators Rick/AI5P (V73PX), Randy/N5LE (V73RY) and Neil/WD8CRT (V73NS) are currently the most active hams on Kwajalein. However, Rick/V73PX is scheduled to leave April 5th, Randy/V73RY on May 5th and Neil/V73NS in 2009. Look for Rick on 80/40/20/15/10 meters CW/SSB. Randy can be found mostly on 40/20 meters SSB /RTTY. Neil is usually on CW mostly on 40/20 meters. According to Paul, A35RK, who talked to Randy recently and reported that "there are a number of licensed operators there, but not many are very interested in using the club station. In fact, Randy says that the club station (V73AS) may have to shut down due to the increase in the electric utility bill which is now over 200 USDs/month. Negotiations with military command to reduce the bill, are in progress."

W6BA EXHIBITION. Cindy Bernard, granddaughter of William "Bill" Adams, W6BA, is working on an exhibition/archive of QSL cards of her late grandfather. Bill was a dedicated DXer and held many early awards in the field, operating as 6ANN '24, U6ANN '25, NU6ANN '26, W6ANN '27-77? and W6BA 77?-99. Although some cards were lost when he became a "Silent Key" (SK) in 1999, Cindy has about 4000 international and 2000 U.S. cards dating from 1923-1997. Although she has many cards that he received, Cindy would like to also include QSLs that he sent. She is looking for QSL cards (the originals, copies or scans) sent by him to other hams. If you can help her out, please contact her at: cbernard@soundcommons.org Or via snail mail at: Cindy Bernard, P.O. Box 411453, Los Angeles, CA 90041 USA.

WARD Award 2008 (World Amateur Radio Day 2006 Award). The WARD Award is designed to commemorate the World Amateur Radio Day celebrated by IARU on April 18th each year. It is issued by the MK QTC, Polish Radio Amateur's Journal, with the support of PZK, Polish Amateur Radio Union. The WARD will be granted for at least the following numbers of contacts: either 10 QSOs on the HF bands, or either 10 QSOs on the VHF bands. All contacts must be made between 0000-2400z on April 18th. Send a standard application form (GCR List - log extract), including the list of QSOs, on or before May 31st to: The Radio Amateur's Journal MK QTC, Suchacz-Zamek - Wielmozy 5b, 82-340 Tolkmicko, Poland. The price of the WARD Award is 7 USDs, 5IRCs or 5 Euros. The full colored Award size is: 210 x 297 mm. The WARD Award is also available to SWLs for the same numbers of reports. The WARD Web page is: http://www.ward.pzk.pl
Amateur Radio Motto: A Foundation for Technical Knowledge

YK9, SYRIA. Operators are Roger/G3SXW, Nigel/G3TXF, Fred/G4BWP, Lionel/G5LP and Rob/GM3YTS will be active as YK9G in Damascus from April 9-15th. The team plans to have two stations + amplifiers on the air full-time, but CW only. They will have antennas for nine bands 160-10 meters, but most openings will be on 40-17 meters. They will transmit on frequencies ending in "3" and always listening split, up 1-2+ kHz. According to the DX Magazine Survey, YK is the 18th "Most Wanted Country" in W6-7 land, so they will maximize their brief openings. However, Damascus is partly blocked in that direction. QSL via G3TXF direct, bureau, E-mail for bureau reply and LotW. For more details, visit: http://www.yk9g.com
Queries can be sent to: g3sxw@btinternet.com or Nigel@G3TXF.com

YO DX CONTEST 2007 RESULTS. Ovidiu, YO2DFA, YO DX Contest 2007 Manager, informs OPDX readers that the results of YO DX Contest 2007 can be found at the following address: http://www.radioamator.ro/contest/us/yodxhf2007/
Each participant can check his LOG at the address:
http://www.hamradio.ro/default.asp?id=36&mnu=4
Ovidiu states, "Thank you very much for your support, and I invite all contest amateurs at the YO DX Contest, 2008 edition, in the last weekend of August."

ZS8, MARION ISLANDS. Rhynhardt, ZS6DXB, ZS8T Press Officer, announced on March 26th, that Petrus, ZS6GCM, is onboard the SA Agulhas (South Africa's polar research vessel). The vessel will be going straight to Marion Island. Depending on weather, Petrus could be on Marion in as short as five days. However, should the weather deteoriate, there is a fair chance landing on ZS8 could be delayed. If you like to follow the progress of the ship, go to: http://www.sailwx.info/shiptrack/shipposition.phtml?call=ZSAF>SA Agulhas
Moments before Petrus boarded the Agulhas, he managed to send some images from Table Bay. Prior to these pictures all radio equipment had been safely loaded with only a few items still to go onboard. These images can be viewed on the official ZS8T Web site address at: http://zs8t.net

Rhynhardt would like to remind everyone that once Petrus is on ZS8, it will take approx. three to four weeks before any radio equipment is used. This is due to a changeover time in working patterns and general settling in on the island.

A7 - Katar: Bill, NM7H (YI9WF), intends to return to Katar in early April as A7/G0MKT through middle of June. Bill prefers CW on 40 through 6 m, using SSB and PSK now and then. QSL to NM7H direct or via bureau.

E7 - Bosnia & Herzegowina: Mar 22nd, 2300 UTC change of prefix T9 to E7 was completed. ITU allocated E7A-E7Z prefixes to Bosnia & Herzegowina in August 2007.

HS - Thailand: Joerg, DL1MJF, will stay in Thailand Apr 5th through 24th.

This time he will also visit the island Koh Samui (AS-101) Apr 20th through 24th. Published call is HS0ZGQ. He will have a TS-50 and G5RV-dipole for 40 through 10 m, using CW and SSB on or near 7.022, 7.062, 14.022, 14.262, 21.022, 21.262, 28.022, 28.562 MHz and on WARC bands. QSL - via bureau also - to DL1MJF.

KH2 - Guam: Look for Kirk, WE8A/KH2, on 80 through 12m using mainly SSB and some CW Apr 4th and 5th. QSL only direct to his Japanese address: JJ5CVM, Kirk Itaya, 5-1-35, Daikaidori, Kobe, 652-0803, Japan.

TI - Costa Rica: Orrin, TI6/K9KEJ, will visit the Eastern part of Costa Rica April 4th through 11th and do QSOs out of the jungle, mostly on 20, 17 and 15 m.

XU - Cambodia: Retu, OH4MDY, will be on the air from Sihanoukville Apr 3rd through 14th using the call XU7MDY on CW, SSB and digimodes on all bands. QSL direct only to: Reijo Laitinen, Mantytie 13, 76940 Nenonpelto, Finland.

6W - Senegal: Ronnie, SM7DKF, Goran, SM7DLK, Mats, SM7DXQ, Christer, SM7KJH, Tore, SM7MPM, and Michael, SM7TGA, are announced using the call 6V7I Apr 6th through 12th while with 6W7RV and will hit the airwaves with two stations (with PAs) on 10 through 160 m using CW and SSB. They will have monobanders on 10, 15 and 20 m and a Titanex Vertical for the others. SM7DXQ is QSL manager.

9N - Nepal: Since Mar 26th Stig, LA7JO, is in Nepal again as 9N7JO and using SSB, CW, PSK31 and RTTY on 160 through 6 m until Jun 30th. QSL direct only to his address in Thailand: Stig A. C. Lindblom, Thatsana Changphimai, 147/1 - Moo 3, Tambon Boot, Ban Ta Bong, Phimai, TH-30110 Nakhon Ratchashima, Thailand.

Canada, special calls: "Club Radio Amateur de Quebec" (www.craq.qc.ca) will use special call VC2VQ in Apr 2008 because of 400 years of Quebec City. QSLs via bureau to VE2CQ. For the same occasion hams in Quebec Province may use special prefix VG2 instead of VA2 as well as VX2 instead of VE2.

France, special call: The "European Organisation for Nuclear Research" will have an open day Apr 6th. For this event radioclub F6KAR activates special call TM8LHC Apr 5th and 6th on all bands and modes. Send your QSL via REF Bureau or direct to F6KAR and look up further information at http://cern.ch/f6kar .

Special call TM0FAC will be aired Apr 3rd in a festivity of the University of Valenciennes. The activity intends to present amateur radio to its students. Look for them on 20, 40 and 80 m. QSOs will be completed by a special QSL.

Croatia, special call: "Varazdin Radioclub" (9A1HDE/9A7A) will be 9A60A (QSL via 9A7A) Mar through Dec 2008 because of its 60 years history and will be in several contests also.

Kosovo in WAE-Country-List:

Effective Feb 17th 2008 Kosovo was added to the WAE-Country-List with the prefix YU8. This means that YU8 countsfor a multiplier for CQWW Contests and for the CQ-Marathon, although not mentioned on ARRL DXCC List yet.

Silent Key:

Graham Ridgeway, M5AAV, became silent key Mar 25th. Graham was a reliable QSL manager of several DX stations. Tim, M3SDE, will continue to hold that high standard for the calls A25OOK, HS0ZHX, V8FEO, XU7DXX, XU7XRO, 9M4SEB, 9M6XRO, 9M6XRO/p, 9M6/G3OOK, and 9M8Z. Tim will confirm direct or via RSGB Bureau.

We expect ZS8T starting in May on Marion Island. View a collection of ZS8 QSL cards at http://lesnouvellesdx.fr/galerie/galerie2.php?page=topten&pfx=ZS2 .

Give a visit to www.travelpod.com/traveler-iq?9b43=3D0622 also. This page was honered webside of the week lately by OPDX Bulletin. It's a nice test on geografy not only for DXpeditioners.

UPCOMING CONTESTS

4.-6. April: YLRL DX to North American YL Contest;
5./6. April: SP DX Contest;
5./6. April: EA-WW-DX Contest.

IOTA   collected by Fredy, DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:

AS-046: 9M2, Island of Tioman: Wolfgang, 9M2/OE1WWL, will visit the island of Tioman Apr 1st through 5th and will use his QRP rig on SSB. QSL via h/c, direct or OE bureau.

EU-004, EA6, Baleares: David, EA6/M0DLL, will stay until Apr 10th using SSB on 20 through 6 m.

EU-120, G, M, English Coastal Islands: Chris/M0DOL had to cancel his trip to the Island of Holy as GX4KPT (Apr 5th through 11th) due to health problems.

NA-016, ZF2, Cayman Island: Look for Bob, K3UL, working from Grand Cayman Apr 5th through 12th on CW and SSB "holiday style". He prefers 80 and 160 m. QSL direct to K3UL.

QSL-News

NA-033: "Texas DX Society" was active Feb 28th through Mar 3rd on San Andres as 5J0E. At www.tdxs.net/hk0.html you check their online log now and find your QSOs confirmed on LoTW already.

What's the current preferred way to include payment for return postage
to the US?

Is $2 enough, usually?

How well are IRCs accepted?

Are two-dollar bills to weird to use?

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR-LESTE. Just a reminder that members of the Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) will be active as 4W6R this week between June 10-24th. Operators mentioned are: Angel/EA1QF (CW/Digital), Txema/EA5BWR (CW/SSB/Digital), Eugene/EA4KA (CW), Pere/EA3CUU (CW), Jose/CT1ERC (SSB/Digital) and Jose/EA4DB (CW/SSB/Digital). Activity will be on 160-6 meters, using CW, SSB and RTTY. They plan to have two stations on the air. Suggested frequencies are:
CW   - 1824/1832, 3508, 7008, 10118, 14018, 18078, 21018, 24898 and 28018
SSB - 1824/1845, 3785, 7065, 14185, 18135, 21295, 24945 and 28485
RTTY - 3615, 7038, 10145, 18105, 21085, 24925 and 28085
6m   - CW/50098, RTTY/50300 and SSB/50155 kHz

QSLs will be via EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid, SPAIN. For more info and updates, visit:
http://4w6r.ure.es/home.php?lang=en

7Y46, ALGERIA. A team of operators will use the special callsign 7Y46ND during the month of July from the city of Djelfa. Look for activity to be on 80-10 meters. QSL via 7X2DD: Mohamed Djaballah, P.O. Box 467, 17000 DJELFA, Algeria. A special certificate will be available for an extra fee of 5 Euros or 7 USDs, if requested besides the normal QSL card.

8N, JAPAN. The JARL will establish 10 HQ stations in various regions of Japan during the 2008 IARU HF Championship (July 12-13th). Each station may be heard on other bands than specified below outside of the Contest during the week of July 7th. All QSOs will be QSLed automatically via the Bureau. Here are the details of the 10 stations:

Call	Band & Mode	Location
8N1HQ	15m-SSB	Kimitsu City, Chiba
8N1HQ	160m-CW/10m-SSB	Minato Ku, Tokyo
8N2HQ	80m-CW	Chita Gun, Aichi
8N2HQ	80m-SSB	Nakatsugawa City, Gifu
8N2HQ	15m-CW	Susono City, Shizuoka
8N3HQ	40m-CW	Kobe City, Hyogo
8N3HQ	20m-CW	Miki City, Hyogo
8N3HQ	10m-CW	Nara City, Nara
8N4HQ	40m-SSB	Okayama City, Okayama
8N8HQ	20m-SSB	Iwamizawa City, Hokkaido

9A, CROATIA. Jan, PA4JJ, will be active as 9A/PA4JJ between June 22nd and July 12. He will be the camping at Ulika in Porec on the MAINLAND, so no IOTA. He will try to use the JT6M mode on 6 meters, but he has no beam with him only the G5RV (which tunes ok on 6) and his FT897. Grid is JN65sg. Also, there will be activity on other bands, of course.

A7/G0MKT HEADING HOME. OPDX received the following report (edited) from Bill, NM7H, on Saturday, June 7th, as he prepares to head home to Nebraska:

"Hello, I am Bill Flint, A7/G0MKT, and in the states my call is NM7H. I packed up my gear today and will be leaving Qatar soon. I was active from around late April till 6 June 08. I made about 500 contacts total while here, I picked up 8 or 9 new countries that I had not gotten on my previous trips out here. I think my country count just for this trip as about 60-70 (not sure).

Propagation was generally poor for me, during the local day CW activity was sparse much of the time. I worked from about 4pm to midnight local (1300Z-2100Z). After work 20m was seldom open for me, so I would get on 30m or 40m. Conditions were tough much of the time on 30m and 40m due to QRN.

My gear: Yaesu FT-857D and a High Sierra HX-900 (older model 40-6m screwdriver antenna). The antenna was on a mag mount on the A/C unit that sticks out of the metal building I lived in. I had two ground leads, one short lead with an alligator clip to the metal building, and one 5m lead that I let hang down to the ground.

I will be sending out QSLs in a few weeks to all QSOs that were not part of the WPX contest, the QSLs will go via the bureau. I will also respond to all QSL requests that I receive direct. For the WPX contest contacts, I will send out QSLs for the countries I need confirmed. I think my total DXCC number from Qatar is 125 and I need about 30 more countries confirmed so I can apply for DXCC from Qatar.

I sent my log to LoTW and have already started getting confirmations there. The website for eQSL does not work from here for some reason, it always times out. So when I get home I will load my log to eQSL.

This was probably my last trip to Qatar....

73, Bill (A7/G0MKT, NM7H, YI9WF, G0MKT)"

ADDED NOTE: It is suggested to visit Bill's "A7/G0MKT Web Page" which has his complete A7 story with pictures at:

BA4, CHINA. Jack, WB8FSV, informs OPDX that he will be vacationing in Qingdao, China, again this June. He is expected to be there between June 10-30th. This will be his fifth trip to China. Jack will operate as "WB8FSV/BA4IT" during his spare time. His XYL Lily is from Qingdao and they will be staying with her family. On the way home they will stop at Hong Kong to check out Hong Kong's Disneyland and to see his friend Charlie, VR2XMT. He doesn't plan to operate from Hong Kong. QSL direct or by the bureau. The BA4IT station runs 100 watts to an Inverted Vee up 80 feet, one block from the Yellow Sea. Jack states that he will be surprised to work many North Americans. He tells OPDX that he can operate from the BA4IT's station on 80-10 meters, SSB and CW. However, Jack states that he has had the most luck working 15, 20 and 40 meters from BA4IT in the past, so he will emphasize those bands. CW is his mode of choice, although Jack will venture onto SSB at times.

CROATIAN TELEGRAPHY CLUB. Chairman of the Croatian Telegraphy Club (CTC) Den, 9A3FO, invites you to become a CTC member and welcomes membership applications from telegraphy lovers from all parts of the world. He states, "If your membership application is submitted by E-mail then no fee is required and membership is gratuitous because it is the Club's principle of supporting CW which is far more important than any financial consideration."
Take a look at their Web page at: http://www.hamradio.hr/ctc
Their E-mail address is: ctc@hamradio.hr
Their mail address is: Croatian Telegraphy Club, Franjevacka 5,
42220 Novi Marof, Croatia - Europe.

CU2, AZORES. Toni, OH2UA, will be active as CU2A during the CQ World Wide DX SSB Contest (October 25-26th) and the CQ World Wide DX CW Contest (November 29-30th) as a Single-Op/All-Band Power entry. QSL via OH2BH.
Visit the CU2A Web page at: http://www.cu2a.com

D4, CAPE VERDE. Cortesi, IZ4DPV, will be active as D4C during the IARU HF Championship Contest (July 12-13th) as a Single-Op/All-Band/High-Power/SSB entry. QSL via IZ4DPV. Visit the D4C Web page at: http://www.d4c.cc

HQ5, HONDURAS (Special Event). Members of the "Radio Club de Honduras (RCH) DX Team" will activate the special callsign HQ50RCH from June 21st through July 31st, 2008. Activity is to celebrate the 50th aniversary of the Radio Club de Honduras. Visit the RCH Web page at: http://www.hr2rch.org

HS91, THAILAND (Special Event). The HS91LIONS special event station marks the 91st Lions Clubs International Convention held in Bangkok, Thailand, between June 23-27th. Lions are an international network of 1.3 million men and women in 202 countries and geographic areas who work together to answer the needs that challenge communities around the world; it was established in 1917. Since then the association of Lions clubs has provided millions of people with the opportunity to give something back

to their communities. The station is managed by officers and members of the Radio Amateur of Thailand under the royal patronage of "His Majesty the King" and is located in the convention's exhibit hall at the IMPACT Convention Center, Muang Thong Thani. QSL information is via HS1CHB:
P.O. Box 73, Bangkok, 10900, Thailand.

II7, ITALY (Special Event). Members of the ARI section Lecce will be activating II7PBS throughout the month of June. Activity is to celebrate Pope Benedict XVI visit to the city of Santa Maria di Leuca on June 14th. Look for operations to be on all HF bands SSB and PSK31. Santa Maria di Leuca is said to be the origin of the mission of St. Peter. The QSL manager is I7PXV.

IOTA NEWS.........................

AS-008. Operators Yasuko/JF1IZM, Youichi/JO1IRO and Noboru/JR1WEB will be active as homecall/1 from Mikura Island (JIIA AS-008 -005) in the JA1 North Izu Group between June 15-17th. Their activity will be on the HF bands, and they will look for E-skip openings on VHF. QSL via their home callsigns, direct or by the bureau. ADDED NOTE: Visit the JIIA Award page at:
http://www3.ocn.ne.jp/~iota/newpage61.htm

EU-008. Douglas, GM0ELP, will be active as MM3T from the Isle of Islay (IOSA NH22, SCOTIA CS25, WLOTA LH-1826), Inner Hebrides, during the IOTA Contest as a Single-Op/All-Band/Low-Power/Expedition entry for a period 12 hours. QSL via MM3T at eQSL.

EU-028. Matt, IK2SGC, will be active as IA5/IK2SGC from the Island of Elba (IIA LI-001, MIA MI-022, WLOTA LH-0609) between July 30th and August 29th. Activity will be on all bands. QSL via LoTW is preferred.

EU-030. Heinz, DL4AO, will be active as OZ/DL4AO from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203) between June 10-26th. He will operate in his early morning and late afternoon hours, mostly on 20 meters. While on Bornoholm he will also operate on 6 meters using CW and SSB. All of the QSOs will be confirmed automatically via the bureau.

EU-049. Barry, G4BUD, will be active as SV8/G4BUD/P from Samos Island (MIA MG-099, WLOTA LH-0609) between now and June 11th. Activity will be holiday-style, operating 20 meters QRP (5 watts) with a dipole, using CW, PSK31, RTTY and SSB. He will try to get on most evenings around 1600z and again at 2000z. QSL via his home callsign, direct only (QRZ.com).

EU-051. Peter, DJ2OS, will be active as IE9/DJ2OS from the Island of Ustica (IIA PA-001, MI-116, WLOTA LH-0848), June 27-30th. Activity will be on 80-10 meters. QSL via his home callsign, direct(QRZ.com) or by the bureau.

EU-055. Andy, DL7AT, will be active as LA/DL7AT from Bomlo Island between July 19th and August 3rd. Activity will be on 40-10 meters with 100 watts and a vertical GP. He will also be an entry in the RSGB IOTA Contest. QSL via his home callsign, direct or by the bureau.

EU-057. Heinz, DL4AO, will be active as DL4AO/p from Ruegen Island (O-07 for the German Islands Award) between June 10-26th. He will operate in his early morning and late afternoon hours, mostly on 20 meters. All of the QSOs will be confirmed automatically via the Bureau.

EU-109. Jon, M0OVL, will be active as M0OVL/p from Longstone (WLOTA LH-0234), July 26-27th, for the RSGB IOTA Contest. He will later be joined by Harold/G8JUZ and Charles/M0GAX operating under their own callsign. Jon will also use another callsign, 2E0OVL/p, during his non-contest operating times to give as many stations as possible a chance to work the island, but NO contest serial number will be given. In the event of bad weather on the morning of the contest, an alternative operation will take place from Lindisfarne (EU-120). QSL via his home callsign, direct or by the RSGB Bureau. More information is available at: http://www.2e0ovl.com

EU-146. Operators Jeroen/PD5CW, Will/PE1OPM and Manfred/PE1OXV will be active as PD5CW and PE1OPM/p from the Island of Schouwenduiveland and Goeree Overflakkee, July 30-31st. Activity will be SSB only on 80-10 meters. Look for them to sign PE1OPM/p during the RSGB IOTA Contest. QTH is Zonnemaire, Zeeland (WW Loc. JO11XQ). QSL all callsigns via PD5CW, direct or by the bureau. More information available at:
http://home.versatel.nl/eu-146/

EU-171. Operators Netti/DO6XX and Rene/DL2JRM will be active as OZ/homecall/p from Vendsyssel-Thy/Nordjylland (NJ-001 for the Danish Islands Award) between July 26th and August 9th. QSL via their home callsigns, bureau preferred.

NA-067. Jon, WB8YJF, will make his yearly trip to Ocracoke Island (USI NC001S, Hyde County, NC) this year earlier than most times due to a scheduling conflict. He informs OPDX that he will not be in the IOTA Contest from there this year, but will be active as WB8YJF/4 from July 6-13th. Activity will be on 40-10 meters, using CW, SSB and RTTY. Please QSL direct for a FASTer QSL; Bureau is "OK" but takes a lot longer. His address is on QRZ.com.

NA-102. JUST A REMINDER. Members of the Radio Club ACRA Guadeloupe (FG5KC) will activate the Island of Petit-Terre (Small Island Earth) for a day as FG5KC/p on June 8th. Activity will be on the 40-10 meters, CW, SSB and VHF bands. Operators mentioned (at the moment) are: FG5BC, FG5DN, FG1JD, F8BIH, FG1AR, SWL-05 (Issac) and SWL-16 (Jacques). Suggested frequencies are: Listen to the IOTA frequencies. This expedition is granted by the NFB because it is a natural reserve. Visit their Web page at:

http://acra-radioclub.site.voila.fr

KH7, ALASKA (IOTA Op). Hugh, K6HFA, will be active as K7A from the Neragon Island (NA-241, USI AK194S, WW Loc. AP71AU), Alaska, from June 12-18th. Using an IC 7000s w/Amp into a vertical dipole array, Hugh's suggested frequencies (-/+) are:

CW - 7016, 7041, 14018, 14041, 10112 and 18082 kHz
SSB - 7078 (Split per operator), 14153 an 18122 kHz

QSL via K6HFA: Hubert "Hugh" Clark, 545 West Vassar Ave., Fresno, CA 93705 USA. For direct QSL reply, please include a SASE (Self Addressed Stamped Envelope) or SAE (Self Addressed Envelope) and IRC or green stamps. If no return postage is sent, QSL will be sent via the bureau. Your donations now will make possible more rare Alaskan island activations sooner in the future.

K8CX's 2008 DAYTON HAMVENTION PHOTO GALLERY. Tom's, K8CX, 2008 Dayton Photo Gallery is now up at: http://hamgallery.com/dayton2008/
This is Tom's 12th consecutive year for the gallery, and it contains 336 photos taken at Crowne Plaza and Hara Arena.

PJ6, NETHERLANDS ANTILLES. Kenny/K2KW and his XYL Stephanie/KD8GKM will be vacationing on Saba Island from July 1-7th. Activity will be casual operations signing PJ6/K2KW with a focus on 6 meters, and activity on 40-17 meters. They will use only 100 watts into a 2 element 6m yagi, and a dipole for HF. Their QTH is 370m high, looking over the ocean just about 900m away. Kenny states, "Great water shot to North-East and Mid-West USA, EU and AF." IOTA is NA-145 and grid square is FK87. Possible operation from PJ7 on Dutch St. Maarten may take place July 8-10th. QSL via WA4WTG.

PNW DX CONVENTION. This year's Pacific Northwest DX Convention will be held between August 1-3rd, in Portland, Oregon, by the Willamette Valley DX Club. The event might be of particular interest to the contest community. Speakers will include well-known West Coast contesters. Tom, K5RC/W7RN, 2007 CQ Contest Hall of Fame inductee, will be the Saturday banquet speaker. His presentation "Building Your Dream Station Without a Divorce" will be as useful as it will be entertaining. Also, Ward, N0AX, in his presentation plans to address the hot topic in contesting from ARRL's perspective, you guessed it - skimmer. More information on the talks and other details can be found at the Willamette Valley's Web site at: http://wvdxc.org

QSLS RECEIVED VIA THE BUREAU: None reported this week...

S7, SEYCHELLES (AF-024). Peter, DH3NB, will be active as S79GB between June 14th and July 4th. Activity will be on 40-6 meters. QSL via his home callsign, by the DARC Bureau or direct.

TC1, TURKEY (Special Event). Members of the Turkish group called SWAT (Special Wireless Activity Team) will be active as TC1MR during June 6-8th from the Kirklareli area. The team will operate from the UMKE National Medical Rescue Team's camp grounds. Operators mentioned are: Leonardo/TA1FR, Tevfik/TA1HZ, Erhan/TA2DJ, Mert/TA2RA, Bekir/TA2RX, Muharrem/TA2SK and Onur/TB2MYE. Activity will be mainly on 40/20/2 meters. For more information, visit QRZ.com or the TCSWAT Web site at:
http://tcswat.tripod.com

TO4G, GLORIOSO ISLAND (Update/Correction). Floyd, N5FG, informs OPDX that the report for the postponed TO4Gxx (TBA) operation to Glorioso Islands will take place between September 20th and October 15th, is NOT CORRECT. He was told by Didier, F5OGL, the team is waiting for the completion of the anti-cyclonic shelters to be built on the island. Look for updates at: http://glorieuses2008.free.fr/

TO5, ST. BARTHELEMY. Operators Joe/AA4NN, Jay/K4ZLE, Janet/W8CAA (YL), Joe/W8GEX, Jim/K0RH and possibly others will be active as TO5DX between October 16-28th. The group plans to have three stations on the air on all HF bands, using CW and SSB. They will also be in the CQWW DX SSB Contest (October 25-26th) as a Multi-Single entry. QSL route will be announced later.

TOKYO DX BANQUET (Need Help?). Do you need help in getting to the "2008 DXers Banquet in Tokyo" that will be held on August 23rd, and in conjunction with the 2008 Ham Fair in Tokyo? Katsu, JA1DXA, has offered to help DX visitors. His E-mail address is: jh7ohf@bd6.so-net.ne.jp

VIY 2008 AWARD. The "Visit Indonesia Year 2008 and 40th Anniversary Of ORARI Award" is a short term award issued by Organisasi Radio Amatir

Indonesia (ORARI) Headquarters in commemorating the 40th anniversary of ORARI in 2008 and participating in the Indonesia government's tourism program called "Visit Indonesia Year 2008" (VIY). The aim of the tourism program is to introduce Indonesia's various kinds of culture which will be found in the award. DX stations only have to make contact with 10 Indonesian amateurs and send NO QSLs to earn the award. For more details go to the following link at: http://www.papays.com/VIY2008eng.pdf

WFF ACTIVITY WEEK. The "World Flora Fauna" (WFF) activity week will be held between July 2-8th, in corporation with the worldwide program for Nature Reserves and National Parks of International Tourist/DX Association "National Card", and International Amateur Radio Travelers Club "Russian Robinson" (RRC). The WFF Committee welcomes radio hams to take part in the Global Activity Week from their homes or the National Parks and Nature Reserves territories listed in the WFF List. The WFF is a new movement and a new area in Radio Amateur world of DXing. The WFF is a young innovative international award program which they hope will become a popular one for the worldwide community of expedition participants and "hunters" along with already well-known and popular DXCC, IOTA and WABA award programs. Look for stations during the WWF Activity Week to use special callsigns with the letters FF in their suffix giving out reference numbers. For more details on the WFF, please visit the Web page at:

http://wff.qrz.ru/wff-eng.html

Also, watch the special WFF presentation on July 1st, at:

http://www.wff44.com

The WFF Committee is looking forward to hear you on the bands operating from National Parks and Nature Reserves of the world!

XT, BURKINA FASO. Michael, F1IQH, will once again be active as XT2WC from BoboDioulasso starting June 9th, for two weeks, possibly three. Activity will be mainly 20 meters with only 100 watts and a G5RV. Skeds arrangements are available at: f1iqh@fnrasec.org
Michael is hoping 6m is allowed, if so, he will use 50 watts in a dipole. QSL via F1IQH.

YU8, KOSOVO. A couple of sources report that Jose, CT1FKN (aka 4W6FK and T98FKN) is in the Portuguese Army and has been in Kosovo with the NATO peacekeeping force "KFOR" for a while. Jose has received permission to be active as YU8/CT1FKN until September 20th. There has not been any QSNs reported, but Jose's activity will be on the HF bands only. QSL via his home callsign, direct or by the bureau.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

A7 - QATAR

Flint,A7/G0MKT (NM7H), went QRT on Jun 6 and is now on his way home to Nebraska/USA. The logs have been uploaded to the LoTW already. Photos and stories about his stay can be found on his website: http://members.cox.net/nm7h

BY - CHINA

Jack,WB8FSV, will stay with the family of his XYL in Qingdao from Jun 10-30. He hopes to hit the airwaves as WB8FSV/BA4IT running 100 w into an Inverted Vee (25m high).
Jack confirms the QSLs after his return direct or via bureau.

FH - MAYOTTE ISLAND, AF-027

Georg,DK7LX, is spending his holidays on Mayotte (AF-027,WLOTA LH 0376) from Jun 11-23. Georg signs FH/DK7LX when operating in "holiday style" with an IC-706MKIIG and HF9V multiband vertical. He prefers working in CW on 30m/40m/80m. QSLs should be sent via bureau or direct to DK7LX. His homepage looks very interesting at http://www.dk7lx.mayotte.2008.ms

JD1/OG - OGASAWARA ISLANDS, AS-031

JA1EJK, JA1JQY, JA1NND, JA1XEQ, JA1KJW, JK1EBA, JJ1JGI, JI1FPO, JR1LYL and 7N4AGB will hit the airwaves as homecall/JD1 on 160-6m from Chichi from Jun 12-18 and from Haha (both AS-031) from Jun 19-22. QSLs direct or via bureau to the appropriate homecall.

S79 - SEYCHELLES, AF-024

S79WF will be the callsign of Wolfgang,DL6NBR, and S79GB the call of Peter,DH3NB, working from AF-024 between Jun 14 and Jul 4. They will work with 200 watts in SSB on 40-10m and with 100 watts on 6m. QSLs direct or via bureau to their homecalls.

SV - GREECE

Alexander the Great was born 24 centuries ago (356 B.C.) which is the reason for Greek amateurs to activate following special stations in CW, SSB, RTTY and BPSK on 160-6m from Jun 14-22:
SX24DRM, SX24ELI, SX24EVI, SX24EVR, SX24FLR, SX24HLK, SX24IMA, SX24KLK, SX24KVL, SX24KYK, SX24KZN, SX24LRS, SX24MGN, SX24PEL, SX24PIE, SX24RDP, SX24SRS, SX24TSL, SX24VIO and SX24XAN. All QSLs via SV2GWY.
Further information about the stations and a special award can be found online at: http://www.sx24macedonia.gr

XT - BURKINA FASO

Michael,F1IQH, is working as XT2WC from Bobodioulasso mainly on 20m for three weeks starting on Jun 9. Michael is running 100 watts into a G5RV antenna and hopes also for a 6m licence. QSLs via F1IQH.

3W - VIETNAM / XU - CAMBODIA

Toshi,JA8BMK, will show up as 3W2BMK from Vietnam from Jun 12-17. After that he will travel to Cambodia where he plans to become active as XU7BMK from Jun 18-20. Toshi usually works CW/SSB/RTTY on 160-10m. Unfortunately his QSL manager JA8UWT confirms only direct.

SOTA: The SOTA program includes also summits from Sweden and Norway now. The next chapter Slovenia (S5) - with 419 summits up to 2864m high - will be added on Jun 15.

LINKS: Current SOTA activities (mountain summits) are announced at:
http://sotawatch.sota.org.uk/activations.php or
http://sotawatch.sota.org.uk/spots.php

Detailed information about current VHF activities can be found on the VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

Ohio/Penn DX Special Bulletin No. 861.1

The Ohio/Penn DX PacketCluster
DX Special Bulletin No. 861.1
BID: $OPDX.861.1
June 9, 2008
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX
Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet

Clusters Network, EA9IE and DK7LX for the following DX information.

4W, TIMOR-LESTE (Update). Juan, EA9IE, informs OPDX that the Spanish group going to Timor-Leste left Madrid, Spain, yesterday Sunday, June 8th, at 19:00 local time (1700z) to Paris, Singapore, Darwin (Australia) and Dili (Timor).

Juan states, "It will be a 32 hour trip and the schedule for landing in Timor will be around 08:00 local time on Tuesday, 10th." The whole Tuesday will be devoted to collecting all the goods they sent by sea freight a few months ago, installing equipment in the house they rented, picking up their licence and buying some goods and foods that they will need. Juan mentions that hopefully late in the evening they will try to begin and activate one of the stations.

As this operation is not a DX operation but a radio solidarity operation, they would like to be efficient every second, so they kindly request that everyone in the next two days put spots on the cluster by stations that are heared in the following zone: VK8, YB, 9M, DU, P2 and V8 (please included the real report that is heard).

It will help them and the pilots stations by collecting that info and being as efficient as possible. After Wednesday, when they send out their first CQ, please, everyone should do the same, include in your spot the real report of 4W6R.

BTW (By the way), Juan, EA9IE, is one of the Pilot stations for 4W6R. Just a reminder that members of the Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) will be active as 4W6R between June 10-24th. Operators mentioned are: Angel/EA1QF (CW/Digital), Txema/EA5BWR (CW/SSB/Digital), Eugene/EA4KA (CW), Pere/EA3CUU (CW), Jose/CT1ERC (SSB/Digital) and Jose/EA4DB (CW/SSB/Digital). Activity will be on 160-6 meters, using CW, SSB and RTTY. They plan to have two stations on the air. Suggested frequencies are:

CW   - 1824/1832, 3508, 7008, 10118, 14018, 18078, 21018, 24898 and 28018
SSB - 1824/1845, 3785, 7065, 14185, 18135, 21295, 24945 and 28485
RTTY - 3615, 7038, 10145, 18105, 21085, 24925 and 28085
6m   - CW/50098, RTTY/50300 and SSB/50155 kHz

QSLs will be via EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid, SPAIN. For more info and updates, visit:

http://4w6r.ure.es/home.php?lang=en

FH, MAYOTTE (Update). Georg, DK7LX (FH/DK7LX), will be active using the special callsign TX7LX between June 11-23rd. Activity will be holiday style and mainly on CW, but with a focus on 80/40/30 meters. All other bands will depend on band conditions. He will use an Icom IC-706 MKIIG into a HF9V multi-band vertical that might be placed next to the sea. Reference numbers are: IOTA AF-027 and WLOTA 0376. A special full colored photo QSL will be available. QSL via his home callsign by the DARC Bureau or direct (w/sufficient return postage and SAE) to:

Georg Knoess
Am Weiderweg, 12
D-35510 Kirch-Goens/Butzbach
GERMANY

For more details and pictures, please visit Georg's Web page at:

http://www.dk7lx.mayotte.2008.ms/

ADDED NOTE: Georg will try to upload his log while in FH-land if
there is a reliable internet access to: http://logsearch.de
If he cannot upload his log, he will do it after his return.
He also mentions, "PLEASE NO DUPES!!! And please no E-mails of any kind
since I'm not going to spend time reading them at all whilst my stay
on Mayotte."

Next month, 3rd to 6th july, Eduardo, CO8LY will try to activate the grid FK19 and FL10! First I will activate the grid FK19 and if my economic situation allows it I will be in the grid FL10. I use for 6 meters an Alinco DX70th with 100 watt in 6 mtrs and the antenna it will be of wire but not yet I have any diagram to build it. I at home have an antenna of 5 elem yagi for 6 mtrs but I am not able to to take it to the DXpeditions because I go to places where there is a lot of mountain and the yagi weighs a lot. My QSL manager is EA7ADH and confirm

QSL only direct. I need you to ask to the friends of VHFnet if somebody has a diagram of a filter ITV to avoid the ITV of the 6 mtrs in the Channel 2 of the TV. I need filter diagram for the equipament of 6 mtrs or for the TV, any information it is I very useful. Eduardo. CO8LY

Hi Gang,
If all works out, Pack Rats, W3CCX will try some EME on 432 at our moon rise and set during the contest June 14 and 15. We will call CQ on 432.060 JT65b. If you want to do CW, call us on CW on the same frequency. There will be newcomers to EME operating the station so please be patient and keep trying.? Skeds are welcome. We will be running 4 x 21? 1 kw. no elevation.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1WED, VIENNA INTERNATIONAL CENTRE (Update). The Vienna International Amateur Radio Club (4U1VIC) at the United Nations in Vienna is now active using the special callsign 4U1WED through June 30th. Activity is to celebrate the "World Environment Day" (WED) which took place on June 5th. Operations over the past weekend were mainly on 20 meters SSB between 1600-1900z. QSL via 4U1VIC. For more details on WED, please refer to the following Web site: http://www.unep.org/wed/

4W, TIMOR-LESTE. The members of the Union de Radioaficionados Espanoles, URE, (The Spanish Amateur Radio League) are now active as 4W6R from Dili until June 24th. The team has had a few problems during the first few days with power outages, but this has been solved with a generator they received from Spain. They also bent a mast on a Mosley beam badly on Friday, but hope to replace it. As this bulletin was being written on Sunday morning, 4W6R was heard active between 0500-1600z on CW (30/20m), SSB (20/15m) and RTTY (15m). QSLs will be via EA4URE, by the Bureau or direct to:
P.O. Box 220, 28080 Madrid, SPAIN. For more info and updates, visit:
http://4w6r.ure.es/home.php?lang=en

7Y46, ALGERIA (More Info). A team of operators will use the special callsign 7Y46ND during the month of July from the city of Djelfa. Mike, DB1JAW, informs OPDX that the activity is to celebrate Algeria's 46th anniversary of independence and the newly established club station in Djelfa. One of the operators will be Mohamed, 7X2DD. Look for activity to be on 80-10 meters. QSL via 7X2DD: Mohamed Djaballah, P.O. Box 467, 17000 DJELFA, Algeria. A special certificate besides the normal QSL card will be available if requested for an extra fee of 5 Euros or 7 USDs. ADDED NOTE: Mike, DB1JAW, also informs OPDX that he will be going back in October and will be active as 7X/DB1JAW.

8Q, MALDIVES. Paulo, CT2IVH, will be active as 8Q7VH from Meeru Island (AS-013), June 16-23rd. Activity will be on 40-10 meters using SSB and RTTY. QSL via his home callsign, direct or by the bureau.

FJ, ST. BARTHELEMY. David, WJ2O, will be active as FJ/WJ2O during the CQWW DX CW Contest (November 29-30th) as a Single-Op/All-Band/Low-Power entry. David informs OPDX that his XYL Chris and he will be in the Caribbean between November 25th and Dec 3rd. He mentions, "I will probably operate 100% CW. I enjoy the WARC bands outside the contest and getting up early to see if I can hear JA's on 40m and then Europe on 17m. This won't be a very serious contest effort as I am just throwing up a wire and running barefoot. I still hope to net 2K Qs in the contest. I'm going to attempt 'almost real time' log viewing through wj2o.com." QSL direct only via his home callsign.

HB0, LIECHTENSTEIN. Members of "The Hungarian Traveling Amateur Radio Team" will once again be active from Liechtenstein between June 23-29th. Operators will be Laci/HA0HW, Tomi/HA4DX and Jozsi/HG4GBE. They will operate from Masescha (JN47SD, 1350 m ASL) as HB0/homecall. Activity will be on 40-6 meters using CW, SSB, and maybe some digital modes. The rigs are: TS-450SAT, FT-840, IC-706 and a small FET amplifier. They will use DunaX gps. QSL via the HA Bureau is "OK" or direct via the operator's QRZ.com address.

HB0, LIECHTENSTEIN. Operators Jan/DL7JAN and Mathew/DJ2HD will be active as HB0/homecall between July 15-19th. Activity will be on 80-6 meters using CW, SSB and RTTY. QSL via their home callsigns, by the bureau or direct.

IOTA NEWS.......................

EU-016. Operators Emir/9A6AA and Toni/9A7PJT will activate Jabuka Island (ACIA 807, IOCA CI-032, MIA MC-136), a rare IOTA, on June 21st ONLY. Look for activity during the early morning hours on 20 and 40 meters. QSL via 9A6AA (QRZ.com). For more info, visit: http://www.hamradio.hr/9a6aa/Jabuka/index.htm

EU-034. Frank, DL1FT, will be active as ES0FTZ from Kuressaare, Saaremaa Island (WLOTA LH-1401, WW Loc. KO18FG) between July 8-18th. Activity will be on 80/40/20 meters SSB. QSL via his home callsign, direct or by the bureau. For more info, visit the Web page at: http://www.funkexpedition.de/estland

EU-088. Operatprs Klaus/OZ7KDJ and Erik/OZ9V will be active as OZ8MW/p from Anholt Island (DIA NK-001) between July 23-28th. Activity will be on 80/40/20/15/10 meters before the IOTA Contest. They will be in the IOTA Contest. Also, look for activity on 6 meters using a FT-920, 5 element beam at 15 meters.

EU-092. Members of the Grantham ARC are now active as GB0SI from Tanera Mor, Summer Isles (IOSA SC-10, SCOTIA CN-32) until June 21st. Activity has been on 14260 kHz over the past weekend. This group was originally going to activate Treshnish Islands (EU-108). All QSOs will be confirmed automatically via the Bureau (your return cards are not required). QSL Manager for direct cards is G0RCI. For more details, please visit: http://www.garc.org.uk/

EU-162. Operator Serge, RZ3AMW, will be active as RZ3AMW/1 from Ryashkov Island (RRA RR-02-07, RDA MU-05, WLOTA LH-1803) between now and July 5th. Activity will be on daily on 40 and 20 meters CW/SSB between 1700-2100z. Other reference numbers are: Kandalakshsky Nature Reverse (RFFA RFF-043), Murmansk oblast (#143, MU for the Rossija Award).

EU-170. Operators Tibor/HA3HP, Neno/9A5AN and Tom/9A2AA will be active from Dugi Otok, June 15-25th. Callsigns were not mentioned. The group may possibly activate other islands in that area. QSL via their home callsign.

NA-067. Operators Barry/K4CZ, Keith/W4KAZ and Nathan/N4YDU will be active as N4A from Core Banks, NC, during the RSGB IOTA Contest (July 26-27th) as a Multi/Single/Low-Power/Island DXpedition entry. Activity will be on CW and SSB. QSL via N4YDU (DIRECT ONLY).

NA-142. Swen, DL3YCF, will be active as W4/DL3YCF from Santa Rosa Island (USI FL003S, Okaloosa County, Florida), between July 27th and August 6th. Activity will be holiday style. QSL via his home callsign, direct or by the bureau.

SA-030. Cris, PY7GK, will be active as ZW6GK from Morro de Sao Paulo, Tinhare Island (DIB #60, for the Brazil Islands Award), July 24-27th. Activity will be mainly CW, with some SSB, on 40/30/20 meters, using only 100 watts and G5RV antenna. QSL direct to PY7GK.

JT1, MONGOLIA. Members of the Mongolian Amateur Radio Society (MARS) will activate HQ station JT1KAA and participate in the annual IARU HF World Championship (July 12-13th). All QSOs will be upload to LoTW. For direct QSLs (w/SASE): HQ Station Of The Mongolian Amateur Radio Society, P.O.BOX 830, ULAANBAATAR-24, MONGOLIA.

JT1/JT4, MONGOLIA. A research team (Scott/KC0KHA, Dave, Gabor, and Terry) is currently in JT-land on a Mongolian Vertebrate Parasite Project (MVPP). The team has been assigned two club callsigns for two different regions in Mongolia. While in Ulaanbaatar they will use the callsign JT1N. In the Gobi region they will use the callsign JT4N. They were recently active as JT1N from Naran's, JT1BV, QTH and made more than 90 contacts. Watch 20 meters (14190 kHz after 1030z). Next May in the year 2009, they will be doing field work in and around the Gobi Gurvan Saikhan National Park in southern Mongolia through August. QSL via KC0KHA. Read about their MVPP at: http://lamarck.unl.edu/mongolia/

JX, JAN MAYEN (Update). Michael, G7VJR, will be departing for Iceland on June 24th, where he will be catching a ride on a 60 ft sailing boat with the adventure company, Eco-Expeditions, to Jan Mayen. He is expected to be active as JX/G7VJR for approximately 6.5 days between June 25th and July 6th. He plans to be active as much as possible, especially on CW, using lightweight antennas and a K2/100 radio. Activity will be on 40-6 meters. Also on the trip will be Wojtek, SQ4MP. Wojtek will sign JX/SQ4MP

and will be active on CW/SSB and a small amount of RTTY. QSL both callsigns via G7VJR, direct or by the Bureau. It was announced that Chris, GM4FAM, will be the pilot station for the operation. Visit Michael's interesting Web page at: http://www.jx08.eu/
Online logs will be available after the operation. Wojtek also has a Web page at: http://sq4mp.republika.pl/angielskie/JXen.htm

LIGHTHOUSE ACTIVITY. Greek operators Dimitris/SV4AAQ, Katerina/SV4AFY, Kostas/SV4FFF, Thanasis/SV4FFK, Kostas/SV4FFL, Panagiotis/SV4JYI and George/SV4LAX will activate the Trikeri Lighthouse (ARLHS GRE-128) as SY4LH during the first weekend of July (5th and 6th). Other operators mentioned but will only participate for one day out of the two planned days, are John/SV4FFB, George/SV4FFE, John/SV4FFI, Sotiris/SV4JYK, Nikos/SW4JYL and Dimitris/SW4LAD. This is the first time that this lighthouse will be activated for radio-amateur purposes. The lighthouse is situated on Point Kavoulia, about a ten-minute hike from the Geroplina Settlement of Trikeri, in the Gulf of Pagasetikos. Gridsquare: KM19MC. Activity is expected to be on all bands, 160-2 meters using modes CW, SSB, PSK, RTTY and SSTV. QSL via SV4FFK. For more details, please visit the Web page at: http://www.sz4srm.gr/SY4LH

MD4, ISLE OF MAN (EU-116). Operators David/G3NKC, Peter/G4MJS, Martin/G4XUM and possibly others will be active as MD4K during the RSGB IOTA Contest (July 26-27th) as a Multi entry. QSL via G3NKC.

SCANDINAVIAN TOUR. By the time you read this, Keith, G3TTC, has started his tour to Denmark, Sweden and Norway, which will end on July 14th. He plans to activate various islands during his tour. However, this is a holiday style operation, so dates may change by one or two days. His schedule is as follows:

June 12-13th as OZ/G3TTC/p from Romo [aka Roemoe] (EU-125, DIA NS-001);
was active on 40m on the 12th
June 15-16th as OZ/G3TTC/p from Mors (EU-171, DIA NJ-002)
June 19-20th as SM6/G3TTC/p from Hono (EU-043)
June 25-26th as LA/G3TTC/p from Spjaeroy (EU-061)
July 5-6th as LA/G3TTC/p from Averoya (EU-036)
July 6-7th as LA/G3TTC/p from Godoya (EU-056)
July 7-8th as LA/G3TTC/p from Runde (EU-079, also count for WLOTA LH-0074)
July 14th as LA/G3TTC/p from Toftoy (EU-055)

QSL via his home callsign, direct or by the RSGB Bureau.

SX24, GREECE (Special Event). Look for 20 stations to be active using the special prefix SX24 to commemorate the birth of "Alexander the Great" 24 centuries ago. Activity will last through June 22nd. Operations are planned for 160-6 meters using CW, SSB, RTTY and PSK. QSL all callsigns via SV2GWY. Stations heard on the air have been: SX24ELI, SX24EVR, SX24GRV, SX24JGX, SX24KLK, SX24KZN, SX24TSL and SX24TSR.

TC0W QRT (Wrap-up Report). Operators Pavel/TA2ZAF (OK1MU), Slavek/OK1TN and Dan/OK1HRA, who activated the special callsign TC0W from the Turkish Island of Kefken (AS-159) in the Black Sea, have now gone QRT as of June 11th. The TC0W team made 10,752 QSOs (6009/CW and 4741/SSB) after 82 hours of operating. Complete details with photos, on-line log search, and a Web Bureau QSL request are now available at:

http://www.okdxf.eu/expedice/tc0w/en/

The TC0W team says, "Thanks for ALL QSOs, QSL via OK2GZ."

TM8, FRANCE (Special Event). French radio amateurs of the Ardennes area, as well as Belgium friends Bruno/ON7ZD, Philippe/ON7PV and possibly Eric/ON7RN, will activate TM8CEC on Sunday, June 29th. Activity is part of the "open doors" from the Charlemont Fortress (DFCF 08006) at the "French Army Training Commandoes in Givet (Ardennes North of France)." Operations will be on the HF bands, CW, SSB and VHF. QSL via F5JER, direct or by the bureau. For more information, please the Web page at:

http://www.radioamateurardennais.org

XE1, MEXICO. Members of the radio club "Federacion Mexicana de Radio Experimentadores" (FMRE) will activate XE1LM during the IARU Contest as a HQ station giving out the FMRE multiplier on both CW and SSB. Operators will be XE1YJS, XE1MM and XE1CXC.

ZF, CAYMAN ISLANDS (Update/6m Op). Just a reminder that operators Jim/K4BI and Mario/K2ZD (with XYLs Meredith/K8BBN and Daphne/N2TIN) are planning a major 6m DXpedition here this week. Look for them to sign ZF2BI and ZF2ZD, respectively, between June 20th and July 6th. They will be running an ACOM amp into a 6M5X. Look for them on 50.105 MHz. Their beacon will be on 50.095 MHz. Emphasis will again be EU, AF, SA and AS, but will, of course, work NA. They will have HF capability but don't plan on being there very much or very often. QSL via their home callsign.

ZS8, MARION ISLANDS. There is still no activity reported. For updates

and the first offical announcement of ZS8T being on the air, please
visit the official ZS8T Web site at: http://zs8t.net

(last 24 hours lines blinks / up to 3 days lines marked orange):

****
Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

Layout change of the MMMonVHF start page
As you might already have noticed, we slightly changed the layout of the MMMonVHF start page. You may now use the to open/close the topics. Furthermore if you accept cookie handling, your selected topics are stored and remembered during your next visit! Further changes will follow time by time. If you have any idea or suggestions PLEASE let us know. Its very welcome! Use http://www.mmmonvhf.de/kontact.php to send us your info - tnx!

***

As well as the layout we will work hard to fill some stuff into our FORUM (http://www.mmmonvhf.de/minibb/index.php) and here specialy the propagation parts. We did start with ES and MS and one section after an other will be filled. If you have anything to add or comment please use these MMMonVHF FORUM!
Next steps will be to fill the FORUM MS sektion with some tools (and links to it) which are helpfull on MS...

HELGOLAND - JO34 soon qrv on 144 MHz Meteorscatter

As you possible have seen, Thorsten, DG7TG, was several times qrv at Helgoland (JO34WE) and did set up some Contest equipment from there at 2m. He will be as well qrv from this place July 2008, 5th until 6th in the 144MHz Contest as DL0RSH with 2x13 Element Cuschraft und 400 Watt. Nowadays he is planning to activate these rare Square as well during the PERSEIDS Shower in WSJT with 400 Watt and 2x 13el or 1x 17el M2 as DL0RSH. Because every activity will be done up to now as a single OP activity, Thorsten now search for maybe a second OP to be qrv as much as possible over these long Perseids Periode. By the way, all stuff have to be "hand carried" to the island and always it has to be paid to the shipper on the ferries... So watch out for more or later News at:

Simply The Best !

Look inside any amp on the market

You WILL NOT find a cleaner, more organized box then a FATBOY !!

Precision engineering , Hands down !!

No variable with this amp. picture shows variable pot, But it is NOT with this unit.

If you want less power, turn your radio rf power down, or mic gain down.

The RSGB 50MHz Trophy Contest takes place this weekend, from 1400 GMT Saturday to 1400 GMT Sunday. This contest runs concurrently with the IARU R1 50MHz Contest so expect many stations to also be QRV from Mainland Europe. Exchange details for the contest are RS(T), serial number, and 6-character locator. QSO's are scored at 1pt/Km, and multipliers are DXCC Countries plus QTH Locator Squares. Further information on the contest, including the various sections, awards, and log submission details can be obtained from the RSGB Contest Committee website (VHF) http://www.vhfcc.org/ Fingers crossed for good cndx. AA4ZZ follow up (REVIEW: http://www.mmmonvhf.de/review.php AA4ZZ)
Thanks to all of those who worked us and to those that tried. We
had several issues come up Friday which prevented us from getting
on as planned. Least of which was a direct lightening stike to the

area we were operating on. We had a laptop sound card go out, a rotor control box and I won't go into the other problems. We had redundant radios and interfaces and most anything else but the rotor really hurt. We learned a lot and are going to revise our operating procedure for the September contest. We made contacts Saturday morning and evening. During contest we cannot post to logger at any time, so in the future when you do work us please post frequency and report. Also when tropo or E skip is in we have to share the operating time as we are only allowed one 144mhz operation at a time. Thanks again and look for AA4ZZ in September from EM96. Hello,

What is the current thinking of which radio is currently the best for weak signal VHF / UHF DX working ?

Any one care to comment ?

And your point is ?

I know I posted the same question recently, recived only 1 reply stating I

had posted in RTF - which was a mistake on my part
I have checked on my server and can no longer find the post or any connected
thread so have poised the question again.

So what do you use for weak signal DX on VHF / UHF then or ar you not
interested in radio ?

Before I left NJ, USA in 98, the activity on VHF/UHF had nearly disappeared, except for a few diehards with their own repeaters. I hardly ever heard anyone on USB or CW on six meters, two meters and upwards.

Now that I'm down south in GA, near Chattanooga, TN, it is the same way. Ten years later and no rise in activity on VHF/UHF. It's very disappointing for me. I enjoyed the higher average IQ of the operators that I used to find on VHF/UHF.

I presently own a Yaesu FT-847 and a few single band radios for VHF/UHF. A Yaesu FT-690R MII, an ICOM 229H (actually a couple) and an el cheapo 220 MHz rig, whose brand I can't remember. There is a fair amount of activity on 220 MHz down here, but it is all via repeater.

Yes, your question appeared on 15 June. There were several replies (and
none of the usual crap).

Maybe you are having the same problem which I get occasionally, where
some postings fail to appear or, if they do, show up as 'expired' (a
black dot with Demon's Turnpike threaded structure). This sometimes
happens even with my own postings, even though I have set the expiry
time for most NGs to 8 days.

If I suspect that some interesting postings are missing, I can usually
retrieve them by re-setting the collection time for that particular NG
to a few days ago.

Probably not the radio, but having a good preamp at the antenna.

Most areas have so little activity that selectivity is not that much of an issue except maybe two weekends a year for the contests. The noise floor should be set by the preamp near the antenna.

The best is a high quality HF radio (K3, Orion-II, FT9000, IC7700, 7800) followed by a
DB6NT transverter. Or even nicer: a SDR with transverter. There are not many serious
radio's left with VHF/UHF. Only one I know of is the IC910H. I am still using my trusty
FT736 and am having a ball with it... If you can find one - or something else especially
with a Mutek go for it!

But since you are in G, check and ask on the ON4KST website www.on4kst.com/chat and select
the frequency your interested in. Often between 100-200+ stations per band chat Ask for
some opinions there.

No VHF/UHF is not dead but it has definitely changed in the past 6 or so years...

The new Dx Summit seemed to be down the other day and now only posts with
the -@ are coming up.
I look at eHam and a lot more posts are shown.

Is this a problem or do I need to set parameters? If so how?

Please reply direct to me at address below....

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR-LESTE. The 4W6R from Dili should be going QRT on June 24th. QSLs via EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid, SPAIN. The online log states that 12641 QSOs are in the database as of June 20th. For more info and updates, visit:
http://4w6r.ure.es/home.php?lang=en

5X, UGANDA (Reminder). Nick, G3RWF, will once again be active as 5X1NH this week from June 25th to August 15th. Activity will be from Fort Portal in Western Uganda. QSL via G3RWF. He was active during February and March this year and made 11000 QSOs.

6 METER CARIBBEAN DXPEDITION (Update). Dennis, K7BV, will be active this summer from the Caribbean but on 6 meters ONLY. Look for him to sign as V36M from Caye Caulker Island (NA-073, WW Loc. EK57XR), Belize, from June 20-26th, and as 5J0M from San Andres Island (NA-033, WLOTA LH-2990, WW Loc EK92DM) between June 29th and July 7th. His equipment will be a FT-450 with ACOM-1000 amplifier, running 1KW into a 7 element and 3 element beam. The main frequency will be 50.106.2 MHz USB and /B. The pilot station will be Pat, W5OZI. QSL direct only to W1JJ (QRZ.com). For more information, visit his interesting Web page at: http://www.qth.com/k7bv/caribe2008

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that Harry, 7Q7HB (G0JMU), is once again in Malawi. He adds that Harry has put in his shipping container this time a telescopic tiltover mast and a new A4S, which all needs to be assembled. Apparently, the "Gem Quad" that has been at "Club Mak" for years and was erected by Harry and Les/7Q7LA has seen better days, so he is replacing it on this trip. Harry has also taken more stuff to work data modes this time too. Allan states, "A new 'Radio Shack' is in the process of being built also." Remember, the QSL route for 7Q7HB is as always "DIRECT ONLY" to G0IAS (NO BUREAU... Allan is not a member of the RSGB, so he is NOT allowed to use the BUREAU in the UK and there is NO Bureau in Malawi). If anyone has any questions for Allan, his E-mail is good on QRZ.com and is: allan.g0ias@btinternet.com Allan will answer any E-mails within a couple of hours.

8P, BARBADOS. Andrew, G7COD, will be active as 8P9KA from Harts Gap between June 28th and July 4th. Activity is planned for 40/30/20/17/15 meters with operating times taking place between 2100-2300z everyday, concentrating on SSB with some CW. QSL via G7COD, by the bureau or direct. For more information on QSL info, please see 8P9KA on QRZ.com.

A2, BOTSWANA. Operator Sigi/DL7DF and a team of operators will be active as A25/DL7DF from Botswana between September 23rd and October 6th. They plan to have several stations on the air on 160-10 meters using CW and SSB. One station will be exclusively dedicated to RTTY, PSK31 and SSTV. Operators mentioned are: Manfred/DK1BT, Wolfgang/DL4WK, Andy/DL5CW,

Sigi/DL7DF, Frank/DL7UFR and Leszek/SP3DOI. QSL via DL7DF, direct or by the DARC Bureau. Pilots for this DXpedition are Bernd/DF3CB and Floyd/N5FG. For more details, please visit:
http://www.dl7df.com/a25/index.html

C5, THE GAMBIA. Andre, ON7YK, will once again be active as C56YK between October 13th and November 9th. Activity will be on 80-10 meters, perhaps also 160m, using CW, SSB, RTTY and PSK31. He will only have 100 watts and will use a Spiderbeam for 20/17/15/12/10m and a dipole for 80/40/30 meters. This will be a holiday style operation. For more details and updates, visit the Web site at: http://www.on7yk.net

C9, MOZAMBIQUE. Frosty, K5LBU, informs OPDX readers that "things are looking up for our Dxpedition to Mozambique this July." He states that they will be on the air starting the night of July 16th through the 30th. They will have 2 complete stations; one for CW and one for SSB. Both will have T-8 Log-Periodics thanks to Tennedyne at about 50 feet plus. There will also be a 40 meter 4 square and possibly 80 meter 4 square and 72 foot vertical for 160/80/30 meters. There will also be 6 meters with a M2 6 meter beam. Frosty is hoping to have a new Expert 1K-FA amplifier to try out, but time is about up and without sponsors, they will be using the old IC2KL amps. Look for activity on EME from 6 meters through 70cm (Thanks to Hal/ZS6WB and several other South African hams). Frosty is going to try and make sure that some of their CW operators give CW a shot on EME. The C9 team has several new members and now consists of the following operators:

Charles F. Frost (Frosty)	K5LBU	- C91CF, QSL via home callsign.
Tom Kramer	NQ7R	- C91TK, QSL via home callsign.
Jay Sewell	W5SL	- C91SL, QSL via home callsign.
John Plenderleith	9M6XRO	- C91XO*, QSL via M3SDE.
Bill Dzurilla	NZ5N	- C91BD, QSL via WA4WTG.
Bob Novak	K0OK	- C91OK*, QSL via home callsign.
Ben Pyfer	DJ0YI	- C91YI*, QSL via home callsign.

* Callsign pending

Activity will be on all bands from 160-6 this trip. Frosty just hopes that they get some sunspots so that folks can work them on 15/12/10m. They will have a log search on the Web sometime after their operations start at: http://www.tdxs.net/C9.html
Their InterNet is via a pay as you go cell phone, so don't look for too much from them everyday. ADDED NOTE: John will be leaving the team to go over to Swaziland on the 18th to operate there until the 23rd. His cards should go to his QSL Manager M3SDE.

CY0, SABLE ISLAND (Reminder). The 6 meter DXpedition to Sable Island is scheduled to take place this week between June 25th through July 7th. Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP will be active on CW and SSB. The fixed 6m station (in FN93) will use the callsign CY0X. They will be transmitting on 50.117 MHz. The team requests, "Please do NOT send your grid square as it consumes valuable time during an opening." They will also try to activate rare grid GN03 if there is a solid opening using a portable station with a 5 element M2 6M5X yagi with the callsign CY0RA. The team will also plan on being on HF on 20 meters and 40 meters, CW and SSB - but the HF operation will always take lower priority over the 6 meter operation. HF antennas will be elevated monoband ground-plane verticals for each band, and the IOTA island designator is NA-063. The special callsign CY0X commemorates the 225th anniversary of the 1783 Loyalist landing in Nova Scotia: http://www.loyalistlanding2008.org QSL via VE3IKV (please include two green stamps). For updates, visit their Web page at: http://www.cy0x.com

GT7, ISLE OF MAN (SOTA Activity). Phil, G4OBK, will be visiting the Isle of Man this week and will be using the Scarborough special events callsign GT7OOO/P to activate several of the summits on the Island for SOTA award. His activity will be mainly on 40 meters CW. He expects to be active for up to 8 hours during the daylight in several sessions between Monday, June 23rd and Friday, June 27th, from the top of the hills. QSL is via the Bureau to G0OOO. Phil mentions that this will be the first time that the GT7 prefix has ever been aired on HF.

HI3, DOMINICAN REPUBLIC. Edwin, HI3K, will be active during the RSGB IOTA Contest (July 26-27th) as a Single-Op/All-Band/Low-Power entry. QSL via KB2MS.

IOTA NEW.......................

AS-147. Look for 7L3ATQ/8 to be active from Teuri Island (JIIA AS-147-008) in the JA8 Hokkaido Coastal Island Group between now and June 24th. Activity will be on the HF bands. QSL via the home callsign, direct or by the Bureau.

EU-055. Trond, LA9VDA, will be active from Vaagsoy and various lighthouses between June 27th and July 4th. Lighthouses to be activated are: WLOTA LA-2181, ARLHS NOR-116, ARLHS NOR-141 and ARLHS-209. QSL via the address on QRZ.com.

EU-072. Members of the White Tower DX Team will be active as SX8WT from Alonnisos Island (GIOTA NAS-065, MIA MG-008, also count for WLOTA LH-4091), between August 30th and September 5th. Operators mentioned are: SV0XAW, SV1ENG, SV2FPU, SV2GNQ, SV2HNZ, SV2HOB, SV2HPP, SV2HPY SV2HRT and SV2HSV. QSL via SV2HPP. The team's Web site at: http://www.whitetowerdxt.com

EU-123. Members of the "Crocodile Rock Amateur Group" (CRAG) will be active as GM5C from Isle of Great Cumbrae during the IOTA Contest (July 26-27th). Operators mentioned are: Bob/GM0DEQ, Robbie/GM0SEI and Jennifer/MM0JJV, with the support from Livia (SWL) and Corrie. QSL via GM0SEI. ADDED NOTE: Bob, GM0DEQ, states, "The Scots Crocodile Rock Amateur Group (CRAG) has carried out several island DXpeditions over the past ten years including:

1997	Monach Islands	GB6MI
1997	Isle of Little Cumbrae	GM0DEQ/P
1998	Treshnish Islands	GB5TI
1998	Staffa Island	GB8FF
1999	Horse Island	GB2NAG
1999	Treshnish Islands	GB5TI

All of the above were QSL managed by group member and dear friend Eddie, GM0KVI [SK]. During the DXpedition to the island of Lunga, Treshnish in 1998, our trip ended when KVI suffered a massive heart attack and had to be airlifted by helicopter off the island. He survived but never made it back to full health and despite surgery he died in 2004. Recently, the circumstances of KVI's death and his QSL management appears to be the subject of ill informed gossip and innuendo. GM0DEQ and GM0SEI would like to point out that Eddie, who was a valued member of the group, insisted on remaining as QSL manager and as far as we are aware did a sterling job despite his severe health and personal difficulties, and that everyone who requested a QSL received one. However, we recognize that there may be some whom requested a QSL and did not receive one or who would now like one to complete an award. Anyone in this position should submit another request via the relevant GB call manager or direct to GM0DEQ, (9 Weston Place, Prestwick, KA9 2ED, SCOTLAND, UK) who has now recently recovered the logs and some original cards for these DXpeditions from personal effects held by KVI's family."

EU-135. Operators Anders/SM5EFX, Johan/SM5XZB and Per/SM5XZC will be active as SM5EFX/2 from Ledskar Island for the entire month of July (July 1-31st). Look for sporadic activations during July and participation in the RSGB IOTA Contest (July 26-27th). QSL via SM5EFX.

EU-170. Bill, ON5JE, will be active as 9A/ON5JE from Pag Island (ACIA 188, CIA-32, IOCA CI-082, MIA MC-282, WLOTA LH-1796) between June 21st and July 5th. Activity will be on/near the ususual island and IOTA frequencies. QSL via his home callsign.

NA-044. Juergen, NF6J, will be active as VO2/NF6J from Battle Island (CISA NF-049), Newfoundland & Labrador, June 25-30th. Activity will be on/near the usual island and IOTA frequencies. QSL via DL7RV (QRZ.com).

NA-140. The father and son team of Randy/WS4C and Ben/AI4SK will be active from Middle Hooper Island (USI MD-016S, Dorchester County, Maryland), June 26-27th. They hope to have two stations on the air using CW and SSB near the following frequencies: 14260, 14040, 7180 (also listening near 7075 if band open), 7030, 3820 and 3530 kHz. QSL via AI4SK, direct or by the bureau.

J6, ST. LUCIA. Bill, WB5ZAM, will once again be active here as J68WI between October 16-30th. No contesting is planned, but activity will be on 30-10 meters as the bands allow, and 6 meters if open. No low bands. QSL via WB5ZAM.

MDF IN NOVA SCOTIA. The Halifax Amateur Radio Club (HARC) invites DXers, contesters and HF enthusiasts to the Fifth Annual Maritime DX Forum (MDF). It will be held on Friday, August 22nd, in Halifax, Nova Scotia, as part of HARC�s 75th anniversary celebration Ham Fest, August 21-24th. See www.harc75.org for MDF and Ham Fest details.

The MDF program on Friday will run from 8:30 am until 4:45 pm, followed by the DX/Hamfest banquet. The speakers - active and outstanding members of our ham radio community - include:

- Jeff Briggs, K1ZM/VY2ZM on "Understanding Marconi's 1901 Transatlantic Wireless Feat".
- Dave Goodwin, VO1AU/VE3AAQ, and Garry Hammond, VE3XN, profile Canadians on the DXCC Honor Role.
- Ann Santos, WA1S, presents the story of The March 2008 TX5C Clipperton Island Expedition.
- John Sluymer, VE3EJ, talks about World Class Radio Competition and Contesting.
- David Sumner, K1ZZ, CEO of the ARRL will give the Banquet address on "Not Your Grandfather's Amateur Radio".

The cost of the Maritime DX Forum is $45 and the banquet is $35, but we urge you to register for the whole Ham Fest and take advantage of the other events during the weekend. Registration can be done online at www.harc75.org . Please let the MDF Chair, Scott Wood, VE1QD, know of your intention to attend. You can also address any questions to him. He can be contacted at: ve1qd@rac.ca or at (902) 823-2761.

OFFICERS ELECTED. Members of the Lone Star DX Association (LSDXA) elected its new officers for 2008-2009 on Saturday, June 14th. Officers are:

President Dave Jaksa, W0VX: A former LSDXA Chief Director and President in the 1990s.
Activities Director Rick Barnett, N0RB
Information Director Tom Anderson WW5L: Re-elected
Secretary/Treasurer Jim Bass, K5KQI: Re-elected

Appointed to various positions were:
Webmaster Pete Hicks, N5KD
Ham-Com/W5DXCC Coordinators - Ken Knudson/N5TY, Bill Priakos/W5SJ and Herb Blair/K5AT.
The LSDXA's ARRL DXCC card checker nomination is in progress said Jaksa.

PIRATE ALERT! Phil, G3SWH (AD5YS), informs that his good friend Albert, 5R8GZ, tells him the station currently operating as 5R8/IW1GTO is a pirate station without licence and is unknown by the Office Malagasy d'Etudes et Telecommunications Regulatory Board (OMERT), the local licensing authority in Madagascar.

QSL INFO AND NEWS....................

QSL OH0B via OH2BH. From a press release by Jarmo, OH2BN:

"OH0B - Midsummer in Aland Islands, June 19-22nd -- Not many people have probably thought about the meaning of Midsummer for the folks up in Northern Europe and specifically those rituals that are related to Aland Islands. Maybe not even about the reason why OH0 ranks as another DXCC counter. Simply, Aland is a highly modern society of some 27,000 people and a dozen or so active hams. Also, it is home to three super stations stuck away at different points of the archipelago.

To reach Aland Islands one needs to take a ferry from mainland Finland. See more details at http://en.wikipedia.org/wiki/%C3%85land_Islands

It was 28 years ago when Martti, OH2BH and Leena, OH2BE visited the easternmost island of the Aland group - Brando - and fell in love with its beauty and remoteness plus the instant pileups always created from there. And that marked the beginning of what is now one of the well-known super stations frequently active with several callsigns. In terms of hardware, the latest addition there was an 80M beam that was put up last autumn.

That particular occasion almost thirty years ago was the Midsummer celebration which is very special to these islands. This weekend Martti and Leena will be on that same mission, and you will hear OH0B activated mostly on 20M SSB. QSL via OH2BH. http://www.visitaland.com/en "

QSL STATUS OF ST2DZ AND YI9AJ. QSL Manager Steve, OM3JW, informs OPDX that the ST2DZ and YI9AJ QSLs will be back from the printer in August, and the start of confirmations will go out at the end of August. Be patient please.

TL8PB QSLS? (OPDX Readers want to know!) Has anyone received a QSL from this DXpedition which was held in Central African Republic in April 2007, by TL8PB. QSL route was LA0HF. We would appreciate any information you can share about this DXpedition.

VP6DX QSL UPDATE. OPDX readers are suggested to read the very long comprehensive press release (dated June 18th) on the VP6DX DXpedition's Web site at: http://ducie2008.dl1mgb.com/news/index.php
An excerpt from the release states: "An earlier press release stated that we expected QSL cards to enter the postal system in mid-April. We must apologize for failing to meet that deadline. Our printer offered us an opportunity to send an extraordinary QSL card. The direct-mail 'card' will be a 36-page booklet, sponsored by the QSL-Shop and Knut Theurich, DG0ZB, (http://qslshop.com). This booklet has the same dimensions as a QSL card, and contains over 80 color photos and maps. The text includes information about the major sponsors, Ducie Island history, and the VP6DX project. With a thickness of 1mm, the VP6DX QSL will fit in standard QSL card display holders. Not surprisingly, it takes much more time to design and prepare for printing a 36-page booklet than a standard QSL card. We submitted the complete draft of the card design to the printer on May 14th. During the next several weeks we worked together with the printer to resolve technical layout issues and to proofread the final design. The final proof was approved on June 6 and printing of 20,000 cards began on June 9th. Last Friday June 13th more than 500 kg (1100 lb) of cards were shipped to the QSL team which should arrive around the end of this week. We hope you will find this special card worth the additional waiting time...... Note: Because QSL bureaus are not equipped to handle a booklet, VP6DX QSLs delivered via the bureau will use a normal card with color photographs." Other details in the press release deal with:

- QSL processing status.
- Donors without callsigns in the database.
- Instructions for donors who have made an on-line QSL request, but have not received LOTW credit.
- List of donors without callsigns as of Monday, June 16th, 2008

QSLS VIA LOTW: 4U1ITU, RX3AEX, VP6DX and VP8KF

QSLS RECEIVED VIA MAIL: 3D2AG/P, 3DA0ZO, 5Z1A, 6K5XZE, D4C, FK/FO5RK, FO5PS, JD1BMM, TG9NX, V63TR, VP6PR, VP8/LZ1UQ and TI9KK

QSLS RECEIVED VIA THE BUREAU: EA6UP, EY8MM (via K1BV), GB5BBS, GI0KVQ, GM0HTT, GS0GRC/P, GT3FLH, J3/DL7VOG, LZ07IPY (via LZ3SM), LZ5A (via LZ3BJ), MD4K (via G3NKC), N2MUN, N2TK/NP2, NP3U (via WP4U), OE2S, PA6Z, S57DX, S59ABC, ST2R (via S57DX), SV5/DL6NBR, TM6JUN and UA9AYA

SILENT KEY. It is with great sadness to report that well-known YL DXer and recently inducted into the CQ DX Hall of Fame, Nellie Saltiel de Lazard, XE1CI, became a "Silent Key" (SK) on Monday, June 16th. She had been fighting Pancreatic cancer. DXers around the world will miss this YL's signal on the air. OPDX and its readers would like to pass on our deepest sympathy to the family and friends of Nellie.

SV5, DODECANESE. Gerhard, OE3GEA, will be active as SV5/OE3GEA from Rhodes (EU-001, MIA MGD-028, WLOTA LH-0045) between August 11-17th. Activity will be on 40-10 meters CW, using only 30 watts. QSL via his home callsign, direct or by the bureau.

TO5, ST. BARTHELEMY (Update). Ed, W0SD, updates OPDX readers on their 6 meters DXpedition to St. Barthelemy which will take place between June 28th through July 6th. Operators Arliss/W7XU, Holly/N0QJM and Ed/W0SD will be active as TO5E. Ed requests, "Please do not give us your grid square. We are not interested in your grid square and it just wastes time. Our grid square will be FK87nv for those wanting to confirm this as a new grid square. There will be some night time HF RTTY and CW operation on 30 and 20 meters when 6 meters sporadic E is over for the day." Their approximate/sporadic HF activities will take place between 0200-1000z on the following bands and modes: CW - 10103 and 14023 kHz, RTTY - 10123 and 14080 kHz, and SSB - 14195 and 14260 kHz. Activity on 6 meters will be on 50103 kHz CW/SSB listening up as directed. They will have an on-line logs search on their Web site (thanks to logsearch.DE) which will be uploaded nightly at: http://www.w0sd.com/stbart/bart.htm If you are in the log, please don't call to decrease the chance of others. The QSL route is via W7XU, direct or by the Bureau. Bureau cards will take quite sometime and eventually they hope to upload all QSOs to LoTW after all the QSLing has taken place which is likely to be mid 2009.

V3, BELIZE. Operators Eddy/K5WQG and Colin/KU5B will be active as V31MR and V31UB, repsectively, from Placencia, Belize, July 7-21st. Activity will be mostly CW, with some SSB and RTTY. They are planning a Multi/Single entry in the IARU HF Championship (July 12-13th). QSL V31UB via KU5B and V31MR via N5ET.

VE2008, CANADA (Special Event). Look for special event station VE2008VQ to be active from June 28th to July 27th. Activity will be on 80-6 meters to celebrate the 400th anniversary of the foundation of Quebec City. Operators will be VE2HO, VE2AWR, VA2RIO, VE2TKH and others from Quebec City. QSL card for this event is via Serge, VE2AWR, direct or by the bureau.

YN, NICARAGUIA. Wayne, W5KDJ, will be active as YN2KDJ from YN2N's station in Granada, Nicaragua, July 3-14th. Activity will be on 160-6

meters with priority on 160\80 meters. Operations will be on CW/RTTY
and the IARU Contest (July 12-13th). QSL via W5KDJ, eQSL and the LoTW.
Online log will be available at: http://dx.qsl.net/logs/

ZS8, MARION ISLANDS. There is still no activity reported. For updates
and the first offical announcement of ZS8T being on the air, please
visit the official ZS8T Web site at: http://zs8t.net

DEAD some say, then you are not trying.

Here in EL99 I/ we have a 2m SSB net every Wednesday at 0100z or 8pm local. 144.250   http://www.swotrc.net/

Then on Thursdays the Florida Week Signal Society has a 432.100 at 0130z or 8:30. http://flwss.net/ These guys are avaiable upto 10gz!!!

I myself use a ICOM 820H but have used in the past a FT726 and FT736. I know of operators whom use Ft-847 with good results (as long as the SWR does not trip out on that particular radio). the Ic-910 with the 1.2g is a decent radio.
My plans are to finish installing my 222 transverter and 900 radio, then it 1.2g 2.4 and up!

A GREAT source of transverters is Down East Microwave.
http://downeastmicrowave.com/
Coupled with a 756pro3 using the band scope is the ultimate in my opinion.

Antenna mounted preamps are nice but a better use of $$ is in the hardline, not coax and good antennas, not cushcraps.
http://gulfalphaantennas.com/
http://www.directivesystems.com/antenna4.htm
http://www.yu7ef.com/   I built his 9el out of spare parts and it works great!!!

You think UHF/VHF SSB is dead, just check the scores of the June QSO party. 6m did dominate but I had more QSO on 432 then 2m.

CY0 - SABLE ISLAND, NA-063

VE3IKV, K5AND, W3CMP and W4TAA are the OPs of a 6m operation from Sable Island (NA-063, CISA NS-004) between Jun 25 and Jul 7. Since 6m openings to Europe are very unlikely it is very nice to read that they are working also in CW/SSB on 20m and 40m. Their callsigns are CY0X and CY0RA (for a portable station). More information can be found on the expedition homepage: http://www.cy0x.com

FJ - ST BARTHELEMY, NA-146

Arliss,W7XU, Holly,N0QJM, and Ed,W0SD, are going to hit the airwaves as TO5E (QSL via W7XU) mainly on 6m (50103 kHz in CW and SSB) between Jun 28 and Jul 6. Activities will take place also on 30m and 20m in RTTY (10123/14080), in CW (10103/14023) and in SSB (14195/14260 kHz). Online logs will be updated daily: http://www.w0sd.com/stbart/bart.htm

GD - ISLE OF MAN, EU-116

GT7OOO/p is activating summits for the SOTA award mainly in CW on 40m until Jun 27. The prefix GT7 has been issued the for the first time. QSLs via bureau to G0OOO.

HB0 - LIECHTENSTEIN

Bart,ON3BA, Michel,ON3SMS, Noel,ON4APU, Martin,ON4PO, Peter,ON4TO, Jose,ON5SD, Rene,ON6OM, Fernand,ON6UF, Eddy,ON6ZV, and Mathieu,ON8DB, will be active as HB0/ON4IPA in CW, SSB and digital modes on 10-160m from Jun 28 until Jul 5. QSL via bureau to ON6ZV.
More information can be found at: http://www.on6om.be/hb0-on4ipa

---

Fred,DL5YM, and his XYL Tina,DL5YL, will go hiking in Liechtenstein from Jun 28 until Jul 11. They have an IC-725 and 40m antenna wire with them so you can expect some holiday style QSOs as HB0/homecalls on 10-80m. They prefer working in CW but they may take also a microphone with them. QSLs via bureau to their homecalls.

JX - JAN MAYEN, EU-022

Michael,JX/G7VJR, and Wojtek,JX/SQ4MP, will show up from the island of Jan Mayen (EU-022) between Jun 28 and Jul 4. Their equipment includes: one Elecraft K2/100 and a FT-857D transceiver, two 10m verticals for 40m/30m/20m/17m/15m/12m, a yagi for 6m, an 18m vertical for 40m/30m and a 500 watts amplifier. Emphasis will be put on 30m, 20m and 17m while also looking for possible openings on 12m or 10m. Michael usually works in CW and Wojtek in SSB and CW and sometimes also RTTY. On 6m you can find them in CW on 50105 kHz and their pilot station is Chris,GM4FAM. QSL manager for both calls is G7VJR. He confirms direct or via bureau. More details can be found at: http://www.jx08.eu

OY - FAROE ISLANDS, EU-018

The operation of OY/LA6FJA and OY/LA7WCA is expected to take place from Streymoy (EU-018) in CW, SSB, RTTY and PSK31 on 80-6m from Jun 25-30. QSLs direct, via LoTW or via bureau to their homecalls.
For more information check out: http://www.la6fja.eu/dx/oy.html

PJ6 - NETHERLAND ANTILLES, SABA, NA-145

Kenny,K2KW, and his XYL Stephanie,KD8GKM, will be QRV as PJ6/K2KW from Saba (NA-145) from Jul 1-7. They will work with 100 watts and dipoles on 17-40m and a 2ele yagi for 6m.
They might show up as well as PJ7/K2KW from St. Maarten (NA-105) afterwards from Jul 8-10. Their QSL manager is Kappy,WA4WTG.

5X - UGANDA

Nick,G3RWF, will be active again as 5X1NH from Jun 25 until Aug 15.
QSL via G3RWF.

7Q - MALAWI

Harry,7Q7HB, is staying in Malawi at the moment. Harry concentrates on PSK31 and RTTY this time. QSLs only direct via G0IAS.

7X - ALGERIA

The callsign 7Y46ND will be activated on 10-80m throughout the month of July. The station is operated by the radio club in Djelfa. Algeria became independent 46 years ago and "ND" stands for "National Day".
QSL cards should be sent to 7X2DD, Mohamed Djaballah, PO Box 467,
17000 Djelfa, Algeria.
For enclosing 5 EUR or 7 US$ you will get a special QSL.

8P - BARBADOS, NA-021

Andrew,G7COD, will be QRV as 8P9KA from Barbados (NA-021) between Jun 28 and Jul 4. Listen for Andrew working mostly in SSB and little CW on 40m, 30m, 20m, 17m and 15m daily from 2100-2300 UTC.
QSLs via homecall, direct or via bureau.

BRASIL, SPECIAL EVENT STATION

The special event station ZW50I celebrates the 50th anniversary of the city Imbituba between Jun 21 and Jul 21. QSL via PP5BZ, direct or buro.

CANADA, SPECIAL EVENT STATION

The Canadian city Quebec celebrates its 400th anniversary this year. VE2HO, VE2AWR, VA2RIO, VE2TKH and other OPs will activate VE2008VQ on 80-6m from Jun 28 until Jul 27. QSLs direct or via bureau to VE2AWR.

(last 24 hours lines blinks / up to 3 days lines marked orange):

****
Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

HINT to UPDATE or better "set a Comment" to the LATEST NEWS
If there is any NEWS at an ongoing expedition you are of course
very welcome to place these info at MMMonVHF. You have several
possibilities to send in the NEwS to the group to place it manual
(via the Contact-Sheet: http://www.mmmonvhf.de/kontact.php   or
via the Post-News-Sheet: http://www.mmmonvhf.de/newsuser.php)
An easier way will be to post direct to the News as a "COMMENT"
Each News will have at the lower bottom of the text a line were
you be able to find a link to place a comment. It will be counted.
The Comments will be always spread with the related NEws without
handling time of the MMMonVHF-Team!

UPDATES ON4KST's chat telnet client (V 1.5)
This is a simple telnet client specially developed for accessing the chats of ON4KST when you can't (or don't want) to use the WEB interface. I made this software for my own use because in my radio QTH by the countryside I only can access the Internet using the GPRS mobile phone. The cost of this service (at least in Spain) depends on the number of bytes sent/received, so using the WEB interface was simply too expensive. On the other hand, standard telnet clients did not offer the functionalities and formatting options I wanted. Read more and download at: http://www.vhfdx.net/kstclient.html Source: EA6VQ, Webpage

It certainly makes a change from the snide remarks emanating from
the usual bunch of dried up old cynical amateurs. And certainly no more
embarrassing than your unnecessary remarks!

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M1, SCOTLAND (Satellites and Low-band). Paul, 2E1EUB, is active again as 2M1EUB/p from Cairngorms National Park near Aberdeen (IO87RJ) until July 4th. Activity will be on all satellites (but mainly AO7 SSB), 160/80 meters and some other HF SSB. QSL via his home callsign. Also, visit the QRZ.com Web page under 2M1EUB to see a picture of the location and QSL info.

4W, TIMOR-LESTE (Update). Xavier, EA3BHK, reported last week on Tuesday that the 4W6R team flew back home to Spain on a 30 hour flight from Dili (4W) - Darwin (VK) - Singapore (9V) - Paris (F) and finally Madrid. They wish to thank the ham radio community for the help and sponsorship. They made almost 16,000 QSOs, but found that the propagation was not good enough on many bands. The 4W6R Radiosolidarity Project has become a big success, now there is a fully equipped ham radio station at the University of Dili. They hope that this is a seed for having 4W stations on the air soon and regulary beacause the electronic students were very interested in this project. Remember to QSL via EA4URE, by the Bureau or direct to: P.O. Box 220, 28080 Madrid, SPAIN. Meanwhile, reports also indicate that Jose, CT1ERC, is expected to be there until early August and possibly operate from that station as either 4W6UTL or 4W6ERC. QSL via CT1ERC.

9M0, SPRATLY ISLANDS (Updated). Operators John/9M6XRO and Steve/9M6DXX will lead a team of six operators (James/9V1YC, Pete/SM5GMZ, Jay/W5SL and Tim/M3SDE) to Pulau Layang Layang, Spratly Islands (IOTA AS-051), some time in March 2009 (1-14th was mentioned earlier). Activity will be on all bands 80-10 meters, CW, SSB and RTTY, using three stations (two with full legal limit linear amps). The callsign is to be confirmed and the QSL information is via M3SDE (direct or by the Bureau). A new Web site has been set-up for updates, and now it has a poll on it for what bands are needed. Please visit the site at:
http://www.spratly2009.com/

A3, TONGA (Looking for Dry Weather/Back on The Air!). Paul, A35RK, is finally getting back on the air after record-rainfall season. He informs OPDX that the waters are receding, but the bad weather has not only badly damaged their bush road (4WD required), but the lack of sunshine has severely restricted his availability of electrical power for several months. Paul states, "my 'play radio' time has also been limited....to brief periods of listening and QRP transmissions. However, our batteries are all charged up now, and I hope that I can be more active." Another problem has been his InterNet/E-mail access (no service whatsoever from mid-February until late April; then intermittent service for 2 weeks in May; and again a complete system failure from mid-May until today). Paul states that he will be installing a SteppIR "BIG IR" vertical with the 80m kit as soon as the ground dries out and he gets the house painted. His 3-element SteppIR yagi is working fine, and the 4-element

6M yagi is also up. Paul was heard this past week on 20 meters SSB just after 0215z.

AT6, India. On behalf of the Amateur Radio Society of India (ARSI), Prasad, VU2PTT, will be active in the IARU Contest using his special callsign AT6T as the HQ station. Look for AT6T giving out the ARSI multiplier on 80-10 meters using CW and SSB during the IARU Contest. Prasad has permission to use this callsign from July 1st through the end of September 2008. Look for this special callsign possibly in other contests as well. As usual, all QSOs will be uploaded to the ARRL's Logbook of the World (LoTW) and QSL requests may be made to VU2PTT direct (QRZ.COM) or via the ARSI Bureau. Please use the current IRC for direct requests, green stamps have a habit of disappearing in the postal system along with your QSL card. It is also not legal in India to send or receive currency by postal mail, and the recipient can get into trouble.

CARIBBEAN TOUR. Kenny/K2KW and his XYL Stephanie/KD8GKM will be heading to the Caribbean next month and will be active from Saba Island (NA-145) first as PJ6/K2KW and PJ6/KD8GKM between July 1-7th. Next stop will be St. Maarten where they will be active as PJ7/K2KW and PJ7/KD8GKM between July 8-10th. Activity will be on the HF bands as well as 6 meters. QSL via WA4WTG. Visit the following Web page for more information at:
http://pj6-k2kw.blogspot.com/

CQ9, MADEIRA ISLANDS. Operators CT1BOL, CT1DSV, CT1EFS, CT1ENV, CT1FEK and CT1HFS will be active as CQ9U from Selvagens Island (AF-047), July 24-27th. Activity will include the RSGB IOTA Contest. QSL via CT1BOL. Visit the CQ9U Web site at: http://www.cq9u.com/en_default.html

CU2, AZORES. Andrea, IZ2LSC, will be active as CU2/IZ2LSC from Sao Miguel Island (EU-003), July 9-19th. Activity will be holiday style and mainly on 20 meters SSB using a FT-857 and End-Fed Zepp antenna. QSL via IZ2LSC, only by the Bureau or LoTW.

CY0, SABLE ISLAND (Update/Freq Change). The 6 meter DXpedition to Sable Island is now up and active through July 7th. Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP will be active on CW and SSB. The fixed 6m station (in FN93) will use the callsign CY0X. They will be transmitting on 50.108 MHz. The team requests, "Please do NOT send your grid square as it consumes valuable time during an opening." The operators were very active this past weekend during Field Day. They will also try to activate rare grid GN03 if there is a solid opening using a portable station with a 5 element M2 6M5X yagi with the callsign CY0RA. The team will also plan on being on HF on 20 meters and 40 meters, CW and SSB - but the HF operation will always take lower priority over the 6 meter operation. The special callsign CY0X commemorates the 225th anniversary of the 1783 Loyalist landing in Nova Scotia:
http://www.loyalistlanding2008.org
QSL via VE3IKV (please include two green stamps). For updates, visit their Web page at: http://www.cy0x.com

EM0, UKRAINE. Look for the club station of Ukrainian State Centre of Radio Frequencies (Ukrchastotnaglyad) to be active during the period of July 7-11th using the callsign EM0ITU. Activity is in connection with an ITU workshop <Spectrum monitoring/Task Problems and Solutions> by the 6th ITU Centre of Excellence in Kiev, Ukraine. QSL via UT3UZ: Alex Arbuzov, P.O. Box 7, Kiev-232, 02232, Ukraine.

GB50, ENGLAND (Special Event). Walt, G3NYY, will activate the very special callsign GB50OT (that's GB fifty OT) on Sundays, July 6th and 13th, to celebrate the fiftieth anniversary of RAOTA, the Radio Amateur Old Timers' Association. Activity will be on all bands 80-6 meters on CW, SSB and Digital modes. An attractive colorful QSL is available. QSL to GB50OT via the bureau, or direct with return postage via QSL Manager G3VBE.

HB0, LIECHTENSTEIN (25 Years of DXpeditions to HB0). Members of the Rhein Ruhr DX Association (RRDXA) will be active as HB0/HB9AON and will be celebrating their 25th DXpedition to Triesenberg, Liechtenstein, between October 18-31st. Operators mentioned are: DJ2YE, DL8EAQ, DK8EY, DL8DAW, DK5EZ, DG3EX and DL6EAQ, as well as members of the DARC clubs Wulfrath (R29) and Neandertal (R09, Mettmann/Erkrath) and some guests. The German team will also be active in the CQ World-Wide SSB DX Contest as a Multi-Multi entry. QSL via DJ2YE.

IOTA NEWS........................

EU-001. Kurt, HB9XCL, will be active from Kos Island (MIA MGD-016, WLOTA LH-1730), July 3-9th. Expected activity will be on 80-10 meters, propagation permitting. QSL via his home callsign, bureau is preferred.

EU-038. Hans, PA2MRT, will be active from Texel Island (WLOTA LH-0043), July 13-18th. He will be operating mobile from 80-10 meters with a Henry SS-750 amplifier and HQ5-80 antenna. QSL via his home callsign, direct or by the bureau.

EU-077. Members of the OCV DX Team will once again be on another DX-pedition for the RSGB IOTA Contest (July 26-27th). Look for them to be active as AM1S from the Island of Sisarga Grande (DIE O-137 for the Spanish Islands Award, WLOTA LH-0693). They will operate as a Multi-Op/Low-Power entry in the contest. Operators mentioned are: Pepe/EA1DKV, Domingo/EA1DAX, Carlos/EA1US, Javier/EA1FDI, Luis/EA1NT, Amadeo/EA1CA, Jes/EA1JO, Pedro/EA1FCH, Manuel/EA1HP, Jose/EA1ADP, Augusto/EA4TG, Gerard/EA4ST and Jose/EA1OS. Look for possible activity before the contest. Operators will be using their personal homecall/p. QSL AM1S via EA1OS, direct or by the bureau. For more info, please visit: http://sisargas.calandraca.com

EU-130. Matteo, IV3YNB, will be active as IV3YNB/QRP from Grado Island (IIA GO-001, MIA MI-039) now through July 12th. His activity will be on CW during the evening and nightime hours. QSL via his home callsign, direct or by the bureau. More info is available at: http://www.iv3ynb.altervista.org

EU-136. Bjoern, HB9DTV, will be active as 9A/HB9DTV from Rab Island

(ACIA 168, CIA-38, IOCA CI-096, MIA MC-330, WLOTA LH-2198), July 20-26th. Activity will be on or around the usual island and IOTA frequencies. QSL via his home callsign, bureau is preferred.

NA-067. Operators Johnathan/AB3FX, Jeanne/KB3PVA and Bob/KB3NVH will be active as AB3FX/4 from Ocracoke Island (USi NC-001S, WLOTA LH-0466, Hyde County, North Carolina) between August 10-16th. This will be a holiday style activity with activity mainly on 20 meters. They also hope to take part in the later part of the Maryland-DC QSO party. QSL via the bureau to AB3FX. Direct is "OK" for U.S. stations; there is no need to include an SASE unless you would like a card back in an envelope (otherwise it will come as a postcard).

NA-140. Steve, NY3A, will be active as NY3A/p from Middle Hooper Island (USI MD-016S, Dorchester County, Maryland) during the RSGB IOTA Contest (July 26-27th). QSL direct to his home callsign.

SA-037. The "4M5DX Group" is planning another IOTA activation this time to Blanquilla Island. Operations will take place between August 4-9th and the callsign will be YW5IOTA. Operators mentioned are: Alex/YV5SSB (Team Leader), YV5TX, YY4MP, YY4RN, YV1FM, YV5EU, OH0XX/YV5WW, YV5ANT, and YV5MSG. Activity will be on 160-6 meters, using CW, SSB and the Digital modes. The dates may undergo a small change due to the Navy of Venezuela, which will transport them to the island. Sponsors and individual donations are welcome. Interested parties may contact the QSL Manager Corrado, IT9DAA. Visit their Web page at:
http://yw5iota.4m5dx.info

KL7, ALASKA (Update/NEW IOTA!). The KL7DX IOTA DXpedition to Chuginadak Island (Grid AO52) is planned to take place from July 21-27th. At the moment, team members include Yuri/N3QQ, Victor/RU4SU, Sergey/RA3NAN and Yuri/UA9OBA. The team will try to make as many 2-way radio contacts as possible with IOTA Island Chasers on all HF bands including 6 meters. As of right now they are in the final planning stages for Chuginadak Island (Islands of Four Mountains Group) NA-234 Amateur Radio DXpedition. Estimated dates are: Landing on or around July 21st, 2008, departure on or around July 27th, 2008. QSL ONLY to AC7DX and follow special postage and mailing instructions at QRZ.com only. DO NOT send your cards to the Alaskan address. Further information can be found at: http://na-234.com/index.html

LIGHTHOUSE ACTIVITY. Greek operators John/SV1GE, Cliff/SV1JG, Spiros/SV1RC, George/SV1RP, Nikiforos/SV1EEX, Theodoros/SV1GRM, John/SV1GYG, Sotirios/SV1HER and Daniel/SV1JCZ will activate for the first time the lighthouse called Ipsili (WLOTA: L-0237, ARLHS: GRE-123) on the rocky islet Strogili (IOTA: EU-001, GIOTA: DKS 001, MIA: MGD-022), from July 25th to August 4th. The lighthouse was built in 1917. The altitude of the tower is 9 meters and the height of focal plane is 85 meters. The callsign will be SX5C. Activity will be on all bands from 160-2m on all modes. All the above hams are also members of the Radio Amateur Association of Greece (http://www.raag.org). QSL manager is SV1HER. Also, for more details please look at the Web page at: http://sx5c.blogspot.com/

P41, ARUBA. Operators Bob/W3BTX (P49T), Roy/W3TEF and Joop/P43JB will once again be using the special issued prefix and callsign P41USA (in remembering the USA attacks on September 11, 2001), between September 3-12th. Activity will be on all bands 160-2 meters. QSL Manager is W3TEF. ADDED NOTE: Bob states, "Last year was the 1st time for P41USA, and we worked over 4,000 QSOs and over 100 countries."

PIRATE ALERT. Mamuka, 4L2M, informs OPDX that a station active as 4L6X has been on the air and is operating without Georgian permission.

NEW MANAGER. As of June 21st, Buzz, NI5DX, is the QSL Manager for Eric, Z21BC. Buzz has Eric's logs and can answer any QSO since the beginning of his activity, which was January of 2007. When QSLing to NI5DX from outside the U.S., please include a SAE (Self-Addressed Envelope) and a minimum of 1 USD or IRC. U.S. requests should include a SASE at a minimum. NI5DX reports that there has been an increase in foreign requests with only a SAE and nothing included for return postage. Buzz is trying to contact the requesting station via E-mail to see if they want to send postage or if they want the requested card put in the bureau. Buzz only sends cards to the outgoing bureau one time a year, usually in January, so a bureau requests could take a very long time to reach the station requesting a card from any of the DX stations managed by NI5DX.

QSLS VIA LOTW: C6AKU, HC8N, HK1X, VP6DX and ZC4DW

QSLS RECEIVED VIA MAIL: 3D2AG/P, 7Q7BP, 8S0HRA, 9X0X, CT2ITR, E21EJC, TI7/DJ7JC, TO5RZ, V8FRO, XE83IARU and ZK2CC

QSLS RECEIVED VIA THE BUREAU: 4B1BEF, 4O6T, AO1ABT, HK3Q, PZ5XX, XW1B and ZB2X

SI, SWEDEN (Special Event). Rob, PE9PE, informs OPDX that he will be active as SI9AM from Sweden's King Chulalongkorn Memorial Amateur Radio Society in Utanede, July 4-11th. Suggested frequencies are (SSB only): 1840, 3760, 7060, 14210, 18160, 21310, 24960 and 28510 kHz. QSL via SM3CVM, by the bureau or CBA (E-mail requests for bureau cards can be sent to: info@si9am.se). More information can be found at:
http://www.si9am.se/

SILENT KEYS. OPDX and its readers would like to send out our deepest sympathy to the family and friends of the below mentioned "Silent Keys"

(SK):

Enno, PF5X, informs OPDX that his QSL Manager Henk van Hensbergen, PA0KHS, became a "Silent Key" (SK) on June 22nd. Henk managed the QSL cards for Enno's 9V1CW, 9M2/PF5X and VK6ERA activities. He also managed S61FD (2005/6) and S65X (PACC 2006) on behalf of SARTS. ADDED NOTE: If you need cards for the above mentioned activities, please send them to Enno's home address: Enno Korma, De Strengen 34, 6581 JZ MALDEN, The Netherlands. All logs will be uploaded to LoTW during autumn 2008.

It was announced last week that Raymond McClure, W8CNL, became a "Silent Key" (SK) on June 25th. His age was 69. Ray was a QSL Manager for a number of DX stations.

SM, SWEDEN (Special Event). Rob, PE9PE, will be active as SI9AM from the King Chulalongkorn Memorial Amateur Radio Society from late evening July 4th to July 11th. Suggested frequencies are as follows:

```
  CW  - 1817, 3517, 7017, 10117, 14017, 18077, 21017, 24897 and 28017 kHz

```

QSL via SM3CVM, by the bureau or CBA (E-mail requests for bureau cards can be sent to: info@si9am.se
SI9AM Award and more information can be found at: http://www.si9am.se/

VK9C, CHRISTMAS ISLAND (Update/Change). The VK9XWW/VK9XHZ/VK9XOR/VK9XME DXpedition has announced that they have changed their operating dates to July 14-21st (instead of July 8-20th). According to their Web page: "The team will rent a big van for 6 members and all the material and bags, and 2 friends of the team will help with transportation to the Barcelona airport. In the afternoon of July 8th the team will depart to Singapore via Amsterdam and will arrive there the following day and stay in Singapore until July 11th, then they will fly to Malaysia, Kuala Lumpur until July 13th. On July 14th, they will arrive at Christmas Island and install as many antennas as possible and start the activity." The offical Web site is: http://www.dxciting.com/vk9x/

VO2, CANADA (Rare Canadian IOTAs). Operators Cezar/VE3LYC and Ken/G3OCA will activate two rare Canadian IOTAs that have been on only once about 13-14 years ago. Look for them to operate from Finger Hill Island (NA-194) and Paul Island (NA-205), between July 30th and August 5th using the callsign VO2A. They intend to operate for three days from each island with two stations on the air from 40-6 meters using CW and SSB. QSL via VE3LYC, direct or by the Bureau (G/GM/GW/GI stations can confirm via G3OCA).

VP5, TURKS AND CAICOS ISLANDS. Remember to look for Jim/WB2REM to be active as VP5/WB2REM between July 2-12th. Activity will be on 160-6 meters, using CW and SSB. QSL direct ONLY via WB2REM.

YU8, KOSOVO (DXCC=Serbia). Look for YU8/S56M to be activated by the Slovenia Contest Club team which will visit Kosovo during the first part of August 2008. Main target is participation in the WAE CW Contest. Activity outside of the contest will be on all HF bands and modes including 6 meters. QSL via S57U. More information will be available on the SCC home page at: http://lea.hamradio.si/~scc

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

Due to some request for a traffic optimized list of the daily
ES spots, we established a small page which show only the daily
list of ES spots found by the DXrobot of Allard, PE1NWL.
It's purpose is to get a quick view on the spots and saving the
traffic/cost for loading always the whole list by using mobile
devices. The list is updated every 10min and can be found here:

Gio IK1UWL (marchi.g"at"libero.it) sent following message to the MMM Webside: Hi all, unfortunately ARM (Association Radioamateur Monaco) has not been able to obtain in time, from the government, the use of a suitable building, so the activation of 3A, by the Italian team, is temporarily cancelled. We are very downhearted, all equipment was ready, and we were already in the right frame of mind, sorry for the illusions we created. We will meet with ARM soon to examine future possibilities.

Recent EME Acitivy for Saturday June 28 at CY0X in FN93
CY0X in FN93xv (*). They do not have JT65A and cannot run their amplifier while aiming to the west, so they are not at all functional on EME during their moonset. If somebody has a huge array they might be able to work them on CW during their moonrise if the sked time did not coincide with an Es opening, which is their highest priority. Since arriving there, they have been very busy on 6m Es. They are reporting having difficulty operating 2m EME due to high local noise level and RFI, but will continue to accept skeds (CW only) during moonrise.

Recent EME Acitivy for Saturday June 28 at ZF2ZD in EK99
ZF2ZD in EK99gi (*). I completed with Mario on JT65A mode today during his moonset. He was -26 dB with ZB2BI's 6M5X yagi. He hopes to have his 6M7JHV up as soon as the local guys bring the tower over (was supposed to be today)...hopefully he will be QRV soon with the larger antenna. Mario is very anxious for EME skeds on both moonrise and moonset.

Recent EME Acitivy for Saturday June 28 at TO5E in FK87
TO5E in FK87ov (*) - W7XU, N0JQM and W0SD are QRV in FJ, and I ran with them on their moonset today. They put out a great signal (-21 dB on JT65A) but have local noise to the west on their moonset. They may have better success on moonrise, but have not tried that with anyone yet. Their terrestrial shot to NA and EU is over water. http://www.w0sd.com/stbart/bart.htm

Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

METEORSCATTER - NEXT MS-SHOWER:
Southern Delta-Aquariids, with maximum on July 27. High mean Sporadic meteor rate (with daily maximum in the morning), together with several minor showers, are able to provide good chances to MS-DXers in July, even if no big showers cross Earth�s orbit this month. However, best period in July is at the end of the month, when a medium shower (Southern Delta Aquariids) appears, combined with some other minor showers. The new MS Shower peaks are updated and available at our MS-Propagationpage: www.mmmonvhf.de/ms.php

Tor, DJ8MS, will be again on business trip up to Kiruna, SM2 (KP07), in July/August. Up to date infos at his MMM DXBlog at:
http://www.mmmonvhf.de/showblog.php?ca=SM-DJ8MS On the way up north

it's intended to stop by in JP72 and JP84, maybe also JP97. Activty will be mainly random MS in the evening and morning hours. Maybe this year some more activity from KP07 itself over the weeks. During the weekends I'll propably be qrv from some gridsquares in SM2/LA/OH... Maybe also some EME tries... who knows. Stay tuned.

Jim (K4BI) & Mario (K2ZD) will be active as ZF2BI and ZF2ZD from Cayman islands, EK99GI on 6m ES and EME (WSJT). ZF2ZD Mario is active on six meter Meteor Scatter and EME until July 6th. I worked Mario this morning in 17 minutes using FSK441. His station is 1Kw with 6M5X at 55Ft and 174 Ft. from the ocean. (Should be workable

for many stations). I believe with his station he should be able to work some longer meteor scatter contacts. Our distance was 1168 miles and his pings were very strong and often.

3A2M - Trip...
Hi all, unfortunately ARM (Association Radioamateur Monaco) has not been able to obtain in time, from the government, the use of a suitable building, so the activation of 3A, by the Italian team, is temporarily cancelled. We are very downhearted, all equipment was ready, and we were already in the right frame of mind, sorry for the illusions we created. We will meet with ARM soon to examine future possibilities. I am sure that we will be able to activate 3A, but surely not in the near future, so you can put the red sign in MMM.

N6VMO CM94 QRV July 4 - 6 144.128Mhz and 1296.068MHz JT65B 1st.
I will be QRV on 144.128MHz and quite possibly, for the first time, on 1296MHz this weekend! Mode will be JT65B/C and 1st sequence. The EME site does have internet access, so look for me to announce my presence on the both bands. I will only be able to operate one band at a time, since they will share common feedline and relay sequencer. If 1296 testing goes as planned, I will switch from 144 to 1296. Market Reef, OJ0. A team of five operators will visit Market Reef in July, led by OH1VR, Seppo, and including G0CKV, Olof; G3SXW, Roger; OH3RM, Markus; and W6RGG, Bob. They expect to arrive on Friday July 11th and leave on Monday the 14th, depending of course on sea conditions. They will be active in the IARU Contest in the multi-operator category as OJ0A. Before and after the contest they will be active on 160m to 6m with 3-4 stations as OJ0/home call and OJ0VR. Seppo is taking a 5 element yagi for 50 MHz. Greenland, OX. OZ1DJJ, Bo Christensen, tells The Daily DX he will depart Denmark on July 9th and he will be heading back to Greenland, where he will be QRV as OX3LX from grid locator GP60xr until July 23rd. While there he may try 2 meter EME and will definitely be on 50 MHz with a 4 element yagi running 100 watts. This will be a business trip, so don't expect a 24/7 operation on this one. Plans are to update his Web page in the next day or two - www.ox3lx.geronne.dk.

San Andres, HK0. Update. W5OZI, Pat, is the pilot station for 5J0M, the six meter DXpedition to San Andres by K7BV, Dennis. Pat gives us the following update on 5J0M. "Presently QRV but only with 100 watts. Amp problems due to rough handling at HK customs where they unplugged some jumpers and maybe more. Dennis insists that this ACOM has been completely reliable on many trips and that it is not an ACOM fault. W1JJ is in contact with the ACOM factory in Bulgaria and hopes to get some kind of fix to forward to Dennis. Another power supply has gone bad since V36M, so he cannot operate HF and 6m at the same time. Dennis has had only about 20 QSOs so far, all with NA. N5BLZ was #1. He will move the beam every (approximately) half-hour between EU and NA, and wants hams to call him even if they have already worked him so as to give him an idea about band condx".

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O, MONTENEGRO. Bill, ON5JE, will be active as 4O1/ON5JE from Budva, July 9-17th. Activity will be on the HF bands, propagation permitting. QSL via his home callsign.

5B, CYPRUS. Jack, RW3QC, will be active as 5B4AII during the IARU HF Championship (July 12-13th) as a Single-Op/All-Band/High-Power/Mix entry. QSL via RW3RN.

7X, ALGERIA (Lost Privileges). Mustapha, DL1BDF, is reporting some bad news from Algeria. According to Mokthar, 7X5JF, the Algerian authorities have revoked/cancelled operating privileges (for unknown reasons) for the use of the 80 and 17 meters bands as well as VHF and UHF. Hopefully, there will be a quick return of privileges on these bands for our Algerian friends.

8Q, MALDIVES. Tim, VE6SH, IARU Vice President, will be active as 8Q7TM between July 11-20th. His activity will include the IARU HF World Championship (July 12-13th). QSL via VE6SH.

AFRICAN TOUR. John, 9M6XRO, (one of the Frosty/K5LBU team members going to Mozambique), informs OPDX that he will be active from the following African locations:

July 11-13th: From Johannesburg, South Africa, as ZS6/GM3OOK
July 14-19th: From Mozambique as C91XO
July 19-25th: From Swaziland as 3DA0OK

His activity will be on 160-10 meters using CW/RTTY/SSB. John states, "At each QTH, I will be running a linear with beams for HF plus a four-squares and verticals on the low bands. In Mozambique, for part of the time, I will be with the group who is operating from the 16th to 30th. See: http://www.tdxs.net/C9.html
I had good results on Top Band from A25 last July, so I am hoping to

manage the same from C91 and 3DA0." QSL via M3SDE, direct/bureau for all three callsign; see QRZ.com.

CT3, MADEIRA ISLANDS. Zoltan, HA5PP, will be active as CT3/HA5PP during the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via HA5PP.

CY0, SABLE ISLAND (Update). The 6 meter DXpedition to Sable Island will be coming to an end by the time you read this. They are expected to go QTH on July 7th. Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP have been very busy. Sunday morning's Web site reports that 2514 6m QSOs are in the log with 55 DXCC entities, including North and South America, the Caribbean, Europe, Africa and Asia. Just a reminder, the online log does not contain any HF contacts, only 6m and 2m. QSL via VE3IKV (please include two green stamps). For updates, visit their Web page at: http://www.cy0x.com

D4, CAPE VERDE. Massimo, IZ4DPV, will be active as D4C during the IARU HF Championship Contest (July 12-13th) as a Single-Op/All-Band/High-Power/SSB entry from Mindelo, Ilha do Sao Vicente (AF-086, WLOTA LH-1976).

GB7, ENGLAND. Members of the RSGB will activate a special callsign for the upcoming IARU HF Championship (July 12-13th) from three separate DXCC entities this year (G, GW, GM). Look for the special callsign GB7HQ to be active between 1200z, July 12th and 1200z, July 13th, on 160-10 meters CW and SSB (contest bands). Full details of the station hosts, locations, operators, WAB squares and grid locators can be found at:
http://www.gb7hq.com/2008/2008-Ops-List.html
Also, a special awards program is availabe and details can be found at:
http://www.gb7hq.com/Award-Info.html
G3LZQ is handling special certificates for working GB7HQ:

* Bronze award - contact GB7HQ on three band/modes
* Silver award - contact GB7HQ on six band/modes
* Gold award - contact GB7HQ on nine band/modes
* Platinum award - contact GB7HQ on all twelve band/modes

To assist you in making contacts, they can give you the frequency of the next GB7HQ station to work, when you contact one operator. QSLs are being handled by G3TXF: direct, bureau, or LoTW. Team members mentioned this year are (at the moment): G0AEV, G0IVZ, G0MTN, G0OPB, G3LZQ, G3LZQ, G3SJJ, G3SVL, G3TXF, G3UEG, G3WVG, G4BAH, G4BUO, G4BYG, G4IRN, G4MJS, G4PIQ, G4RCG, G4TSH, G6PZ, G7VJR, GM0NAI, GM3POI, GM3WOJ, GM4FDM, GW0GEI, GW3PRL, M0BJL, M0ITY and MW0BER.

TI0, COSTA RICA. Members of the Radio Club of Costa Rica and a U.S team plan to be active as TI0HQ in the IARU HF World Championship Contest (July 12-13th) from the Costa Rican HQ as a Multi-Multi effort. They expect to have several stations on the air from different locations around San Jose. Activity will be on 160-10 meters CW/SSB. QSL via TI0RC, by the Bureau.

USI SPECIAL EVENT STATIONS. The ARRL Letter reports, "The United States Islands (USI) awards program will host a series of special event stations -- including their main club station KL7USI -- from all over the U.S., Alaska and the Yukon celebrating 15 years on HF. Starting summer 2008 throughout 2009, look for USI activities on 14.260 MHz and other bands. USI is the premiere state island collecting program. Check the USI Web site for further details <http://www.usislands.org>."

V31, BELIZE. Clay, K7HC, will be active as V31HC between September 1-15th. Activity will be on 80-10 meters using CW and SSB. Watch for possible 60 meter operations. QSL via K7HC.

V6, MICRONESIA. Dick, AD7AF, will be active as V63WWA from Kosrae Island (OC-059) between July 6-24th. Activity will be mostly CW with some SSB/PSK31/RTTY on 80-10 meters. QSL via AD7AF.

VP2, MONTSERRAT. Frank, K3TRM, is now active as VP2MRM until July 13th. He will be active on all bands 80-6 meters. He is expected to run at least 100 watts on 6 meters, quite possibly 500-1KW if VP2M law permits, into a 5 element yagi. Frank has been spotted over the past weekend on 14260 and 18145 kHz between 1800-0500z. QSL via K3TRM.

VP9, BERMUDA. Remember Ralph/K9ZO and his XYL will be on holiday from here between July 9-16th. He expects to be active as K9ZO/VP9. During his stay he plans to be in the IARU HF World Championship Contest ("a bit" - July 12-13th) and also monitor 30/17/12/6 meters.

XU7, CAMBODIA. Peter, NO2R, will once again return back to Sihanoukville on December 15th. He will also sign as XU7ACY again. Activity will be on 160-10 meters using CW and SSB. An emphasis will be on 80 and 160 meters. QSL via W2EN. No return date was reported at this point in time. ADDED NOTE: Peter will also be active in the CQ 160-Meter CW Contest (January 24-25th, 2009) as a Single-Op entry.

YI, IRAQ. Buzz, NI5DX, reports that Kitch, WD6V, who has been active as YI9WV, has made some 4000 contacts in the log since mid-April. Most of his contacts have been on 40 and 30 meters CW, but he has also been on 20/17/15/10 meters. Kitch has also been active on PSK31 on 20 meters and is expected to try 40 meters. He is going to try to look for the U.S.

East Coast on 40m between 0030-0300z. Kitch will be in Iraq possibly until late November unless he receives an extension. Activity is limited to his free time. QSL YI9WV via NI5DX, by the Bureau or direct (w/SASE & 1 USD/1 IRC).

YV5, VENEZUELA. Members of the Radio Club Venezolano will activate their multiplier HQ station as YV5AJ during this year's IARU HF World Championship (July 12-13th). QSL via the info on QRZ.com.

ZD8, ASCENSION ISLAND (AF-003). Jim, N6TJ, is once again active from here as ZD8Z and will be staying on the island until July 15th. Activity will be on all bands CW/SSB. Look for him to be in the IARU HF World Championship (July 12-13th). QSL via his new manager AI4U, direct or by the Bureau.

ZF, CAYMAN ISLANDS. Operators Verne/W8BLA (ZF1DX) and Tom/K2UFT will be active as ZF1A from Grand Cayman Island (WLOTA LH-1042) during the CQWW 160 CW Contest (January 24-25th, 2009). QSL via W8BLA.

Good day, Quite often around 0600z (2am edt) I'm hearing a very strong AM signal zero-beated right on 14.280. The band can be essentially dead for the most part, but this signal is s5 to s7 and is a broadcast of World Harvest Radio. I know they should not be there. Has anyone else heard this? Just curious if it's a pirate rebroadcasting/simulcasting WHR, or if I'm hearing an exceptionally strong image/hamonic? I'm in northeastern Pennsylvania an hour or so noth of Philly. Thanks and 73 de Tom W3FIK

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

 radio/personal-intro
 Subject: Guide to the rec.radio Newsgroups
 Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
 Last Posted: 9 Nov 2001 06:18:17 GMT
 Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

DXNL 1579 - Jul 9, 2008
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA

EY - TAJIKISTAN

Dane,S57CQ, is now in Tajikistan and is working as EY8/S57CQ during the next weeks. QSLs via bureau to S57DX.

FH - MAYOTTE ISLAND, AF-027

Alain,FH/F6BFH, will be active in CW and SSB from Mayotte (AF-027) between Jul 9 and Aug 9. Special emphasis will be put on the lowbands. Alain confirms QSL cards very reliably via bureau.

FP - ST PIERRE ET MIQUELON, NA-032

Eric,KV1J, and his son Matthew,W1MAT, announced to be QRV as FP/KV1J and FP/W1MAT from Miquelon (NA-032, DIFO FP-002) from Jul 9-14. They plan to work in SSB/CW/RTTY on 80-6m running 100 watts into verticals. Both will take part in the IARU Contest separately as FP/W1MAT (QRP) and FP/KV1J (low power). QSLs via homecalls, direct, via buro or LoTW. Check also their website at: http://www.kv1j.com/fp

HB0 - LIECHTENSTEIN

Bernd,DL6IAN, and his XYL Petra,DO6IAN, will spend their holidays in Liechtenstein from Jul 13-18. They will work as HB0/homecalls mostly in SSB and some CW. QSLs via bureau to their homecalls.

HB0/DL7JAN and HB0/DJ2HD are expected to show up in SSB/CW/RTTY on 80-6m from Jul 15-19. QSLs direct or via bureau to their homecalls.

OJ0 - MARKET REEF, EU-053

Olaf,SM0CKV, Seppo,OH1VR, Markus,OH3RM, Bob,W6RGG, Vicky,AE9YL, and Carl,K9LA, will be QRV with three to four stations simultaneously signing OJ0/homecalls on 10-160m from Jul 11-14. Seppo will be active as OJ0VR and during the IARU HF World Championship Contest (Jul 12/13) they will use the callsign OJ0A. The Market Reef lighthouse has following reference numbers: ARLHS MAR-001, WLOTA LH-0542, TWLHD WLH OJ0-001 and Admiralty C4472. QSLs via homecalls, QSL for OJ0A via OH3RM.

OY - FAROE ISLAND, EU-018

Luise,DL2MLU, Dzianis,DD1LD, Toby,DD5FZ, Wolfgang,DK7MCX, and Ben,DL6RAI, are expected to arrive on the most southern island of the Faroes Suduroy (LH 0990, FAR-001) on Jul 7 to put up a HF station plus 50 MHz in the town of Porkeri. For most of the participants this is the first DXpedition of their life. Porkeri has mountains to the West and is only good for QSOs in Eastern directions so a second QTH will be put up in Sumba (a little more to the South). Both stations will be active on all HF bands (6m only in Porkeri). Due to the midsummer sun they do not expect to make some QSOs on 160m - they have twilight between 2200 and 0300 UTC. Operation is planned as OY/homecalls in SSB, CW, RTTY and digital modes and is scheduled until Jul 16 (including the IARU Contest on Jul 12/13).

SM - SWEDEN

SI9AM (http://www.si9am.se) is activated by Rob,PE9PE, in SSB on 1840, 3760, 7060, 14210, 18160, 21310, 24960 and 28510 kHz until Jul 11. QSLs via SM3CVM, also via bureau or via e-mail request to info@si9am.se

TK - CORSICA, EU-014

Chris,TK/F8DZY, will be QRV from Furiani province (EU-014, DIFM TK-001, WLOTA 1390) from Jul 9 until Aug 3. His IC-706MKII and the G5RV antenna

allow operation in CW and SSB on 40-10m.
Chris confirms QSL cards after his return direct or via bureau.

UR - UKRAINE

Members of the Ukrainian national team will join the IARU Contest as EM5HQ. The QSL manager UR5EAW promises QSLs 100% via bureau and points out that a special award will be issued for at least four QSOs.

VK9/X - CHRISTMAS ISLAND, OC-002

The Spanish-Portuguese DXpedition to Christmas Island announced in last weeks bulletin has been postponed at bit. They are expected to hit the bands from Jul 14-21 now. Check also: http://www.dxciting.com/vk9x

VR2 - HONG KONG

The Olympic Summer Games 2008 in Beijing cast their shadows before and the "Hong Kong Amateur Radio DX Association" (HARDXA) will use the special Olympic callsign VR2008O in SSB/RTTY/PSK31 on 40-6m between Jul 15 and Aug 31. QSLs only direct to: Charlie Ho, PO Box 900, Fanling Post Office, Hong Kong, PR China.

4L - GEORGIA

4L9MR is the callsign of Eugene,UX3MR, staying in Georgia from Jul 8 until Aug 3. He also plans to activate the lighthouse GEO-004.
QSL via homecall, direct or via bureau.

4O - MONTENEGRO

Bill,4O1/ON5JE, will be active on HF from Budva from Jul 9-17.
QSL via ON5JE.

5B - CYPRUS, AS-004

RW3QC will be QRV as 5B4AII in the IARU HF Championship (SOAB/HP).
QSL via RW3RN.

7X - ALGERIA

Mokthar,7X5JF, informs us that for unknown reasons amateur radio has been forbidden in Algeria on the VHF bands, UHF bands, 80m and on 17m.

8Q - MALDIVE ISLANDS, AS-013

The IARU Vice President Tim Ellam,VE6SH, will be active as 8Q7TM on AS-013 from Jul 11-20. He also plans to take part in the IARU Contest.
QSLs via homecall.

SOUTHERN AFRICA ROUND TRIP

John,9M6XRO, is member of the C9 DXpedition scheduled for Jul 16-30 (see next issue). However he will only be part time member of this group because he will be on a round trip through South Africa himself:

Jul 11-13: ZS6/GM3OOK Johannesburg
Jul 14-19: C91XO Mocambique
Jul 19-25: 3DA0OK Swasiland

John works in CW, RTTY and SSB on 160-10m using an amplifier, beams, a four square antenna and verticals for the lowbands.
All QSLs should be sent direct or via bureau to M3SDE.

FRANCE, SPECIAL EVENT STATIONS

The Maritime Festival in Brest and Douarnenez is going to take place from Jul 10-21. TM0BRZ will be QRV during this time and all QSOs will be confirmed via the bureau.

TM5BS will be active during the FIFA Beach Soccer World Cup which takes place in Marseille from Jul 17-27. QSLs via F6KRD.

C9 - MOZAMBIQUE DXpedition - 16 - 31 JULY 2008 - VHF/EME cancelled
LATEST NEWS from Hal, ZS6WB, dated 2008-07-10:
Due to a series of illnesses, mishaps, transportation problems and other circumstances beyond our control the small ZS VHF support group that had planned to join forces with Frosty, K5LBU and his group to expand the C9 DXpedition capabilities have been forced to withdraw at the last minute. I'm sorry, we did our best but one last minute problem after another developed and this has made it impossible for us to meet the commitments we had made to Frosty and the rest of the group to make EME antennas and other VHF equipment available. The HF operation will continue as planned and you can look for the usual big signals on the HF bands from the C9 operators starting up on 16 July. Hopefully our VHF group and our families will be healthy again before the next EME DXpedition in the not too distant future.

During the upcoming CQ VHF Contest the team of KA1LEX, KT1J, WE1P and WX2R will be operating on 6M only from the intersection of FN34-35-44 and 45. The station's footprint will cover all four grids and will comprise a K3, an ACOM 1000 (1 kW), and an M2 7-el yagi @ 45'. Under the call sign WE1P, we will operate in SSB, CW and WSJT. (WSJT sked requests invited). We may also decide to activate our back up/rover station (100W/4 el yagi) with the call KT1J/R. There is no internet access or cellphone service in this remote area of Northern Vermont, near the Canadian border. For the contest only FN45 will count. However, for VUCC/FFMA one contact is sufficient to render it valid for all four grids. The four grids will be shown on the confirming QSL card. This procedure was approved by ARRL's VUCC and FFMA desks on 9 July. Let's hope for some good openings!

30th CLIPPERTON DX CLUB HAMVENTION. This year's event will be in the Poitou-Charente area and more particularly the town of Chasseneuil du Poitou. The meeting will be held on September 19t-20th at the Campanile Poitiers-Futuroscope Hotel. For more information about forum activities including dinners, please visit: http://www.cdxc.org/index-f.htm
ADDED NOTE: Look for the CDXC's special event station TM8CDX to be activated this year from September 6-20th. If possible, a station will be installed Saturday within the hotel. QSL Manager is Rafik, F5CQ.

4L, GEORGIA. Terje, LA3OHA, is expected to be active as 4L7OA until September. He reports that he is working in Georgia and plans to take tours in the Caucasus mountains but will operate on the HF bands during his time there. He welcomes any QSOs with either English, Norwegian or Scandinavian radio amateurs. QSL direct to 4L7OA: Terje Hovde,
P.O. Box 58, 0102 Tbilisi Republic of Georgia.

4W, TIMOR-LESTE. Mike, PA5M, is now active from here as 4W6AAB for about 5 weeks. Activity will be limited to his spare time. Using only a 100 watts and a vertical, he was heard on 20 meters around 14047 kHz between 0530-0615z this past Sunday. His QSL Manager is PA7FM.

8Q, MALDIVES. Hideki, JA2IVK will be active as 8Q7SH between July 18-20th. Activity will be on 80-10 meters CW/SSB using an FT-897 (w/100 watts) into an HF7V. Suggested frequencies are:
CW - 3505, 7004, 10104, 14024, 18074, 21024, 24894 and 28024 kHz
SSB - 3795, 7065, 14195, 18145, 21295, 24945 and 28495 kHz
QSL via JA2IVK, by the bureau or direct to his QRZ.com address.

9G, GHANA. Stefan, DL5XX, will be on a business trip in Ghana and plans to be active during his free time as 9G5MM between July 15th and August 10th. Activity will be on all bands CW. QSL via DL5XX. More info is available at: http://www.rrdxa.eu/9g5mm

9A, CROATIA. Zik, VE3ZIK/DO7ZZ, will once again be active from here with the callsign 9A/VE3ZIK between July 23rd and August 23rd. Activity will be on the HF bands only, CW, SSB, RTTY, PSK31, PSK63 and 10m FM if there are some CONDX. There is a chance to be active for one day from Bosnia-Herzegovina with the callsign E7/VE3ZIK (July 27th or 28th). QSL via DO7ZZ, bureau prefered. QSL request at: zik@tiscali.de
All logs will be uploaded into: http://www.qslnet.de/ve3zik

AN8, CANARY ISLANDS. A group of Spanish and German operators will be active as AN8L from Lobos Island (AF-004) during the RSGB IOTA Contest (July 26-27th) as a Multi-Op/High-Power/DXpedition entry. Operators mentioned are: EA8AUW, EA8BGO, EC8AMI, EC8ADW, DH1TW, DL5RMH, EC4DX, EC4JD, EA4DRV, EA4TD, EA4ATA, EA5FX, EA5KM and EA5AER at the moments.

Their Web site is at: http://www.islotedelobos.com
QSL via EC8AMI, by the Bureau or direct.

ATTENTION JCC COLLECTORS. Individuals who are interested in collecting Japanese cities for the JCC award (Japan Cities-Century Award) will be very interested and happy to hear that the very rare JCC 4614 will be on the air August 9-11th. OPDX was informed that Koh, JH3LBD, will be active from Nishinoomote City during this time. This is also IOTA AS-032. Koh is expected to be on 7021 kHz at 1100z each day. For more details on the JCC, see the following Web pages:

http://ua0sn.irk.ru/en/jcclist.html
http://www.jarl.or.jp/English/4_Library/A-4-2_Awards/Award_Main.htm

C6, BAHAMAS (IOTA Ops). Operators Pete/W2GJ, Ed/K3IXD and Dallas/W3PP will be active as C6APR from Crooked Island (NA-113), Bahamas, as a Multi-Operation/DXpediton entry in the RSGB IOTA contest (July 26-27th). Before and after the contest C6APR (between July 25-28th) will be on 80-10 meters including the 30/17/12m, on CW and SSB. Also before and after the IOTA Contest the callsign C6AXD will be used on 6m and HF RTTY. Both callsigns are good for Bird Rock Lighthouse (ARLHS BAH-005, TWLHD WLHC6-002, WLOTA LH-0118, Admiralty J4792) as well as IOTA NA-113 and Grid Locater FL22tt. All QSLs go to K3IXD, direct with SASE or SAE with 1 USD or 1 new IRC; or via bureau.

C9, MOZAMBIQUE (Update/Reminder). Just a reminder that Frosty's, K5LBU, team will be active this week from Mozambique. They should be on the air starting the night of July 16th through the 30th. They will have 2 complete stations; one for CW and one for SSB. The updated C9 team now consists of the following operators:

Charles F. Frost (Frosty)	K5LBU	- C91CF, QSL via home callsign.
Tom Kramer	NQ7R	- C91TK, QSL via home callsign.
Jay Sewell	W5SL	- C91SL, QSL via home callsign.
John Plenderleith	9M6XRO	- C91XO*, QSL via M3SDE.
Bill Dzurilla	NZ5N	- C91BD, QSL via WA4WTG.
Hal Lund	ZS6WB	- pending*, QSL via M3SDE only
Bob Novak	K0OK	- C91OK*, QSL via home callsign.
Ben Pyfer	DJ0YI	- C91YI*, QSL via home callsign.

* Callsign pending

Activity will be on all bands from 160-6 this trip. They will have a log search on the Web some time after their operations start at:

http://www.tdxs.net/C9.html

CU1, AZORES. Operators Arlindo/CT1EGW, Luis/CT1EEQ, Herm/CT3FN (HB9CRV), Tony/CU2HJA, Antonio/CU8AS, Lutz/DL9DAN and Rudi/HB9CQL will be active as CU1F from the Goncalo Velho Lighthouse (DFP FAZ-013, ARLHS AZO-009, WLOTA LH-2978, Admiralty D2632) on Santa Maria Island (EU-003, DIP AZ-001) between July 21st and August 1st. Activity will be on 80-6 meters using CW, SSB, RTTY and PSK31. They will also be on 6 meters using the callsign CU1B. Look for a beacon on 50.113 MHz. In case of openings, SMS reports can be sent to a cellular telephone. Number will be communicated after arrival on Santa Maria. The group will also participate in the RSGB IOTA Contest (July 26-27th) as CU1T, as a Multi-Single/24hr entry. QSL CU1F and CU1T via CT1GFK, direct or by the bureau. More information is available at:

http://www.to-mk.com/azores/presentation/index.php

CY0, SABLE ISLAND (Update). The 6 meter DXpedition to Sable Island did not go QRT as expected on July 7th due to fog which prevented their airplane from landing. This actually made many DXers happy which gave them four more days of working them on 6 meters. Operators Pete/VE3IKV, Dick/K5AND and Chris/W3CMP did not leave the island until July 12th. Their Web site reports that almost 4,000 QSOs in 60 DXCC entities are in the log for 6 meters. QSL via VE3IKV (please include two green stamps). For details/updates, visit their Web page at: http://www.cy0x.com

E51, SOUTH COOK ISLANDS. Bill, N7OU, informs OPDX that he will again be operating from Rarotonga as E51NOU between September 15th and October 11th. Activity will be on 40-10 meters using low power and CW only. Bill states, "For most of my stay I'll be operating around a work schedule, but I'll make a special effort to be on at grayline times to Europe." QSL via N7OU.

EP, IRAN. Yuki, JH1NBN, is currently active as EP3BN. The length of his stay is unknown. He was heard on 20 meters SSB this past week between 1330-1600z. QSL via his home callsign.

FH, MAYOTTE. Remember that Alain, F6BFH, will be active as FH/F6BFH from now until August 9th. Activity will be on all bands, CW and SSB, but he will pay particular attention to the lower bands.

FRENCH SUB-ANTARCTIC ISLANDS (Attention DXpeditioners). According to Mehdi, F5PFP (FT5ZH), you may be able to activate FT5X, FT5W and FT5Z. He states (edited), "... it is possible to accompany the French staff members to Crozet (FT5W), Kerguelen (FT5X) and Amsterdam (FT5Z) Islands, 4 times per year. The oceanographic and supply ship 'Marion Dufresne' (110 meters long, 110 passengers + 35 crew members) is used to take 10-20 tourists. Each archipelago is supplied and visited (3 to 8 days per island). An amateur radio license can be issued by TAAF administration to any citizen belonging to one of the CEPT countries. They are allowed to operate under FT5X, FT5W, FT5Z /(own callsign) without submiting any request. That trip costs 6500 Euros, of course it is expensive but it's a trip to paradise....flying over Amsterdam and Kerguelen by helicopter is unforgetable, beleive me..... Next rotations, from Reunion Island, then returning back to Reunion Island are: November 3th to December 1st (2008) and December 3th to December 31th (2008). The 2009 calendar will be soon available."

GI, NORTHERN IRELAND (IOTA/Lighthouse Op). A group of Irish operators will be active as GI0MPG from Rathlin Island (EU-122) in the upcoming IOTA Contest (July 26-27th). Operations will be from the Rathlin East Lighthouse (ARLHS NTI-011). Operators mentioned are: Declan/EI9HQ, Joe/EI7GY/GI0MPG, Sean/EI4GK, Pete/EI4GZB and Peter/GI4VIV. QSL direct or by the Bureau to GI0MPG.

IOTA NEWS.....................

EU-008. Members of the Kilmarnock and Loudoun ARC will be active as GM7A from Kerrera Island, Scotland, during the upcoming RSGB

IOTA Contest (July 26-27th).

EU-052. Luc, OT6T, will be active as SV8/OT6T/p from Kerkyra Island (Corfu Island, MIA MG-055, also counts for WLOTA LH-4132) between July 19th and 28th. Activity will be holiday style on 80-10 meters SSB. QSL via his home callsign, by the bureau or eQSL.

EU-120. Charlie, M0OXO, will be active as GB0LMI from Holy Island/ Lindisfarne (WW Loc. IO95CQ, WAB NU14) from July 18-20th. This operation will also count for Lindisfarne Castle (CASHOTA reference G-142). Look for activity on the HF bands. QSL via his home callsign.

LIGHTHOUSE/LIGHTSHIP ACTIVITY (ILLW - August 16-17th)........
Members of the Kungalv Radio Club (SK6NL) will once again activate 7S6LHT from Vinga Island (EU-043, ILLW SE0028, WLOTA LH-1517) during the International Lighthouse Weekend (ILLW), August 16-17th.

Look for the following Danish lighthouses to be activate during the International Lighthouse Weekend (ILLW), August 16-17th:

5P0MF/LH - From Nordborg, Isle of Als (Not IOTA). The grid locator is: JO45UC. Lighthouse reference numbers: JY-001, DK0006 and DEN-029. QSL via DH1LAO, direct (see QRZ.com) or by the DARC Bureau.

5Q3R/LH - From Romsoe Old, Romsoe Island (EU-172). The grid locator is: JO55JM. Lighthouse reference number: DK0008. QSL via OZ Bureau.

OZ0MF - From Nordborg, Isle of Als (Not IOTA), The grid locator is: JO45UC. Lighthouse reference number: DEN-029 and JY-001. QSL via DH1LAO, direct (see QRZ.com) or by the DARC Bureau.

Members of the Kerry Amateur Radio Group will be active as EI1KARG from the Cromwell Point Lighthouse (ARLHS IRE-077, ILLW IE0001, WLOTA LH-2484), Ireland (EU-115), for the International Lighthouse/Lightship Weekend (ILLW) (August 16-17th). QSL via EI9FVB, direct or by the bureau.

Peter, MM5PSL, will be active as GB2ELH from the Eshaness Lighthouse on Shetland Islands (EU-012, ARLHS SCO-075, ILLW UK0058, TWLHD WLH GM-026, WLOTA LH-0867, Admiralty A3838) during the International Lighthouse Weekend (ILLW), August 16-17th. QSL via MM5PSL.

Operators Loet/PJ2LS, Andre/PD1DRE and Mark/PJ2GT will activate PJ2LS/LH from "Light Punt Kanon" (ARLHS NEA-009, WLOTA LH-0942, WW Loc. FK52PB) on the Island of Curacao (SA-006) during the International Lighthouse Weekend (ILLW), August 16-17th. The grid locator is: FK52PB. The lighthouse is solar powered, no electricity is available in the area; therefore it will be a fully "self supporting" activation by using generator power. A special lighthouse event QSL card will be available by sending your QSL to PD1DRE. For Bureau QSLs, please write "PD1DRE QSL Region Number R23" on the backside of the card. This will allow an easier sorting of the cards by the Dutch QSL Bureau.

MAGIC BAND COMING ALIVE! John, N4MM, announced on one of the DX mailing lists that (edited) "On the evening of July 10th, I noticed stations in the midwest working JAs on 6m but could not hear the JAs. At 2247z, I heard JA7QVI come out of the noise and after several tries, I worked him. The first JA on 6m in 19 years. Hearing and working JAs from this far east and north is very difficult at best. The JA7 was the only station I heard. Hope there is more of this to come on 6m this year."

N3, UNITED STATES. Look for special event stations N3G and N3G/AM to be on the air October 18th. Activity is to commemorate the 69th anniversary of USCG Auxiliary. Suggested frequencies are: 7.0035, 14.055, 50.135 and 146.520 MHz. Look for N3G/AM to be on 6 meters between 1300-2200z on 50.135 MHz. Equipment is an IC-706MKIIG and wire antenna. QSL via N3CJM: Robin M. Begley, 3 Pancoast Ave, Aston, PA 19014-2109.

ON1708, BELGIUM. Members of the Oudenaardse Amateur Club (ON4OB), a section from the U.B.A, will use the special callsign ON1708M between July 11th and until end of the year. Activity is to commemorate the battle held in their region on July 11, 1708. This conflict is known as the War of the Spanish Succession which lasted from 1701 until 1714. QSL via ON5TN. For more details, see: http://www.qrz.com/callsign/ON1708M

PJ2, NETHERLANDS ANTILLES. Hans, PB2T, will be active as PJ2/PB2T from Curacao (SA-006) during the RSGB IOTA Contest (July 26-27th) as a Single-Op entry. QSL via PB2T.

QSL EF8U via EA4URE. This was a URE HQ station in the IARU Contest this past weekend. Operators mentioed were: EA8AH, EA8ZS, EA8BVX, EA8CMX, EA8KK, EA8CAC, EA2EA, EA5BM and possibly others.

QSL PH6Q via PA3CAL. The special callsign PH6Q was issued to PI4HQ, the HQ station off the VERON Traffic Bureau. Using this special PH6Q callsign, The Netherlands' National Society VERON was represented in this year IARU HF Championship Contest as a Multi-Multi Headquarter entry. Apart from the competition, it was an unique team effort by major contest stations from The Netherlands who normally compete with each other. In total 12 stations were on the air during the entire contest, CW and SSB simultaniously on each band. The 2008 PH6Q signals came from the following stations of PI4CC, PI4ZI, PA0IJM, PA3GCV, PI4D and PI4COM. A special PH6Q Award is available for stations working PH6Q on six (6) bands, 10/15/20/40/80/160 meter, on any mode you want. More info is available at: http://ph6q.veron.nl

LOTW NETS. Neil, W3ZQI, reports, "The first weekly 'Logbook of the World Net' (LOTW-Nets) is now in operation. Meeting each Monday evening at 2359z (i.e. Monday evening 7:59pm. EDT), this net meets on 14.270 MHz (increment +5 as required if QRM). Additional frequencies and dates are proposed. The LOTW DX and WAS nets are to help awards chasers find needed DX and WAS stations that are willing to QSL via the ARRL's 'Logbook of The World' system. This net and E-mail group are open to all amateur radio operators that are willing to QSL via LoTW. Netlogger is used (optional)." The whole purpose of the nets are: "Work those needed band/entities and have confirmations usable toward ARRL awards in hours, not months or years." Reference Web pages are:

QSLS RECEIVED VIA MAIL: 9A2AJ, FO/KHOPR, OA4BHY/3, T88CQ, TC2T, UE6MAC/1, VP6PR YC7IPZ, YC8RSW/P and ZK2CC

QSLS RECEIVED VIA THE BUREAU: NONE REPORTED THIS WEEK!

SV9, CRETE (EU-015). Tomas, OK2PTZ, will be active as SV9/OK6Y during the RSGB IOTA Contest (July 26-27th). QSL via OK2PTZ.

TK, CORSICA. Nicolas, F5TGR, will be active as TK/F5TGR from Porto Vecchio, August 9-23rd. Activity will be on 40-10 meters CW/SSB. Also, look for some possible activity from some coastal islands. QSL direct or by the bureau.

V2, ANTIGUA (NA-100). A team of operators will once again activate the V26B super station at Gunthroppes, during the CQ WW DX SSB Contest (October 25-26th) as a Multi-? entry. QSL via LoTW, or direct to KA2AEV.

VK0, ANTARCTICA. Bob, VK2MRP, announced this past week that he will be active at the Antarctica Davis station during the 2008-2009 summer. He states, "I do not have my VK0 callsign yet but am hoping to have it organised in the next couple of weeks as well as a new home call (I just upgraded my licence)."

VK9C, COCOS (KEELING) ISLANDS (OC-003). The "425 DX News" is reporting that Giovanni, I5JHW, will be active as VK9CJW from here between August 22-29tht. His operation will be holiday style but with activity on 40/20/17/15/12/10 meters using SSB and RTTY. He will be using an amplifier and a multi-band vertical antenna. QSL via home callsign, direct or by the bureau.

VK9D, WILLIS ISLAND (DXpedition Update). There is a new press release (#4) dated July 10th, on the new VK9DWX Web site at: http://www.vk9dwx.de It is fairly long, but in short it states that the team plans to install 2 camps on the island with 2 stations each. There might be an additional 5th station for spare and for Pactor connection to upload the online log, pictures and news to their Web site. By the end of July, they will be sending their first pile of equipment via sea cargo. The team has decided to take 6 meters. They state, "As we don't have enough people to man a separate station on 6m, we plan to install CW Skimmer on a separate radio which is always on stand-by. If there will be any signal on the band, we will get notice of it via our network and can easily man the 6m station." They have also mentioned that they have decided to charter a second boat which will deliver some more fuel to the island, necessary for continous operation during their planned extended timeframe. The only purpose of this second boat until now is to bring fuel, fresh food, drinks and maybe needed equipment to Willis Island. As there is a place for 16 people on this boat they thought: "Why not offer a a four day trip to visit VK9DWX?" Yep, you can have a chance to see the guys operate during their October VK9DWX DXpedition. Complete details are available on the above Web page.

VK9X, CHRISTMAS ISLAND (OC-002). By the time you read this, the "DXciting Group" should be active from here until July 21st. Operators and their callsigns are as follows: Marq/CT1BWW (VK9XWW), John/EA3GHZ (VK9XHZ), Henry/EA5EOR (VK9XOR) and Dina/EC5BME (VK9XME). The group plans to have 3 stations operational (1 high-power and 2 barefoot at 100w) on 160-6 meters using CW, SSB, RTTY, PSK31 and SSTV. They plan to be on 6 meters using CW, SSB and FM. Listen to 50.115 MHz. Pilot stations for the following regions are:

Africa - ZS1AU   Oceania   - ZL2AL and VK2CZ

Asia - JA8BMK, North America - K4SV
Europe - EA4TD

QSL via EA4URE, direct or by the bureau. The official VK9X Web site is at: http://www.dxciting.com/vk9x

ZF2BI/ZF2ZD 6 METER DXPEDITION WRAP-UP REPORT. Mario, K2ZD (ZF2ZD), informs OPDX readers: "Summary totals from our 6M DXpedition from Grand Cayman Island before dupes, 750 QSOs with 29 DXCC. First ZF 6M EME contacts with W7GJ (2), W1JJ and VK4ABW. Heard JR6EXN, G4IGO and K6MYC via 6M EME but did not complete the QSO. First ZF JT6M QSO with W5UWB and First ZF FSK441 QSO with N5SIX. Longest Sporadic E QSO was with Hungary at 5700 miles. Hope we gave a new one on 6 meters to many stations, thanks for all the fun. 73, Mario ZF2ZD (K2ZD)"

ZF, CAYMAN ISLANDS. Operators Don/W4YCH (ZF2DF) and Jim/W4JO (ZF2JO) will once again participate in the CQ WW RTTY DX Contest (September 27-28th) as ZF2DF from the ZF1A club station on Grand Cayman (NA-016). Look for activity outside of the contest. They will be using their own callsign. QSL all contacts via W4YCH.

ZK2, NIUE (OC-040). David, N1EMC, will be active as ZK2DF from October 24-31st. Activity will be on 40 meters, 20-6 meters. He plans to be in the CQWW DX SSB Contest (October 25-26th) as a Single-Op/All-Band entry. QSL via N1EMC.

ZS8, MARION ISLANDS (New Update!). There is still no activity reported. However, Rhynhardt, ZS6DXB, ZS8T Press Officer, reports (edited), "We are all patiently awaiting Petrus to activate ZS8T. We are not in the position to promise any dates currently and are crossing fingers that we will be able to bring a full report soon. For the time being, guys, please be patient as we all await the activation of ZS8T. 73" For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

Hallo dear MMMonVHF friends,

please find below the NEWSLETTER of "Make More Miles on VHF" the VHF-DX-Portal, dated 2008-07-15.

We attempt to distribute the NEWSLETTER one or two times per week. For more details, please be so kind and refer at the "NEWS"-page http://www.mmmonvhf.de/latest.php and check for the latest NEWS (last 24 hours lines blinks / up to 3 days lines marked orange):

****
Latest NEWS/INFO for the NEWSLETTER - MMMonVHF The VHF-DX-Portal
****

New TOOL at the MMMonVHF "LATEST NEWS" "REVIEW" and "QSL" Pages! A news "Search function" was implemented at our News/Reviews/QSL pages. Because of the lot of different informations there is the need to work with filters and other tools to still hold an overview. Just a small add-on implemented past days. You are now able to search thru our databases of the News / Reviews / QSL sections. Just go to the LATEST NEWS PAGES (http://www.mmmonvhf.de/latest.php) and in the first "grey Toolbar" you will find: "Search News by Callsign or Locator". Put in a call or locator you are searching a NEWS at and click on "Search" - it will use ALL ACTIVE NEWS (undependant from EVENT or EXPEDITION Filter Settings!) - same work at QSL and REVIEW Pages! We do hope this is helpfull tool for some of you and be a step more to have a good overview on those lot of informations...

ALGERIA ---> According to Mokthar, 7X5JF the Algerian authorities have suspended until further notice operating privileges for the use of 80 and 17 metres, as well as VHF and UHF. The information has been relayed by Mustapha, DL1BDF. [TNX F5NQL] - Strange will be, that 7X2GF and 7X2RF (both JM16) could be worked past week (6th tp 11st july) at the good tropo opening on VHF (144 MHz) in SSB. QSOs have been done without any notice of restriction! Guy, EA5/DL8EBW (see log: http://www.mmmonvhf.de/tr.php?year=2008&month=07&day=10)

After missing the ARRL June Contest this year (family and emergencies trump contesting) I'm planning on making up for it during the CQ WW VHF .... It'll just be DM12, not necessarily rare, but the current plan is to run long boom antennas on both bands - possibly stacked for the long haul stuff, and then smaller yagis and vertical omni's for the "close in" stuff. All modes and Digital are planned ... Almost all of Arizona and the western parts of Nevada are relatively easy targets, up north in California to Sacramento is a bit harder but not too bad even without any propagation ..   If I get a pair of 'JHV's up as planned, six could be very interesting ... de kg6iyn

C9 - Mozambique: Another DXpedition to Mozambique was prepared by Frosty, K5LBU/C91CF, to take place July 16th through 30th. With Frosty are this year: Bob, K0OK (C91OK), Tom, NQ7R (C91TK), Jay, W5SL (C91SL), Bill, NZ5N (C91BD, QSL via WA4WTG), John, 9M6XRO (C91XO, QSL via M3SDE), as well as Ben, DJ0YI (C91YI). They will have three stations running simultanously on CW, SSB, and PSK/RTTY on 160 through 6 m. They will use 4-square-arrays for 40 and 80 m, and a 22 m vertical for 160, 80 and 30 m. QSL via the home calls. They will also be on EME (6 m through 70 cm) and satellite. Online logs will be available on www.tdxs.net/C9.html after the activity.

EP - Iran: Yuki, JH1NBN, currently is found as EP3BN. There was no news about the time frame. Find him on 20 m SSB between 1330 and 1600 UTC. QSL via home call.

JW - Svalbard: July 15th through 20th JW/ON6TI will be active in his evening hours mainly. There was no information about bands and modes. QSL via home call.

VR2 - Hongkong: "Hong Kong Amateur Radio DX Association" (HARDXA) will use the special call VR2008O during the Olympic Games on 40 through 6 m with SSB, RTTY and PSK31 in the July 15th through August 31st time frame. QSLing will be direct only by VR2XMT, Charlie Ho, P.O. Box 900, Fanling Post Office, Hong Kong. Have alook at the QSL on www.qrz.com/vr2008o .

SV9 - Crete: Find Dimitris, SV9/SV1JB, to be active from Kokini Hani, (EU-015) on CW, SSB and PSK31 using 10 through 80 m July 21st through August 7th. QSL via home call, direct or via bureau.

TF - Island: Look for Franz, DL3PS, visiting Vestmannaeyjar Island (EU-071), Costal Islands (EU-168) and the main island EU-021. Visit www.iceland-dxpedition.de/ for more informations.

4L - Georgia: 4L7OA is Terje, LA3OHA, staying in Caucasus through September 2008. He will use several bands and looks for QSLs during his time there to Terje Hovde, P. O. Boks 58, 0102 Tbilisi, Georgien.

4W - East-Timor: Mike, PA5M, is on duty for the United Nations in East-Timor for five weeks reactivating his ex-call 4W6AAB for the few hours off duty. QSL via PA7FM.

8Q - Maldive Islands: July 18th through 20th you may find Hide, JA2IVK, as 8Q7SH using a YAESU FT-897 (100 Watts) and HF7V-J aerial. Prefered frequencies are: CW - 3.505, 7.004, 10.104, 14.024, 18.074, 21.024, 24.894, and 28.024 MHz;
SSB - 3.795, 7.065, 14.195, 18.145, 21.295, 24.945, and 28.495 MHz.
Hide will QSL when back home, direct or via JARL-QSL-Bureau.

9G - Ghana: Stefan, DL5XX, is on a business trip to Ghana July 17th through August 10th and will be active on CW on all bands as 9G5MM. Equipment is IC-706 and 1 kW power amplifier, G5RV-antenna and a 12 m fiber pole. Find further informatin with www.rrdxa.eu/9g5mm .

Belgium, special call: The Battle of Oudenaarde took place July 11th 1708 during the Spanish war of succession. Special event station ON1708M will be active for this event July 11th until the end of the year. QSL via ON5TN.

French Subantarctic Islands: According to news from Mehdi, F5PFP (FT5ZH), there is a possibility offered now for an easy access to FT5X, FT5W, and FT5Z. 'Marion Dufresne', a ship well known from several DXpeditions now is open to be booked by ten to twenty tourists. The ship will stop at Crozet (FT5W), Kerguelen (FT5X) and Amsterdam (FT5Z) for three through eight days each. Operators from CEPT countries will get their permission easily from the licence administration "TAAF" and will use FT5X/, FT5W/, FT5Z/home call. With 6.500 EURO it is not a cheap trip but the outstanding copter flight on Amsterdam and Kerguelen is included. The next voyages from Reunion will take place November 3rd November through December 1st 2008 and December 3rd through 31st 2008. Time scedule for 2009 will be published soon.

The MMMDXBlog is an experimental two-way communication tool for information exchange between DXpeditions and other hams with very low traffic (329 byte at refresh without news). It's working with a (Windows) client application by the DXpedition. You might have seen using DXPeditions (like DJ8MS and others) these kind of Tool for spreading their LOG and communicate to others (2-way). So you are of course welcome to use it on your own trips as well! A short info to us (use the Form: http://www.mmmonvhf.de/kontact.php) and we will pass you all necessary stuff - more infos about the latest version (1.2) of the MMMonVHF DXBlog at our FORUM:

On behalf of the WSJT/WSPR development group, I write to let you know that new program versions implementing the WSPR QSO mode are now available.
1. If you are a WSPR user, you should upgrade to version 1.0 as soon as possible. Its operational features are changed very little...
You can download WSPR 1.0 (r972) from
http://physics.princeton.edu/pulsar/K1JT/WSPR100.EXE
2. To make WSPR-mode QSOs you must install WSJT Version 7, which is now being made available as a beta release. You can download it from
http://physics.princeton.edu/pulsar/K1JT/WSJT700r973.EXE

W3DHJ/r CQ WW VHF DM87, DM88, DM77, DM78 during the CQ WW VHF Contest
I'll be a'rovering in the contest this weekend.From the opening gun on Saturday, I'll do DM88, DM87, DM77, DM78 - in that order - for 6-7-8 hours -- more if CONDX (snort - snert!!) warrant. I will rover out of my driveway late on Sat eve if there's prop. Big Deal: DM78. On Sunday I will do it all again. But, I'll be reversing the order: DM78, DM77, DM87, DM88 -- starting around 1200-1300 and sticking it out to the E-O-C. This'll be a opportunity to confirm one of "The 24 Most Wanted Grids" - DM87: http://www.arrl.org/awards/ffma/Most_Wanted_Grid_Survey.pdf

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR-LESTE. Jose, CT1ERC, was heard this past weekend signing 4W6UTL on 20 meters SSB (14195 kHz around 0329z and 0800z). He is expected to be there until early August. QSL via CT1ERC.

5Z, KENYA (IOTA Op). Antonio, IK8VRH, will be active as 5Z4/IK8VRH from Malindi, time permitted, in August. Operations will be from the Coast Province North Group (AF-040) between August 15-17th and the Coast Province South Group (AF-067) between August 20-22nd. Enrico, 5Z4ES, will be with him. Activity will be on 40/20/17 meters using CW/SSB/RTTY. Equipment will be a FT450AT with a Sommerkamp 300watt PA, Bubbledipole, Zx Mini Beam,-USB II MicroHAM and MiXW.

A3, TONGA. Paul, A35RK, informs OPDX that he just received a SignaLink USB interface and software package for digital modes (RTTY, PSK, etc), courtesy of Mike, K6BR. He hopes to be active on some of the digital modes sometime this week. Paul states, "I haven't been on the digital modes for years, so please be patient with me while I attempt to teach an old dog some new tricks.... HI" BREAKING NEWS: A35RK is now QRV on the digital modes as of 2200z, July 19th. He worked many stations on PSK31 and a couple on RTTY (he stayed away from RTTY, because there was a contest on). Look for him to be active on 20m and 17m digital, as time permits.

AM8/AN8/EH8, CANARY ISLANDS (Update/IOTA Op). Operators from the RSGB IOTA Contest 2005 (3V8SM Djerba Island) and 2006 (ED7SPI Sancti Petri Island) operations will use the following callsigns and activate Lobos Island (AF-004) and lighthouses in the Canary Islands between July 22-29th:

AN8L - From Lobos Island (AF-004) during the RSGB IOTA Contest (July 26-27th).Reference numbers are: IOTA AF-004, DIE S-008, ARLHS CAI-005, WLOTA 0155, FEA D2786 and DME 35014.
AM8IL - From Lobos Island and Punta Martino Lighthouse (possibly the first time activated). Reference numbers are: IOTA AF-004, DIE S-008, ARLHS CAI-005, WLOTA 0155, FEA D2786 and DME 35014.
EH8RDB - On July 25th; Islote de Barrieto (Barreto Rock). Reference numbers are: DIE: S-117, IOTA: AF-004 and DME: 35014.
EH8VCL - On July 24th and 27th; Vertice Geodesico (Caldera de Lobos). Reference numbers are: Spanish Bench Mark Award DVGE: VGGC-035, DME: 35014, IOTA: AF-004 and DIE: S-008.

The Lobos Island is located in the Atlantic Ocean, north of Fuerteventura Island and is uninhabited. Operators mentioned are: EA8AUW, EA8BGO, EC8ADW, EC8AMI, DH1TW, DL5RMH, EA4DRV, EA4TD, EA5AER, EA5FX, EA5KM and EC4DX. They state it took several months of hard work to get the right permits, but they thank the Canary Islands authorities. Activity will be on 160-6 meters including 30/17/12 meters using CW, SSB and RTTY. They plan to have at least 3 or 4 stations active at the same time in two different camps, as well as a portable station for EH8RDB and EH8VCL. QSL via EC8AMI, by the Bureau or direct. Their Web site is at: http://www.islotedelobos.com

BX5, TAIWAN (AS-020 - RARE CONTEST IOTA). Jimmy, BX5AA, will be active during the RSGB IOTA Contest (July 26-27th) as a Single-Op/All-Band/High-Power entry. QSL via BX5AA.

C5, THE GAMBIA. Niels, OZ8KR, will once again be active from here in 2009. He mentions that his license is good one year and he will be active as C56KR between January 9-14th and again (after his trip to Senegal) between January 23rd and February 4th. Activity will be on 40-10 meters SSB using a FT-857 and wire antennas. His QTH will be Bakuto on the Atlantic Ocean. Niels states that his travel plans are booked with a Hotel/apt. The transceiver is already in The Gambia. QSL via his home callsign OZ8KR.

C9, MOZAMBIQUE (Update). Frosty's, K5LBU, team was very active this past week from Mozambique. They should be on the air until July 30th. Frosty reported that Hal, ZS6WB, had an accident with his car and has no transportation to C9, so regretfully there will be no EME or 6 meters this trip. The C9 team now consists of the following operators:

Charles F. Frost (Frosty)	K5LBU	- C91CF, QSL via home callsign.
Tom Kramer	NQ7R	- C91TK, QSL via home callsign.
Jay Sewell	W5SL	- C91SL, QSL via home callsign.
John Plenderleith	9M6XRO	- C91XO*, QSL via M3SDE.

Bill Dzurilla NZ5N - C91BD, QSL via WA4WTG.
Bob Novak K0OK - C91OK*, QSL via home callsign.
Ben Pyfer DJ0YI - C91YI*, QSL via home callsign.
* Callsign pending

Activity will be on all bands from 160-6 this trip. They have a log search on the Web at: http://www.tdxs.net/C9.html

C9, MOZAMBIQUE. Operators ON4AEO, ON7BK, ON4CJK, ZS6GC, ZS5AYC, ZR6APT, ZS6IMO, VK4AHT, VK4EMH and possible others will be active as C91FC next year in April 2009 (possibly between 8-17th). QSL via ON4CJK. More details will be forthcoming and a Web page will be online in January 2009 at:
http://www.c91fc.be

CN, MOROCCO (IPA Op). Gab, HA3JB (SU8BHI), reports that he now has a new license from Morocco. Look for him to be active as CN2IPA between September 21st and October 5th. Activity will be good for the International Police Association Award (IPA). He plans to be on CW, RTTY, PSK, SSTV and some SSB, as well as an entry in the 2008 CQ DX RTTY Contest. QSL via HA3JB: Gabor Kutasi, H-8601 Siofok, P.O.Box 243, HUNGARY, EUROPE.

CU2, AZORES. Operators Toni/OH2UA and Martti/OH2BH will be here doing some antenna work and will occasionally appear on the bands between July 21-28th. In the RSGB IOTA Contest (July 26-27th), they will activate CU2A. QSL via OH2BH.

DXCC NEWS (2007 DXCC Honor Roll List). Bill Moore, NC1L, Awards Branch Manager, reports: "Upon receiving the August issue of QST it was discovered that some Honor Roll members were incorrectly listed, mostly from numbers from their previous submission, while a couple were not listed at all.

We apologize for this and as soon as we have a handle on those who were not properly listed, a correction will be published in QST later in the year. (Issue to be determined once we have all the information).

If you notice an incorrect listing, please send an E-mail to dxcc@arrl.org to be placed on the list for the corrected listing. Remember that the period for this listing is from January 1 through December 31, 2007 only, the prior period of April 1 through March 31 has been changed."

EA6, BALEARIC ISLANDS. Andre, LX1FX, is expected to be active from Minorka Island (EU-004) between July 22nd and August 15th (possibly one week longer). Activity will be on the HF bands and 6 meters as well as 70, 144 and 432 MHz. Modes will be CW, SSB, as well JT6 via MS. Andre's equipment is an ICOM 7000, OZ xvrtr/4m - dipole antenna for VHF and a "Fieberglaasstab" on the HF bands. He will be on stand-by with an Marine-TRX ICM-710M on 14.333 MHz and 10.133 MHz (0900z).

FJ, ST. BARTHELEMY. Sam, FG5ED (ex-FG7AS, FK0AT, YJ0KMS), will be active from the St. Barthelemy Radio Club station FJ5KH between July 21-31st. Activity will be mainly CW. QSL only direct to: Sam Sahai, Ch. GODEAU, 13 Avenue Buckeburg, F-72300 Sable, FRANCE.

GJ, JERSEY (EU-013). Members of the Bristol Contest Group (G6YB) will be active as GJ6YB during the RSGB IOTA Contest (July 26-27th). QSL via

G3SWH.

HD2, ECUADOR. The HD2A Contest team will be joined by some JA operators in this year's CQWW DX SSB Contest (October 25-26th) as a Multi-Single or Multi-? entry. QSL route TBD.

INVALID OPERATION LIST. Tony, EA5BY, informs OPDX that some members of Lynx DX Group have created a list of "invalid operations" for the different amateur radio awards; especially DXCC. They are looking for some help to keep the list complete and updated. Any information is highly welcomed and can be sent to: info-dxcc@lynxdxg.com
They would also like to scan every QSL of every callsign that is listed and help with this is also welcome. The Web site is fully operational at:
http://www.lynxdxg.com/novalidas/novalidas.htm

IOTA NEWS.......................

AF-019. Operators Sal/IT9HUV and Joe/IT9RBW (and family) will be vacationing on Lampedusa Island (IIA AG-001) between August 1-7th. They will be active as IG9/homecall on 40/20/15/10 meters using RTTY and CW. They will use an Icom IC756ProIII into a Multi-band dipole and MP1 antennas. QSL via IT9DQM.

EU-008. A group of operators from the West of Scotland ARS will be active from the Isle of Colonsay during RSGB IOTA Contest, July 26-27th. Two contest callsigns will be used - GM2Z (CW) and GM4A (SSB). A separate station will be working PSK outside of the contest; the callsign is MS0EPC (www.eu.srars.org). At the moment their team consists of MM0DFV, GM0WRR, MM0GDL, GM4TOQ, GM7WED and MM3LKV. A couple of other operators may join them. QSL cards for both contest stations and MS0EPC should be sent to MM0DFV.

EU-008. Members of the Cockenzie and Port Seton Amateur Radio Club (CPSARC) will once again operate from the Isle of Tiree (IOSA NH04, WAB NM04), the most westernly part of Scotland's Inner Hebridean Islands, during the RSGB IOTA (Islands on the Air) Contest which runs from 1200z, July 26th to 1200z, July 27th, using the club's special contest callsign GM2T. Pre-contest activity members will be signing as MM0CPS/P. CPSARC heavily supports newcomers to their wonderful hobby and has a large number of newly licensed members who are actively encouraged to participate in their contest effort, whether experienced or not. This way not only does their hobby benefit from new operators, but contesting benefits as they invariably become bitten by the contest bug. This year's team consists of: Cambell/MM0DXC, Bob/GM4UYZ, John/MM0JXI, Brian/M0RNR, Gary/MM0FZV, Moe/MM0MRM, Geoff/MM5AHO, Ellis/GM4GZW, Bob/GM4IKT, Jim/G3VOU, Jonno/M5FUN and Duncan/MM0GZZ. QSL GM2T via the Bureau, or their QSL Manager GM4UYZ, by the Bureau or direct. Details are available at:
http://www.qrz.com/gm2t
For details about CPSARC, visit their revamped Web site at:
http://www.cpsarc.com

ADDED NOTE: This is the club's 10th anniversary on the island, and the team would like to express their gratitude to all the islanders who have looked after them over the years, but in particular to Elaine Hutchinson of Elephants End Restaurant (www.elephantsend.com) for her unrivalled support and hospitality over the last 10 years.

EU-008. Members of Sands Contest Group and Workington Amateur Radio Society are combining to activate the Isle of Jura, from September 22-29th. They are hoping to be active on all modes and bands as conditions allow. The Sands Contest Group has previously activated Mull in 2006 and Workington Amateur Radio Society has had several activations, the last of which was Barra Island in 2007. More information as it happens can be found on the Sands Contest Group blog at:
http://m0scg.blogspot.com
This blog will have daily updates during the activation. They hope to work as many stations as possible. There should also be some SOTA activation during the week.

EU-028. Look for IA5K to be active from Elba Island during the RSGB IOTA Contest (July 26-27th). QSL via IZ5BTC.

EU-030. Operatprs Roald/OZ1BLO and Karl/LA8DW will be active from Bornholm Island (DIA BO-001, WLOTA LH-2203), July 21-26th. Activity will be on 80-10 meters using CW, SSB, RTTY and PSK31. QSL via bureau.

EU-041. Look for Jack, IZ3DBA, to be active as IM0/IZ3DBA from Maddalena Island during the RSGB IOTA Contest (July 26-27th). QSL via his home callsign.

EU-055. Operators Trond/LA9VDA and Bjorn/LA5UKA will be active as LA6Q from Vagsoy (WLOTA LH-2181) between July 26-30th. Look for them to be in the RSGB IOTA Contest (July 26-27th). They will also use the special callsign LA2008TSR (to celebrate the 2008 Tall Ships Race). QSL info for both callsigns can be found on QRZ.com.

EU-072. Laci/HA6NL and some friends will travel to Skopelos Island, Greece, and be active as SV8/homecall between July 21-31st. During the the RSGB IOTA Contest (July 26-27th), they will be using J48 callsigns as follows: J48NL (Laci/HA6NL), J48JJ (Al/HA7JJS), J48P (Laci/HA7PL) and J48PS (Zsolt/HA6PS). Activity is planned for all HF bands and 6 meters. QSL via the HA QSL Bureau or direct to their home callsign.

EU-091. The Strange Radio Team - Headquarters will be active from Sant'Andrea Island as IQ8OM/7 during the RSGB IOTA Contest (July 26-27th). QSL via IZ8EDJ.

EU-099. Members from GB8LMI and MJ0X will be active from Les Minquiers Islands during the RSGB IOTA Contest (July 26-27th). QSL via M3ZYZ.

EU-124. Look for GB2CI or GW3SVJ/P to be active from Caldey Island (WLOTA 4056), September 2-8th. QSL via G8ATD.

EU-127. Felix, DL5XL, will once again be active as DL5XL/p from Helgoland Island, during the RSGB IOTA Contest (July 26-27th) as a Single-Op/CW-Only/24-Hrs entry. This is Germany's only off-shore island in the North Sea. The reference numbers are as follows: IOTA EU-127 (Schleswig-Holstein State South West Group), DID N-14, DOK E20 (Insel Helgoland), Grid JO34WE, LDK PI, POAR DL-107, Helgoland Lighthouse (about 750m from his QTH): ARLHS FED-101 and WLOTA 0518. QSL cards will be sent via the Bureau. For a quicker reply, direct requests with return postage (1 IRC) can be mailed to: Felix Riess, Suederortsweg 3, 27628 Sandstedt, Germany.

EU-132. Operators Przemek/SP7VC and Adam/SP8RX will be active as SP7VC/1 and SP8RX/1, repsectively, from Wolin Island, Poland, during the RSGB IOTA Contest (July 26-27th). QSL SP7VC/1 via SP7VC and SP8RX/1 via DJ0IF.

EU-142. Operators EA3NT, EC2ADN, EA1RC, EA1DR, DD1MAT and EA2DCF will be active as EE1MI from Mouro Island during the RSGB IOTA Contest (July 26-27th). QSL via EA1DR.

EU-146. Operators Jeroen/PD5CW, Will/PE1OPM and Manfred/PE1OXV will be active from Schouweduivenland Island during the RSGB IOTA Contest (July 26-27th).

EU-175. Joao, CU6AY, will be active as CU6AY/p from Pico Island (DIP AS-006, WLOTA LH-1321) between August 12th and September 4th. He will also activate for the first time the Natural Reserve of Montanha do Pico for the World Flora Fauna - WFF Award (CTFF-045 CU). QSL direct to his home callsign (see QRZ.com).

EU-178. Peter, YL2PN, will be active as ES0/YL2PN from Ruhnu Island (WLOTA LH-4244), July 23-27th. Activity will include the RSGB IOTA Contest (July 26-27th). QSL via his home callsign, direct or by the bureau.

NA-031. Mark, KO1U, will be active as KO1U/m from Conanicut Island (USI RI-007S, WLOTA LH-1422, Newport County, Rhode Island), during the RSGB IOTA Contest (July 26-27th). Activity will be sporatic on 7040, 14040 and 14260 kHz and 6 meters (50093.3). QSL via his home callsign (QRZ.com).

NA-067. Operators Nate/N4YDU, Keith/W4KAZ and Barry/K4CZ will be active again as N4A from Cape Lookout National Seashore (Core Banks) between July 25-28th. Activity will include the RSGB IOTA Contest (July 26-27th), with operations on 80-10 meters (except WARC), low power, SSB and CW. References: Grid Square FM14tt and Carteret County, North Carolina. QSL via N4YDU direct. SASE preferred for USA. In the 2007 RSGB IOTA Contest, N4A

was the #1 North American Low-Power Expedition and #24 Worldwide.
More details at: http://www.w4kaz.com/n4a/

NA-067. Members of the Tennessee Valley DX Association (TVDXA) will activate Hatteras Island using the callsign W4PL. This island is part of the North Carolina State East Group. W4PL plans on being active about 1900z on Saturday, September 27th, and will go QRT Saturday, October 4th. The group will use 100 watt transceivers and plan to be active on 80-10 meters HF (SSB, CW with some PSK and RTTY), and 6 meters SSB and CW. Operators include: Barbarra/WA4RMC, Kathy/W4KRY, Lynn/K0MAI, Tom/K4VCM, Greg/WA4NFO, Tommie/K4KWK, Kenny/AB4GG, Charlie/AD4F, Paul/WA4AA, Peter/KB3PGU, Larry/WA4IVO and Virginia/KI4MPK. Non-licensed team members include Nancy, XYL of WA4AA and Halyna, XYL of KB3PGU. Please QSL via K4KWK direct (SASE) or by the bureau. Additional information will be added to their Web site during and following the activation at: http://www.tvdxa.com ADDED NOTE: TVDXA states, "We are calling this a 'Mini DX-pedition' since we are not going to some far away exotic place. However, we are very serious about this trip and hope to make many contacts (and have loads of fun along the way). This is the fifth consecutive island we have activated in as many years. Antennas will include a multi-band vertical, tri-band beam, end fed wire and 6 meter beam along with other backup antennas. Please visit our Web site and watch for further updates."

NA-110. Dan, KF8Z, will be active as KF8Z/p from Hunting Island (USI SC-003S, WLOTA LH-2265, Beaufort County, South Carolina), July 26-30th. Activity will be limited because he is there with his XYL on vacation. Look for casual operations, slow CW and SSB on 40-10 meters. QSL via his home callsign, direct or by the bureau.

NA-234. (Update/IOTA NEW ONE!) Breaking News: The KL7DX IOTA-expedition to Chuginadak Island (Aleutians Islands, Alaska) is under feasibility review by team members - Yuri Sushkin/N3QQ, Sergey Morozov/RA3NAN and Yuri Zaruba/UA9OBA. The Okmok Volcano, located 75 miles away from their destination, continues to erupt. The volcano is currently at aviation color code RED and alert level WARNING. All areas immediately around the volcano are considered hazardous. Airborne ash and gas continue to drift with the wind and pose a hazard to aviation in the area. Satellite data continues to show a long (~250km) plume moving east, the height of the plume is approximately 9,100m (30,000 ft) above sea level. Cleveland Volcano on Chuginadak Island has current aviation color code YELLOW and volcano alert level ADVISORY. Please see http://www.avo.alaska.edu/activity/Okmok.php for more information. The team from Russian Robinson Club is planning to land on the island by boat and start operation between July 19th and July 21st with participation in IOTA Contest July 26-27th weather and seismic conditions permitting. QSL via AC7DX. Please look for them on the usual IOTA frequencies and on-line tracking of KL7DX's position via GPS/SPOT

Messenger is available on: http://www.NA-234.com
MORE BREAKING NEWS: RZ3EM passes the latest news from KL7DX as of 0300z, July 19th -- "Smoke and ash continue in the area of the volcano, but the team has decided to continue on to Chuginadak Island. They have made arrangements to proceed on a larger boat, the Lady Gudny. They leave Dutch Harbor on 19 July."

JW, SVALBARD. Niels, OZ8KR, will once again be active from Spitsbergen (EU-026) for the 3rd time in August. He has rented the club station in Longyearbyen for 4 days and plans to be active as much as possible as JW/OZ8KR between August 12-17th. Activity will be on 20 meters SSB. He likes the frequncies 14220 and 14260 kHz. QSL via his home callsign.

JW, SVALBARD. Haugseth, LA7WCA, will once again be active from Spitsbergen for the second time as LA7WCA between September 19-26th. Activity will be on 160-10 meters, mainly SSB with some CW. QSL via LA7WCA (QRZ.com). Also, he will be joined by two friends for their time on Svalbard: Finsveen/LA8BCA (JW8BCA) and Tom/LB9UE (JW/LB9UE).

KH2, GUAM. Operators Hiroshi/JJ1CCE, Shima/JH3AAZ, Koji/JK7TKE and Hiroshi/K6IAA will be active from here between August 2-3rd. Look for operators to sign as KH2/homecall with the exception of K6IAA/KH2. Activity will be holiday style operations. QSL via each operator's home callsign, by the Bureau or direct (See QRZ.com).

KL7, ALASKA (W1AW/KL7 to Operate from Arctic Circle). The ARRL Letter reports: "Just 300 miles south of the Alaskan Arctic Ocean -- where the Arctic Circle crosses the Dalton Highway (66 degrees, 33 minutes north) -- W1AW/KL7 will be on the air (grid square BP56) July 26-August 10 on all bands from 160-6 meters. This ARRL 2008 Alaska State Convention Special Event Station plans to run two HF stations operating CW, SSB and digital, one satellite station and one station devoted to 146.52 MHz. The Alaskan summer skies are ablaze with gray line-enhanced propagation effects, providing six to eight hour spurts of activity to most of the ham radio world. W1AW/KL7 plans to be active from 0600 UTC-1400 UTC to maximize gray line propagation. From Alaska, signals will take off in both directions at the same time: Europe to the east on one side, with Asia to the west on the other side. For an illustration of how Arctic gray line propagation works, see page 21 in the August 2008 issue of QST. The 2008 Alaska ARRL Convention will run from August 1-4, 2008 in Anchorage. For more information, please see the W1AW/KL7 Web site at:

LIGHTHOUSE/LIGHTSHIP ACTIVITIES (ILLW - August 16-17th).........
INTERNATIONAL LIGHTHOUSE/LIGHTSHIP WEEKEND. Kevin, VK2CE, ILLW Webmaster and Coordinator, reports (edited): "This highly popular annual amateur radio event (not a contest) will be held over the weekend of August 16-17th, 2008. There were 380 lights on the air from 48 countries last year. All you need to know about the event is contained on the official Web site at: http://illw.net
Originating in 1999, the event is organized and managed by the Ayr Amateur Radio Group in Scotland since the passing of the founder of the weekend, Mike Dalrymple, GM4SUC, in December 2005.

To register for the event go to the web site at http://illw.net and complete the online entry form so you can be listed on the entrants page."

Any questions about the event can be sent to Kevin, VK2CE, via the Web site E-mail facility. Publishing this notice in your club bulletin or sharing it with your club members would be most appreciated.

BBDXG LIGHTHOUSE ACTIVITES. Members of the Bahia Blanca DX Group (BBDXG) will transmit again, this time, from seven different lighthouses at the same time during the International Lighthouse/Lightship Weekend (ILLW) which will be held on the third weekend of August (August 16-17th). Look for them from the following lighthouses:

MORRO NUEVO Lighthouse (ARLHS ARG�048, ILLW AR-0031) -- Will be activated for the "FIRST TIME". Lat. 42' 52" S/Long. 64' 08" W. Grid Locator = FE77wd. Located at the south end corner of Valdez Peninsula. It indicates the entrance to the "Nuevo" Gulf. 750 Km. South from Bahia Blanca. Operators and callsigns used: LU9ESD/W, LU4ETN/W and LW9EAG/W.

SAN GREGORIO Lighthouse (ARLHS ARG-062, ILLW AR-0028) -- Will be activated for the "FIRST TIME". Lat. 45' 01" S/Long. 65' 38" W. Grid Locator = FE74ex. Located in the southeast of Chubut Province. Operators and callsigns used: LU1EUU/W LU5DEM/W and possibly others.

CABO ARISTIZABAL Lighthouse (ARLHS ARG-023 HISTORIC, ILLW AR-0027) -- Will be activated for the "FIRST TIME". Lat. 45' 13" S/Long. 66' 32" W. Grid Locator = FE64rs. Located at the north end of "San Jorge" Gulf, in Chubut Province. Operators and callsigns used: LU7DSY/W, LU5DIT/W, LU6DBL/W and possibly others.

PUERTO ROSALES Lighthouse (ARLHS ARG-095, ILLW AR-0029) -- Will be activated for the "FIRST TIME". Lat. 58' 55" S/Long. 62' 04" W. Grid Locator = FD81xc. Located in the access to the main wharf of the commercial port of Punta Alta city in the south of Buenos Aires Province. Callsign used: LU3DXG/D (Official callsign of BBDXG). Operators: LU5EAO/D, LU8EHQ/D, LU7EUZ/D, LU5DKT/D, LW5DAD/D and LW2ENB/D.

BALIZA CHICA Lighthouse (ARLHS ARG-083, ILLW AR-0026) -- Lat. 38' 53" S/Long. 61' 58" W. Grid Locator = FF91ac. Located in the Base of Marines called "Baterias". 20 km southeast from Naval Base Puerto Belgrano and 40 km. from Bahia Blanca. Operators and callsigns used: LU8DWR/D, LU8DIP/D , LU3DZO/D, LU4ELE/D, LU4UZW/D and LU4DBP/D.

BALIZA PUNTA ATALAYA Lighthouse (ARLHS ARG-099, ILLW AR-0024). Lat. 35' 01" S/Long. 57' 32" W. Grid Locator = GF14fx. Located in the perimeter of the Argentine Naval Prefecture, detachment Atalaya, 102 Km east from Buenos Aires city. Operators and callsigns used: LU6DRN/D and LU6EU/D.

CLAROMECO Lighthouse (ARLHS ARG-014, ILLW AR-0008). Lat. 38' 51" S/Long. 60' 03" W. Grid Locator = FF91xd. Located in the Claromeco Spa, near Tres Arroyos town. 200 Km east from Bahia Blanca. Operators and callsigns used: LU7HW/D, LU3HKA/D, LU7EHL/D, LU7DR/D and LU4DBT/D.

All Bands and modes will be worked, including digimodes (RTTY, PSK31, SSTV...) and CW. PLEASE NOTE:

SAN GREGORIO, CABO ARISTIZABAL and MORRO NUEVO Lighthouses will use each operator's callsigns plus "W" because they are located in the province of Chubut.

PUERTO ROSALES LH will use the official BBDXG callsign LU3DXG for this first time activity.

Contacts with PUERTO ROSALES, BALIZA CHICA, BALIZA PUNTA ATALAYA and CLAROMECO Lighthouses will be valid for the "PROVINCE OF BUENOS AIRES LIGHTHOUSES" Award organized by Bahia Blanca DX Group. Also, the above lighthouses are valid for the "Argentine Atlantic Coast Lighthouses 2008" award. For more info on these awards, please contact Manu, LU9ESD, at: lu9esd@yahoo.com
The QSL and Award Manager is LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. Please send one envelope with all your QSLs. Up to 2 QSLs = 1 IRCs. Up to 4 QSLs = 2 IRCs. Up to 6 QSLs = 3 IRCs. Up to 8 QSLs = 4 IRCs. For 9 QSL without award, please send 5 IRCs. If you want the award, send QSLs for each lighthouse and 8 IRCs.

PACIFIC TOUR (Update). Willi, DJ7RJ, is expected to join Ulli, DL2AH, in traveling around in the Pacific areas between September and early November. A report from Willi, DJ7RJ, indicates that he has already booked his flights for August 26th and October 27th, via LAX to Samoa (5W) and his return. He mentions that Ulli, DL2AH, and he are planning to visit the Tokelau Islands (ZK3) together (specific dates are in the planning stages). After that, they will return back to Samoa, before going on to the next island (possibly, Marquesas Island (FO/m), Wallis & Futuna Island (FW) or American Samoa (KH8). Willi states, "With our journey to 5W everything is running well. We are in touch with the shipping company in Apia. Two ships are leaving Apia a couple of days after we arriving on Samoa. We have a good chance to get a reservation for one of these ships. Maybe we will arrive on Tokelau on September 2nd or September 5th. We have to stay at least three weeks on Nukunonu (OC-048) before we travel back to Apia. So it means we will be back in Apia at the end of September! Afterwards, I will decide what will be the next island to visit. I am not sure yet. My flight back to LAX will be October 21st. QSL via CBA."

9X0R QSL STATUS. We received a report that Antonio, EA5RM, is stating direct QSLs requests should be coming out very soon.

QSL AP2DKH via W2FB (for stateside). Steve, W2FB, informs OPDX that Dr. Khalid, AP2DKH, visited the NJ/NY area in June. Steve had the privilege to meet him. In addition to their eyeball QSO, they also exchanged QSL cards. Steve told Dr. Khalid that getting QSLs out of Pakistan is very difficult especially for U.S. stations. Dr. Khalid left Steve some cards to issue QSLs for stateside stations. He now has his log and can issue direct cards for the deserving DXers still waiting for their first AP confirmation. Please use a large envelope as the AP2DKH card is larger than the usual stateside QSL. Use a EU style envelope or No. 10 envelope for reply, with a SASE, GS, or IRC.

Wayne, W5KDJ, reports that the logs for 3DA0KDJ, A25KDJ, C91KDJ and YN2KDJ are now available at: http://dx.qsl.net/logs/

TOP 5 QSL MANAGER SURVEY. John, K1XN, Editor of the GoList, reports" "With the bands in such sorry shape, I am sure everyone has been busy catching up on your QSL chores. You know, that job you put off for reasons unknown by normal folks.

This might be a very good time to take a Top 5 QSL Manager or QSL card hander survey. It has been several years now since I last conducted the last survey and it will be interesting to see results during this 'down' period. There will be no plaques nor money, but there will be a lot of bragging rights to the most vote getters for Top 5.

The rules are simple. Send me the callsign of that QSL Manager or card handler that impressed you most this year in sending you a confirmation card.

Don't base it on past years or popularity, but on the actual performance by that person. Send your vote to me via E-mail at:

golist@gmail.com

In the subject line please put TOP 5 QSL MANAGERS, this will help me sort the mail. The survey will run until the 20th of August, and I will report the results on this reflector (GoList Mailing List). This survey is open to all amateurs around the world. I hope to hear from many of you soon..... John K1XN @ The Golist (golist@gmail.com)"

TX7LX QSL BUREAU REQUEST. Georg, DK7LX/TX7LX, informs OPDX that he now offers the option to request Bureau-QSLs via E-mail for his recent Mayotte Island (TX7LX) operation. His E-mail address is published on both, QRZ.com as well as his TX7LX Web page. Georg states, "People are welcome to send me a list of their QSOs, and I'll take care of it as soon as I receive QSLs from the printer." Further details can be found under the sources mentioned above. LAST MINUTE UPDATE: Georg informed OPDX on July 20th: TX7LX has been APPROVED for DXCC per Bill, Moore/NC1L.

V73 QSL BUREAU CLOSED. Neil, V73NS, informs OPDX: "It is with the deepest regret we announce that the V73 Bureau is CLOSED. We are unable to accept cards due to circumstances beyond our control. Cards should be sent only to address of the home call of the V73 operator." See QSL info site:

QSLS VIA LOTW: 6H1YYD, G4WFQ/6W, HG9X, IZ8MBW, JX/SQ4MP and ZC4LI

QSLS RECEIVED VIA MAIL: 9J2VB, 9X0W, C52C, ET3JA, EY8CQ and Z29KM

QSLS RECEIVED VIA THE BUREAU: 3DA0WW, 4X0C, 4X0V, 5L2MS, 7S100ALA, 8S6KOS, AO1Y, AO6AZ, CS6PRA, CU2A, EA8MQ, J28JA, J5UTM, JW/F8DVD, LA2O, LY1CM/P, OA4WW, OE3KRA, OH3OJ, OJ0J, OK5R, PR2A, PZ5XX, SG60RK, SI3A, SL60FRO, SM5ZBJ, SN2JS, T70A, TM1I, TM2R, TM4IPY, V31BH, VP9I, VY2WU and YL2BJ

SV5, DODECANESE. Leo, S50R, will be active as SV5/S50R between now and July 24th. Activity will be on 40/30/17/12 meters using CW/SSB/RTTY. He will just use wire antennas. QSL via S50R, direct or LoTW.

SV5, DODECANESE. Operators SV5AZP, SV5AZK, SV5DDP, SV5DKL, SV5DZR, SV5FRD, SV5KJC, SV5FRP, SV5CJK and SV5CJQ will be active as SX5P from Rhodes Island (EU-001) during the RSGB IOTA Contest (July 26-27th) as a Multi-Multi entry. QSL via SV5FRD.

SV9, CRETE (EU-015). Dimistris, SV1JB will be active as SV9/SV1JB from Kokini Hani (MIA MGC-005, WLOTA LH-1400), between July 21st and August 7th. Activity will be on 80-10 meters using CW, SSB and PSK31. QSL via his home callsign, direct or by the bureau.

V3, BELIZE. Operators John/WC0W, George/K5PI and Alan/NS0B will be active as V31TP during the ARRL DX CW Contest (February 21-22nd, 2009) as a Multi-Single entry. QSL via WC0W. This team took the "World Class" entry in 2008 as a Multi/Single with a field day setup. They hope to do it again.

VK9X, CHRISTMAS ISLAND (OC-002). By the time you read this, the "DXciting Group" should be getting ready to go QRT. As this was being typed, operators Marq/CT1BWW (VK9XWW), John/EA3GHZ (VK9XHZ), Henry/EA5EOR (VK9XOR) and Dina/EC5BME (VK9XME), have made 6,438 QSOs (2917/CW and 3521/SSB) as of 0255z, July 20th. QSL via EA4URE, direct or by the bureau. The official VK9X Web site is at: http://www.dxciting.com/vk9x

ZD8, ASCENSION ISLAND. Bob, VP8LP, will be active as ZD8LP between August 15-16th and September 14th. Bob will only be using a vertical antenna, so don't expect to hear big signals, but he intends to be very active on 40-10 meters as propagation permits. QSL direct to his home callsign VP8LP only.

ZS8, MARION ISLANDS. There is still no activity reported. For updates and the first offical announcement of ZS8T being on the air, please visit the official ZS8T Web site at: http://zs8t.net

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

```

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

NRL Press Release: 4-08r

Scientists Detect Lowest Frequency Radar Echo From the Moon

A team of scientists from the Naval Research Laboratory, the Air Force Research Laboratory's (AFRL's) Research Vehicles Directorate, Kirtland Air Force Base, N.M., and the University of New Mexico (UNM) has detected the lowest frequency radar echo from the moon ever seen with earth-based receivers.

In the lunar echo experiment (more properly called a lunar bistatic radar experiment), the Air Force/Navy High Frequency Active Auroral Research Program (HAARP) high power transmitter, located near Gakona, Alaska, launched high power radio waves toward the moon. The reflected signal, weakened because of the long distance to the moon and back, was detected by receiving antennas in New Mexico.

NRL consultant scientist Dr. Paul Rodriguez, of NRL's Information Technology Division, who conceived and proposed the experiment explains, "Analysis of the echo gives information on the properties of the lunar sub-surface topography, because the low frequency radar waves propagate to varying depths below the visible surface of the moon. It is somewhat like sonar, except that we are using electromagnetic waves rather than sound waves. The experiment also allows us to study the interaction of the echo signal with the earth's ionosphere along its return path, because the ionosphere is only partially transparent at low frequencies."

During the experiment, which was carried out on Oct. 28 and 29, 2007, the radar signals from HAARP were at 7.4075 MHz and 9.4075 MHz. Both the transmitted signal and the echo from the moon were detected by NRL Remote Sensing Division scientist, Dr. Kenneth Stewart, and NRL engineer Brian Hicks with antennas built for the Long Wavelength Array (LWA). LWA is a radio interferometer being built in the desert west of Socorro, N.M., by UNM, NRL, the Applied Research Laboratories at the University of Texas at Austin, Virginia Tech, and Los Alamos National Laboratory, for studies of space physics and astrophysics.

The LWA is intended to work below the 88 MHz edge of the FM band, but to get down to the HAARP signal frequencies, the antennas were equipped with digital receivers and specially designed matching networks developed by Stewart, Hicks, and engineer Nagini Paravastu at NRL. "Detecting the very weak radio signals after their round trip to the moon and back was challenging and required careful modification of the LWA antennas to improve their performance at these frequencies," says Stewart. NRL LWA Project Scientist Dr. Namir Kassim notes, "One of the successful goals of this experiment was to demonstrate that the LWA can work with instruments like HAARP at lower frequencies than its nominal design."

The HAARP radar antenna array was "phased" to point about 45 degrees away from the zenith, in order to track and directly illuminate the moon. Its full total power capability, about 3.6 MW, was used to transmit pulses two seconds in length every five seconds over a period of two hours each day, one hour at each frequency. Using such a pulse pattern makes the echo, which arrives back from the moon 2.4 seconds later, immediately recognizable, allowing the scientists to distinguish the moon's echo signal from the HAARP signal. The HAARP signal reached the receiving antennas in New Mexico by reflecting off the underside of the ionosphere, the region of the Earth's atmosphere from 50 to 400 km in altitude that is partially ionized by solar radiation.

The lunar echo measurements at 7.4075 MHZ are believed to be the lowest frequency (longest wavelength) at which bistatic radar measurements have been conducted. "Even though lunar echoes have been detected before at higher frequencies, it was really exciting to see them arrive in real time out under the full moon in the New Mexico desert," says NRL's Hicks.

The team members involved in the HAARP-LWA lunar radar experiment are: Dr.Paul Rodriguez, Dr. Kenneth Stewart, Brian Hicks, Dr. Nagini Paravastu; and Edward Kennedy of NRL; Dr. Paul Kossey of AFRL's Research Vehicles Directorate; and Dr. Lee J Rickard of UNM.

Significant help in conducting the experiment was provided by HAARP Program Managers Paul Kossey (Air Force) and Edward Kennedy (Navy); Mike McCarrick of BAE Systems-Advanced Technologies, which operates the HAARP facility, and by Clinton Janes (UNM); Gerald O'Connell (National Radio Astronomy Observatory); and Patrick Crane (NRL).

Is A New Solar Cycle Beginning?
[soho-uv-wavelength-image-sun-bg.jpg]
>From SOHO, a UV-wavelength image of the sun and a map showing positive (white) and negative (black) magnetic polarities. The new high-latitude active region is magnetically reversed, marking it as a harbinger of a new solar cycle.
by Dr. Tony Phillips
Huntsville AL (SPX) Dec 17, 2007

The solar physics community is abuzz this week. No, there haven't been any great eruptions or solar storms. The source of the excitement is a modest knot of magnetism that popped over the sun's eastern limb on Dec. 11th, pictured below in a pair of images from the orbiting Solar and Heliospheric Observatory (SOHO). It may not look like much, but "this patch of magnetism could be a sign of the next solar cycle," says solar physicist David Hathaway of the Marshall Space Flight Center.

For more than a year, the sun has been experiencing a lull in activity, marking the end of Solar Cycle 23, which peaked with many furious storms in 2000--2003. "Solar minimum is upon us," he says.

The big question now is, when will the next solar cycle begin? It could be starting now.

"New solar cycles always begin with a high-latitude, reversed polarity sunspot," explains Hathaway. "Reversed polarity " means a sunspot with opposite magnetic polarity compared to sunspots from the previous solar cycle. "High-latitude" refers to the sun's grid of latitude and longitude. Old cycle spots congregate near the sun's equator. New cycle spots appear higher, around 25 or 30 degrees latitude.

The region that appeared on Dec. 11th fits both these criteria. It is high latitude (24 degrees N) and magnetically reversed. Just one problem: There is no sunspot. So far the region is just a bright knot of magnetic fields. If, however, these fields coalesce into a dark sunspot, scientists are ready to announce that Solar Cycle 24 has officially begun.

Many forecasters believe Solar Cycle 24 will be big and intense. Peaking in 2011 or 2012, the cycle to come could have significant impacts on telecommunications, air traffic, power grids and GPS systems. (And don't forget the Northern Lights!) In this age of satellites and cell phones, the next solar cycle could make itself felt as never before.

The furious storms won't start right away, however. Solar cycles usually take a few years to build to a frenzy and Cycle 24 will be no exception. "We still have some quiet times ahead," says Hathaway.

Meanwhile, all eyes are on a promising little active region. Will it become the first sunspot of a new solar cycle? Stay tuned for updates from Science@NASA.

From NOAA... http://www.noaanews.noaa.gov/stories2008/20080104_sunspot.html

"First official sunspot belonging to the new Solar Cycle 24.

+ High Resolution (Credit: NOAA)
A new 11-year cycle of heightened solar activity, bringing with it increased risks for power grids, critical military, civilian and airline communications, GPS signals and even cell phones and ATM transactions, showed signs it was on its way late yesterday when the cycle's first sunspot appeared in the sun's Northern Hemisphere, NOAA scientists said."

Perhaps we are at the begining for DX conditons to improve in the not so distant future.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 6th-January, through Sunday, 13th-January there were 214 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3W, 3Y/b, 4J, 4L, 4O, 4S, 4U1U, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9X, 9Y, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FO/M, FR, FS, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XW, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V8SS OPERATOR. Some have been inquiring about who was active from 3V8SS in November/December last year. Well, the answer is Alex, GM0DHZ. He informs OPDX that he made quite a few QSOs while there and also mentioned that he is planning to go back again, but details still have to be confirmed yet. Stay tuned!

3Y, BOUVET ISLAND (Update). Petrus, 3Y0E, continues to be active on 14200 kHz usually between 1700-1900z daily. Look for updates and announcements on the official 3Y0E operation Web page at: http://www.3y0e.com
The 3Y0E log is now available online at: http://sq8aqd.net/3y0e/index.php

9X, RWANDA. After one year trying to get a license to operate from Rwanda, Toni, EA5RM, (Team Leader) has traveled to the RURA offices in Kigali, the capital city of the Republic of Rwanda, to pick up the 9X0R licence. Toni states, "RURA is trying to establish amateur radio rules in Rwanda with the help of Peter, 9X5SP. Right now there is not an easy way to get an amateur radio license here but in a few months things should be different and ham radio activities will start to be more usual from this country. I'm grateful to RURA General Director and Peter, 9X5SP, for their help and cooperation, and at the same time, my team and I are happy and proud for our little contribution to the future of amateur radio in Rwanda." The 9X0R multinational team will be active from Rwanda in March of this year. The 10 qualified operators are: Roberto/EA2RY, Gerard/EA3EXV, Javi/EA5KM, Toni/EA5RM, Manuel/EA7AJR, Ruben/EB5ESX, Javi/EC4DX, Massimo/I8NHJ, Fabrizio/IN3ZNR and Dimitri/UY7CW. Activity will be on all bands 160-10 meters, on CW, SSB and RTTY with 3 stations at the same time on different bands and modes. QSL via EA5RM. Full details about their Dxpedition is available at: http://www.9x0r.com
Questions or comments can be sent to: 9x0r@9x0r.com

A6, UNITED ARAB EMIRATES. Members of the Emirates Amateur Radio Club (A62ER) will participate in the 3rd International Scouting Gathering and UAE Scouting and Humanitarian Work event in Sharjah between January 17-24th. They will use the special event callsign A60ISG. This is the first time for UAE to activate a special callsign. QSL via IZ8CLM.

AAW. The 5th Antarctic Activities Week (AAW) will take place between February 18-24th. A lot of stations with special callsigns are lining up to participate in this year's event. Read about the details of the AAW and see the list of stations that will be active at:
http://www.waponline.it/Default.aspx?tabid=113

CARIBBEAN OPERATION CANCELLED (FJ and PJ7). "The Daily DX" reports that Gregg, W6IZT, who planned to be active from Sint Maarten (PJ7) and St. Barthelemy (FJ) this past week, had to cancel because of health issues. Gregg had severe abdominal pain, resulting in an emergency appendectomy. OPDX and its reader wish Gregg a speedy recovery.

CT3/CT9, MADEIRA ISLANDS. Operators Falk/DK7YY, Ulf/DL5AXX, Tom/DL5LYM and Frank/DL8WAA will be active as CT3/homecall between February 12-18th. QSL via their home callsigns. The team will be active as CT9L during the ARRL DX CW Contest (February 16-17th) as a Multi-2 entry. QSL via DJ6QT.

DXCC NEWS.....................

Bill Moore, NC1L, ARRL DXCC Manager, informs that the following operations are approved for DXCC credit:

6E4LM, XF4YK and XF4YW - Revillagigedo; 2007 Operations
FJ/OH2AM - Saint Barthelemy; 2007 Operation
TN6X - Republic of The Congo; 2007 Operation
TN9Z - Republic of The Congo; 2007 Operation
TT8PK - Chad; 2007 and current 2008 Operations
YK9SV - Syria; 2007 Operation

Announcement from the ARRL DXCC Desk (on the FJ/OH2AM operation):

"This operation by OH2BH and OH0XX was conducted under CEPT Recommendation T/R 61-01. This Recommendation makes it possible for radio amateurs from CEPT countries (and certain non-CEPT countries) to operate in other CEPT countries without obtaining an individual temporary license from the visited CEPT country.

Complaints were received from several individuals. The main thrust of the complaints is that the operators used a club call for which Laine is station trustee, rather than their individual callsigns.

The intention of the operators in using a single callsign was to limit the number of duplicate contacts. Many DXpeditions use club or special-issue callsigns for this reason. The Recommendation makes no mention of club callsigns but says that the visiting license holder 'must use his national call sign preceded by the call sign prefix of the visited country.' Other operations using club callsigns from French territory, including in the Caribbean, have taken place under provisions of the Recommendation and have been credited for DXCC.

Since the question was raised, checking with various CEPT administrations and with the European Radiocommunication Office (ERO) has revealed different views regarding the use of club callsigns under the Recommendation. The ERO observes that the use of a club callsign could prevent an administration from determining whether a particular operator is qualified and concludes, 'Club members, including the holder of the club callsign, should use their national personal callsigns when abroad.'

In the case of FJ/OH2AM, the two operators clearly were qualified to operate in St Barthelemy under the Recommendation. They utilized a call authorized to them by their national authority. The purpose of a radio station callsign is to identify the administration and the licensee responsible for the operation of the station. The use of FJ/OH2AM rather than FJ/OH2BH and FJ/OH0XX did not thwart this purpose.
(10 January, 2008)"

EA8, CANARY ISLANDS (AF-004). Niels, OZ7FOC, will be active as EA8/OZ7FOC from Isla de Tenerife (DIE S-012, WLOTA LH-1276) between January 14-26th. QSL via his home callsign.

FO, FRENCH POLYNESIA. Freddy, F5IRO (aka TO4E, FK/F5IRO, FR/F5IRO, FY/F5IRO and TO7R) on a 4 months assignment to Papeete, Tahiti (IOTA OC-046, DIFO FO-002), is now active as FO5RU until January 21st. Most of his activity has been on 40/30 meters. He is expected to be active during his spare time on all HF bands, CW, SSB and RTTY. QSL via Rafik, F5CQ, either direct (SASE + Postage) or via the French REF-Union bureau (please only this bureau). Online log can be found on Rafi's Web page at:
http://www.f5cq.net/dxp/2007-FO5RU/searchlog_fo5ru.php

FJ, ST. BARTHELEMY (DXCC Newest Entity!). Operators Paul/F6EXV and Yuichi/JR2KDN continue to be active as TO5FJ until January 20th. Yuichi is scheduled to leave St. Barts on the 15th, but Paul will remain until the 20th. The operators were only using wire dipole antennas at first but are now using a cushcraft beam with a WARC band attachment on it. Again, look for activity on 160-10m, CW, SSB and RTTY. Online line logs are available at: http://www.f6exv.org/LOG_ONLINE/

FO/M, MARQUESAS ISLANDS. Operators Jouko/OH1RX, Pertti/OH2PM, Veijo/OH6KN and Juha/OH8NC are active as FO/OH1RX from Nuku Hiva (OC-027) until January 22nd. Activity will be on 160-10 meters with a maximum of three stations running. However, they plan to concentrate on 160-30 meters. QSL via OH2PM, by the Bureau or direct to: Pertti Simovaara, Suomusjarventie 460, 25390 Kiikala, Finland. Martti, OH2BH, has been announced as the pilot station for their operation. Their Web site is now available with an online log search at: http://sm0w.com/marquesas/

FT5W & FT5X, CROZET AND KERGUELEN ISLANDS. Gildas, TU5KG, is once again heading to the Southern Indian Ocean area, around Kerguelen and Crozet Islands. No details or dates on whether he will be making stops on these islands, but he has new callsigns issued to him. They are FT5XR and FT5WN. You will probably hear them first on maritime mobile. QSL via F4EFI, by the bureau or direct.

H7, NICARAGUA. Andrei, EW1AR/NP3D, will be active from here as H7/NP3D between February 3-11th. He is actually going there for the CQ WPX RTTY Contest (February 9-10th). As a member of the Yankee Clipper Contest Club, he will use the callsign H7/NP3D before and during the Contest. While there his focus, of course, will be on RTTY on all HF bands, then CW and SSB. For the contest he is not sure if he will be a Multi or

Single Band entry. This will be determined upon his arrival. He will be joined by Demitry/AK2P and Joel/KB2PDW later on while down there. Logs will be uploaded via LoTW on daily basis if Internet does not fail him. If you want a nice paper QSL, please QSL via W3HNK. Andrei states, "If some of you have requests about a particular Band/Mode, please E-mail me privately, I will do my best." His E-mail address is:
np3d@dxer.com

HA-DX CONTEST. Tibor, HA1AH, would like to remind everyone that the HA-DX 2008 Contest is next weekend, January 19-20th. Activity will be on CW and SSB on 160/80/40/20/15/10 meters. Complete details are available at:
http://www.ha-dx.com

HC8, GALAPAGOS ISLANDS (SA-004). Peter, DL9DAK, is expected to activate the Galapagos Islands this week (January 15-18th) before heading to Guayaquil, Ecuador (January 19-21st). Activity will mainly be on 20/17 meters (with some 40 meters) only on the digital modes (RTTY, PSK31/63, MFSK, Feldhell and Olivia500/1000) using only vertical dipoles and 50 watts. QSL via his home callsign. For more information, please visit the Web page at: http://www.dl9dak.de

HK0, SAN ANDRES ISLAND. A group of six members of the Texas DX Society plan to operate from San Andres Island, Colombia, from March 1-6th. This will include participation in the ARRL International DX Contest (Phone) on March 1-2nd. The group will use two separate stations with beam and vertical antennas. After the contest operators will use individual callsigns on SSB, CW, and digital modes on the major HF bands. Callsign assignments are pending. W5PF is the QSL Manager for all callsigns used. After the operation logs will be uploaded to the ARRL's "Logbook of The World" (LoTW). Operators will be WF5W, W5PF, K5WAF, NM5G, W5PR, and N4AL. For more information and up-to-date news, visit the DXpedition's Web page at: http://www.tdxs.net/hk0.html

II3, ITALY (Special Event). Special event station II3NIK has been on the air as of January 1st and will continue until June 30th. Activity is to celebrate the Nike Hercules Memorial Year. The last symbol of the Cold War left the launcher of an Italian Air Force base last November 24th, 2006. Nike Hercules missile system was a Silent Guardian of the European N.A.T.O. skys and some Asian States the all of the second half of the last century. Look for II3NIK to be active on 80/40/30/20 meters, CW, SSB and PSK31. All contacts made with the II3NIK special event station will be confirmed by the bureau or by direct to IZ3JJD: Andrea Zecchinato, Vicolo Gorizia 1/A, 35020 Albignasego (PD), ITALY.

IOTA NEWS............................

AS-060. Chae, HL5YI, will be active as HL5YI/4 from Sorok Island (WLOTA LH-1252), January 18-21st. Activity will be on 80/40/20/10 meters, CW, SSB and RTTY. He plans to participate in the UK DX RTTY Contest (January 19-20th). QSL via his home callsign, direct or by the bureau.

EU-120. Operator Jon, M0OVL, will be active as M0OVL/p from Holy Island/ Lindisfarne, July 26-27th, for the RSGB IOTA Contest. QSL via his home callsign, direct or by the RSGB bureau.

EU-125. Tom, DL4VM, will be active as OZ/DL4VM from Romo Island (NS-001 for the Danish Islands Award) between September 6-20th. Activity will be on 40/20/15 meters, and perhaps 10/6m depending on the conditions, using CW and running only 5 watts QRP. QSL via his home callsign, by the Bureau or direct to: Thomas Scheliga, Stockenbruch 12, 66119 Saarbr, Germany.

EU-128. Operators Axel/DH8AK, Sebastian/DO6ELW, Dirk/DK4DJ and Henning/DK9LB will be active as homecall/p from Fehmarn Island (O-01 for the German Islands Award) from March 14-21st. They will also activate two lighthouses: Marienleuchte - Old Tower (ARLHS FED-151) and Marienleuchte - New Tower (ARLHS FED-016, WLOTA LH-0637). Activity will be 80-10 meters, SSB, PSK31 and 2m SSB. QSL via their home callsigns, direct or by the bureau.

EU-174. Mike, DF3IS, will be active as J48IS from Thassos Island, Greece, May 23-28th. He plans to be active in the CQ WPX CW Contest. Outside of the contest, look for activity on 40-10 meters. QSL via DF3IS, direct or by the bureau (NO E-QSL!!!). For direct QSLs, please send SASE and 2 USDs or 2 IRCs. He will put the log on LoTW after the DXpedition.

J3, GRENADA (NA-024). Gerhard, OE3GEA, is nowe active as OE3GEA/J3 until January 24th. Activity will only be CW. He was heard this past week on 40/30 meters. QSL via his home callsign, direct or by the bureau.

J5, GUINEA BISSAU. Members of the "F6KOP TEAM" are now active from Bubaque Island (AF-020 and WLOTA 1145) until January 21st. Activity is on all bands 160-10 meters, CW, SSB, PSK and RTTY. Pilot stations are: Thierry/F4TTR and Bruno/F5AGB. To contact the pilot stations, use the E-mail address: pilots@j5c.eu
For more details, log search and up-to-date info, visit their Web pages at: http://www.j5c.eu

JD1, OGASAWARA. Operators Makoto/JI5RPT (JD1BLY), Motoaki/JE1EKS (JD1BMO) and Isao/JM1WBB (JD1BMP) will be active from Chichijima Island (IOTA AS-031), February 13-28th. Activity will be on 160-6 meters with operations on the Satellites, CW, SSB, Digital modes and 2 meters WSJT EME. Makoto informs OPDX that they have, for the first time, a 2m EME 500 watts license for this DXpedition and for the first time they will be active on WSJT EME. Their activity will be focused on 2m EME, also 160m and 80m. QSL via their home callsigns. Visit Makoto's Web page at:
http://www.ji5rpt.com/ogasawara2008/

JW, SVALBARD. Just a reminder that Unni, LA6RHA, will be making her 16th trip to Svalbard and plans to be active as JW6RHA between January 18-24th. Watch 14248 kHz +/- QRM. QSL via LA6RHA. Visit her interesting Web page at: http://home.online.no/~la6rha/index.htm

KH2, GUAM. Look for members of TIARA (Tokyo International Amateur Radio Association) to be active as homecall/KH2 between February 15-17th.

Operators mentioned are: Yoshiyuki/JF1TEU (AB2ST/KH2), Toshi/KB3LTB/KH2 and Toshio/KG6WTW/KH2. Activity will be on all HF bands. QSL via JF1TEU, by the JARL Bureau or direct.

NEW OFFICERS FOR 2008. The South Florida DX Association elected the following officers and directors for 2008:

FJ/OH2AM QSLS. QSL Manager Jarmo, OH2BN, reports: "We are delighted to inform you that QSL cards for the FJ/OH2AM operation will start going out early next week now that the operation is accredited for the DXCC award program as of January 11, 2008. Full-color cards will be arriving from the printers in Poland on the 15th of January (Tuesday) and we will start processing direct requests immediately. The legwork is already done, all envelopes opened and sorted. Those 23,340 QSOs made by the duo represent 11,730 individual DXers and obviously that many QSL requests as well. The logbook will be included in the LoTW later this year. Because of the close DXCC Honor Roll submission date, March 31, 2008, we plan to make out all QSLs received during January to be released during the month of February. By the 20th of February we will release a status report and probably another option to bypass the queue for those who at that time still want to have QSLs received for a late March submission. We thank you for your kind words about the operation and support received through the QSL mail." OH2BN's mail address is: Jarmo J. Jaakola, Kiilletie 5 C 30, FI-00710 Helsinki, FINLAND. Read the FJ/OH2AM story and see the QSL card to be sent out at: http://www.kolumbus.fi/oh2bn/barts.htm

GS/IRC CHART. Bill, W9OL, has provided an interesting "Green Stamp/IRC Chart" to reflect some 2008 postal rate changes. Look at this excellent QSLing tool at: http://www.qsl.net/w9ol/IRC_Chart.htm

"The Mongolian Radio Sport Federation (MRSF) QSL Bureau does not work any more", states Khos, JT1CD. The only QSL Bureau in Mongolia is the following: Mongolian Amateur Radio Society, QSL Bureau, P.O.Box 830, Ulaanbaatar-24, Mongolia.

NEW QSL MANAGER. Irv, K3IRV, is now the QSL Manager for PP5EG.

NO LONGER MANAGER. Emir, 9A6AA, reports that after 9 years, and being one of the founders of the Islands Of Croatia Award (IOCA), he is no longer a IOCA Manager. He states, "Nobody knows why because there is no explanation from new 9A HQ." However, 9A6AA will stay as IOTA Country Assistant and will keep the IOCA-IOTA parallel list on his Web site at:

http://www.inet.hr/9a6aa/IOTA/list.htm

The Web site will also have some interesting information regarding island activities in Croatia.

VE NEW CANADIAN POSTAL RATES: Canadian international postal rates will rise on January 14th. The new rate to the USA will be .96 Cdn and elsewhere in the world 1.60 Cdn. Both rates cover up to 30 g. Sales tax is also charged by the Canadian post office on stamps which means that at the current rate of exchange of approximate par with the U.S. dollar, 1 USD is now insufficient for mail to the USA. 2 USDs has been required to cover return postage for international mail for some time.

QSL W2V via N2MUN (CBA - SASE Please). DX stations can use the Bureau. This was a special event station for the Ham Radio University (HRU)/ARRL New York City Long Island Section Convention.

QSLS VIA LOTW: E51A, E51MMM, E51NNN and GJ4FDM

QSLS RECEIVED VIA MAIL: 3C7Y, 6V7D, 6V7H, 7Q7BP, 8P2K, BD1BYV, C91R, CU1CB, E51NOU, ET3JA, JD1BMM, K9RR/4, NP4A, OE1A, OE4XHQ, OE50A, OE8XHQ, OJ0/SM1DTE, SJ9WL, T93J, T88PR, TX5NK, TZ6DX, VP2V/K5WAF, VP6TC, W7DX, W8XGI/KH2, YL2SM, YI9KT, ZD7X and ZK3RE

QSLS RECEIVED VIA THE BUREAU: DL1ARJ, EA8AH, RA1OJ, OK1VRF, ON4MRI, OX3KQ and VE7TLH

S2, BANGLADESH. John, KX7YT, will once again return to Dhaka and be active as S21YV. He will be there between January 24th and March 11th. He plans to be active in the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band entry and also the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band entry. QSL via KX7YT.

SPECIAL EVENT. Throughout the year 2008, look for six special event callsigns to be active from various former Danish parts of Sweden and in Denmark. Activity is to celebrate the 350th anniversary of the signing of the Treaty of Roskilde on February 26, 1658. Look for the special callsigns in the following Provinces:

Blekinge - SB1658OZ (QSL via SK7JC); valid for the very rare "laen K"
           WASA/HASA award issued by SSA
Skane (Eng. Scania) - SC1658OZ (QSL via SK7BQ); (laen M)
                      SK1658DK (QSL via SK6JX); (laen M)
                      SK1658OZ (QSL via SK7BQ); (laen M)
Halland - SH1658DK (QSL via SK6JX); (laen N)
          SH1658OZ (QSL via SK6KY); (laen N)

All stations are valid for the Swedish/Danish award: "Roskilde 1658 Award". Rules and information can be found (in English) at:

http://www.sk7bq.com/roskilde

TF, ICELAND (Correction). There was a small typo in OPDX.840. Siggi, TF3CW, will be active during the CQ 160-Meters CW Contest (January 26-27th) as a Single-Op/Single-Band (160m, not 40m as mentioned last week) entry. His QTH will be from Seltjarnarnes (EU-021, WLOTA LH-2975). QSL via LX1NO.

TG9, GUATEMALA. Norm, W1BYH, will be on a holiday here between January 12-18th. He expects to be active (callsign was not provided) on 40-10 meters with an emphasis on 30/17/12 meters, CW, SSB, RTTY and PSK31. QSL via LoTW, direct or by the Bureau to his home callsign.

TI9, COCOS ISLAND (Update). A international group of operators will activate Isla del Coco (NA-012) between February 4th to possibly the 16th. They will use the callsign TI9K. The team now plans to have up to 7 stations plus one EME-station on air. Activity will be on 160-6 meters (plus 60m). Modes will be CW, SSB, RTTY and possibly PSK31. Organizer is Gunter/TI7WGI. Operators mentioned are: Oscar/EA1DR, Carlos/EA1IR, Andy/DH8WR/EA2CRX (co-organizer), Fred/DH5FS, Norbert/DJ7JC, Guenter/DL2AWG, Manfred/HS0ZEU/DL2EBR, Arno/OE9AMJ, Joe/AA4NN, Charles/W4GMY, Anthony/W4OI/HK1AR, San/K5YY, Craig/K9CT, Carlos/TI2KAC and Yamini/VU2YAM. QSL via EA2CRX, direct or by the bureau. The team is still looking for sponsors because of the increasing cost of this operation. For more information, visit the Web page at: http://www.ti9.eu.com

TX5, CLIPPERTON ISLAND (Update). The countdown has begun for the TX5C DXpedition on their Web site. The international team of operators (20) will depart February 28th, for Clipperton and plans to be active between March 7-17th. Activity will be on 160-6 meters CW, SSB and RTTY. Last week Alpha Radio Products was announced as a major sponsor of TX5C, and the TX5C team will be using Alpha HF amps exclusively. Also, TX5C's pilot stations were announced. They are: Paul/VE7BZ, Jean-Michel/F6AJA and Chris/DL5NAM. Visit the TX5C Web page for more details and updated news at: http://www.clipperton2008.org

V3, BELIZE. Yuri, VE3DZ, will be active (callsign pending) February 12-18th. He plans to be active during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band entry.

VI2, AUSTRALIA (Special Event). The Blue Mountains Amateur Radio Club will be celebrating their 50th anniversary during January 2008. The ACMA has issued the Blue Mountains ARC with a special event callsign to commemorate the club's 50th anniversary. The callsign, VI2BMARC50, will be on-air for 10 days from January 18th to January 28th, 2008. Two attractive QSL cards have been prepared for this special event: a standard sized 6" x 4" card and a larger very attractive card signed by the current club executive. QSLs can be sent via the bureau or direct to the club's PO Box. There will be a cost of $5.00 for the larger card to cover return postage. So please give VI2BMARC50 a call and help the Blue Mountains ARC celebrate their 50th anniversary in January 2008. For more information on these and other BMARC activities just point your browser to:
http://www.bmarc.org

VK9W, WILLIS ISLAND. Chris, DL1MGB, informs OPDX: "After a very successful DXpedition to Norfolk Island in February 2007 with over 60,000 QSOs logged under VK9DNX the activation of Willis Island is planned for October 2008. The same experienced team from VK9DNX (DJ7EO, DJ9RR, DL1MGB, DL3DXX, DL5LYM, DL6FBL, DL8OH and DL8WPX) will be active with four high power stations for about 17 days from 160-10 meters on CW, SSB and RTTY. More information about the DXpedition is available at:

http://willis2008.dl1mgb.com/

VP5, TURKS AND CAICOS ISLANDS. OCARC Member Bob, K0OK, will be active as VP5/K0OK from Providenciales Island (NA-002), May 21-28th. He will participate in the CQ WPX CW Contest (May 24-25th) using the callsign VP5E. Activity outside of the contest will be on all bands. QSL VP5/K0OK via his home callsign, by the Bureau, LoTW or direct to: Robert Novak, 26502 Esteban Mission, Viejo, CA 92692-3355 USA.

VP6, DUCIE ISLAND (Update). Some interesting news is available on the VP6DX Web page at: http://ducie2008.dl1mgb.com/news/index.php
In short, all equipment that was shipped from Germany and the USA has now arrived in New Zealand, and everything except the last air freight shipment (laptops, microKeyers) has cleared customs in Auckland. This equipment is now traveling by truck to Tauranga, the home port of the "Braveheart". On-line QSL information has been added to the DXpedition's Web site at: http://www.vp6dx.com
They state on the Web page: "No need to fill out a card or write a letter... and no need for self-addressed envelopes! Just fill out an on-line form to request QSLs." Go to the Web page and read the details on this and other items!

VP8, FALKLAND ISLANDS. Operators Dave/G1OCN and Carol/2E1DQZ will be active as VP8CLE and VP8DKW, respectively, between January 19th and February 2nd. Activity will be on 80/40/20/17/15/10 meters SSB only. Also, look for FM activity on AO-51 and SO-50 satellites. QSL direct only to: P.O. Box 2, Weymouth, Dorset DT4 4AP, England, UK.

YA, AFGHANISTAN. Reports indicate that Salvatore, IZ1BWB, is in Kabul and has been there since December 23, 2007. He is currently signing YA/IZ1BWB and is expected to remain there until August 2008. Over the past week he has been spotted on 14250 kHz afte 0800z and on or around 7005 kHz after 1700z (as late as 2100z). Salvatore is only using a FT-897D with 100 watts and a folded dipole. QSL via his home callsign, direct or by the bureau.

YASME PRESS RELEASE. Wayne A. Mills, N7NG, President of the Yasme Foundation, sent out the following release on January 8th: "The Directors of The Yasme Foundation are pleased to announce the establishment of the Yasme Excellence Awards. These awards will be given from time to time as the board feels appropriate.

The awards are categorized roughly in accord with FCC (USA) 'Basis and Purpose' for amateur radio as consistent with the foundation's purposes and expertise. Those areas of amateur service include noncommercial communications service, advancement of the technical and operating arts, technical training and international goodwill.

There is no application for these awards, but suggestions regarding deserving individuals will be considered. Each prize consists of a plaque and a monetary award. Suggestions of worthy recipients may be sent to the address shown on the Foundation's Web site.

This year's awards total USD 8,000. The winners for 2007 have been selected and will be announced at the end of next week.

For additional information about the Yasme Foundation, visit the Web site at www.yasme.org. On behalf of The Yasme Foundation, congratulations to the winners!"

YS, EL SALVADOR. Bob, I2JIN, is now active as YS3/I2JIN until January 27th. Activity will be CW ony. He was heard this past week on 20/17 meters. QSL via his home callsign.

ZF, CAYMAN ISLANDS (6m Op). Operators Jim/K4BI and Mario/K2ZD are planning a major 6m DXpedition to here. Tentative dates are possibly June 20th through July 8th. The will be running an ACOM amp into a 6M5X. Their beacon will be on 50.095 MHz. Callsign will be either ZF2BI or ZF2ZD. Emphasis will again be EU, AF, SA and AS, but will of course work NA. They will have HF capability but don't plan on being there very much or very often. Look for more details later.

3A, MONACO (Op cancelled). Ghis, ON5NT, informs OPDX that his activity from Monaco has to be cancelled because his host in Monaco has been hospitalized.

3Y, BOUVET ISLAND (Update). Rhynhardt, ZS6DXB, 3Y0E Pilot station and Media Officer, announced this past week (edited): "Due to high QRM from Europe and a lot of requests from people with restricted licenses, we have moved 3Y0E operating frequency. Effective immediately, 3Y0E will change operating frequency to 14.260 MHz working split 5-10 kHz up. Operating times and schedule still remains the same due to the availability of power

on the Island. We wish all that need 3Y0E still in their logbook good luck and good DX this weekend! Remember to visit the 3Y0E.com Web site to have a look if you are in the online log and for regular and interesting updates about the 3Y0E operation." Look for updates and announcements on the official 3Y0E operation Web page at: http://www.3y0e.com
The 3Y0E log is now available online at: http://sq8aqd.net/3y0e/index.php
INTEREST NOTE: OPDX has received a report that Petrus, 3Y0E, has been busy due to a problem on the Island. One of the team members has been bitten by an 400Kg elephant seal and Petrus is currently occupied looking after the team member as he is the medic on the Island. We don't know how critical the bite was, but we hope to receive an update soon.

4S, SRI LANKA (Top-Band). Nelson, 4S7NE, has been quite active on 160 meters lately. Activity seems to start around 1930z. It has been reported that Nelson intends to listen daily for NA stations at 0000z which is about 30 minutes before his sunrise. He will be transmitting on 1826 kHz. He will also be active around 2200z most days for EC sunset. If Nelson is not on the Top-Band, check 80 or 40 meters. Nelson is using a "T" vertical with a 50 foot vertical section and approximately 20 radials. He lives in a rural location and has no man-made noise, so his receive capabilities are excellent.

5X, UGANDA. Nick, G3RWF, will once again be active as 5X1NH from February 23rd to March 22nd. Activity will be limited because he is on holiday. Activity will be on all bands except 160m and 6 meters. Modes will be CW, SSB, RTTY and PSK. He will use 100 watts and wire antennas. QSL via G3RWF.

6 METER CARIBBEAN DXPEDITION. Dennis, K7BV, will be active this summer from the Caribbean, but on 6 meters ONLY. Look for him to sign as V3/K7BV from Caye Caulker Island (NA-073, WW Loc. EK57XR), Belize, from June 20-26th, and as HK0/K7BV from San Andres Island (NA-033, WLOTA LH-2990, WW Loc EK92DM) between June 28th and July 6th. His equipment will be a FT-450 with ACOM-1000 amplifier, running 1KW into a 7 element and 3 element beam. The main frequency will be 50.106.2 MHz USB and /B. The pilot station will be Pat, W5OZI. QSL direct only to W1JJ (QRZ.com). For more information, visit his interesting Web page at:
http://www.qth.com/k7bv/caribe2008

8Q, MALDIVES (AS-013). Just a reminder that Andrew, G7COD, will once again be active from Embudu Island, South Male Atoll (WLOTA L-3911) this week using the callsign 8Q7AK between January 21st and February 2nd. This will be the fourth time being active from here. Activity will be mainly SSB with some CW. He plans to be operational everyday (approx.) between 0900-1100z, 1400-1600z and 1800-1830z. Suggested frequencies are: 7093, 10123, 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz). For complete details of operating times, suggested frequencies, QSL information etc....,
please check 8Q7AK on QRZ.com. QSL via G7COD, direct or by the bureau.

9A, CROATIA. Zrinko (Zik), VE3ZIK, will be once again active from Bilice, between January 27th and February 1st. Activity will be mostly during the evening hours on 40/30/20 meters, CW and Digital modes (RTTY, PSK31 and PSK63). QSL via DO7ZZ, DARC bureau OK. QSL E-mail requests at:

zik@tiscali.de

CE0Z, JUAN FERNANDEZ. Svein, LA6IKA, will be active as CE0Z/LA6IKA between Jan 22-29th. Activity will be on 20/15/10 meters, CW and PSK. QSL via his home callsign.

CQ DX MARATHON (Submission Deadline). John, K9EL, DX Marathon Administrator, reminds everyone: "The deadline for submission of logs for the 2007 CQ DX Marathon is January 31, 2008. Official rules, CQ country list, submission forms and more information is available at the official DX Marathon Web Site at: http://www.dxmarathon.com
A list of logs received as of January 18th, 2008, is on the Web site. High claimed scores will be posted shortly after the submission deadline. Look for official results and announcement of winners in an upcoming issue of CQ Magazine."

CW0, URUGUAY. Pedro, CX5BW, informs OPDX that a team of CX operators will use the special callsign CW0TOP during the CQ World-Wide 160 Meter CW DX Contest (January 26-27th) as a Multi-Op entry. Operators mentioned are: CX2AQ, CX3AL, CX4DX, CX5BW, CX6VM and possibly CX7CO. QSL via CX6VM.

CY0, SABLE ISLAND (Update). The CY0X 6 meter DXpediton to Sable Island now has a Web page up and running (but still under construction) at:

http://www.cy0x.com/

The DXpedition is planned between June 25th - July 5th. Operators are: Pete/VE3IKV, Dick/K5AND and Chris/W3CMP. Activity will be on CW and SSB. The fixed 6m station (in FN93) will use the callsign CY0X and CY0RA (for the portable station in GN03). The fixed station will use 800 watts into a 7 element beam up 40 ft. The portable 6m station in GN03 will have 100 watts into a 5 element beam up 30 ft. Other references are: Sable Island - East Lighthouse (ARLHS SAB-001, TWLHD WLH CY0-001, WLOTA:0758, WW Loc. GN03CX) and Sable Island - West Lighthouse (ARLHS SAB-002, TWLHD WLH CY0-002, WW Loc. FN93XW).

DAYTON HAMVENTION 160M DINNER BANQUET. George, W8UVZ, (this year's Chairman) announced that the 18th Annual Top-Band Dinner Banquet will be held on May 16th. More details are forthcoming in mid-February. Stay tuned!

DAYTON HAMVENTION DX DINNER BANQUET. Jay, K4ZLE, announces that the SouthWest Ohio DX Association is pleased to sponsor the 23rd annual DX Dinner to be held in conjunction with the 2008 Dayton HamVention �. The dinner will be Friday evening, May 16th, at the Crowne Plaza Hotel, located in Dayton City Center. This is the same venue as in years past. The program details are not final yet, but they will have a good one. Although it should not be our main reason for attending, remember, attendees have a chance at some nice attendance prizes as well! Tickets are 37.00 USDs per meal, payable in U.S. funds to SWODXA. (Sorry, they do not process PayPal or Credit Card payments.) Please advise if you want a vegetarian meal when you order. You may order from Pete Meyer, N0FW, at his CBA with SASE. They will attempt to honor group seating requests when tickets are ordered together. There is not a bad seat in the house, but seating is definitely limited. Come join them for an evening of fun and fellowship. Further information may be obtained at:

n0fw <at> live <dot> com
N0FW's CBA is 3049 New London Rd., Hamilton, OH 45013

DP0, ANTARCTICA. Felix, DL5XL (ex DP1POL), states that time is running out to work DP0GVN. He informs, "This summer may very well be the last chance to work the German Antarctic base 'Neumayer II' (WAP DEU-02, AA DL-03) as the base is scheduled to close in February 2009, and there will be no radio amateur on the wintering team 2008." Currently, there are three operators at "Neumayer II" who are regularly active during their spare time as DP0GVN. Their main times of activity are daily between 1800-2200z, usually on 40/30/20 meters. Operators are: Mirko/DG9BHQ (SSB Op), Torsten/DL1TOG (SSB Op) and Felix/DL5XL (CW Op). All three operators will leave the station by March 10th. QSL route for all DP0GVN QSOs after 2006 is DL5EBE, direct or by the bureau. There is an online log check for all contacts for this summer's season available at:
http://www.rrdxa.eu/log
QSOs are expected to be uploaded to ARRL's "Logbook of the World" (LoTW).

DXCC NEWS.....................
Bill Moore, NC1L, ARRL DXCC Manager, informs that the following operation is approved for DXCC credit:

FJ/OH2AM QSLS (Update). Just after going to print last week, OPDX received another (revised) press release by Jarmo, OH2BN, which added: "We have offered to put our log onto the LoTW immediately to ease the situation, but it can only be facilitated by the ARRL around May 2008 due to LoTW technicalities."

HV50VR QSLS. Alex, IW0GPN, informs OPDX that the HV50VR QSL cards have arrived on January 18th from the printer's shop. He hopes to send all waiting requests out very soon, and all back logged cards will be out at the end of the month. Thanks for your patience.

Khos, JT1CD, announced that he has uploaded the some QSOs of JT1BJ to the LoTW. He (Ebi) has been a "Silent Key" (SK) since 2005.

Adam, VP8DKF (KC4/K2ARB) reports that the logs for the KC4AAA operation by Helmuth, W6KDX, between the period of December 2007 and January 2008 have been received. All stations wishing to confirm a QSO or submit an SWL signal report are invited to do so via Larry, K1IED, at his address as found on QRZ.com. All QSOs will shortly be uploaded to LoTW as well.

QSLS VIA LOTW: AM5R, E51A, E51MMM, E51NNN, JT1BJ, K4AU/WH1 (1998), OF5Z, ON7DR, V8FDM, VA6FJA, VP5W and T88RY

QSLS RECEIVED VIA MAIL: 3B8CF, 7Q7BP, 9X0VB, C91R, CE0Y/OE2SNL, D44AC, EI9HX, ET3JA, OH5BM, GJ0KYZ, HZ1MD/m, KC4AAA, KP2/NY6X, P29VCX, P29VLR, V63BBQ, V63KZ, V63MP, VK9WWI, VP2EDL, WH0DX, WH2D, YN2N and ZD7X

QSLS RECEIVED VIA THE BUREAU: None reported this week!

S2, BANGLADESH. Just a reminder that John, KX7YT, will once again return to Dhaka and be active as S21YV. He will be there between January 24th and March 11th. He plans to be active in the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band entry and also the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band entry. QSL via KX7YT.

T32, EASTERN KIRIBATI. Operators Bill/N7OU and Bob/W7YAQ will be active from Christmas Island (OC-024), February 12-26th. The duo will be a Multi-Single entry in the ARRL DX CW Contest (February 16-17th). Outside of the contest they will be active mostly on 160-10 meters, on CW, but some SSB and RTTY, using only 100w and verticals antennas. More details will be forthcoming soon.

TC800, TURKEY (Special Event). Members of the Turkish group called SWAT (Special Wireless Activity Team) will be active as TC800NH to celebrate the 800th anniversary of the Turkish folk hero Nasreddin Hoca. Activity will be mainly on 40/20/17 meters, CW and SSB. Detailed info is available at: http://tcswat.tripod.com/

TX5, CLIPPERTON ISLAND (Press Release/Update). Jay, K4ZLE, provides OPDX with another "Clipperton 2008 Update": "I love it when a plan comes together! The plans are, indeed, coming together. A new vendor has joined the team. Alpha Radio Products has become a major sponsor. As a result Alpha HF amplifiers will be used exclusively by the TX5C team. ICOM America, SteppIR and DX Engineering had previously agreed to provide major support. In addition, there are other suppliers who have agreed to help with financial support or discounts on equipment purchases. Be sure to check out the sponsor list at: http://www.clipperton2008.org

These are the organizations and individuals who are making this operation possible. When you need to purchase equipment remember these vendors who are actively supporting the hobby!

Emails are flowing amongst the team to finalize details. Lists [equipment, not callsigns J]) are being made, checked and rechecked. The team is eagerly anticipating gathering in San Diego in late February to sail for Clipperton. It is our desire to meet the need and exceed the deeds of past operations.

Remember: The expected dates: March 7-17th, 2008; The callsign TX5C. More information can be found on the Web site, including data on how you too can contribute to the effort. BTW, if you think planning and preparation for this type of DXpedition is a simple task, check out the staging garage at:

http://www.clipperton2008.org/dxpedition/TX5C_dxpedition.htm

We'll be lis'nin' for ya!"

VK6, AUSTRALIA. Steve, VK6VZ, will be active during the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op entry. QSL via his home callsign.

VK9W, WILLIS ISLAND. It has been announced that the callsign for the planned Willis Island DXpedition in October 2008 has been issued. It will be VK9DWX. Operators will be DJ7EO, DJ9RR, DL1MGB, DL3DXX, DL5LYM, DL6FBL, DL8OH and DL8WPX. They will be active with four high power stations for about 17 days from 160-10 meters on CW, SSB and RTTY. More information about the DXpedition is available at:

http://willis2008.dl1mgb.com/

VP5, TURKS & CAICOS ISLANDS. Masumi/JA3AVO (W3AVO), Kunio/JA1CJA (AE6XY) and Takeo/JA3BZO (AE6YQ) will be active as VP5/US-callsign from January 21-25th. Activity will be on 160-10 meters, CW/SSB/RTTY/PSK. They will stay at "The HAMlet" (http://www.vp5jm.com/) owned by Jody, VP5JM. QSL to their home JA callsigns.

VP6, PITCAIRN ISLAND (OC-044). Yoshitake, JJ8DEN, is now active from Adamstown as VP6PR between now until February 9th. Activity will be on all HF bands, using CW, RTTY and PSK (NO SSB!). The following are suggested frequencies:

CW - 1821, 3503, 7003, 10103, 14003, 18071, 21003, 24893 and 28003

PSK - 14071, 18101, 21071, 24921 and 28071 kHz

His equipment is an IC-7000 w/100w, using a 160/80m Inverted-L or full size DP, 40m GP, 30m DP and a beam for 20/17/15/12/10m. QSL via JJ8DEN, direct to: Yoshitake Izumi, 7 Minami-24 Nishi-1 Obihiro-city, Hokkaido 080-0011 JAPAN. Please send a SASE with 2 USDs or 1 IRC. Yoshitake requests that the envelope be 162mm X 114mm or more. If a small envelope is sent, he will return the QSL card by surface mail (ship mail). See the information for VP6PR on QRZ.com.

VP6, DUCIE ISLAND (Update). Robin, WA6CDR (member of the VP6DX team), who is in Tauranga now and will sail with Braveheart to Mangareva to meet the rest of the operators there, has been delayed leaving Tauranga for a day or so because of a typhoon off the northern tip of NZ. Read his update on the VP6DX Web page at:

http://ducie2008.dl1mgb.com/news/index.php

VP8/G, SOUTH GEORGIA ISLAND. Lars, MM0DWF, will be active as VP8DIF from the old whaling station Husvik between January 27th and February 28th. He is expected to arrive in Husvik around January 26th and will leave the island on March 1st. Activity will be limited to his spare time. According to his Web page, 15 meters will be his main band, but he will have access to most HF bands. QSL via DJ9ZB, direct or by the bureau. Visit his interesting Web page at:

http://www.lars-boehme.de/vp8dif/index.html

YASME PRESS RELEASE. Wayne A. Mills, N7NG, President of the Yasme Foundation, sent out the following release on January 18th, 2008:

"Winners - Yasme Excellence Awards"

"The Directors of the Yasme Foundation are proud to announce the first winners of the recently announced Yasme Excellence Awards (www.yasme.org). These awards are given for service and dedication to amateur radio as recognized by the foundation's Directors. The prizes are in the form of a plaque and a monetary award. The winners of the first Yasme Excellence Awards are hereby introduced to the public.

Joseph L. Arcure, Jr., W3HNK, $2,000 for his long service to DXers as a QSL manager. Joe's efforts on behalf of DXer's everywhere promote international goodwill by facilitating cultural exchanges between operators that may never meet in person, yet share a common bond of DX operation.

Sheldon C. Shallon, W6EL, $2,000 for his work with propagation prediction software. By making propagation more accessible, Shel has done much to advance the technical skills of HF operators in understanding the physical environment of radio.

James Brooks, 9V1YC, $2,000 for DXpedition organization and videography. James' professional videos make the skills and excitement of DX operating and expeditioning more accessible to hams that haven't yet tried DXing and to non-hams alike.

Jukka Salomaa, OH2BUA, and Antti Kantola, OH5TB, $2,000 (shared) for conceiving, operating, and maintaining the DX Summit, the first widely-used Web-based spotting network portal. They created a tool that fundamentally changed the nature of HF operating, a true advancement of the radio art.

These amateurs have given unselfishly their time and expertise. On behalf of all amateurs, we would like congratulate these winners and thank them for their service.

For the Yasme Foundation,

Wayne A. Mills, N7NG, President
Fred Laun, K3ZO, Vice President
Kip Edwards, W6SZN, Secretary
Rusty Epps, W6OAT, Treasurer
Martti Laine, OH2BH, Director
Charles "Mac" McHenry, W6BSY, Director
Ward Silver, N0AX, Director
Bob Vallio, W6RGG, Director"

ZA, ALBANIA. Franck, F4DTO, along with his father Patrick, will be active from Elbassan, Central Albania, under the callsign ZA/F4DTO, between April 22nd and May 3rd. Activity will be on 20/17/10 meters SSB with an emphasis on 10 meters. They will be using a FT100 w/100 watts into a Wave vertical on 10m and dipoles on other bands. QSL only direct (bureau cards are not delivered to Franck). See Franck's address on QRZ.COM. Please enclose SAE + postage (1 USD or 1 valid IRC for Europe, 2 USDs or 1 valid IRC for elsewhere.) Visit Franck's Web page at:
http://monsite.orange.fr/f4dto

"ted" is either performing a cross-site-scripting or frame-based attack, or is pushing traffic through his own page that adds a link-sharing affiliate ID so he gets "paid" for every link sent to ebay via rover.ebay.com (which is where the link ends up). There is no legitimate reason to bounce a link through 3 or 4 fishy redirects if they goal is just to be informative. The fact that a different "shortcut" domain is used every time is an indication of malice.

Good reasons to avoid "ted"'s links:
  1. so this spammer doesn't get paid for posting his crap here
  2. so your computer isn't compromised - it just takes one malicious jpg.
  3. so you don't lose your ebay account to a hacker.

Another way to be polite to your readers is to use tinyurl.com's "preview" feature. When you enter a URL, they give you back two short forms; one starts out "http://tinyurl..." and goes directly to the target, while the other starts with "http://preview.tinyurl..." and displays the complete target URL, giving the reader the option to proceed or not.

Also, for your own protection, you can visit http://tinyurl.com/preview.php, and set a cookie in your browser which will turn on preview for you for all tinyurl.com links you follow.

Of course, this only works for tinurl.com, not the other URL shorteners.

Does anyone do anything besides CW while DX'ing? I still have to learn/practice CW but would like to try my hand at DX. I know that CW is generally most efficient at low power, but if you don't yet know it..it isn't much help..

Since you did not say where you are or give a callsign, I'll assume you are in the U.S. The FCC slants DX contacts twoard CW. During the sunspot low, the prime DX bands are 80m and 40m. Outside of the America's 80m is 3.500 to 3.850, most of which is CW only in the U.S. 40m is 7.000 to 7.200, but until very recently it ended at 7100.

You can work split, where you transmit in the ssb portion of the band, while a DX ham transmits in their voice band. Arranging such contacts is difficult, and here when there is propigation to the U.S. on the 3.850-4.000 and 7.100 to 7.300 bands, they are full of broadcast stations, and it is almost impossible to hear anything else.

These stations start going off the air around midnight local time, but so do most of the local hams.

Many hams outside the U.S. have little or no English and therefore prefer to use CW beacuse there is no languange problem. Others speak it perfectly well.

As the sunspots improve the chance for voice contacts improves as the higher bands open. 20m is occasionaly open now, but not all day.

My suggestion to you is to get a rig, get out there and start making contacts. The skills you learn apply to both CW and voice.

There are a million ways to learn morse code, the best one IMHO is an audio/visual course called "code quick". It was the best $50 I've ever spent on a hobby.

Another method that works for MOST, but not ALL people is to get on the air and ask local hams for the name of an Elmer (mentor).

Note that ACCURATE sending and copy is far more important than SPEED, so once you can send and copy accurately, then you can get on the air and start making contacts. The best way to improve you speed is to use it.

If you don't have an HF rig yet, I suggest that you look into an older Ten-Tec rig. They are excelent for CW and SSB and you can get an older rig fairly cheaply. It won't have a lot of "bells and whistles", but it will work well. Ask around for advice on buying a used rig, and buy it from someone you trust. Avoid auction sites.

Geoff.

Yep, I'm in the US. Also, I already have an HF rig, but my antenna is
a "work in
progress" at this point in time. Basically my gardener cut it in
half :-{
I know that before I aspire to DX I need to improve my antenna
situation,
but DX is mostly why I got into the hobby. I want to see how far/who
I can
make contact with. Also, I'd like to get into some of the homebrew
QRP
stuff as well. The main problem I have with morse is
synchronization...
by that I mean, I can learn the tones, but at some point I can't
distinguish
a dit from a dah, and then I lose track of where I am in a character
and it
all seems to mix together...need more practice. My dad tells me about
the
guys he knew in the service who could use dual paddles and send code
all day
long while simultaneously reading something else.

There are various methods for doing that. Code Quick converts the
character into words which makes it processed in a different part
of your brain.

After 29 years of trying unsucessfully to learn morse code by being
beeped at, I learned it in a few months with code quick. At my peak,
I was able to copy 35 wpm.

Jerry Zilliak, KB6MT, produced a high speed words course in the
1980's which once I learned with code quick, helped me get up there.
He still sells it.

Code is no longer required for a (U.S.) license, so that should
not stop you from getting on the air. You can learn good operating
procedure, how to find and contact DX stations and so on with SSB.

Once you get your code speed up to a reliable, accurate 5 wpm, you
can move to CW, and build your speed on the air.

As for an antenna, a random wire would do for a start.

Geoff.

Geoff's advice is VERY good, IMO. Concentrate on sending clean code--use a keyer if you can--and most hams will happily slow down as much as you need. And if you use CW, you'll find your abilities increasing dramatically.   I got my Tech+ license in 1991 and started working DX on the CW part of the 15-meter band. Six months later i was testing for General and 'accidentally' passed the 20wpm code test, which I took just as a warm-up for 13wpm. No practice at all, just a few hundred QSOs.

And you're right (original poster) that there's MUCH more DX on the CW portions, more of the time. Even if you wind up using phone or digital a lot, you'll still want to be able to use CW if you want to be a DXer!

Good luck, original poster (and Geoff too)! 73 de AC4RD

Lots of DXers work SSB, RTTY, PSK31and even FM while DXing

This is evident by looking at the ARRL DXCC award listings see URL:
http://www.arrl.org/awards/dxcc/ click on DXCC Listings for PHONE

Some DXpeditions and DX stations operate CW only, so it is definitely worth
while to master the code.
My log book shows 2/3 SSB, 1/3 CW and a few data contacts.

When the sunspot cycle is up, you can work tons of DX on SSB with just 100
watts and a good antenna.
In fact when propagation is favorable, one can work DXCC (100 countries)
with 5 Watts of power (QRP) quite easlily either SSB or CW or both (mixed)

I guess it doesn't really count as DX but are there certain frequencies
on the various bands where people congregate to work on things like WAS?
I have been out of ham radio for a couple of decades but have once again
been bitten by the bug and I set up a couple of HF rigs and some simple
antennae. I thought WAS might be a good target to start with. (I did
work Cuba the other night and was amazed that even with my modest setup
he heard me ont he first call!!)

Just an idea, and I know it's not "official"...but is it possible to
use software and integrate a PC into your rig to send/receive CW and
convert back and forth into text on the PC? Possibly with some
software and an audio card on the PC? In other words, the PC receives
text from the
keyboard..converts to CW and sends to rig, rig receives CW and sends
to PC which converts
back to text on the PC screen?

There has been both hardware and software approaches to doing this
for more than 20 years that I know of.  But, when conditions get bad
the best DSP for copyoing CW is still the human.

I would prefer to avoid nets. I just thought there might have been an
unofficial place where people listened for other people working on WAS.
